1. UNITY IN DIVERSITY

(LAST POST BOOK 6)

The Lunacy of it all! Any time there are prophecies the anticipation and excitement to see and feel the revelations grows. The synchronicities and interpretations and the efforts all seem to want to make something happen. The good, the bad and the ugly by Free will, Collective consciousness or God's will, to each their own.

Cycles have no meaning without change, an end becomes a new beginning. The Eternal/Santan Time has no beginning and no end, there are only phases of the repeating yugas that come and go. Time is a representation of God as the impersonal sky of all possibilities waiting to solidify. And yet it already is eternally youthful.

"I worship Govinda, the primeval Lord, who is inaccessible to the Vedas, but obtainable by pure unalloyed devotion of the soul, who is without a second, who is not subject to decay, is without a beginning, whose form is endless, who is the beginning, and the eternal puruṣa; yet He is a person possessing the beauty of blooming youth."- Bramha Samhita 5.33

A spiritual belief system is One, where endless God is seen in all beings, and thus love and compassion towards All is Centric to this Sanatan/Eternal system.

"Being full of contradictions, all forms of religion but bhāgavata-dharma work under conceptions of fruitive results and distinctions of "you and I" and "yours and mine." The followers of Śrīmad-Bhāgavatam have no such consciousness.

They are all Kṛṣṇa conscious, thinking that they are Kṛṣṇa's and Kṛṣṇa is theirs. There are other, low-class religious systems, which are contemplated for the killing of enemies or the gain of mystic power, but such religious systems, being full of passion and envy, are impure and temporary. Because they are full of envy, they are full of irreligion.

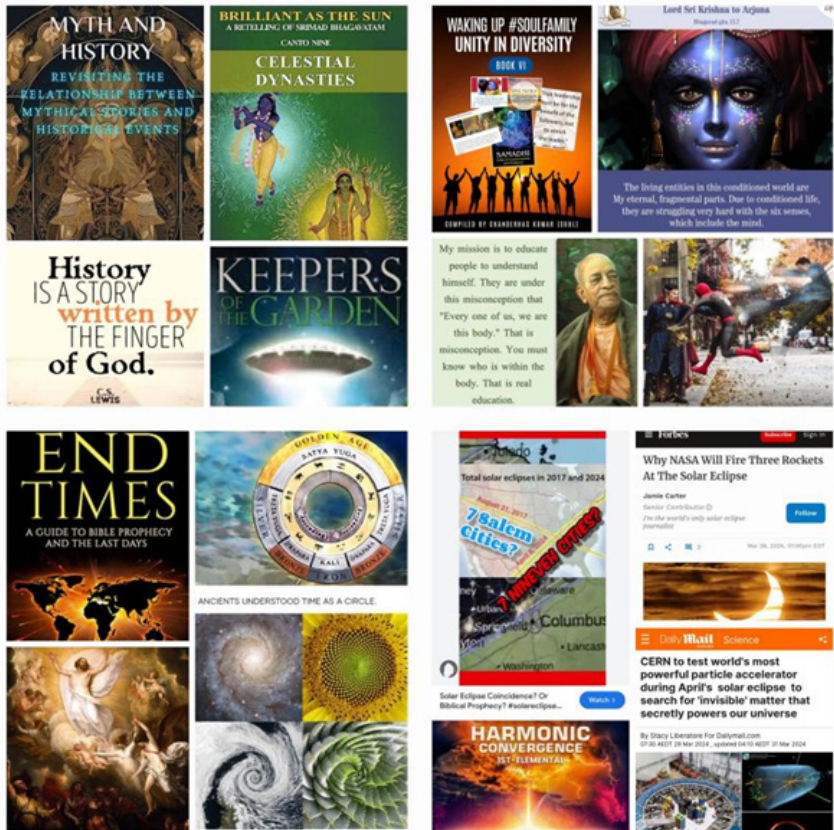

How can a religious system that produces envy of one's self and of others be beneficial for oneself and for them? What is auspicious about following such a system? What is actually to be gained? By causing pain to one's own self due to self-envy and by causing pain to others, one arouses Your anger and practices irreligion.

My dear Lord, one's occupational duty is instructed in Śrīmad-Bhāgavatam and Bhagavad-gītā according to Your point of view, which never deviates from the highest goal of life. Those who follow their occupational duties under Your supervision, being equal to all living entities, moving and nonmoving, and not considering high and low, are called Āryans. Such Āryans worship You, the Supreme Personality of Godhead."- Srimad Bhagvatam 6.16.41-43

"Truth is the first casualty of war"-Aeschylus

We are in a Spiritual war [#soulfamily](#). People are struggling to find the Spirit in the Spiritual. The desires are incorporated into actions that become the individual frequency. The Great Awakening and Great Reset are two sides of the same coin. The filter of consciousness splits the reality by our beliefs. The association of material beliefs are engaging views of reality. Open your heart to the future you want.

2. ARE WE THERE YET?

Are we there yet?

The question requires qualifications. Who is 'We' and what is 'there'. The spiritual ascendancy is personal qualification that enhances the collective. A situation where higher consciousness collective that pulls an individual, it can be deemed to be forced compliance or peer pressure. So the We is realised after the self is realised. The resonance with the collective determines who the 'We' are.

Where the collective 'We' then choose to go becomes a 'there' and a journey of learning and growth with collective goals in mind. The world is divided into many divisions of race, country etc. and then there are those that are not by birth but by actions of free will. At any level of division there is a higher level of reconciliation and Unity. How high we go in our individual realisations is dependent on us.

So the answer to the question is - Are we there yet? Have we chosen our goals and allies? Have we Created Our Vision In Detail. The path is much the same the goals and realities may differ in the Time 'Yet' is to come.

"The Supreme Personality of Godhead is the Supreme Soul, and He has no beginning. He is transcendental to the material modes of nature and beyond the existence of this material world. He is perceivable everywhere because He is self-effulgent, and by His self-effulgent luster the entire creation is maintained.

As His pastime, that Supreme Personality of Godhead, the greatest of the great, accepted the subtle material energy, which is invested with three material modes of nature and which is related with Viṣṇu.

Divided into varieties by her threefold modes, material nature creates the forms of the living entities, and the living entities, seeing this, are illusioned by the knowledge-covering feature of the illusory energy.

Because of his forgetfulness, the transcendental living entity accepts the influence of material energy as his field of activities, and thus actuated, he wrongly applies the activities to himself.

Material consciousness is the cause of one's conditional life, in which conditions are enforced upon the living entity by the material energy. Although the spirit soul does not do anything and is transcendental to such activities, he is thus affected by conditional life.

The cause of the conditioned soul's material body and senses, and the senses' presiding deities, the demigods, is the material nature. This is understood by learned men. The feelings of happiness and distress of the soul, who is transcendental by nature, are caused by the spirit soul himself."- Srimad Bhagavatam 3.26.3-8

Everyone seeks happiness but they do so in different ways. By their modes everyone chooses their thoughts, behaviors and actions and the consequences of their desires find their way in their reality- Material or Spiritual. Evolution is not by chance and there are no surprises in creation [#soulfamily](#). The ecosystem of the Universe is maintained through this Diversity. And God/Krishna has the complete perspective.

Waking up #Soulfamily

<https://www.youtube.com/watch?v=NSUps-XAwAg>

3. IGNORANCE IS NOT BLISS

What you don't know won't hurt you? Ignorance is bliss? Trust the Science? There are many such blissful quotes that really need to be challenged. There is a dynamic world that we live in and understand. Such static quotes only prove the Ignorance of a civilization that is constantly evolving.

We live in a Multidimensional world with beings of all natures doing many incredible things based on their specific natures. The opportunity to learn is available from the seen and also the unseen. Our existence is based on things that we cannot see - the air, light, feelings and forces.

The space time continuum exists for all beings at different relative motions. The energy of unseen intent is also never dissipated. It exists until it transforms into a certain reality- now or later. How we direct this reality is based on our physical and mental constraints and consciousness. What we are open to and what we have closed ourselves to based on our beliefs and 'ignorance is bliss' sort of nature.

Prayers for one are a perfect example of intent energy that hangs on until they are judged to be answered based on merit and ultimate goof. There is always a higher plan that we don't see. And there is an army of unseen devotees on service of God making things happen. They have their own lives and yet they have answering machines to listen to prayers. Since time is no barrier they can go back in time and in future to create synchronicities! There is a Personality behind everything.

Nothing just happens by chance and the Universe is not impersonal.

As they don't appear in our physical reality they don't distort anything [#soulfamily](#). Yet, they have the power to influence the change through us. We are in the Karma Loka.

"Between the spiritual and the material world is a body of water known as the river Virajā. This water is generated from the bodily perspiration of the Supreme Personality of Godhead, who is known as Vedāṅga. Thus the river flows.'

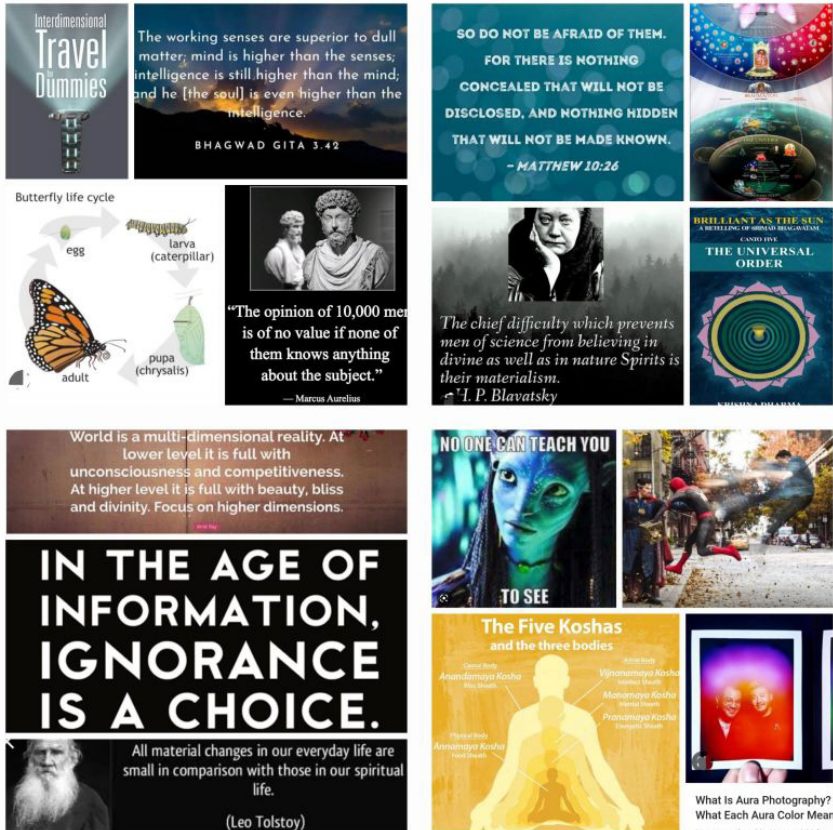

Beyond the river Virajā is the spiritual nature, which is indestructible, eternal, inexhaustible and unlimited. It is the supreme abode, consisting of three fourths of the Lord's opulences. It is known as paravyoma, the spiritual sky.

On the other side of the river Virajā is the external abode, which is full of unlimited universes, each containing unlimited atmospheres.

Kṛṣṇa is the supreme proprietor of all dhāmas, including Goloka-dhāma, Vaikuṇṭha-dhāma and Devī-dhāma. The paravyoma and Goloka-dhāma are beyond Devī-dhāma, this material world.

The spiritual world is considered to be three fourths of the energy and opulence of the Supreme Personality of Godhead, whereas this material world is only one fourth of that energy. That is our understanding.

Because it consists of three fourths of the Lord's energy, the spiritual world is called tri-pād-bhūta. Being a manifestation of one fourth of the Lord's energy, the material world is called eka-pāda.'" - Chaitanya Charitamrata Madhya Lila 21.50-56

4. LINEARITY OF TIME

Removing the Linearity of time can open up Pandora's box. Possibility of being at two or more places simultaneously and conscious of all in their own dimension. What then can prevent the chaos that can unfold through technological progress that may suggest Time/Inter dimensional travel?

Without a Spiritual knowledge of the self and that we are all connected the reality changes can be confusing. What of any biases or hate for those that look different or follow different practices. For all you know they could be us from a different space and time.

"For the soul there is neither birth nor death at any time. He has not come into being, does not come into being, and will not come into being. He is unborn, eternal, ever-existing and primeval. He is not slain when the body is slain."- Krishna (Bhagvad Gita 2.20)

What cannot die exists always in another Dimension of reality. There are multiple veils or walls that prevent one Reality from leaking into another. But sooner or through growth in technology or otherwise people desire to break through the veils different Realities. It is hard to keep Aliens out no matter how secure a border. And there are different types of borders for different regions.

If consciousness is the common factor across the dimensions then it's best to raise the consciousness [#soulfamily](#). For Love and compassion will overflow to other dimensions. Our desires and thoughts of war and weapons may run across lifetimes. Do not give what you do not wish to receive.

With advancements in Consciousness and Technology facts become stranger than fiction. Perception of Real and Reality is relative to space and Time. Our imagination is always captivated by greater possibilities. But what if the possibilities come True? There are details in ancient history, of Spiritually and Scientifically advanced civilizations.

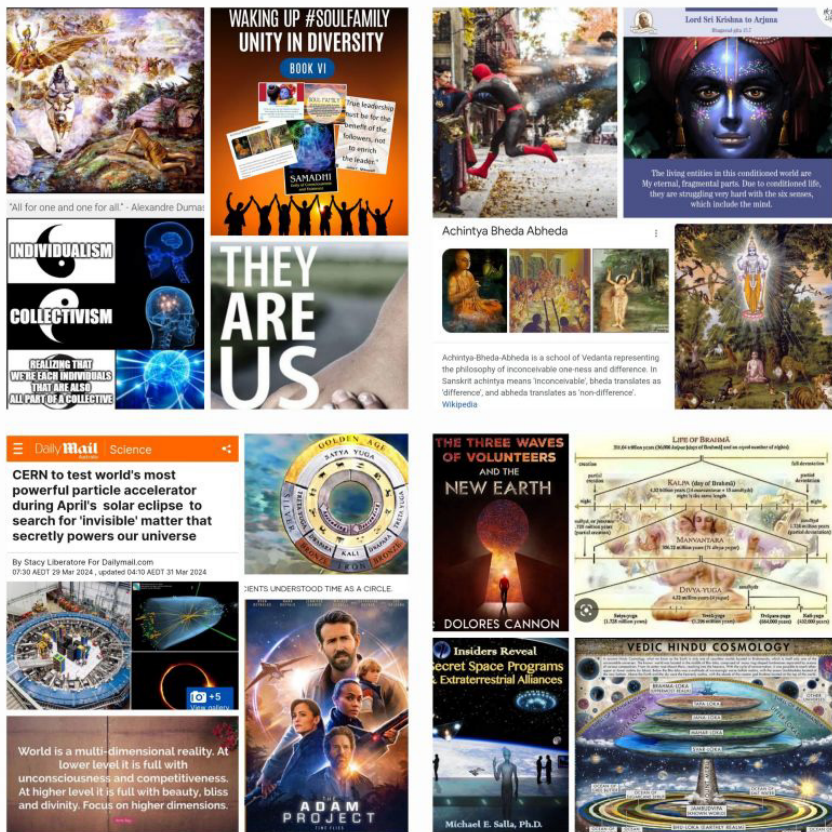

"Atoms are the ultimate state of the manifest universe. When they stay in their own forms without forming different bodies, they are called the unlimited oneness. There are certainly different bodies in physical forms, but the atoms themselves form the complete manifestation.

One can estimate time by measuring the movement of the atomic combination of bodies. Time is the potency of the almighty Personality of Godhead, Hari, who controls all physical movement although He is not visible in the physical world.

Atomic time is measured according to its covering a particular atomic space. That time which covers the unmanifest aggregate of atoms is called the great time.

The division of gross time is calculated as follows: two atoms make one double atom, and three double atoms make one hexatom. This hexatom is visible in the sunshine which enters through the holes of a window screen. One can clearly see that the hexatom goes up towards the sky.

The time duration needed for the integration of three trasareṇus is called a truṭi, and one hundred truṭis make one vedha. Three vedhas make one lava.." - Srimad Bhagvatam (3.11.2-6)

5. OLD TIME VALUES

'Early to bed, early to rise makes a man healthy wealthy and wise.' Is the saying still relevant? We live in a world where we don't like trade-offs. We want everything, now and without any effort too.

An advanced society can guarantee health, wealth and wisdom through technology. But is there a cost? What is the motivation to not indulge in vices, to educate oneself and to practice spiritual development? The advent of technology first becomes a barrier to spiritual evolution. On the other hand spiritual development through God/Krishna consciousness first provides a higher goal. Then with that level of consciousness and understanding the material technology is no longer a distraction or a threat rather an aid in development and evolution of society. A motivation to learn and serve through one's spheres of expertise [#soulfamily](#).

The fear of schooling comes much before love for an ambitious career path. The consciousness rises from the lower to higher moral and spiritual ground within before it can be truly productive without.

"One who is able to withdraw his senses from sense objects, as the tortoise draws its limbs within the shell, is firmly fixed in perfect consciousness.

Though the embodied soul may be restricted from sense enjoyment, the taste for sense objects remains. But, ceasing such engagements by experiencing a higher taste, he is fixed in consciousness.

The senses are so strong and impetuous, O Arjuna, that they forcibly carry away the mind even of a man of discrimination who is endeavouring to control them.

One who restrains his senses, keeping them under full control, and fixes his consciousness upon Me, is known as a man of steady intelligence.

While contemplating the objects of the senses, a person develops attachment for them, and from such attachment lust develops, and from lust anger arises.

From anger, complete delusion arises, and from delusion bewilderment of memory. When memory is bewildered, intelligence is lost, and when intelligence is lost one falls down again into the material pool.

But a person free from all attachment and aversion and able to control his senses through regulative principles of freedom can obtain the complete mercy of the Lord.

For one thus satisfied [in Kṛṣṇa consciousness], the threefold miseries of material existence exist no longer; in such satisfied consciousness, one's intelligence is soon well established.

One who is not connected with the Supreme can have neither transcendental intelligence nor a steady mind, without which there is no possibility of peace. And how can there be any happiness without peace?"- Krishna (Bhagavad Gita 2.58-66)

Each level of progression of consciousness through meditation and realisations relies on passing of previous tests. And going through lessons and tests quickly is rare and risky endeavour. On the other hand the path of surrender though is very simple and transcendental.

One school for all spiritual lessons and growth in Science and Spirituality.

6. LEADERS OF OUR TIMES

There are those who profit from war and those that gain from peace. The materialist profiteers of wars have the resources and means for the machinery to produce endlessly. They have their reasons to draw attention to differences through various means and create a negative reality. They look to harvest Energy in Motion (Emotion). Feed them what you produce - Love and Compassion!

The spiritualists path is internal and one of introspection. Forced authority is no authority for beings who can think and feel for themselves. True sovereignty is not one of Unity of nation, race or religion but at the level of soul after which point no differences become visible.

"When the embodied living being controls his nature and mentally renounces all actions, he resides happily in the city of nine gates [the material body], neither working nor causing work to be done.

The embodied spirit, master of the city of his body, does not create activities, nor does he induce people to act, nor does he create the fruits of action. All this is enacted by the modes of material nature.

Nor does the Supreme Lord assume anyone's sinful or pious activities. Embodied beings, however, are bewildered because of the ignorance which covers their real knowledge.

When, however, one is enlightened with the knowledge by which nescience is destroyed, then his knowledge reveals everything, as the sun lights up everything in the daytime.

When one's intelligence, mind, faith and refuge are all fixed in the Supreme, then one becomes fully cleansed of misgivings through complete knowledge and thus proceeds straight on the path of liberation.

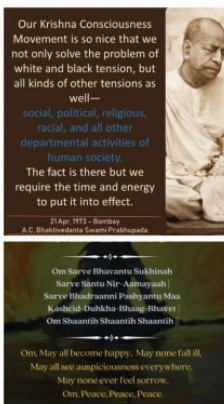

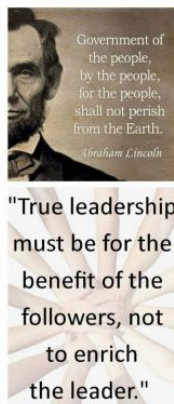

The humble sages, by virtue of true knowledge, see with equal vision a learned and gentle brāhmaṇa, a cow, an elephant, a dog and a dog-eater [outcaste].

Those whose minds are established in sameness and equanimity have already conquered the conditions of birth and death. They are flawless like Brahman, and thus they are already situated in Brahman."- Krishna (Bhagavad Gita 5.13-19)

The Golden ages don't appear as forced authority. They are created from within. When we change Times change. Without God/Krishna consciousness we feed negativity to create negativity. Be the change you wish to see through God/Krishna consciousness and the world will change with your leadership [#soulfamily](#).

"The Supreme Personality of Godhead said: My dear Uddhava, your question is faithful to religious principles and thus gives rise to the highest perfection in life, pure devotional service, for both ordinary human beings and the followers of the varṇāśrama system. Now please learn from Me those supreme religious principles.

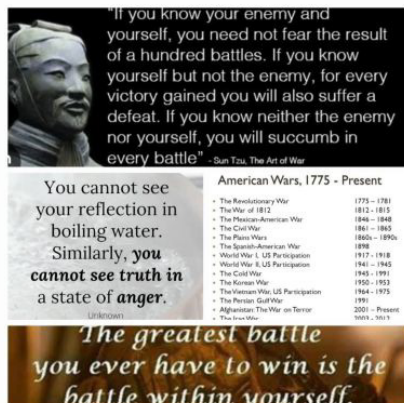

In the beginning, in Satya-yuga, there is only one social class, called haṁsa, to which all human beings belong. In that age all people are unalloyed devotees of the Lord from birth, and thus learned scholars call this first age Kṛta-yuga, or the age in which all religious duties are perfectly fulfilled."- Srimad Bhagvatam 11.17.10

<https://iskcondesiretree.com/profiles/blogs/samvit-sandhini-and-hladini-the-three-original-energies-of-the-lo>

7. INFORMATION OF HIGHER WORLDS

"In this way, all those residents of Vaikuntha had their minds and senses eagerly absorbed in their respective services. All were ornamented with wonderful, abundant pleasure generated by their worship of the Lord.

Some were accompanied by their families; others carried paraphernalia with them.

Some of the Vaikuntha residents stole my heart and mind by repeatedly assuming many different wonderful forms with amazing ornaments and bodily features. They were engaged in playful pastimes appropriate to their form.

They all accepted various forms – human beings, monkeys, demigods, demons, and sages. After that, some adopted the conduct of those practicing Varna-Ashrama-dharma, and others bore stamped symbols and other signs related to disharmony.

Some looked like Indra, some like Candra, and some like other demigods. Some had three eyes, some had four heads. Some had four arms, some had eight arms, and some had a thousand heads.

Later on, I will tell you the cause of this great variety of forms. What does not become beautiful for one who is tasting the mellows of krishna-bhakti?

The unlimited glories of the residents of Vaikuntha, the realm of Vaikuntha, and the Lord of Vaikuntha are transcendental to the material world. Mundane logic and the language of examples drawn from this world can never adequately be used to describe these glories.

However, O brahmana, because you live within the material world made of five elements and can therefore perceive and envisage material objects only, I have utilized examples from this material world so that you can easily understand the abode of Vaikuntha. If I have committed any offence by this, then may Shri Hari, who destroys all offences, forgive me.

Among all the residents of Vaikuntha, both equality and hierarchy are seen, yet there is no incongruity in this.

No defect such as envy is found in anyone in Vaikuntha. Rather, they possess thousands of good qualities, such as friendliness, humility, and respect. These virtues are eternal and real.

Although the residents of Vaikuntha externally appear like the sense enjoyers of the material world who are eager for mundane pleasure, they are in fact not sense enjoyers. Their feet are worshiped even by liberated souls who have abandoned the happiness of all sense enjoyment.

Although they have reached the ultimate limit of immutability, a state devoid of transformation, they still accept transformations in a sporting way, assuming a variety of forms that are suitable for the pastimes of the Lord.

Although the residents of Vaikuntha are all equal to one another, they appear in different forms. Similarly, even though the abode of Vaikuntha, its airplanes, and all its other paraphernalia are embodiments of concentrated Brahman, everything appears in different forms for the sake of the Lord's pastimes."-Sri Brhad Bhagavatamrta, Canto 2, Vaikuntha, Verses 31-48

We are exposed to information of higher worlds in different ways [#soulfamily](#). Believe, Have Faith!

8. UNITY IN DIVERSITY OF WORLD BEYOND

Unity and Diversity works at all levels of existence. Our attractions decide what we resonate with and who we unite with, but we only appreciate the Differences when we can recognize Spiritual Unity. Once we are at that stage God is happy to serve [#soulfamily](#).

"Sri Nārada said: O Gopa-kumāra, please do not consider the animals, birds, trees, creepers, bushes, grass, and other living entities that you see here in Vaikuntha to be like the ignorant species in the dull material world.

All these living entities are Sri Krishna's eternal associates and, indeed, their forms are sat-cid-Ananda (Eternal Knowledgeable and bliss). They have taken these bodies to taste the joy of the Lord's service in a variety of wonderful ways.

Worshiping Lord of Vaikuntha by meditating upon a particular color, shape, and appearance of the Lord that is dear to them, the devotees obtain that same form.

Thus, attaining sarupya, a form similar to any one of Krishna's manifestations, they take varieties of appearances, shapes, beauty, and so on. They accept different forms, such as human beings, munis, demigods, sages, fish, tortoises, and so on. Depending upon their worship, they take a form similar to the boar (Varaha) incarnation, the half-lion-half-man (Narsimha) incarnation, the dwarf (Vamana) incarnation, the three-eyed Lord Siva, the four-headed Sei Brahma, the thousand-eyed Indra, the Maha-purana Deity, the thousand-headed Ananta Shesha, the sun-god (Surya), the moon-god (Candra), the wind-

god (Väyu), the fire-god (Agni), and so on.

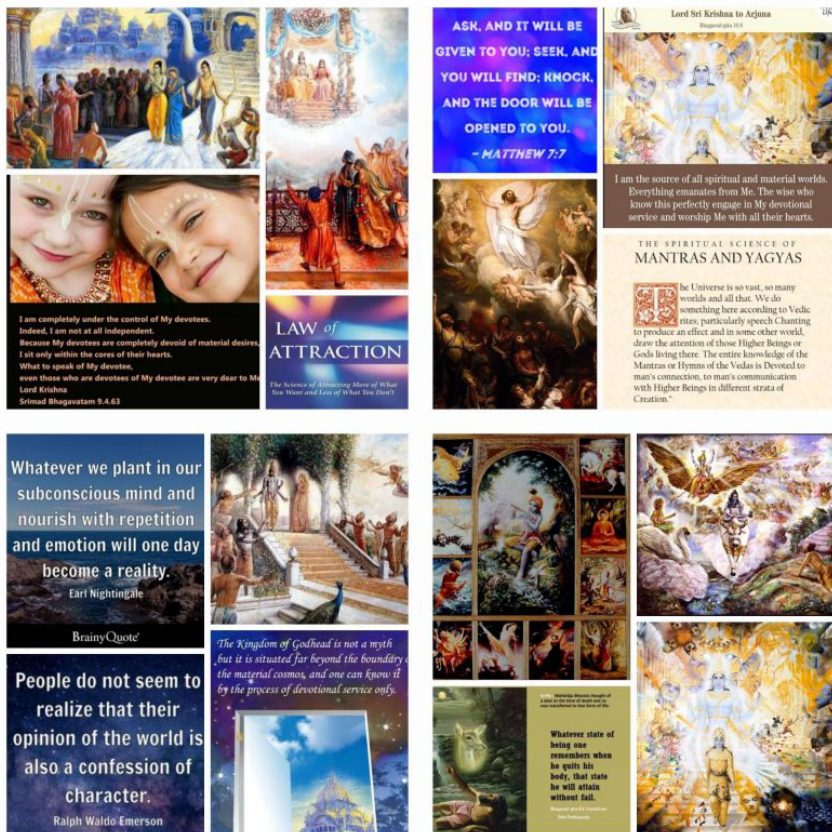

Some have forms with four arms and some have forms with more, each accepting the symbols, attire, and so on that are suitable to their respective forms.

In his internal meditation, the sadhaka serves the lotus feet of Sri Krishna in a particular rasa, with a form, dress, and so on that are suitable for his service. Achieving perfection at the end of his life, he enters Vaikuntha. At that time, his heart is attracted to that previous rasa in which, while he was in the sadhaka/Devotional stage, he worshiped the Lord, and he accepts an identical dress and form, knowing them to be dear to Sri Bhagavan/God.

In Vaikuntha, every devotee sees Sri Narayana only in the particular form of the Lord that he worships, along with that form's complexion and other attributes.

In Vaikuntha, those devotees obtain the same unlimited bliss of loving service to Sri Bhagavan as they did before, in newer and newer, unique ways, at every moment.

By the previous worship of their particular cherished Deity, whose extraordinary characteristics captured their hearts, these devotees have come to Vaikuntha. Even here they still desire to always see and serve that same manifestation of the Lord, who is accompanied by His associates and who is rich with pleasurable pastimes. From this, one should understand that these great souls' staunch dedication unto their worshipable Lord has reached full maturation."- Sri Brhad Bhagavatamṛta, Canto 2, Vaikuntha, Verses 139-150

<https://www.youtube.com/watch?v=WxruMR6OKL0>

9. RECONCILING THE MULTIDIMENSIONAL

How do we reconcile the Multidimensional aspect of ourselves and the one place that we are conscious of here and now?

"One time, seeing that Narada had come, I bowed before him (in Vaikuntha Dwarka), and with wonder and joy spoke the following words:

O King of sages O greatest of the Lord's associates I see you like this (unchanged form) in Svarga loka (Heavenly realms) and the other material planets, in Vaikuntha loka (various Spiritual realms) and now here also. This fills me with wonder and curiosity.

Sri Narada said: You are a playful cowherd boy eternally, did I not tell you before?

As Lord Krishna, who is one, manifests in many forms in many places, so do we, his servants: "We also manifest in many forms in many places."

All the devotees, those led by Garuda, those led by Hanuman, those led by the the Yadavas, and Uddhav also, are like that.

Dedicated to serving Him, we are all the Lord's associates eternally. As the Lord does, so do we assume different forms in different pastimes. In this way, we worship Him.

The Lord's paraphernalia, names, pastimes, and favorite abodes are all eternal and real. Know that they both are one and many.

It is surprising that even though you are like that, even in these pastimes you manifest your previous nature.

I see that even here you are always unsatisfied and unhappy at heart. This is very surprising to me.

Sri Gopa-kumāra said: Bowing down and touching his feet, I humbly said: "Lord, you know everything." Then Narada smiled and, glancing at Uddhava's face, spoke.

Sri Narada said: O Uddhava, he was born a cowherd's son on Govardhan hill. Very restless, he has been searching place after place for something even those like you and me cannot attain. Not finding it, his heart is filled with pain and grief.

His home is very far away and his happiness is also very far from us. We pray for them, but they are very difficult for us to attain."- Sri Brhad Bhagavatamrta, Canto 2 part 2, Priya, Verses 49-61

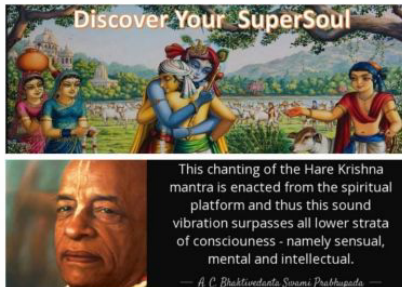

The Gopa Kumara (cowherd boy) transcended the material world including the heavenly realms, and then ascended to spiritual planes on the strength of the constant chanting of the Mantras. With a single minded focus and desire to attain his cowherd friend/Krishna. For only that relationship would satisfy his eternal quest.

Everyone has choices but also their own callings in here and now. Perhaps pulled by multidimensional calling some serve the material and some spiritual.

"In this endeavor there is no loss or diminution, and a little advancement on this path can protect one from the most dangerous type of fear. Those who are on this path are resolute in purpose, and their aim is one. O beloved child of the Kurus, the intelligence of those who are irresolute is many-branched."-

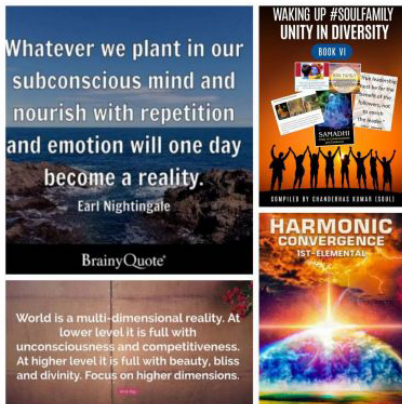

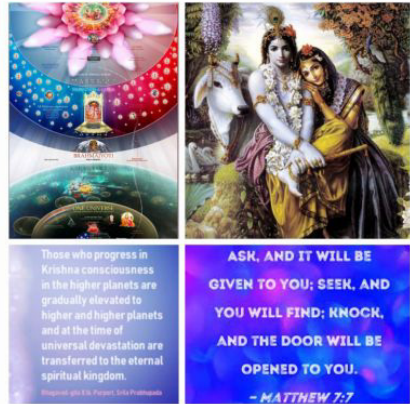

Krishna (Bhagavad Gita 2.39-41)

Devotional service is glorious in any Multidimensional aspects. Yet, some converge under the only path they love. No version can be distracted by any other lessons and goals [#soulfamily](https://www.facebook.com/soulfamily/).

Achintya-Bheda-Abheda is a school of Vedanta representing the philosophy of inconceivable one-ness and difference. In Sanskrit achintya means 'inconceivable', bheda translates as 'difference', and abheda translates as 'non-difference'.

10. THE UNIVERSAL FORM

"Arjuna said: O greatest of all personalities, O supreme form, though I see You here before me in Your actual position, as You have described Yourself, I wish to see how You have entered into this cosmic manifestation. I want to see that form of Yours.

If You think that I am able to behold Your cosmic form, O my Lord, O master of all mystic power, then kindly show me that unlimited universal Self.

The Supreme Personality of Godhead said: My dear Arjuna, O son of Pṛthā, see now My opulences, hundreds of thousands of varied divine and multicolored forms.

O best of the Bhāratas, see here the different manifestations of Ādityas, Vasus, Rudras, Aśvinī-kumāras and all the other demigods. Behold the many wonderful things which no one has ever seen or heard of before.

O Arjuna, whatever you wish to see, behold at once in this body of Mine! This universal form can show you whatever you now desire to see and whatever you may want to see in the future. Everything – moving and nonmoving – is here completely, in one place.

But you cannot see Me with your present eyes. Therefore I give you divine eyes. Behold My mystic opulence!

Arjuna saw in that universal form unlimited mouths, unlimited eyes, unlimited wonderful visions. The form was decorated with many celestial ornaments and bore many divine upraised weapons. He wore celestial garlands and garments, and many divine scents were smeared over His body.

All was wondrous, brilliant, unlimited, all-expanding.

If hundreds of thousands of suns were to rise at once into the sky, their radiance might resemble the effulgence of the Supreme Person in that universal form.

At that time Arjuna could see in the universal form of the Lord the unlimited expansions of the universe situated in one place although divided into many, many thousands.

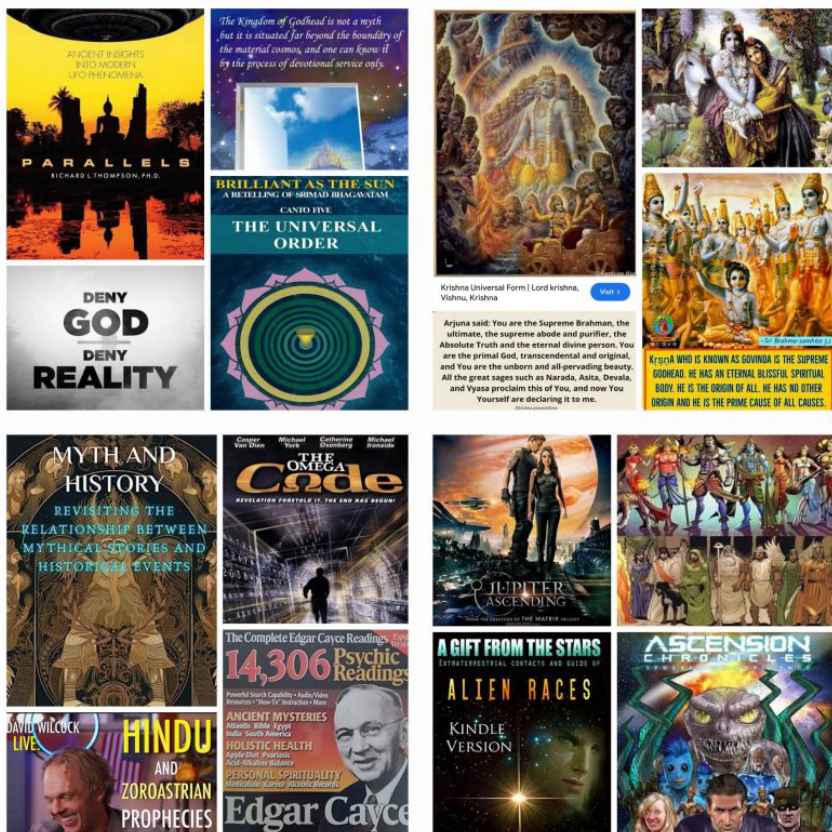

Then, bewildered and astonished, his hair standing on end, Arjuna bowed his head to offer obeisances and with folded hands began to pray to the Supreme Lord.

Arjuna said: My dear Lord Kṛṣṇa, I see assembled in Your body all the demigods and various other living entities. I see Brahmā sitting on the lotus flower, as well as Lord Śiva and all the sages and divine serpents.

O Lord of the universe, O universal form, I see in Your body many, many arms, bellies, mouths and eyes, expanded everywhere, without limit. I see in You no end, no middle and no beginning.

Your form is difficult to see because of its glaring effulgence, spreading on all sides, like blazing fire or the immeasurable radiance of the sun. Yet I see this glowing form everywhere, adorned with various crowns, clubs and discs.

You are the supreme primal objective. You are the ultimate resting place of all this universe. You are inexhaustible, and You are the oldest. You are the maintainer of the eternal religion, the Personality of Godhead. This is my opinion."- Bhagavad Gita 11.3- 18 There is an Order to Space and Time [#soulfamily](#). Nothing happens by chance. The jig saw puzzle of time fits like one of space.

11. THE ORDER IN THE UNIVERSE

An 'Order' in the form of pattern or trend is a form of a consistent discipline. It required there to be an authority that delivers or sanctions an order and others that carry out that order.

"The three worlds are composed of the nine elements, viz., fire, earth, ether, water, air, direction, time, soul and mind. I adore the primeval Lord Govinda from whom they originate, in whom they exist and into whom they enter at the time of the universal cataclysm.

The sun who is the king of all the planets, full of infinite effulgence, the image of the good soul, is as the eye of this world. I adore the primeval Lord Govinda in pursuance of whose order the sun performs his journey mounting the wheel of time.

I adore the primeval Lord Govinda, by whose conferred power are maintained the manifested potencies, that are found to exist, of all virtues, all vices, the Vedas, the penances and all jīvas, from Brahmā to the meanest insect."- Brahma Samhita 5.51-53

As the Time on our clocks runs in an order and we expect nothing less but the utmost accuracy in its functions, there is higher Time that works around us and the Order carriers carry out these functions to the utmost accuracy. Their action actions like clockwork enjoin the working of the unseen. Delivering the creation, maintaining and destruction of all that falls within their jurisdiction.

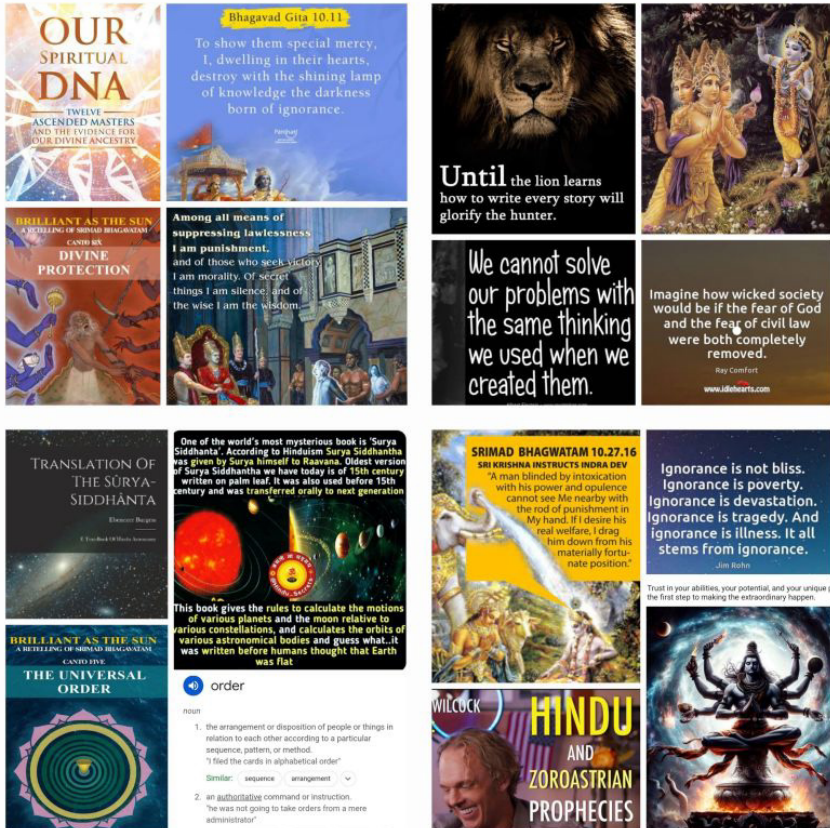

"I adore the primeval Lord Govinda, who burns up to their roots all fruitive activities of those who are imbued with devotion and impartially ordains for each the due enjoyment of the fruits of one's activities, of all those who walk in the path of work, in accordance with the chain of their previously performed works, no less in the case of the tiny insect that bears the name of indragopa than in that of Indra, king of the devas.

I adore the primeval Lord Govinda, the meditators of whom, by meditating upon Him under the sway of wrath, amorous passion, natural friendly love, fear, parental affection, delusion, reverence and willing service, attain to bodily forms befitting the nature of their contemplation."- Bramha Samhita

All who are surrendered to God/Krishna fall out of the jurisdiction of the material control, for by their choice and actions they have chosen the path of spiritual Orders [#soulfamily](#).

"The order carriers of Lord Viṣṇu, who are worshiped even by the demigods, possess wonderful bodily features exactly like those of Viṣṇu and are very rarely seen. The Viṣṇudūtas protect the devotees of the Lord from the hands of enemies, from envious persons and even from my jurisdiction, as well as from natural disturbances.

Real religious principles are enacted by the Supreme Personality of Godhead. Although fully situated in the mode of goodness, even the great ṛṣis who occupy the topmost planets cannot ascertain the real religious principles, nor can the demigods or the leaders of Siddhaloka, to say nothing of the asuras, ordinary human beings, Vidyādhara and Cāraṇas."- Srimad Bhagvatam 6.3.18-19

Links:

Turning asuras into suras. 1975 [Jan 28]

https://www.youtube.com/watch?v=QmqIm-hBt_8

12. THE SAGES AND SAINTS

Sages and Saints are most renounced, yet out of compassion they perform miracles, blessing, healing and even raising the dead. Countless stories exist in all belief systems. They share their spiritual merit when material merits and know how are of no use.

God/Krishna is Supreme and is Supreme in Renunciation and yet as he is absolute and complete in everything he is also Supremely compassionate. He does not interfere in the automatic running of the Universe and the karmic reactions thereof but that doesn't mean he cannot use his unlimited Spiritual potency to interfere whenever he wants. That after all is the prerogative of the Supreme. He is not bound by any laws [#soulfamily](#).

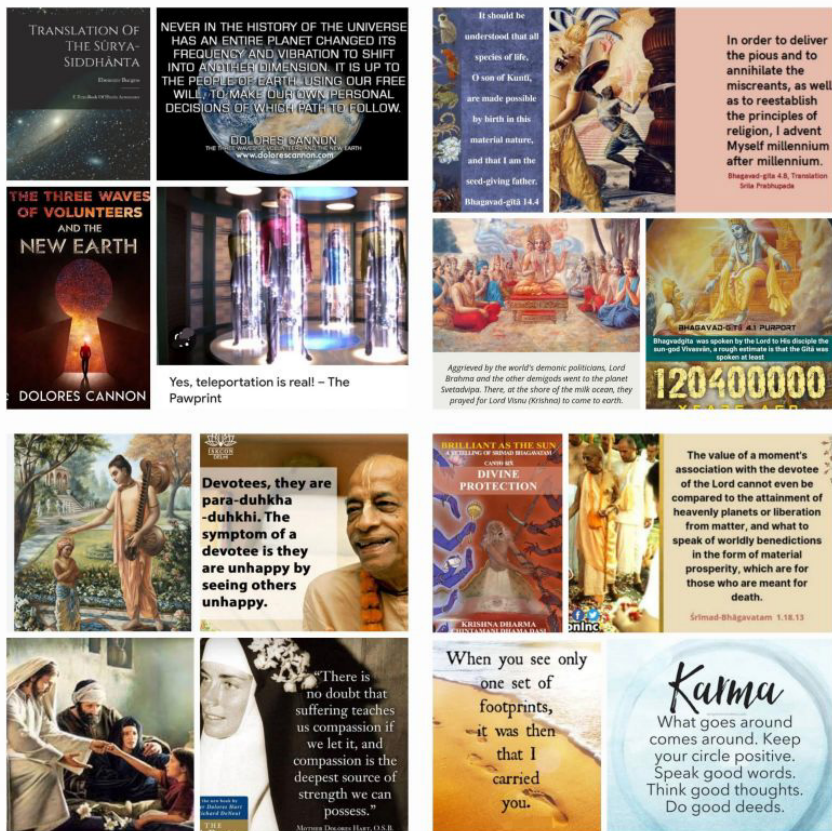

"I adore the primeval Lord Govinda, who burns up to their roots all fruitive activities of those who are imbued with devotion and impartially ordains for each the due enjoyment of the fruits of one's activities, of all those who walk in the path of work, in accordance with the chain of their previously performed works, no less in the case of the tiny insect that bears the name of indragopa than in that of Indra, king of the devas."- Bramha Samhita 5.54

The Demigods and humans all co-create their own reality and bear the fruits under the Sun and Time that work according to their laws and lanes. But when the Supreme creator of all realities decides to make a difference everything falls automatically in place. Realities change instantly! The past changes to accommodate the future dimensions of existence.

"Thereafter, at the auspicious time for the appearance of the Lord, the entire universe was surcharged with all the qualities of goodness, beauty and peace. The constellation Rohiṇī appeared, as did stars like Aśvinī. The sun, the moon and the other stars and planets were very peaceful. All directions appeared extremely pleasing, and the beautiful stars twinkled in the cloudless sky. Decorated with towns, villages, mines and pasturing grounds, the earth seemed all-auspicious. The rivers flowed with clear water, and the lakes and vast reservoirs, full of lilies and lotuses, were extraordinarily beautiful. In the trees and green plants, full of flowers and leaves, pleasing to the eyes, birds like cuckoos and swarms of bees began chanting with sweet voices for the sake of the demigods. A pure breeze began to blow, pleasing the sense of touch and bearing the aroma of flowers, and when the brāhmaṇas engaging in ritualistic ceremonies ignited their fires according to Vedic principles, the fires burned steadily, undisturbed by the breeze. Thus when the birthless Lord Viṣṇu, the Supreme Personality of Godhead, was about to appear, the saints and brāhmaṇas, who had always been disturbed by demons like Kāṁsa and his men, felt peace within the core of their hearts, and kettledrums simultaneously vibrated from the upper planetary system."-Srimad Bhagvatam 10.3.1-5

Faith in God is not easy for those that flutter at the slightest Fear. Believing leads to Seeing. Believe in Krishna.

13. TRANSFORMATIONS

Something as Grave as Gravity cannot be ignored. It seems to apply to everyone and everything. Everything after a time falls to the Gravity of material existence.

The electric body feeds off the electric food. It creates or has an electromagnetic field of waves that resonate differently based on what emotions and actions one gravitates to. Everyone is Unique in their vibrations and their preferences for their reality vary and thus they need to be directed differently.

"The Supreme Truth exists outside and inside of all living beings, the moving and the nonmoving. Because He is subtle, He is beyond the power of the material senses to see or to know. Although far, far away, He is also near to all.

Although the Supersoul appears to be divided among all beings, He is never divided. He is situated as one. Although He is the maintainer of every living entity, it is to be understood that He devours and develops all.

He is the source of light in all luminous objects. He is beyond the darkness of matter and is unmanifested. He is knowledge, He is the object of knowledge, and He is the goal of knowledge. He is situated in everyone's heart."- Krishna (Bhagavad Gita 13.16-18)

People look into their heart to understand what it is that they are gravitating to. Their emotions (Energy in Motion) create their own resonating fields. Thus, they rise to attract what they resonate with. How can one survive or be happy in situations that they do not resonate with or Gravitates towards?

Everyone chooses the multitude of resonating fields that exist in the creation of existence.

"Material nature and the living entities should be understood to be beginningless. Their transformations and the modes of matter are products of material nature.

Nature is said to be the cause of all material causes and effects, whereas the living entity is the cause of the various sufferings and enjoyments in this world.

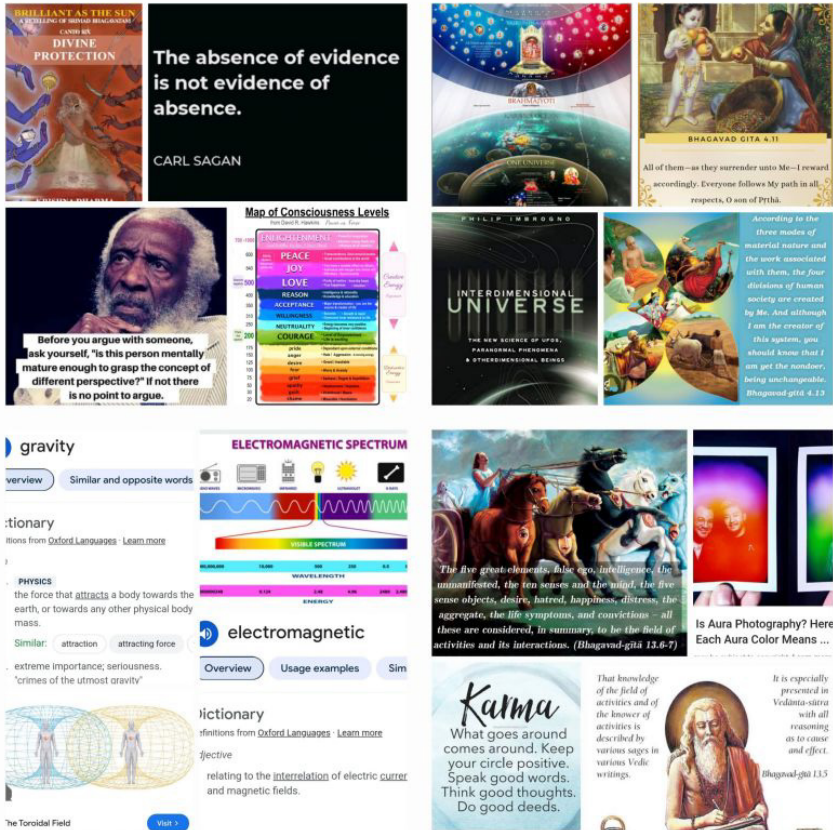

The living entity in material nature thus follows the ways of life, enjoying the three modes of nature. This is due to his association with that material nature. Thus he meets with good and evil among various species."- Krishna (Bhagavad Gita 13.20-22)

Such subtle resonations are picked up many beings [#soulfamily](#). Those that can read words, actions or emotions. There is no proof required to believe what is published for all to see in the vibrational field. And more is becoming visible as the consciousness rises.

"Under illusion you are now declining to act according to My direction. But, compelled by the work born of your own nature, you will act all the same, O son of Kunti.

The Supreme Lord is situated in everyone's heart, O Arjuna, and is directing the wanderings of all living entities, who are seated as on a machine, made of the material energy."- Krishna (Bhagavad Gita 18.60-61)

There are many types of living entities and they all serve multitude of purposes. Each with their own skillset contributes to the balance of creation, maintenance or destruction.

<https://www.youtube.com/watch?v=ViFXeg-Y2nU>

14. BY RESONATIONS

Talking about resonations, we live in a world where some are stocking up ammo for their beliefs, some not letting a financial opportunity go to waste, yet others looking for spiritual solutions to material problems.

To harm others on the strength of one's knowledge, skills, weapons and resources is one mindset, to use them for the benefit of others is another type of resonance. The intent is ever crystallizing into action. All seek the fulfilment of their inner calling. The villains, the heroes and the victims. The story is far too consistently enjoyed all over the world. We are attracted to such highs and lows.

The frequencies are cyclical. Under some conditions one becomes a Hero or Villain or Observer from their perspective. But there is a higher Spiritual Truth or Goal. Dharma is required to be established.

"O sinless Arjuna, I have already explained that there are two classes of men who try to realize the self. Some are inclined to understand it by empirical, philosophical speculation, and others by devotional service.

Not by merely abstaining from work can one achieve freedom from reaction, nor by renunciation alone can one attain perfection.

Everyone is forced to act helplessly according to the qualities he has acquired from the modes of material nature; therefore no one can refrain from doing something, not even for a moment."- Krishna (Bhagavad Gita 3.3-5)

Time and place create circumstances for karma to unfold in the divine time in miraculous ways. The science of it all takes lifetimes to grasp. The God conscious thus cultivate love and compassion in full knowledge/Veda and through self-realisation.

"My dear Arjuna, one who does not follow in human life the cycle of sacrifice thus established by the Vedas certainly leads a life full of sin. Living only for the satisfaction of the senses, such a person lives in vain.

But for one who takes pleasure in the Self, whose human life is one of self-realization, and who is satisfied in the Self only, fully satiated – for him there is no duty.

A self-realized man has no purpose to fulfil in the discharge of his prescribed duties, nor has he any reason not to perform such work. Nor has he any need to depend on any other living being.

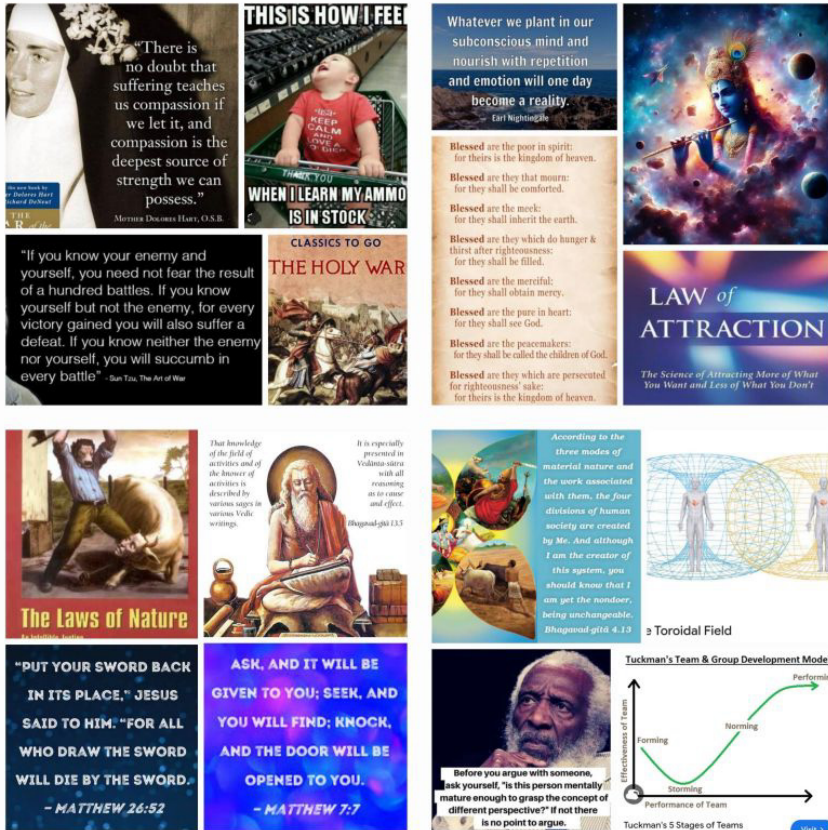

Therefore, without being attached to the fruits of activities, one should act as a matter of duty, for by working without attachment one attains the Supreme."- Krishna (Bhagavad Gita 3.16-19)

Matching the resonating fields brings about War and Peace giving people what they most choose. They all serve the purpose in the collective of Space and Time [#soulfamily](#).

"Those persons who execute their duties according to My injunctions and who follow this teaching faithfully, without envy, become free from the bondage of fruitive actions.

But those who, out of envy, disregard these teachings and do not follow them regularly are to be considered bereft of all knowledge, befooled, and ruined in their endeavors for perfection." - Krishna (Bhagavad Gita 3.31-32)

<https://www.youtube.com/watch?v=36mSMvz7A8E>

15. SELECTED BY RESONATION

In the higher Realms people are not elected, they are selected [#soulfamily](#). There are positions to fill- Indra is King of Heaven, Vivasvan king of Sun and there are many planets and stars. There many such administrator roles. There are internships for practical experience- Learning through doing in every subject.

Similarly, Teacher/Bramins is not a birth right. It is a position earned through Frequency. The qualifications is the desire to teach the UNlverse what one has realised. Just theoretical study is not enough qualification. Like a doctors they need to be educated by other Teachers and gain practical experience under their guidance before they can 'Practice' independently. Even the Royals have their teachers that they must Obey to learn.

"Just try to learn the truth by approaching a spiritual master. Inquire from him submissively and render service unto him. The self-realized soul can impart knowledge unto you because he has seen the truth. - Krishna (Bhagvad Gita 4.34)

The Guru-tattva is a Position through Qualification. The objective of Teaching is to impartially impart knowledge. Some do it as Occupation and some out of Love. When one distributes knowledge free of material return the knowledge is spiritualised. There is progress in Spiritual journey or Ascension through Gyaan Yoga.

A Guru/Teacher's Association will have a history of knowledge with it. The diversity of backgrounds would mean that many Teachers would discuss many Material and Spiritual subjects. BUT Do ALL the 'Intellectuals/Brahmins' believe in God/or not?

The Atheistic Teachers haven't God's laws that they follow. All manmade laws and leaders are 'subject to change'.

The Teachers/Preachers in God/Krishna consciousness discuss Unity, Spiritual worlds and attaining God through Bhakti-yoga.

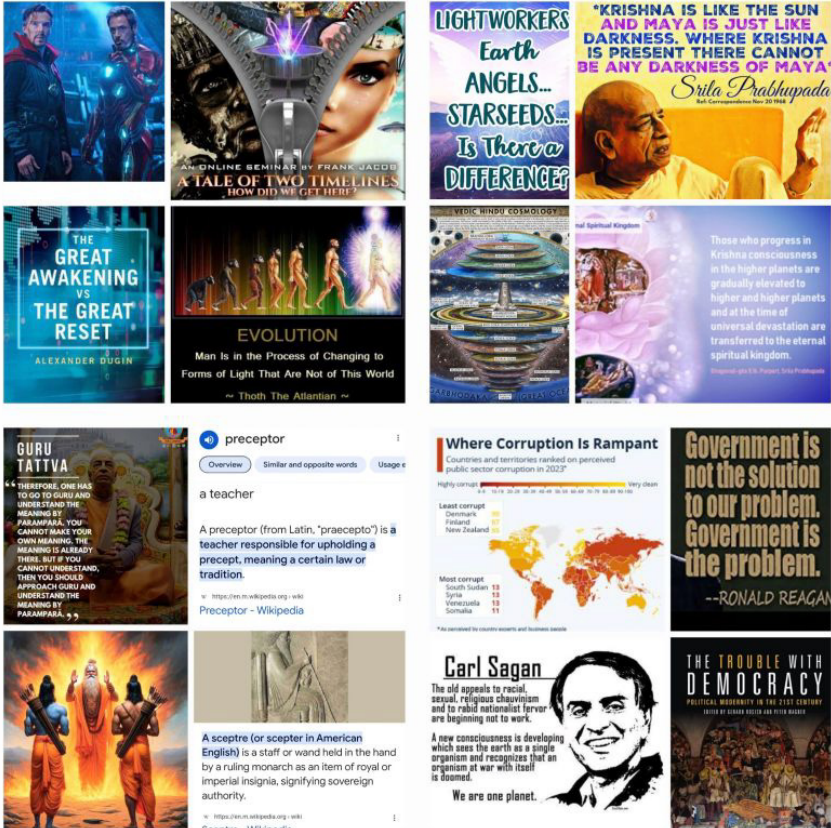

The division of the dimensions depends on which Teachers one follows. It is a self-selection process through Karma.

"The Supreme Personality of Godhead said: Fearlessness; purification of one's existence; cultivation of spiritual knowledge; charity; self-control; performance of sacrifice; study of the Vedas; austerity; simplicity; nonviolence; truthfulness; freedom from anger; renunciation; tranquillity; aversion to faultfinding; compassion for all living entities; freedom from covetousness; gentleness; modesty; steady determination; vigor; forgiveness; fortitude; cleanliness; and freedom from envy and from the passion for honor – these transcendental qualities, O son of Bharata, belong to godly men endowed with divine nature.

Pride, arrogance, conceit, anger, harshness and ignorance – these qualities belong to those of demoniac nature, O son of Pṛthā.

The transcendental qualities are conducive to liberation, whereas the demoniac qualities make for bondage. Do not worry, O son of Pāṇḍu, for you are born with the divine qualities."- Krishna (Bhagavad Gita 16.1-5)

Leaders from Higher Realms also make their selections on qualifications that are not a birth right.

Links:

16. THE DIVISIONS

Continuing on understanding the divisions....Spiritual is eternal then when did it ever fragment? It is part of the Advaita Bramhan. And if it is Fragmental then there must be division, separation and reduction. But God is always complete.

'The Personality of Godhead is perfect and complete, and because He is completely perfect, all emanations from Him, such as this phenomenal world, are perfectly equipped as complete wholes. Whatever is produced of the Complete Whole is also complete in itself. Because He is the Complete Whole, even though so many complete units emanate from Him, He remains the complete balance.'" - Isopanishad

So what is Eternally fragmental? - Achintya Bheda Abheda Tattva (INCONCEIVABLE simultaneously Oneness and Differentness) of the SPIRITUAL Science is Slightly different.

That an All-pervading knowledge manifesting in everyone in this 'Brahman'/'Universe' is the Impersonal aspect of God to us. The individual manifestation of intuition in the heart of all varied life forms is 'Paramatma". The Personal descending Avatars/Diety of God that are manifestation of all Opulences in Physical realities is 'Bhagavan'.

"Learned transcendentalists who know the Absolute Truth call this nondual substance Brahman, Paramātmā or Bhagavān."- Srimad Bhagavatam 1.2.11

What is divided is the physical representations and Spiritual is always connected.

Realizing that personalities exist in higher dimensional plane of existence can play a significant role in understanding that the Material and Spiritual Universe is full of Person-al. There may be multiple character skins in lower dimensional planes that are both you and not you based on your Free will and laws for the lower dimensional Avatar. Time is relative.

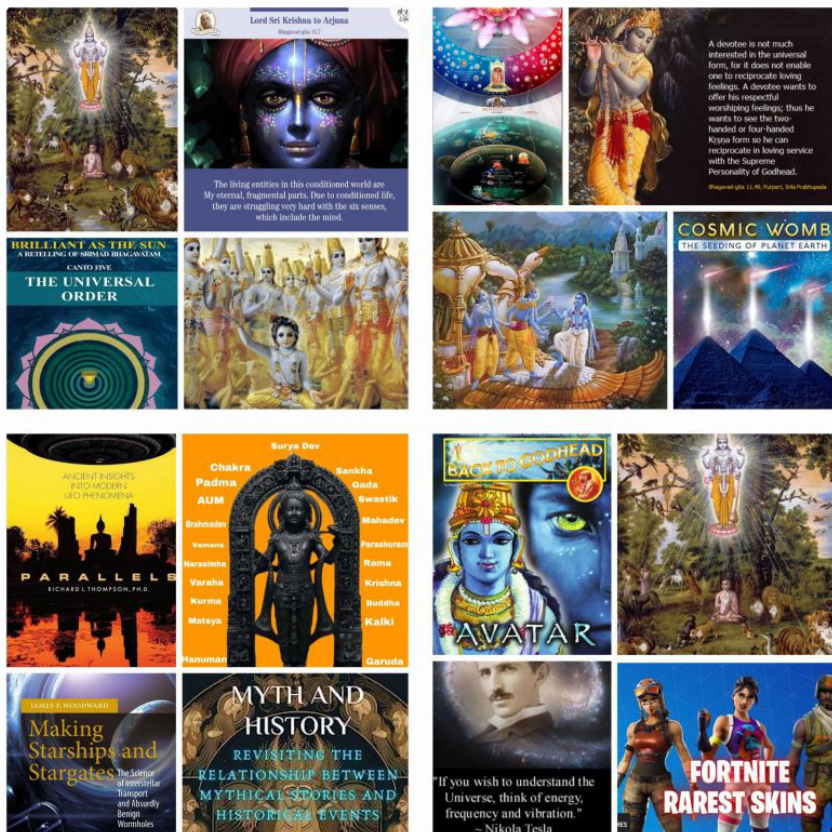

Those feeling spiritual connections have knowledge and experience and desires to spread that knowledge freely. Acknowledging Unity in Diversity across Space and Time. They are called to service in the Great Awakening.

The Beings of Higher Spiritual Realms have descended into our Realms many times for our benefit. Speaking of the Reality of Spiritual worlds and God Consciousness.

"Lowest of all is located Devī-dhāma [mundane world], next above it is Maheśa-dhāma [abode of Maheśa]; above Maheśa-dhāma is placed Hari-dhāma [abode of Hari] and above them all is located Kṛṣṇa's own realm named Goloka. I adore the primeval Lord Govinda, who has allotted their respective authorities to the rulers of those graded realms."- Bramha Samhita 5.43

The selection process for the Realities is based on frequency and attachments. Everyone chooses their karma and thus they get selected to higher levels of service based on their dedication to the study and research of that field. The Spiritual war is for the battle of consciousness [#soulfamily!](#)

"Always think of Me, be devoted to Me, worship Me, and offer obeisance to Me. Doing so, you will certainly come to Me. This is My pledge to you, for you are very dear to Me."- Krishna (Bhagavad Gita 18.65)

Paul Wallis Q & A - Part 1

<https://www.youtube.com/watch?v=6X9Uzh7TSdU>

17. TEACHERS FOR DIVISIONS

Continuing ...Why do we need teachers to understand stand God? Because God is a tattva or an elemental subject of study but it is also a frequency. He is understood through analytical study, for a tattva and felt/Realised as a Bhava or Emotional frequency. This frequency cannot be felt or realised when one thinks themselves as God.

Krishna is always complete in himself and his expanded first incarnation as Balaram which is his Internal Energy and the source of all Vishnu tattva incarnations. His form composed of the Samvit, Sandhini and Hladini energies that make up his Sat Cid Ananda Vighraha (Eternal, all knowing, Blissful form). The Hladini energy or Loving Potency separates and becomes personified as Srimati Radharani. The energy becomes the source of all External energy forms.

The infinite fragmental parts or Jiva tattva /Soul are marginal energy that provide the variety of perspectives to God/Krishna.

Both the external energy (matter) and the marginal energy (we souls) can become fully spiritualized by contact with the internal energy through acts of devotion or Bhakti yoga.

The purpose of these elements or tattva is to realise or understand God. This can only happen from the position of a Devotee.

As God, God is able to realise all emotions and opulences but he cannot understand devotion and thus he can only do this by separating himself from himself.

Chaitanya Mahāprabhu was the incarnation of Krishna with the devotional heart of Radha to understand the tattva and Bhava (Emotion) of a Devotee in separation to God/Krishna.

"Concealing my real identity, O vipra, I appear in kali-yuga in the grab of a devotee and always protect my devotees"- Narada Maha Puran

When a Devotee reaches the frequency of realisation of God through analytical study under a teacher and self-realisation, he is complete in Devotion or Bhakti-yoga/Buddhi Yoga. Knowing oneself to be one and different from the Supreme. This knowledge and frequency leads to spiritual ascension [#soulfamily](#).

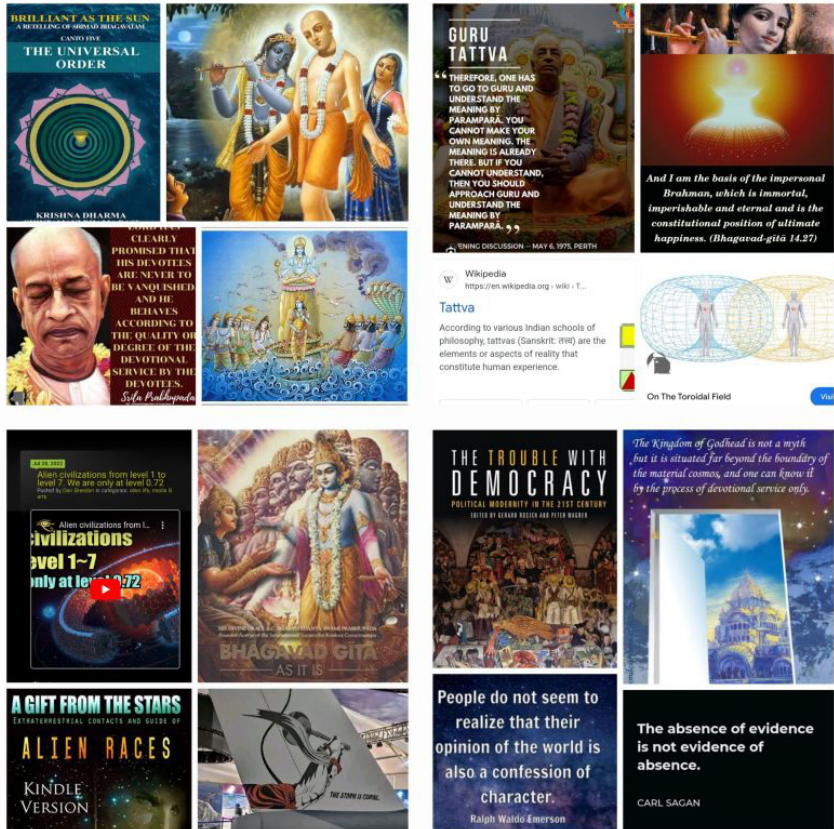

"For one who always remembers Me without deviation, I am easy to obtain, O son of Pṛthā, because of his constant engagement in devotional service.

After attaining Me, the great souls, who are yogīs in devotion, never return to this temporary world, which is full of miseries, because they have attained the highest perfection."- Krishna (Bhagavad Gita 8.14-15)

For the Atheistic God realisation is against the their nature which fabricates their reality in frequencies that support that view. They brace their storms without any higher protection.

"Bewildered by false ego, strength, pride, lust and anger, the demons become envious of the Supreme Personality of Godhead, who is situated in their own bodies and in the bodies of others, and blaspheme against the real religion.

Those who are envious and mischievous, who are the lowest among men, I perpetually cast into the ocean of material existence, into various demoniac species of life."- Krishna (Bhagavad Gita 16.18-19)

Links:

18. DIVISIONS AND DIMENSIONS

When we enter the Reality of New Dimensions , the Reality of the New Dimension enters us.

'The demons called Ilvala and Vatapi were two brothers. The elder of the brothers, Ilvala, is stated to have once begged a Brahmin hermit to grant him a son equal to that of the deity Indra. When the Brahmin refused this request, Ilvala grew angry with him. He turned Vatapi into a lamb or a goat, cooked his meat, and served him to the unsuspecting Brahmin. After the Brahmin had completed his meal, Ilvala called out to his brother by name, who promptly emerged from within the Brahmin's side, murdering him. Ilvala performed this deed on multiple occasions with the Brahmins he encountered. The brothers engaged in the same scheme when they came across the sage Agastya. When Ilvala summoned Vatapi after being swallowed by the sage, the latter informed him that his brother had been digested by him. Ilvala is stated to have attacked Agastya after his brother's death, after which he was also slain by the sage's glance.' - Mahabharata

The Law of attraction for food also determines the consciousness and energies that can take shelter in our body.

"Even the food each person prefers is of three kinds, according to the three modes of material nature. The same is true of sacrifices, austerities and charity. Now hear of the distinctions between them.

Foods dear to those in the mode of goodness increase the duration of life, purify one's existence and give strength, health, happiness and satisfaction.

Such foods are juicy, fatty, wholesome, and pleasing to the heart.

Foods that are too bitter, too sour, salty, hot, pungent, dry and burning are dear to those in the mode of passion. Such foods cause distress, misery and disease.

Food prepared more than three hours before being eaten, food that is tasteless, decomposed and putrid, and food consisting of remnants and untouchable things is dear to those in the mode of darkness."- Krishna (Bhagvad Gita 16.8-10)

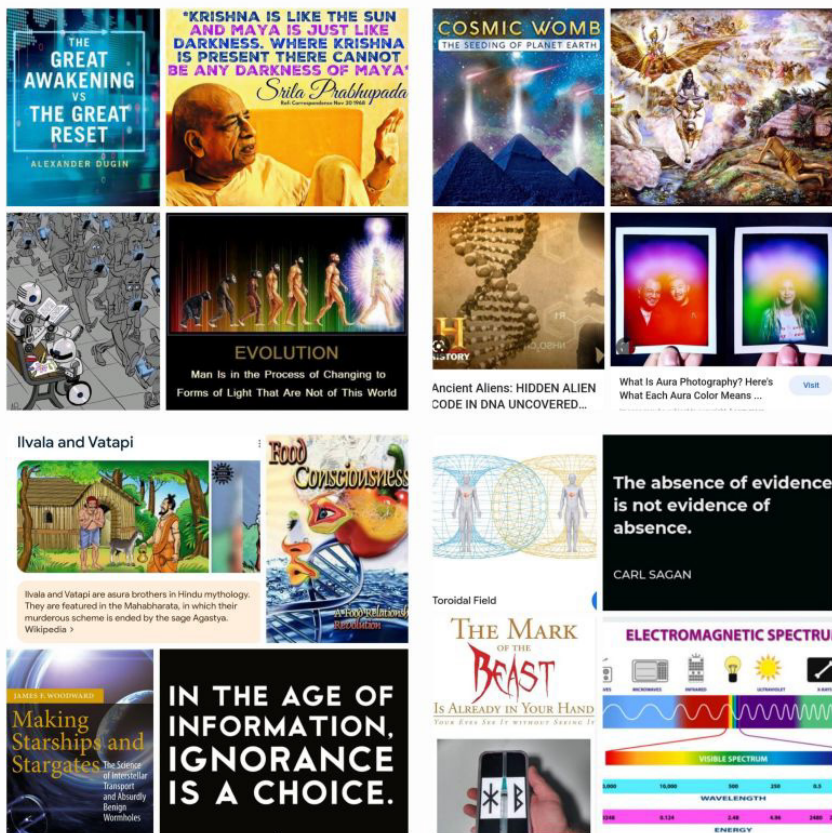

In this age Kali-yuga technology pollutes Food, Air, Water, Medicine and then consciousness to take one away from God. People donot understand the unseen workings of Demigods and Demons through the Leaders of Societies. People are divided by their resonations [#soulfamily!](#)

"Of sacrifices, the sacrifice performed according to the directions of scripture, as a matter of duty, by those who desire NO reward, is of the nature of Goodness.

But the sacrifice performed for some Material benefit, or for the sake of pride, O chief of the Bhāratas, you should know to be in the mode of Passion.

Any sacrifice performed without regard for the directions of scripture, without distribution of spiritual food, without chanting of Vedic hymns and remunerations to the priests, and without faith is considered to be in the mode of ignorance."- Krishna (Bhagvad Gita 17.11-13)

Space Travel is Time travel. Interdimensional ships/bodies have ability to transform and transport at atomic level of Relative Space and Time. Fast and Agile.

19. CHANGING DNA OF DESTINY THROUGH GOD CONSCIOUSNESS

The light at the end of the tunnel, could be a train headed your way. All you need to do to help yourself is to take a few of steps in the Right direction. As co-creators of our reality, there is work expected from us.

"In this endeavor there is no loss or diminution, and a little advancement on this path can protect one from the most dangerous type of fear."- Krishna (Bhagavad Gita 2.40)

If each point of our existence is one unique point in Space Time continuum, then with every inch moving unconsciously we are heading towards the Destiny as any animal. The conscious effort of living means to question the nature of Reality and God. That is being human or life wasted.

"Eating, sleeping, fearing, and mating are the four principles of animal life. These are common both to animals and to human beings. But religion is the extra function of the human being. Without religion, human life is no better than animal life."- Mahabharat

Only through God/Krishna consciousness we get options to make some major changes to the future trajectory, such that the future predicted from old start point no longer holds true. The New reality is complete, with retrospective view of New history and portals to New future.

"I adore the primeval Lord Govinda, who burns up to their roots all fruitive activities of those who are imbued with devotion and impartially ordains for each the due enjoyment of the fruits of one's activities, of all those who walk in the path of work, in accordance with the chain of their previously performed works, no less in the case of the tiny insect that bears the name of indragopa than in that of Indra, king of the devas."- Bramha Samhita 5.54

We have small free will within agreed Parameters of higher self/plan. With discipline we consciously and forcibly choose positive paths as the default/unconscious path is one of least resistance and goes towards the negative.

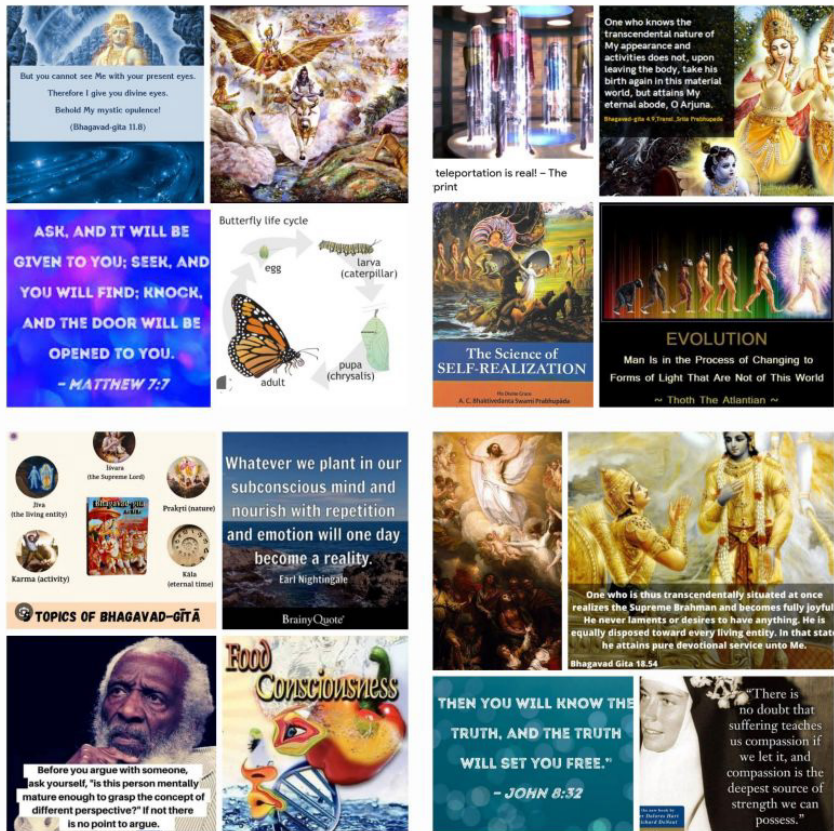

"In the age of Satya [truthfulness] your four legs (Dharma in the form of Bull) were established by the four principles of austerity, cleanliness, mercy and truthfulness. But it appears that three of your legs are broken due to rampant irreligion in the form of pride, lust for women, and intoxication."- Srimad Bhagvatam 1.17.24

The eternal servants of God/Krishna are always looking for newer ways to serve and evolve higher [#soulfamily](#).

"After reaching Satyaloka, the devotee is specifically able to be incorporated fearlessly by the subtle body in an identity similar to that of the gross body, and one after another he gradually attains stages of existence from earthly to watery, fiery, glowing and airy, until he reaches the ethereal stage."- Srimad Bhagvatam 12.3.51

Thus DNA of Destiny is changed repeatedly, as suffering to learn lessons and grow, is useless for the Fearless! "This divine energy of Mine, consisting of the three modes of material nature, is difficult to overcome.

But those who have surrendered unto Me can easily cross beyond it."- Krishna (Bhagavadi Gita 7.14)

20. SUPERPOWERS OF MIND AND BODY

Most Super heroes are body muscle power and the power of the mind seems to be left for the evil villains. The heroes of most movies become reactors and all too willing to meet destruction with destruction for their cause.

Attracted by the physical qualities most people will spend endless hours in gyms and surgeries and saloons. But every successful person in any field would declare that the most important attribute is the power of the mind.

The value of mind control and virtues is lost on those seeking physical glorification, and on that basis categorizing the Superior and the inferior. We lose the ability to grasp the higher truths and subtle realities when we shut our minds to believing only what we can see.

"There are two kinds of bodies for every individual soul — a gross body made of five gross elements and a subtle body made of three subtle elements (Mind, Intelligence, Ego). Within these bodies, however, is the spirit soul. One must find the soul by analysis, saying, "This is not it. This is not it." Thus, one must separate spirit from matter.

Sober and expert persons should search for the spirit soul with minds purified through analytical study in terms of the soul's connection with and distinction from all things that undergo creation, maintenance and destruction."- Srimad Bhagvatam 7.7.23-24

God/Krishna consciousness can be the only asset of value to us and those living in Higher Realms. It is the only truly transferable asset in the Spiritual journey of Ascension or Descension.

"The living entity in the material world carries his different conceptions of life from one body to another, as the air carries aromas. Thus he takes one kind of body and again quits it to take another.

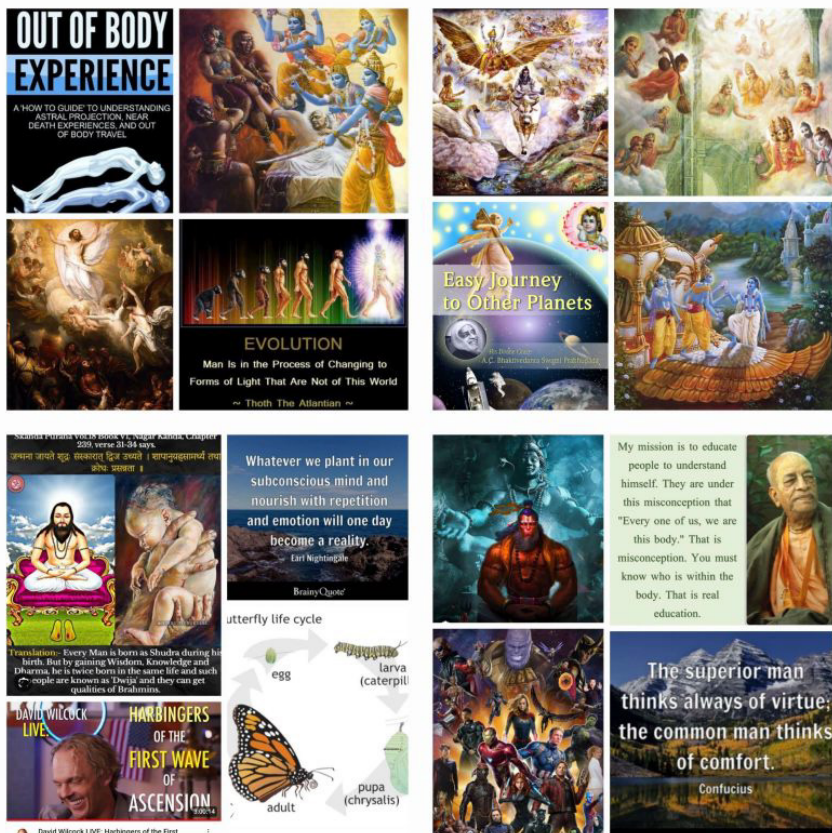

The living entity, thus taking another gross body, obtains a certain type of ear, eye, tongue, nose and sense of touch, which are grouped about the mind. He thus enjoys a particular set of sense objects."- Krishna (Bhagvad Gita 15.8-9)

It is by the use of this subtle body (mind, intelligence and ego) that one practices discernment between right and wrong. But how much time do we spend in strengthening the mind that is the true trait of Leaders and Warriors. With it one can transform their dull matter into the ascended light forms.

"One must deliver himself with the help of his mind, and not degrade himself. The mind is the friend of the conditioned soul, and his enemy as well.

For him who has conquered the mind, the mind is the best of friends; but for one who has failed to do so, his mind will remain the greatest enemy."-Krishna (Bhagvad Gita 6.5-6)

The material world is to be navigated the puzzle for spiritual growth. The enticements and fears are continuous distractions that become barriers or Super villains in our own progress. Mind cannot be destroyed, it can be redirected. We have to choose to fight an uphill battle using the force of the mind and devotion. Our heroes journey then becomes a movie worth watching in the Higher Realms [#soulfamily](#).

21. TECHNOLOGY OF THE MIND

We discussed the need to control the mind, for nothing worthwhile can be achieved without discipline of the mind. When it comes to growth mind is the super power that results in make or break of new opportunities or loss of the same.

"Thus the wise living entity's pure consciousness becomes covered by his eternal enemy in the form of lust, which is never satisfied and which burns like fire.

The senses, the mind and the intelligence are the sitting places of this lust. Through them lust covers the real knowledge of the living entity and bewilders him."- Krishna (Bhagvad Gita 3.39-40)

The Spiritual potency of the DNA far exceeds any chip, it's ability to evolve is not limited for we can observe the slightest variations can lead to most significant differences. We are already in the most advanced technology given by God, any artificial competition will always be left far behind [#soulfamily](#). Why then do people struggle to believe in their spiritual identity and the Supreme creator?

"The creation of the human beings, who are of one species only and who stock their eatables in the belly, is the ninth in the rotation. In the human race, the mode of passion is very prominent. Humans are always busy in the midst of miserable life, but they think themselves happy in all respects.

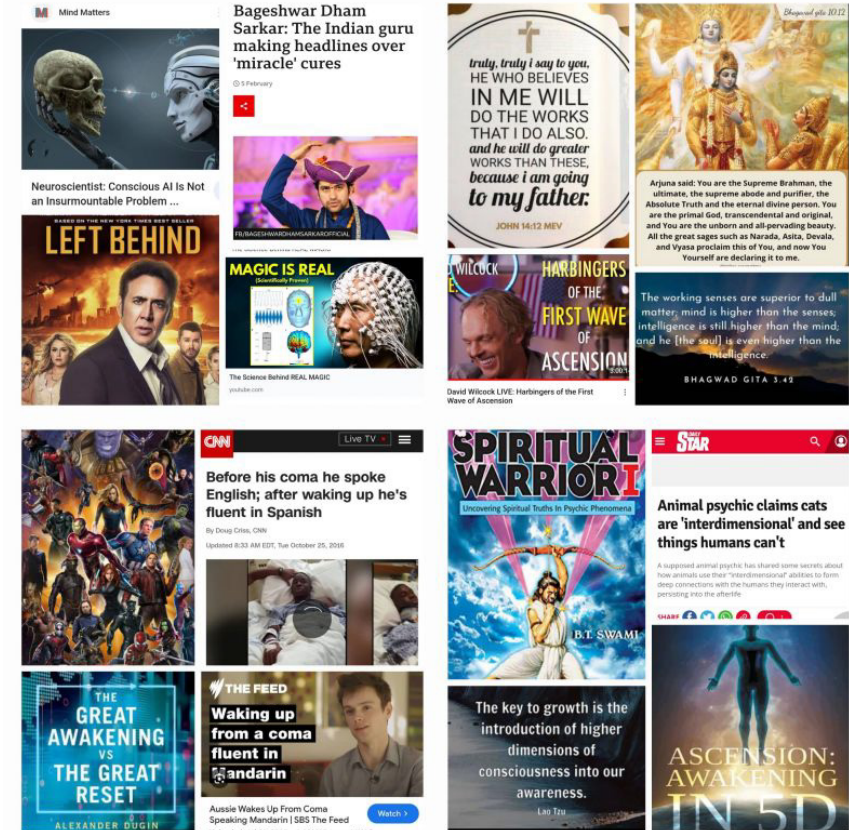

O good Vidura, these last three creations and the creation of demigods (the tenth creation) are vaikṛta creations, which are different from the previously described prākṛta (natural) creations. The appearance of the Kumāras is both.

The creation of the demigods is of eight varieties: (1) the demigods, (2) the forefathers, (3) the asuras, or demons, (4) the Gandharvas and Apsarās, or angels, (5) the Yakṣas and Rākṣasas, (6) the Siddhas, Cāraṇas and Vidyādhara, (7) the Bhūtas, Pretas and Piśācas, and (8) the superhuman beings, celestial singers, etc. All are created by Brahmā.

Now I shall describe the descendants of the Manus. The creator, Brahmā, as the incarnation of the mode of passion of the Personality of Godhead, creates the universal affairs with unfailing desires in every millennium by the force of the Lord's energy."-Srimad Bhagavatam 3.10.26-30

Everyone co-creates using given free will. Use or misuse of this independence is what decides what we create for ourselves and others. Take the mind higher through God/Krishna consciousness.

"Because the mind is absorbed in desires for pious and impious activities, it is naturally subjected to the transformations of lust and anger. In this way, it becomes attracted to material sense enjoyment. In other words, the mind is conducted by the modes of goodness, passion and ignorance. There are eleven senses and five material elements, and out of these sixteen items, the mind is the chief. Therefore, the mind brings about birth in different types of bodies among demigods, human beings, animals and birds. When the mind is situated in a higher or lower position, it accepts a higher or lower material body."- Srimad Bhagvatam 5.11.5

<https://www.youtube.com/watch?v=zoTwqsT7ZaU>

22. WORKING THE MIND FOR MORE

Continuing ...The need to control mind for discipline and achievement of material or spiritual objectives such higher births and higher power is easily understood. What is less easily understood is that with great power comes great responsibility. Unless one is transcendently situated one will struggle to discern the higher truths - The true heroes act in service of God not in service of false ego and material gains.

"All these performers who know the meaning of sacrifice become cleansed of sinful reactions, and, having tasted the nectar of the results of sacrifices, they advance toward the supreme eternal atmosphere.

O best of the Kuru dynasty, without sacrifice one can never live happily on this planet or in this life: what then of the next?

All these different types of sacrifice are approved by the Vedas, and all of them are born of different types of work. Knowing them as such, you will become liberated.

O chastiser of the enemy, the sacrifice performed in knowledge is better than the mere sacrifice of material possessions. After all, O son of Pṛthā, all sacrifices of work culminate in transcendental knowledge.

Just try to learn the truth by approaching a spiritual master. Inquire from him submissively and render service unto him. The self-realized souls can impart knowledge unto you because they have seen the truth.

Having obtained real knowledge from a self-realized soul, you will never fall again into such illusion, for by this knowledge you will see that all living beings are but part of the Supreme, or, in other words, that they are Mine.

Even if you are considered to be the most sinful of all sinners, when you are situated in the boat of transcendental knowledge you will be able to cross over the ocean of miseries.

As a blazing fire turns firewood to ashes, O Arjuna, so does the fire of knowledge burn to ashes all reactions to material activities.

In this world, there is nothing so sublime and pure as transcendental knowledge. Such knowledge is the mature fruit of all mysticism. And one who has become accomplished in the practice of devotional service enjoys this knowledge within himself in due course of time.

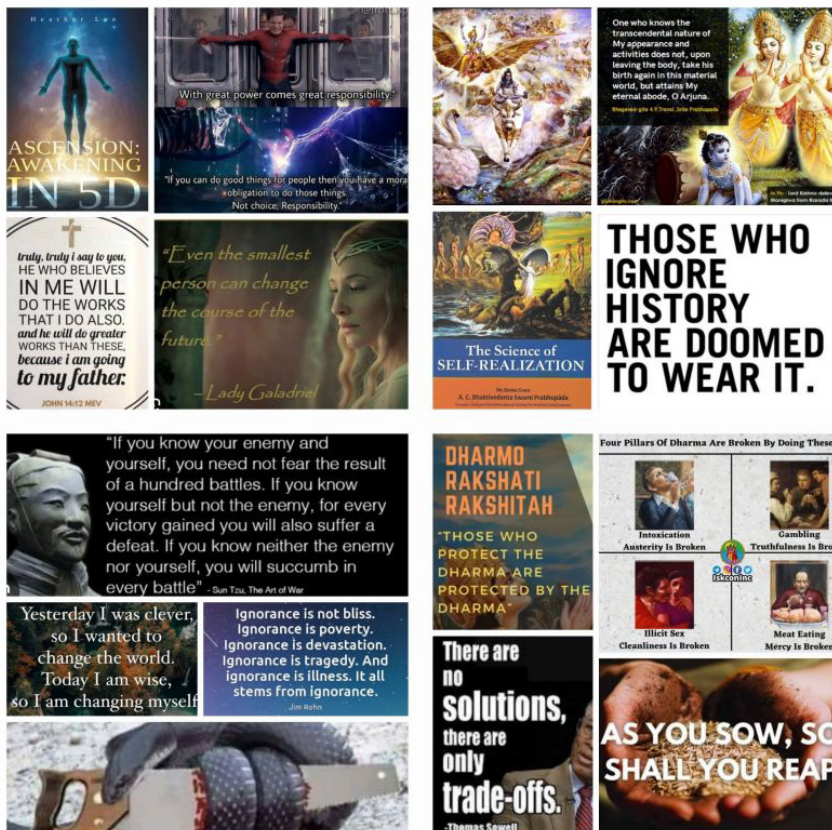

A faithful man who is dedicated to transcendental knowledge and who subdues his senses is eligible to achieve such knowledge, and having achieved it he quickly attains the supreme spiritual peace.

But ignorant and faithless persons who doubt the revealed scriptures do not attain God consciousness; they fall down. For the doubting soul there is happiness neither in this world nor in the next.

One who acts in devotional service, renouncing the fruits of his actions, and whose doubts have been destroyed by transcendental knowledge, is situated factually in the self. Thus he is not bound by the reactions of work, O conqueror of riches."- Krishna (Bhagavad Gita 4.32-41)

Waking up #Soulfamily

Nothing desirable is obtained without some sacrifice and higher Vision. Pricing a Tradeoff for Risk and Return is the choice everyone makes [#soulfamily](#).

Why do we see even Krishna's devotees suffering? |

Radheshyam Das

<https://www.youtube.com/watch?v=7p3M4YzZIQ8>

23. ARISE PHOENIX

What is the similarity between the Phoenix bird and the devotees of God/Krishna?

They both burn to purify from inside and reappear to rise again to new heights.

The mythological quality of the bird is no different to how the surrendered souls fighting against all odds are repeatedly humbled but not destroyed. There is learning to be done, tests to pass, refinements to be made and new jewels to be mined before the crown of glory is fit to be worn on head of the servant leader.

"I envy no one, nor am I partial to anyone. I am equal to all. But whoever renders service unto Me in devotion is a friend, is in Me, and I am also a friend to him.

Even if one commits the most abominable action, if he is engaged in devotional service he is to be considered saintly because he is properly situated in his determination.

He quickly becomes righteous and attains lasting peace. O son of Kuntī, declare it boldly that My devotee never perishes."- Krishna (Bhagavad Gita 9.29-31)

The mighty Pandavas and heroes of the Mahabharat bore the insult arising from defeat at gambling match and disrobing of Draupadi. They Royals lived as beggars, yet each difficulty came an opportunity to win new family, friends and alliances.

Everyone is co-creator and chooses their path, thus the path of devotion, is also always one of choice [#soulfamily](#). Being an instrument in the hands of God one is moved from pillar to post.

Unbeknown to them is the grand plan that unfolds around them with all its ups and downs.

Without undergoing the trials the greatest Archer Arjuna would not come to wield powerful celestial weapons, neither would Bhima the undisputed strength, nor would Yudhiṣṭhira have the wisdom for war. Under the guidance of God/Krishna they were made ready for the right Space and right Time.

"Time I am, the great destroyer of the worlds, and I have come here to destroy all people. With the exception of you [the Pāṇḍavas], all the soldiers here on both sides will be slain.

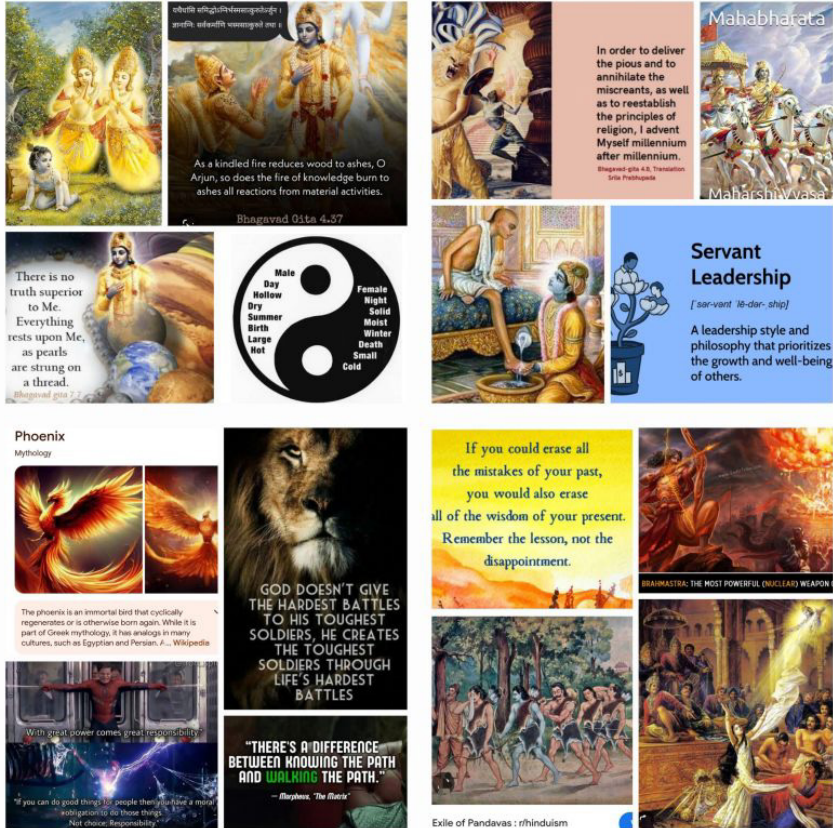

Therefore get up. Prepare to fight and win glory. Conquer your enemies and enjoy a flourishing kingdom. They are already put to death by My arrangement, and you, O Savyasācī, can be but an instrument in the fight."- Krishna (Bhagavad Gita 11.32-33)

With Great Power comes great Responsibility, and as the Absolute Power, God has Absolute Responsibility and transcendental knowledge/designs to protect Sanatan/Eternal Dharma and Devotees everywhere.

"O son of Pṛthā, there is no work prescribed for Me within all the three planetary systems. Nor am I in want of anything, nor have I a need to obtain anything – and yet I am engaged in prescribed duties.

For if I ever failed to engage in carefully performing prescribed duties, O Pārtha, certainly all men would follow My path.

If I did not perform prescribed duties, all these worlds would be put to ruination. I would be the cause of creating unwanted population, and I would thereby destroy the peace of all living beings."- Krishna (Bhagavad Gita 3.21-24)

31st January 1973 Calcutta(Kolkata)India

<https://www.youtube.com/watch?v=a1p2hWGMaFk>

24. SPIRITUAL PLANS FOR MATERIAL PLANES

The Grand plan is always Spiritual and everyone plays their part on material planes. It is individual knowledge that guides discernment. Thus Santan/Eternal Dharma sees the Destroyer as part of the same loving Creator.

"Just as milk is transformed into curd by the action of acids, but yet the effect curd is neither same as, nor different from, its cause, viz., milk, so I adore the primeval Lord Govinda of whom the state of Śambhu/Siva is a transformation for the performance of the work of destruction."- Bramha Samhita 5.45

Only when viewed from a Spiritual perspective does this daunting task of Governance of balance seems justified. Only then is the Destroyer/Siva worshipable and Arjuna the warrior hero of great battle of Mahabharata glorified. The Grand design requiring actions of creation and destruction depend on each other.

"Even the intelligent are bewildered in determining what is action and what is inaction. Now I shall explain to you what action is, knowing which you shall be liberated from all misfortune.

The intricacies of action are very hard to understand. Therefore, one should know properly what action is, what forbidden action is and what inaction is.

One who sees inaction in action and action in inaction is intelligent among men, and he is in the transcendental position, although engaged in all sorts of activities.

One is understood to be in full knowledge whose every endeavor is devoid of desire for sense gratification. He is said by sages to be a worker for whom the reactions of work have been burned up by the fire of perfect knowledge."- Krishna (Bhagavad Gita 4.16.19)

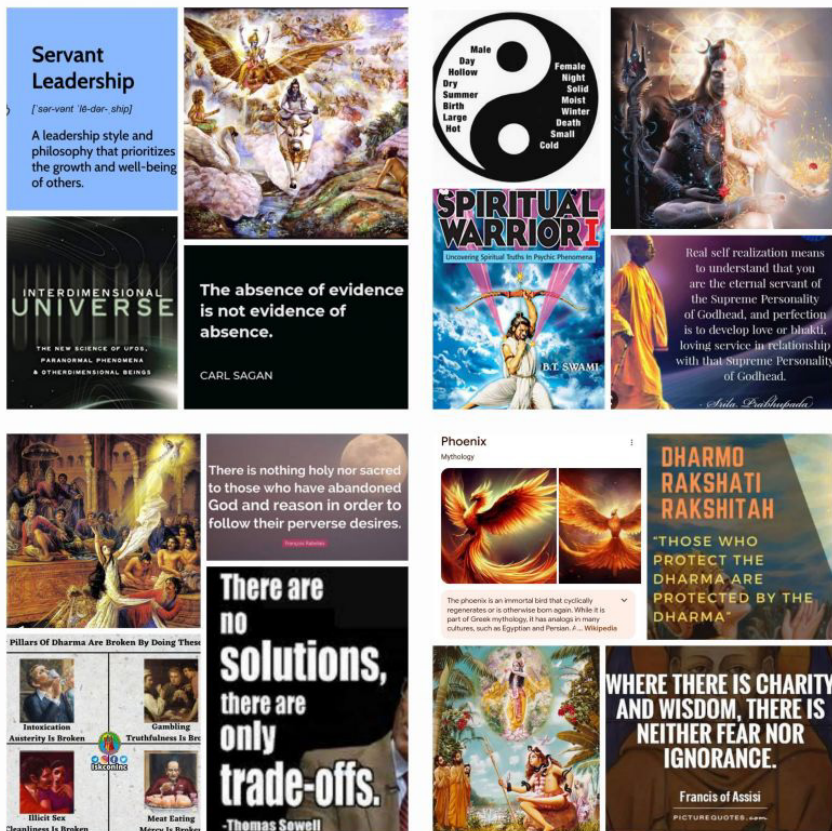

Spiritual degradation of an age results in Impersonalism and is followed by Atheism. The natural progression for the Godless is self-destruction. The Universal law links destiny to choices and karma/Action.

"The Māyāvāda (Impersonalism) philosophy," Lord Śiva informed his wife Pārvatī, "is impious (asac chāstra). It is covered Buddhism. My dear Pārvatī, in Kali-yuga I assume the form of a brāhmaṇa (Adi Shankaracharya) and teach this imagined Māyāvāda philosophy. In order to cheat the atheists, I describe the Supreme Personality of Godhead to be without form and without qualities. Similarly, in explaining Vedānta I describe the same Māyāvāda philosophy in order to mislead the entire population toward atheism by denying the personal form of the Lord." - Padma Puran

Among many titles given to Lord Śiva is Bhole Nath (The innocent/simpleton Lord), Ashu Tosh (Easy to please), and yet in-charge of mode of Ignorance he is also the Destroyer. The Adiyogi (First Yogi) carries out his Devotional service without personal desires for sense gratification.

"Just as the Gaṅgā is the greatest of all rivers, Lord Acyuta/Krishna the supreme among deities and Lord Śāmbhu [Śiva] the greatest of Vaiṣṇavas, so Śrīmad-Bhāgavatam is the greatest of all Purāṇas."- Srimad Bhagavatam 12.13.16

There is nothing mythical or Impersonal about God and his eternal Devotees [#soulfamily](#).

How it is being done? Millions of tons of water are floating in the air. 1975 [May 17]

<https://www.linkedin.com/in/chanderhas-kumar-24095844/recent-activity/all/>

25. THE CYCLES OF TIME

The cycle of creation and destruction is not a planetary one. It is Universal phenomenon and the rescue efforts of all sorts are always going on at many levels of creation. This is why we raise our vibrations to match higher realities.

"At the beginning of Brahmā's day, all living entities become manifest from the unmanifest state, and thereafter, when the night falls, they are merged into the unmanifest again.

Again and again, when Brahmā's day arrives, all living entities come into being, and with the arrival of Brahmā's night they are helplessly annihilated.

Yet there is another unmanifest nature, which is eternal and is transcendental to this manifested and unmanifested matter. It is supreme and is never annihilated. When all in this world is annihilated, that part remains as it is."- Krishna (Bhagavad Gita 8.18-20)

This process is visible daily for smaller levels of creation. The objective of Spiritual journey is to take one's True self out of this cycle.

"That which the Vedāntists describe as unmanifest and infallible, that which is known as the supreme destination, that place from which, having attained it, one never returns – that is My supreme abode.

The Supreme Personality of Godhead, who is greater than all, is attainable by unalloyed devotion. Although He is present in His abode, He is all-pervading, and everything is situated within Him."- Krishna (Bhagavad Gita 8.21-22)

Because the soul is Eternal its home must be eternal. But one cannot pull themselves to a position that one cannot even visualise, this is why there are Devotees. They are the ones who stretch their hand into the well of material existence to pull others out.

"Dear Lord, unless one worships the lotus feet of great devotees, one will be conquered by the illusory energy, and his intelligence will be bewildered. Indeed, who has not been carried away by the waves of material enjoyment, which are like poison? Your illusory energy is unconquerable. No one can see the path of this material energy or tell how it is working."- Srimad Bhagavatam 5.3.14

We accept teachers for every discipline in material life knowing well that we are Spiritual, and yet people hesitate to accept Spiritual Teachers and Guides. Anyone can speculate philosophy but knowledge is rare. Without guidance disheartened people eventually give up on God and thus on themselves. Krishna spoke to Arjuna directly and yet..

"Just try to learn the truth by approaching a spiritual master. Inquire from him submissively and render service unto him. The self-realized souls can impart knowledge unto you because they have seen the truth.

Having obtained real knowledge from a self-realized soul, you will never fall again into such illusion, for by this knowledge you will see that all living beings are but part of the Supreme, or, in other words, that they are Mine."- Krishna (Bhagavad Gita 4.34-35)

Then we become 'Servants of the Servant' and become Dear to God and rise to higher destinations [#soulfamily](#).

26. THE SUN AND THE MOON

Talking about cycles of creation, dualities and Teachers of lessons, nothing explains the circumstances better than the Planetary systems we are governed by. The two luminaries the Sun and the Moon represent opposites. The advent of one brings heat of Day and the other the coolness of the night.

Like any other celestial body, they have their impact on our lives, emotions and behaviours depending on the science of Astrology. The gravity of our circumstances depends on how close they are to our various houses in the Astrological charts. The electromagnetic energy of everybody (Celestial or otherwise) has an impact on others around it.

"O my lord, O great devotee, persons like you move from one place to another not for their own interests but for the sake of poor-hearted gr̥hasthas [Householders]. Otherwise, they have no interest in going from one place to another.

O great saintly person, you have compiled the astrological knowledge by which one can understand past and present unseen things. By the strength of this knowledge, any human being can understand what he has done in his past life and how it affects his present life. This is known to you.

My lord, you are the best of the brāhmaṇas, especially because you are fully aware of the jyotiḥ-śāstra, the astrological science. Therefore, you are naturally the spiritual master of every human being. This being so, since you have kindly come to my house, kindly execute the reformatory activities for my two sons."-Srimad Bhagvatam (10.8.4-6)

Should it then be surprising that those on higher planes of existence would use Technology or Spirituality to create protection against lower Vibrational influences?

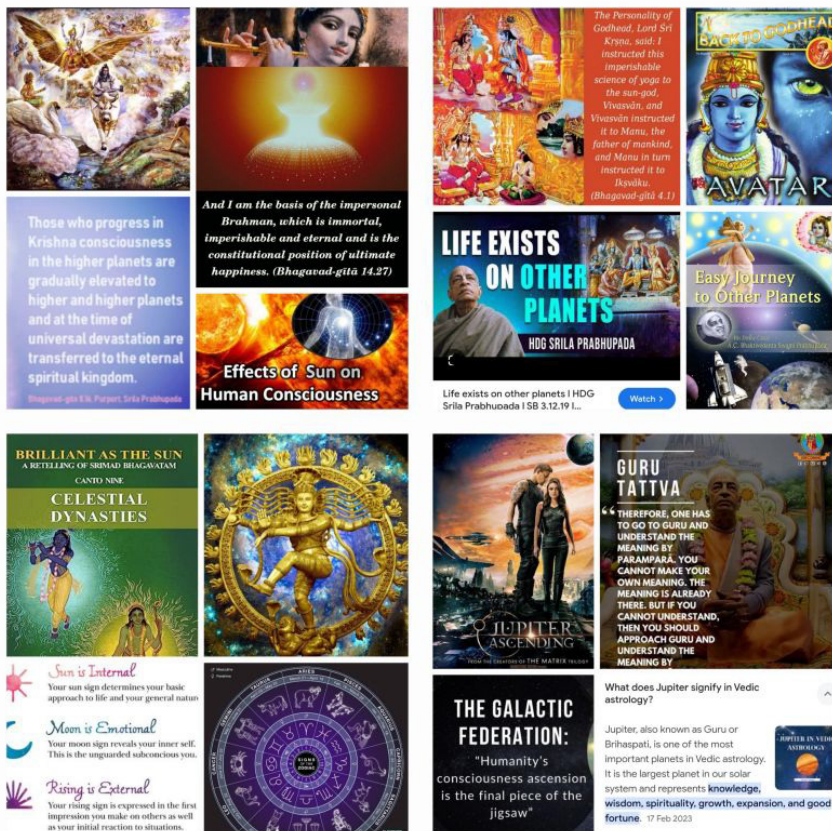

"Beginning from me [Brahmā] down to you and Bhava [Śiva], all the great sages who were born before you, the demigods, the demons, the Nāgas, the human beings, the birds, the beasts, as well as the reptiles, etc., and all phenomenal manifestations of the universes, namely the planets, stars, asteroids, luminaries, lightning, thunder, and the inhabitants of the different planetary systems, namely the Gandharvas, Apsarās, Yakṣas, Rakṣas, Bhūtagaṇas, Uragas, Paśus, Pitās, Siddhas, Vidyādharas, Cāraṇas, and all other different varieties of living entities, including the birds, beasts, trees and everything that be, are all covered by the universal form of the Lord at all times, namely past, present and future.

The sun illuminates both internally and externally by expanding its radiation; similarly, the Supreme Personality of Godhead, by expanding His universal form, maintains everything in the creation both internally and externally.

The Supreme Personality of Godhead is the controller of immortality and fearlessness, and He is transcendental to death and the fruitive actions of the material world. O Nārada, O brāhmaṇa, it is therefore difficult to measure the glories of the Supreme Person."- Srimad Bhagavatam 2.6.13-18

There is a natural order and eternal is permanently protected [#soulfamily](#).

,

Life exists on other planets | HDG Srila Prabhupada | SB

3.12.19 | 26.09.2022

<https://www.youtube.com/watch?v=tCrPbKVp7Qs>

27. APPEARANCE OF LORD NRSIMHA

The layers of Vibrational fields work as barriers for those within the barriers. Those outside can come and go as required. That is what being in a higher position means. Avatar means to Descend.

The Intellectual Brahmins of old cultivated Spiritual knowledge but also imparted material education too. Unlike today the Science of Astrology was not the only field of expertise. Chanakya Pundit was one of the greatest Economic and Military strategist. The hierarchy for knowledge and power exists everywhere. It is the Nature or Order and Order of Nature.

No peace can exist without an Order. The righteous and followers of Dharma have to be at the top. It is only through Divine qualities at the Top that peace for all is possible. The Demonic will always use their resourcefulness and force to acquire power. That is their nature but with their rule comes destruction of Dharma and all that is sacred and all that is Truly God/Krishna consciousness. Hence Lord is the Maintainer of the Universe and the Devotees.

"O brāhmaṇas, the incarnations of the Lord are innumerable, like rivulets flowing from inexhaustible sources of water.

All the ṛṣis, Manus, demigods and descendants of Manu, who are especially powerful, are plenary portions or portions of the plenary portions of the Lord. This also includes the Prajāpatīs.

All of the above-mentioned incarnations are either plenary portions or portions of the plenary portions of the Lord, but Lord Śrī Kṛṣṇa is the original Personality of Godhead.

All of them appear on planets whenever there is a disturbance created by the atheists. The Lord incarnates to protect the theists."- Srimad Bhagavatam 1.3.26-28

All are equal Spiritually but Modes of Material nature splits the spiritual souls by their choices into different bodily forms. Thus, each acts by the nature/order they have acquired.

"So as not to disrupt the minds of ignorant men attached to the fruitive results of prescribed duties, a learned person should not induce them to stop work. Rather, by working in the spirit of devotion, he should engage them in all sorts of activities [for the gradual development of Kṛṣṇa consciousness].

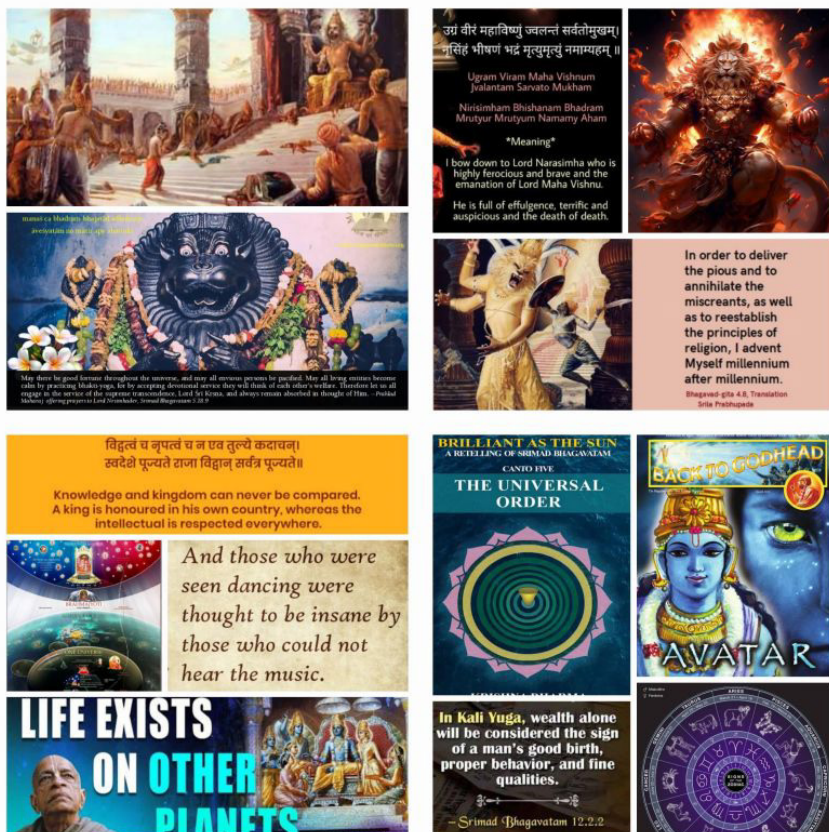

The spirit soul bewildered by the influence of false ego thinks himself the doer of activities that are in actuality carried out by the three modes of material nature."- Krishna (Bhagavad Gita 3.26-27)

Thus the Demigods are Devotees and Demons are not. No matter how high one reaches in material wealth and Power without Devotion it comes to an end. All that is given can be taken.

Demon Hiranyakashipu tried to become immortal using boons from Brahma. But without any Devotion his desire to become the Lord of the Universe was never for protection of Dharma. The enemy of the Devotees was therefore destroyed despite his unprecedented power and abilities.

To preserve nature Lord can take seemingly Unnatural incarnations. But they all have permanent Planets where they descend from.

Happy Appearance Day of Lord Narsimha [#soulfamily](#).

"If You Know Krishna, You Know Everything" Srila

Prabhupada's Lecture -4th October 1968 Seattle,USA

<https://www.youtube.com/watch?v=lna60POg8kl>

28. ASCENSION OF CONSCIOUSNESS

Nature is circular without ascension of consciousness. Then we are in another circle of influence that can see past the dualities and acts for a purpose because material nature has little control.

"O Supreme Lord, You are not an ordinary living entity appearing in this material world as a result of fruitive activities. Therefore, Your appearance or birth in this world has no other cause than Your pleasure potency. Similarly, the living entities, who are part of You, have no cause for miseries like birth, death and old age, except when these living entities are conducted by Your external energy.

O supreme controller, Your Lordship previously accepted incarnations as a fish, a horse, a tortoise, Narasimhadeva, a boar, a swan, Lord Rāmacandra, Paraśurāma and, among the demigods, Vāmanadeva, to protect the entire world by Your mercy. Now please protect us again by Your mercy by diminishing the disturbances in this world. O Kṛṣṇa, best of the Yadus, we respectfully offer our obeisances unto You." - Srimad Bhagvatam 10.2.39-40

So when we speak of Fallen Angels the operating words is not 'Fallen' rather it is 'Angel'. Because when we consider the Grand plan that God has in mind, we must understand that it is to raise our consciousness and attachment to God. So we may seek him and not fall- in the lower circle.

"To deliver the pious and to annihilate the miscreants, as well as to reestablish the principles of religion, I Myself appear, millennium after millennium.

One who knows the transcendental nature of My appearance and activities does not, upon leaving the body, take his birth again in this material world, but attains My eternal abode, O Arjuna.

Being freed from attachment, fear and anger, being fully absorbed in Me and taking refuge in Me, many, many persons in the past became purified by knowledge of Me – and thus they all attained transcendental love for Me."- Krishna (Bhagavad Gita 4.8-10)

This applies to the story of Lord Narsimha and Hiranyakashipu too. Jai was a fallen Angel from Vaikuntha, cursed to fall and blessed to serve the lord in Veerya Rasa (Relationship of an enemy) to give the Lord the joy of Fighting. Something no ordinary mortal could do.

"The Lord then said to His attendants, Jaya and Vijaya: Depart this place, but fear not. All glories unto you. Though I am capable of nullifying the brāhmaṇas' curse, I would not do so. On the contrary, it has My approval."- Srimad Bhagvatam 3.16.29

Do your Dharma without attachment, do not judge, hate or fear, for we do not know the Spiritual status of those with us on Material planes [#soulfamily](#). That is the key to moving out of the smaller circles and ascending into higher circles of Service of God.

"Therefore, Arjuna, you should always think of Me in the form of Kṛṣṇa and at the same time carry out your prescribed duty of fighting. With your activities dedicated to Me and your mind and intelligence fixed on Me, you will attain Me without doubt."- Krishna (Bhagvad Gita 8.7)

Links:

Narasimha Chaturdashi Special Class 2024 - Lessons from Lord Narasimha, Prahlad and Hiranyakashipu

https://www.youtube.com/watch?v=nqVmJE_5ltk

29. BEING OF LIGHT

Drawn to discussion on beings of Light; the challenge to conceive the nature and purpose of higher beings is understandable.

"O Kṛṣṇa, I totally accept as truth all that You have told me. Neither the demigods nor the demons, O Lord, can understand Your personality.

Indeed, You alone know Yourself by Your own internal potency, O Supreme Person, origin of all, Lord of all beings, God of gods, Lord of the universe!"- Krishna (Bhagavad Gita 10.14-15)

Demigods work in mode of Goodness and Demons in mode of Ignorance. The devotees in mode of Pure Goodness who see God everywhere fall are a category above.

"All purposes served by a small well can at once be served by a great reservoir of water. Similarly, all the purposes of the Vedas can be served to one who knows the purpose behind them."- Bhagavad Gita 2.46

The Liberated ones see past duality, in service of One. The eternal associates of God are committed to the most confidential services, their jurisdiction is over all Material planes/Dimensions [#soulfamily](#).

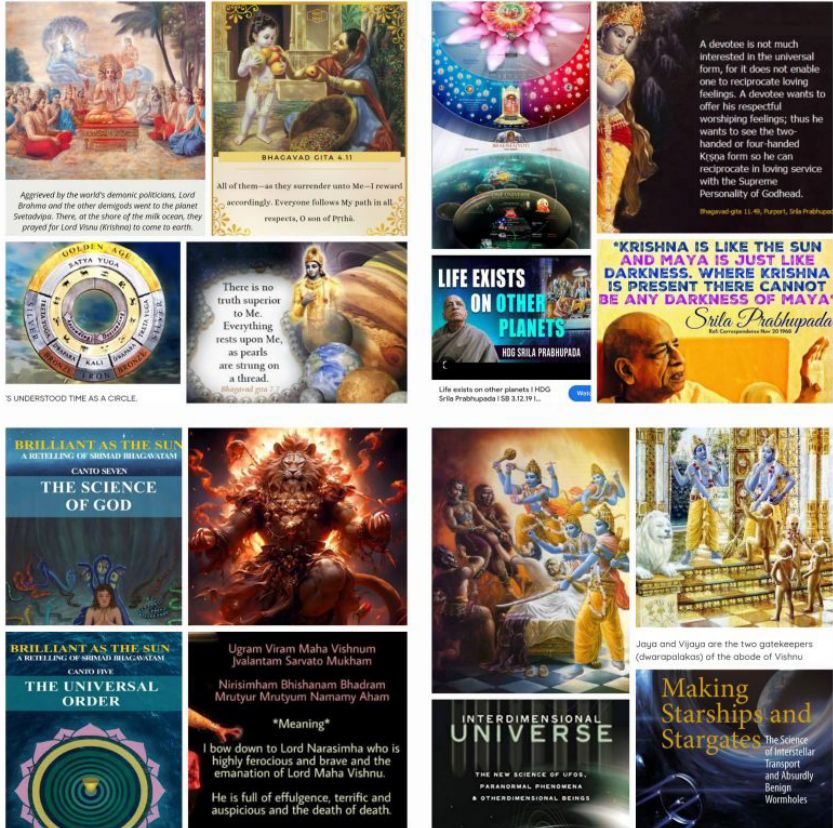

"Yamarāja said: My dear servants, you have accepted me as the Supreme, but factually I am not. Above me, and above all the other demigods, including Indra and Candṛa, is the one supreme master and controller. The partial manifestations of His personality are Brahmā, Viṣṇu and Śiva, who are in charge of the creation, maintenance and annihilation of this universe.

He is like the two threads that form the length and breadth of a woven cloth. The entire world is controlled by Him just as a bull is controlled by a rope in its nose...

I, Yamarāja; Indra, the King of heaven; Nirṛti; Varuṇa; Candra, the moon-god; Agni; Lord Śiva; Pavana; Lord Brahmā; Sūrya, the sun-god; Viśvāsu; the eight Vasus; the Sādhya; the Maruts; the Rudras; the Siddhas; and Marīci and the other great ṛṣis engaged in maintaining the departmental affairs of the universe, as well as the best of the demigods headed by Bṛhaspati, and the great sages headed by Bhṛgu are all certainly freed from the influence of the two base material modes of nature, namely passion and ignorance. Nevertheless, although we are in the mode of goodness, we cannot understand the activities of the Supreme Personality of Godhead. What, then, is to be said of others, who, under illusion, merely speculate to know God?

As the different limbs of the body cannot see the eyes, the living entities cannot see the Supreme Lord, who is situated as the Supersoul in everyone's heart. Not by the senses, by the mind, by the life air, by thoughts within the heart, or by the vibration of words can the living entities ascertain the real situation of the Supreme Lord.

The Order Carriers of Lord Viṣṇu, who are worshiped even by the demigods, possess wonderful bodily features exactly like those of Viṣṇu and are very rarely seen. The Viṣṇudūtas protect the devotees of the Lord from the hands of enemies, from envious persons and even from my jurisdiction, as well as from natural disturbances."- Srimad Bhagvatam 6.3.12-18

Links:

Mood, character, actions, preachings and goals of Supreme Lord, demigods, Prahlad and Hiranyakashipu

<https://www.youtube.com/watch?v=UMRqszZ7NMk>

30. THE GREAT AWAKENING

The objective of Great Awakening is not to give the answers but encourage asking of important questions. One cannot get answers if they are not curious about the purpose of life.

The evolved human form is to seek, analyse the nature of temporary reality and our existence. Those who take reality lying down are considered to be sleeping. 'Eat, drink and be merry' is not the objective of human birth. Vedas/Knowledge direct seeking a permanent solution to life's problems.

'Athato Brahma Jijnasa'

"Now is the time to inquire about the Absolute Truth."- Vedānta sutra 1.1.1

Attempt to know God or 'Know thyself'; one should lead to the understanding of other. The soul is relative to the Supersoul.

"The living entities in this conditioned world are My eternal, fragmental parts. Due to conditioned life, they are struggling very hard with the six senses, which include the mind."- Krishna (Bhagavad Gita 15.7)

There can be no growth if people do not awake, to know the higher knowledge and a higher purpose.

"Both by rising and by setting, the sun decreases the duration of life of everyone, except one who utilizes the time by discussing topics of the all-good Personality of Godhead.

Do the trees not live? Do the bellows of the blacksmith not breathe? All around us, do the beasts not eat and discharge semen?

Men who are like dogs, hogs, camels and asses praise those men who never listen to the transcendental pastimes of Lord Śrī Kṛṣṇa, the deliverer from evils.

One who has not listened to the messages about the prowess and marvellous acts of the Personality of Godhead and has not sung or chanted loudly the worthy songs about the Lord is to be considered to possess earholes like the holes of snakes and a tongue like the tongue of a frog.

The upper portion of the body, though crowned with a silk turban, is only a heavy burden if not bowed down before the Personality of Godhead who can award mukti [freedom]. And the hands, though decorated with glittering bangles, are like those of a dead man if not engaged in the service of the Personality of Godhead Hari.

The eyes which do not look at the symbolic representations of the Personality of Godhead Viṣṇu [His forms, name, quality, etc.] are like those printed on the plumes of the peacock, and the legs which do not move to the holy places [where the Lord is remembered] are considered to be like tree trunks." - Srimad Bhagvatam 2.3.17-22

Theoretical knowledge is a small part of our education; the experience of self-realization is the Awakening. So take the hints, ask the questions, introspect and seek the truth for yourself [#soulfamily](#).

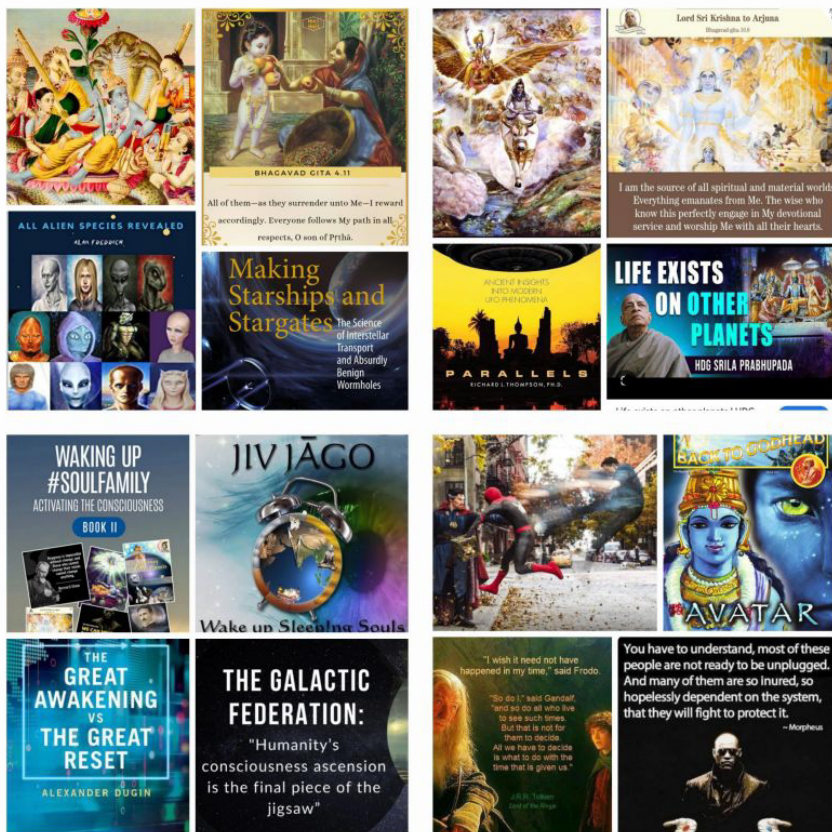

"Just try to learn the truth by approaching a spiritual master. Inquire from him submissively and render service unto him.

Waking up #Soulfamily

The self-realized soul can impart knowledge unto you because he has seen the truth.

And when you have thus learned the truth, you will know that all living beings are but part of Me—and that they are in Me, and are Mine."- Krishna (Bhagavad Gita 4.34-35)

31. THE ASCENSION

In the spirit of asking the right questions, let us make the observation of the vast diversity on this planet and extrapolate through imagination the diversity on many others. Then the logical question is, how can we consider God an amorphous impersonal entity when in his Grandeur and unlimitedness he can take innumerable opportunities for personalized interactions.

“[Lord Brahmā said:] ‘I am engaged by the Supreme Personality of Godhead to create. Following His orders, Lord Śiva dissolves everything. The Supreme Personality of Godhead in His form of Kṣīrodakaśāyī Viṣṇu maintains all the affairs of material nature. Thus, the supreme controller of the three modes of material nature is Lord Viṣṇu.’

O Sanātana, now just hear about the incarnations who appear during the reign of each Manu [manvantara-avatāras]. They are unlimited, and no one can count them. Just hear of their source.

In one day of Brahmā, there are fourteen changes of the Manus, and during the reign of each of those fourteen Manus, an incarnation is manifested by the Supreme Personality of Godhead.

There are 14 manvantara-avatāras in one day of Brahmā, 420 in one month, and 5,040 in one year.

During the hundred years of Brahmā's life, there are 504,000 manvantara-avatāras.

The number of manvantara-avatāras for only one universe has been given. One can only imagine how many manvantara-avatāras exist in the innumerable universes. And all these universes and Brahmās exist only during one exhalation of Mahā-Viṣṇu.

There is no limit to the exhalations of Mahā-Viṣṇu. Just see how impossible it is to speak or write of only the manvantara-avatāras!"- Chaitanya Charitamrata Madhya Lila 20.318-324

God and Demigods are Spiritual Extra Terrestrials too. To be asleep to the possibility of God's unlimitedness is ignorance. There is a Natural diversity and Natural order to all Space and Time and we need to awaken ourselves to the Material and Spiritual creativity of the Creator.

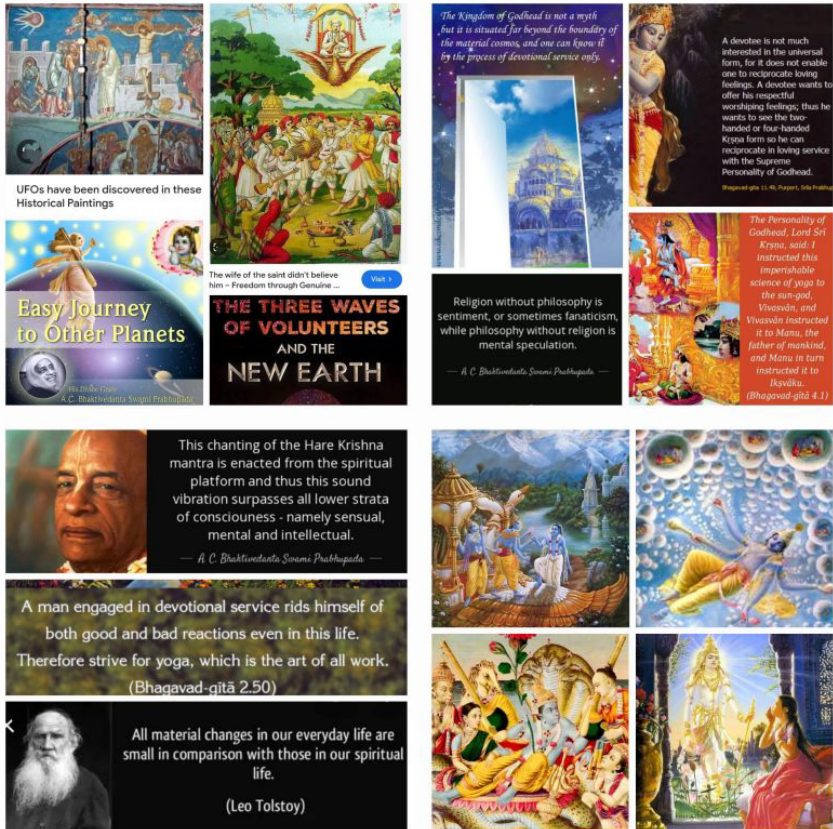

"O Sanātana, now hear from Me about the yuga-avatāras, the incarnations for the millenniums. First of all, there are four yugas — Satya-yuga, Tretā-yuga, Dvāpara-yuga and Kali-yuga.

In the four yugas — Satya, Tretā, Dvāpara and Kali — the Lord incarnates in four colors: white, red, black and yellow respectively. These are the colors of the incarnations in different millenniums."- Chaitanya Charitamrata Madhya Lila 20.329-330

The story of the great devotee Tukaram's ascension to Vaikuntha planets is only a few hundred years old. As ever shrouded in disbelief the disclosure had numerous first hand witnesses. A well documented inspirational recent history. Who is to say it cannot happen again [#soulfamily](#)? Believe!

"To those who are constantly devoted to serving Me with love, I give the understanding by which they can come to Me."- Krishna (Bhagvad Gita 10.10)

Seek and you shall find - So seek the Supreme Personality of Godhead and he will reciprocate accordingly.

32. THE SHIFT

Everyone is continually shifting. Shifting more and more into the beliefs that make them who they are at that moment and the moments they are going to be in. Co-creating our reality is also a full-time job that we do for free.

As discussed previously, Tukaram was creating his reality through Daily devotional service, with steadying the frequency of his holy names, he was also steadying the frequency to match that of Vaikuntha or Spiritual Planets.

"The supreme occupation [dharma] for all humanity is that by which men can attain to loving devotional service unto the transcendent Lord. Such devotional service must be Unmotivated and Uninterrupted to completely satisfy the self."- Srimad Bhagvatam 1.2.6

There is no way that transformation happened in a day, the transformation was daily work for years and many sacrifices to go with it.

"By rendering devotional service unto the Personality of Godhead, Śrī Kṛṣṇa, one immediately acquires causeless knowledge and detachment from the world.

The occupational activities a man performs according to his own position are only so much useless labor if they do not provoke attraction for the message of the Personality of Godhead.

All occupational engagements are certainly meant for ultimate liberation. They should never be performed for material gain.

Furthermore, according to sages, one who is engaged in the ultimate occupational service should never use material gain to cultivate sense gratification.

Life's desires should never be directed toward sense gratification. One should desire only a healthy life, or self-preservation, since a human being is meant for inquiry about the Absolute Truth. Nothing else should be the goal of one's works."- Srimad Bhagvatam 1.2.7-10

It is the shift of physical Ascension on the Garuda that happened in a few Amazing moments that left his old world in Awe [#soulfamily](#).

"Learned transcendentalists who know the Absolute Truth call this nondual substance Brahman, Paramātmā or Bhagavān.

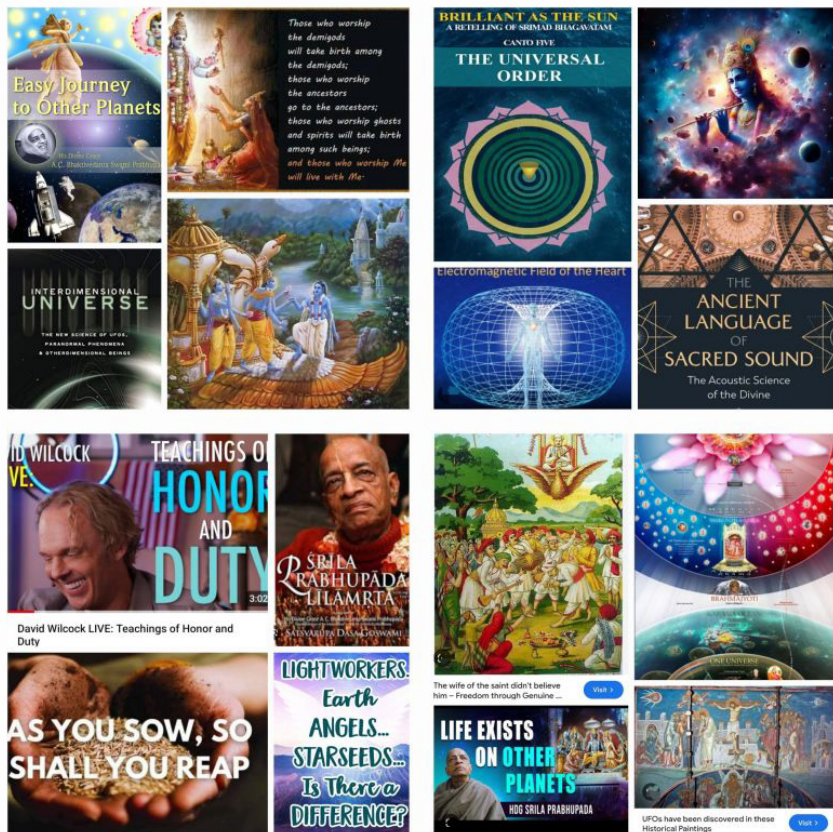

The seriously inquisitive student or sage, well equipped with knowledge and detachment, realizes that Absolute Truth by rendering devotional service in terms of what he has heard from the Vedānta-śruti.

O best among the twice-born, it is therefore concluded that the highest perfection one can achieve by discharging the duties prescribed for one's own occupation according to caste divisions and orders of life is to please the Personality of Godhead.

Therefore, with one-pointed attention, one should constantly hear about, glorify, remember and worship the Personality of Godhead, who is the protector of the devotees.

With sword in hand, intelligent men cut through the binding knots of reactionary work [karma] by remembering the Personality of Godhead. Therefore, who will not pay attention to His message?"- Srimad Bhagvatam [1.2.11.14](#)

Yet people don't and thus with varied intelligence comes variety and hierarchy. This variety in knowledge and behaviour solidifies into a natural order.

33. MATCHING DESTINATIONS AND FREQUENCIES

Talking about Frequency and Shifts; what happens with any shift? Since no two people are alike there is movement, there is frictions, fractions or fraternity. Most bonds are built on material relationships of body and bodily interests. As consciousness rises people's spiritual preferences come to light and the deviations become visible. The challenges appear on physical platform and we seek [#soulfamily](#).

We win or we learn. That is life and the same applies to our family or circumstances. Those/That which does not come to love us, come to teach us how rise to new heights. They help is evaluate and develop our character and test our choices. Those who seek spiritual growth do not bear grudges they understand the dualities of life and rise to say Thank you for the opportunity.

Our very own senses and mind are constantly pushing us to in all the wrong direction, then what can be said for other bodies, who have less of a vested interest. Who do we blame when the teeth bite the tongue?

"The senses are so strong and impetuous, O Arjuna, that they forcibly carry away the mind even of a man of discrimination who is endeavoring to control them.

One who restrains his senses, keeping them under full control, and fixes his consciousness upon Me, is known as a man of steady intelligence.

While contemplating the objects of the senses, a person develops attachment for them, and from such attachment lust develops, and from lust anger arises.

From anger, complete delusion arises, and from delusion bewilderment of memory. When memory is bewildered, intelligence is lost, and when intelligence is lost one falls down again into the material pool.

But a person free from all attachment and aversion and able to control his senses through regulative principles of freedom can obtain the complete mercy of the Lord.

For one thus satisfied [in Kṛṣṇa consciousness], the threefold miseries of material existence exist no longer; in such satisfied consciousness, one's intelligence is soon well established.

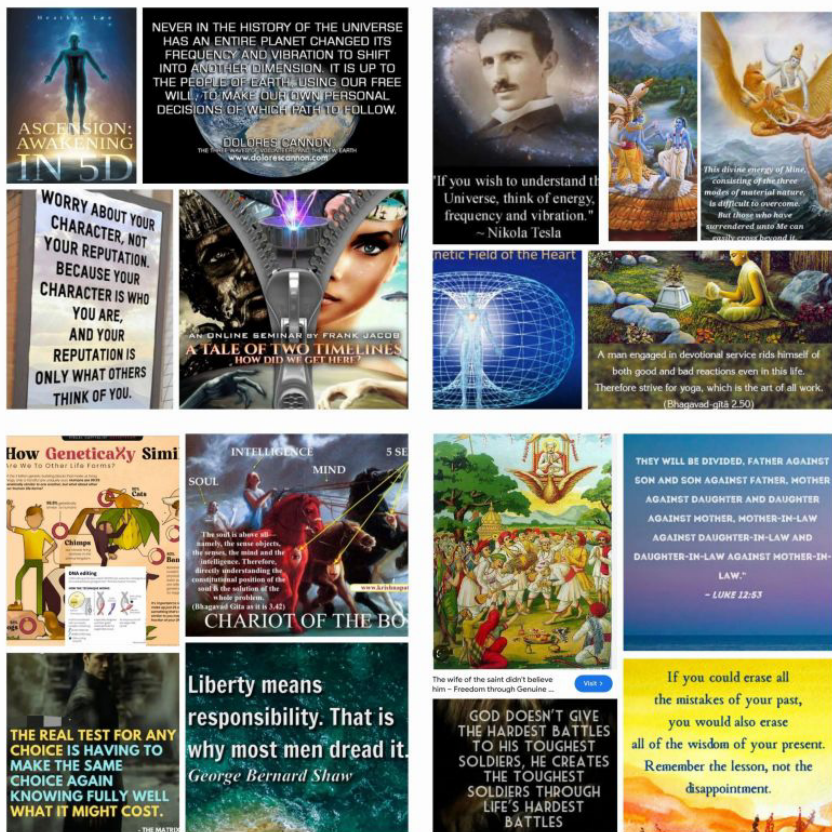

One who is not connected with the Supreme [in Kṛṣṇa consciousness] can have neither transcendental intelligence nor a steady mind, without which there is no possibility of peace. And how can there be any happiness without peace?"- Krishna (Bhagavad Gita 2.60-66)

As individuals with Sovereignty and free will the onus to control the mind is on us. Our peace and progress results from our choices and actions. Sometimes the choices of some members of family do not align to the others, hence different frequencies- A natural order of higher and lower.

"What is night for all beings is the time of awakening for the self-controlled; and the time of awakening for all beings is night for the introspective sage.

Waking up #Soulfamily

A person who is not disturbed by the incessant flow of desires – that enter like rivers into the ocean, which is ever being filled but is always still – can alone achieve peace, and not the man who strives to satisfy such desires."- Krishna (Bhagavad Gita 2.69-70)

https://www.youtube.com/watch?v=hOgbE_50SNY

34. FREEDOM AND LIBERTY

Everyone loves their freedom, they don't recognize their Liberties and duties. We want the freedom to choose but choices have repercussions and consequences. Those on the top of the food chain always think that they have the freedom to remove the Liberties of those under them. The Managers of resources are not Leaders of a vision.

It all seems fair when one is winning. The popular saying 'All is fair in love and war' is far from the truth. There are always rules of engagement and when rules are broken, the science of every action has equal opposite reaction comes into play. Risks and Rewards are always part of the Pricing strategies in any commercial venture.

God's creation is the most creative and self-balancing venture. God's laws are the highest laws. Dharma is Righteousness and it grants Liberties through the Human opportunity. Following Dharma leads to higher leadership. And abuse of unrestricted freedoms lead to demotion. Thus, the cycle of time moves correcting everything and everyone to natural order in accordance with their actions.

"Those who are demoniac do not know what is to be done and what is not to be done. Neither cleanliness nor proper behaviour nor truth is found in them.

They say that this world is unreal, with no foundation, no God in control. They say it is produced of sex desire and has no cause other than lust.

Following such conclusions, the demoniac, who are lost to themselves and who have no intelligence, engage in unbeneficial, horrible works meant to destroy the world.

Taking shelter of insatiable lust and absorbed in the conceit of pride and false prestige, the demoniac, thus illusioned, are always sworn to unclean work, attracted by the impermanent.

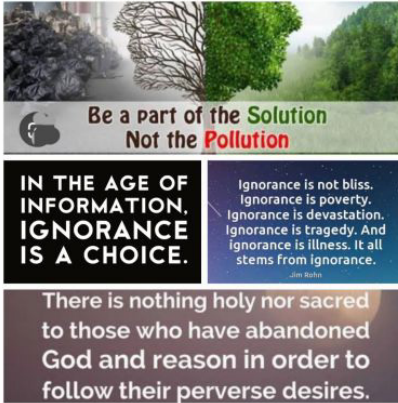

They believe that to gratify the senses is the prime necessity of human civilization. Thus until the end of life their anxiety is immeasurable. Bound by a network of hundreds of thousands of desires and absorbed in lust and anger, they secure money by illegal means for sense gratification." - Krishna (Bhagavad Gita 16.7-12)

There is freedom to resonate with Divine and Demonic. Our thoughts and actions cultivate the nature of the future. The Liberties are granted according to what we sow. Some plant fruits and some plant weeds.

When we lose compassion we harm others we don't like. With loss of rationality, we consciously become risk to those we love. The unrestrained appetite for powerful weapons and slaughter is a path to catastrophic destruction. When the stakes are too high and risk of catastrophe is too large then intervention becomes necessary. God takes matter in his hands and/or allocates responsibilities [#soulfamily](#).

"Whenever and wherever there is a decline in religious practice, O descendant of Bharata, and a predominant rise of irreligion – at that time I descend Myself.

To deliver the pious and to annihilate the miscreants, as well as to reestablish the principles of religion, I Myself appear, millennium after millennium." - Krishna (Bhagavad Gita 4.7-8)

āhāra-nidrā-bhaya-maithunāṁ ca
sāmānyam etat paśubhir naraṇām
dharmo hi teṣāṁ adhiko viśeṣo
dharmena hināṇ paśubhiḥ samānāḥ

Translation - Eating, sleeping, sex, and defense—these four principles are common to both human beings and animals. The distinction between human life and animal life is "Dharma"

Humans have the ability to inquire "Who am I? Who is God? What is this World? Why am I suffering?" which animals lack.

Of all the animals, man is the only one that is cruel. He is the only one that inflicts pain for the pleasure of doing it.

MARK TWAIN

Too much freedom can lead to the soul's decay.

Prince

Liberty means responsibility. That is why most men dread it.

George Bernard Shaw

<https://www.youtube.com/watch?v=IB19InBs0N4>

35. KNOWLEDGE IS POWER

As discussed, Life to the modern Atheistic is result of random possibilities of unconscious impersonal universe, and Time is best used for maximising sense enjoyments.

The Demonic of the past were not ignorant and were well versed in Science and Spirituality. The Demon Hiranyakshipu performed severe austerities for Spiritual powers. He even gave spiritual instructions to his family members after his brother was slain at the hands of Lord Vishnu.

"Hiraṇyakaśipu said: While Yamarāja, in the form of a small boy, was instructing all the relatives surrounding the dead body of Suyajña, everyone was struck with wonder by his philosophical words. They could understand that everything material is temporary, not continuing to exist.

After instructing all the foolish relatives of Suyajña, Yamarāja, in the form of a boy, disappeared from their vision. Then the relatives of King Suyajña performed the ritualistic funeral ceremonies.

Therefore none of you should be aggrieved for the loss of the body — whether your own or those of others. Only in ignorance does one make bodily distinctions, thinking “Who am I? Who are the others? What is mine? What is for others?”

Śrī Nārada Muni continued: Diti, the mother of Hiraṇyakaśipu and Hiraṇyākṣa, heard the instructions of Hiraṇyakaśipu along with her daughter-in-law, Ruṣābhānu, Hiraṇyākṣa's wife. She then forgot her grief over her son's death and thus engaged her mind and attention in understanding the real philosophy of life."- Srimad Bhagvatam 7.2.58-61)

Yet due to uncontrolled ego, he tried to be God to all who were weaker. The difference between the Demons and Divine is that the Divine see God EVERYWHERE! And most closely within their devoted heart's.

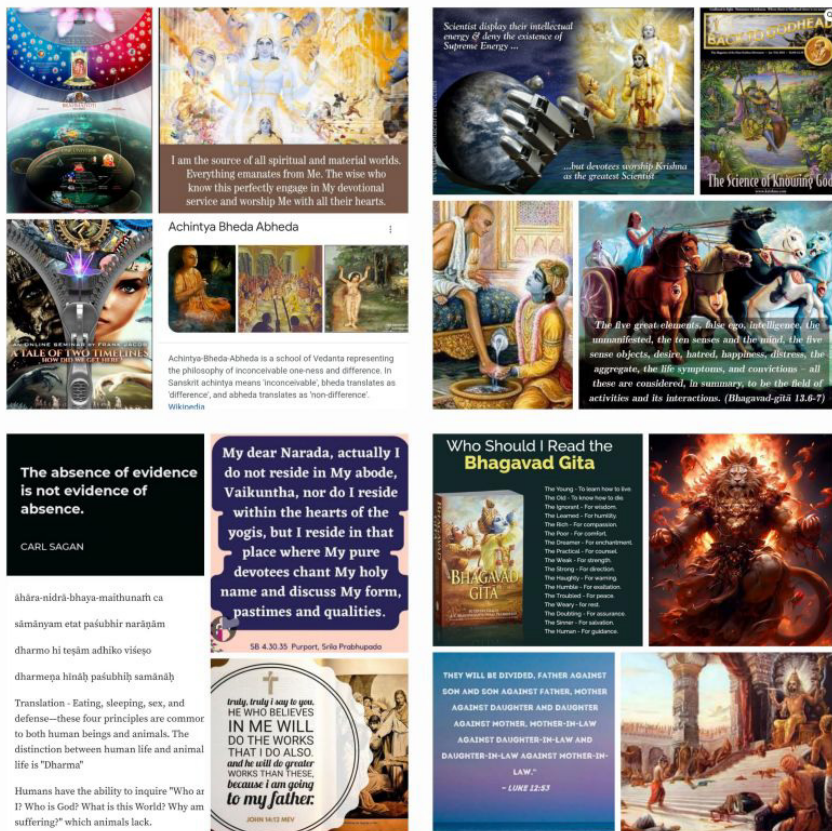

"I worship Govinda, the primeval Lord, who is Śyāmasundara, Kṛṣṇa Himself with inconceivable innumerable attributes, whom the pure devotees see in their heart of hearts with the eye of devotion tinged with the salve of love." - Brahma Samhita 5.38

Everyone is cast into circumstances to test their Spirituality. Spiritual Knowledge is useless without Divine act of Devotion. God is devoted to his devotees too [#soulfamily](#).

"To prove that the statement of His servant Prahlaḍa Mahārāja was substantial — in other words, to prove that the Supreme Lord is present everywhere, even within the pillar of an assembly hall — the Supreme Personality of Godhead, Hari, exhibited a wonderful form never before seen. The form was neither that of a man nor that of a lion. Thus, the Lord appeared in His wonderful form in the assembly hall." - Srimad Bhagvatam 7.8.17

The Source- Supreme Personality of Godhead cherishes his relationships as we do. He also loves to play games/pastimes in different moods with his eternal servants in his infinite creations. Time is best used in service.

"I envy no one, nor am I partial to anyone. I am equal to all. But whoever renders service unto Me in devotion is a friend, is in Me, and I am also a friend to him."- Krishna (Bhagvad Gita 9.29)

36. KOWING THE ALL KNOWER

There is a lot provided by the Divine that we take for granted. Irrespective of one's belief the basic necessities are provided for free to everyone. The system operates without our intervention with gateways and barriers as needed. All Time and Space is controlled by the Divine energies.

The original cause of the cosmic manifestation is the Supreme Personality of Godhead, Nārāyaṇa. When great saintly persons, fully aware of the Vedic knowledge, offered prayers to the Supreme Person, He descended to this material world in the form of the sun to benefit all the planets and purify fruitive activities. He divided Himself into twelve parts and created seasonal forms, beginning with spring. In this way He created the seasonal qualities, such as heat, cold and so on." - Srimad Bhagvatam 5.22.3

Because the Supreme is everywhere even the Sun is a plenary representation within each material universe. And then there are many moving and non moving objects and life forms and the processes relating to each.

"Among all means of suppressing lawlessness I am punishment, and of those who seek victory I am morality. Of secret things I am silence, and of the wise I am the wisdom.

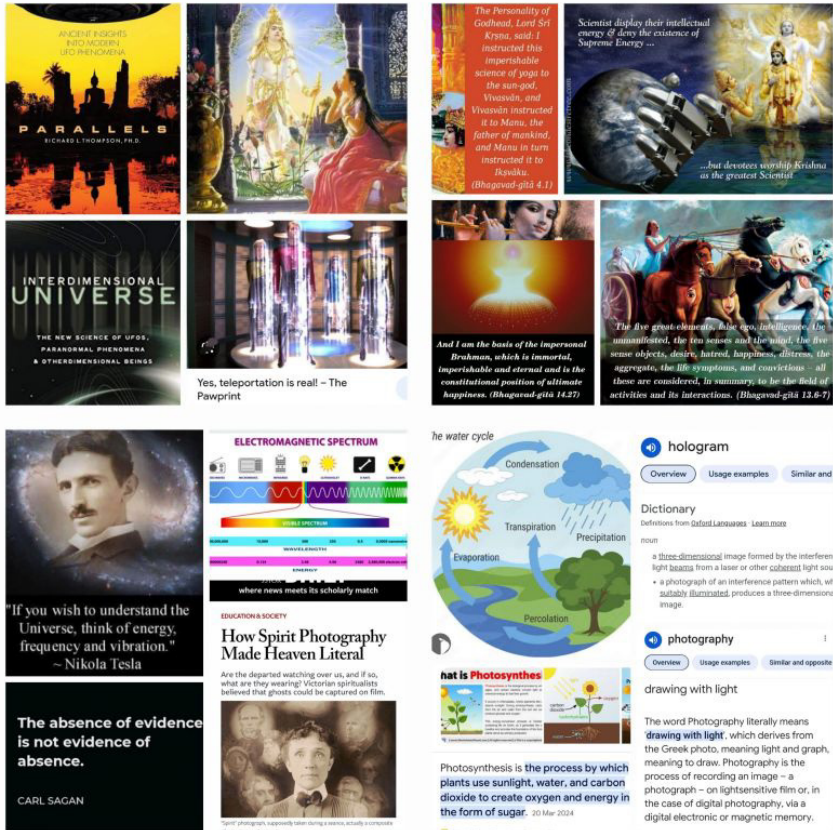

Furthermore, O Arjuna, I am the generating seed of all existences. There is no being – moving or nonmoving – that can exist without Me."- Krishna (Bhagavad Gita 10.38-39)

The Scientific discover what already exists, through research or will of God. But when they start to invent their own laws, controls and processes they begin to think God doesn't exist and nothing else exists either- everything is just holographic. What then is the purpose of reincarnation cycles [#soulfamily](#)?

"I am separated from the Supreme Lord because of my being in this material body, which is made of five elements, and therefore my qualities and senses are being misused, although I am essentially spiritual. Because the Supreme Personality of Godhead is transcendental to material nature and the living entities, because He is devoid of such a material body, and because He is always glorious in His spiritual qualities, I offer my obeisances unto Him.

The human soul further prays: The living entity is put under the influence of material nature and continues a hard struggle for existence on the path of repeated birth and death. This conditional life is due to his forgetfulness of his relationship with the Supreme Personality of Godhead. Therefore, without the Lord's mercy, how can he again engage in the transcendental loving service of the Lord?

No one other than the Supreme Personality of Godhead, as the localized Paramātmā, the partial representation of the Lord, is directing all inanimate and animate objects. He is present in the three phases of time — past, present and future. Therefore, the conditioned soul is engaged in different activities by His direction, and in order to get free from the threefold miseries of this conditional life, we have to surrender unto Him only."- Srimad Bhagvatam 3.31.15-16

Links:

What is the problem of life? 1974 [May 30]

<https://www.youtube.com/watch?v=beKxDVH1Tv8>

37. CYCLES OF BLACK AND WHITE

Continuing on the topic of cycles of reincarnations, we notice these cycles appear in nature in cycles of day/Nights, seasons and yuga cycles and so forth. Without having a spiritual context to our existence, we are likely to use our attachments to our current state to form opinions around our likes, dislikes and matters or Pride and Patriotism. Everyone things their country is the greatest, when cycles of creation and destruction have occurred on numerous occasions all over the world and all the histories are full of errors. We are too quick to judge others and very slow to judge ourselves.

"One who identifies his self as the inert body composed of mucus, bile and air, who assumes his wife and family are permanently his own, who thinks an earthen image or the land of his birth is worshipable, or who sees a place of pilgrimage as merely the water there, but who never identifies himself with, feels kinship with, worships or even visits those who are wise in spiritual truth — such a person is no better than a cow or an ass."
- Srimad Bhagvatam 10.84.13

Without this Spiritual higher level thinking we close ourselves into boxes of boundaries that benefit no one. So if there was an institution/Organization or a collective that was to be made in-charge of the planet it would have to rise over the petty differences to manage the cycles of development and growth. Such organizations may be even exist at Solar system, Galactic or even Universal level. Without rise in consciousness we cannot see the commonality. Without rise in commonality we cannot perceive Unity; without perception of Unity we cannot be sufficiently concerned for the welfare of others.

Without sufficient opening of the heart one cannot be given Greater Power and Responsibility.

They say 'Dress up for the job you want and not the one you have'. We are all motivated by certain desires and ambitions. These desires carry us forward into co-creation of the reality we want.

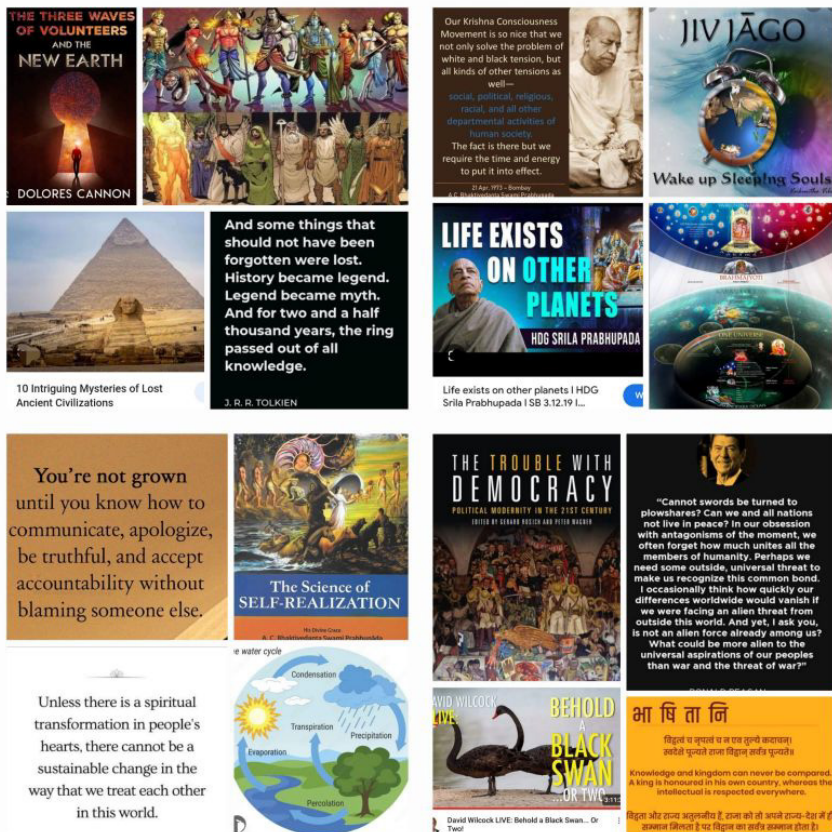

"The living entity in the material world carries his different conceptions of life from one body to another, as the air carries aromas. Thus, he takes one kind of body and again quits it to take another.

The living entity, thus taking another gross body, obtains a certain type of ear, eye, tongue, nose and sense of touch, which are grouped about the mind. He thus enjoys a particular set of sense objects.

The foolish cannot understand how a living entity can quit his body, nor can they understand what sort of body he enjoys under the spell of the modes of nature. But one whose eyes are trained in knowledge can see all this.

The endeavoring transcendentalists who are situated in self-realization can see all this clearly. But those whose minds are not developed and who are not situated in self-realization cannot see what is taking place, though they may try."- Krishna (Bhagvad Gita 15.8-11)

So, placing oneself in the transcendental position, what is it that you would do to obtain a Universal Harmony [#soulfamily](#)?

38. CATASTROPHIC DISCLOSURES

Catastrophic disclosure it is then! To assume silence as consent seems to be valid controlled experiment. Those that are truly awake can be the true heads of a family body. The remaining population continue to work on tasks based on their modes of nature.

"When a man desires sense gratification, being attached to family life, and when he consequently becomes established in religious and occupational duties, the combination of the modes of nature is manifest.

A person exhibiting qualities such as self-control is understood to be predominantly in the mode of goodness. Similarly, a passionate person is recognized by his lust, and one in ignorance is recognized by qualities such as anger.

Any person, whether man or woman, who worships Me with loving devotion, offering his or her prescribed duties unto Me without material attachment, is understood to be situated in goodness. - Srimad Bhagvatam (11.25.8-10)

The whole planet does not need to make a decision for the Interdimensional Council. They are able to read minds. They don't need machines to count votes or feel the need to gain opinions of the representative leaders. Each person is sovereign representation of the Supreme Personality of Godhead when they realise/Remember their Spiritual Identity. Then their every choice for the greater good/bad is a part of a REFERENDUM. The minimum to hold a referendum was met and the now the Decision has been made.

"There are two classes of beings, the fallible and the infallible. In the material world every living entity is fallible, and in the spiritual world every living entity is called infallible.

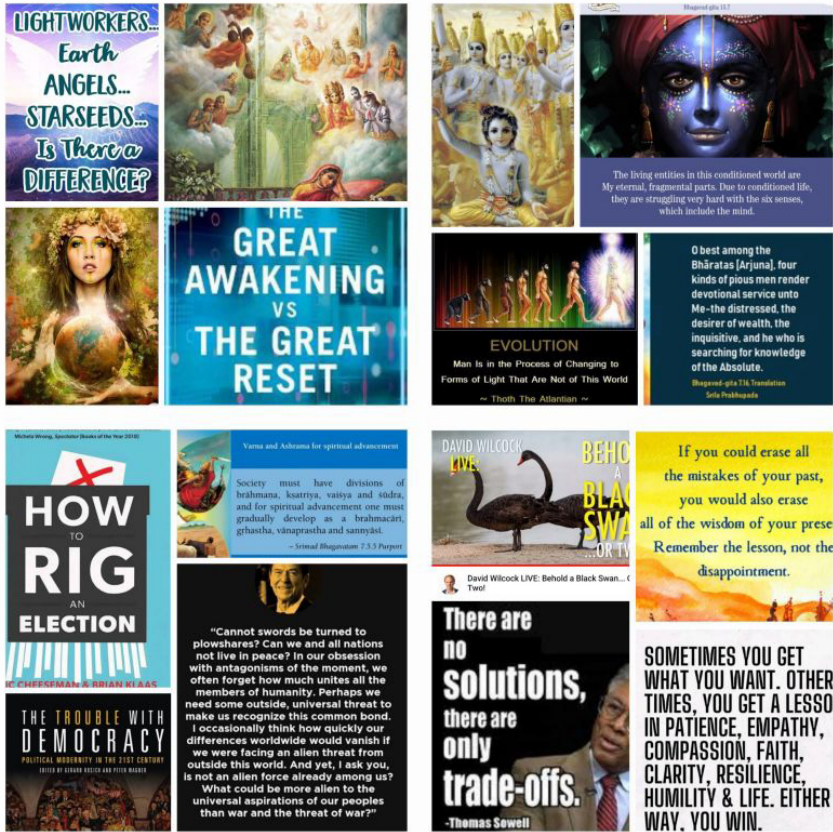

Besides these two, there is the greatest living personality, the Supreme Soul, the imperishable Lord Himself, who has entered the three worlds and is maintaining them.

Because I am transcendental, beyond both the fallible and the infallible, and because I am the greatest, I am celebrated both in the world and in the Vedas as that Supreme Person."- Krishna (Bhagvad Gita 15.16-18)

Those who do not see God/Krishna as the Supreme Personality amongst all Spiritual personalities is not awakened to their true Identity Card. Only the consciously mature and awakened ones should be able to participate in the ELECTED DECISIONS for the Living and Loving Personality that is Earth/Gaia Body. All the remaining are Aliens to the concept of God/Krishna consciousness.

As discussed, there are organizations that are in place for Governance of a planets Spiritual Evolution. As It is inclusive by Merit it is a Transnational Operational from across Nations and Religions. Only the awakened ones Voluntarily think about the benefit of humanity at large. Thus, they co-create the reality of the planet through their collective consciousness. And they may not even know it [#soulfamily](#).

Light has won and now a change of Guard. Change is never easy. This transition into Spiritual Unity and love needs a degree of Unconditional love for God, because God does test before Qualifying.

Bhajan Marg

<https://www.youtube.com/watch?v=V6HUBj9lbuk>

39. APOCALYPSE!

Decisions are made by few in open and honest survey of the Leadership and it impacts all who follow.

"Kings such as Janaka attained perfection solely by performance of prescribed duties. Therefore, just for the sake of educating the people in general, you should perform your work.

Whatever action a great man performs, common men follow. And whatever standards he sets by exemplary acts, all the world pursues."- Krishna (Bhagavad Gita 3.20-21)

Education of people into Spiritual sciences is not an easy task. A lot is involved in describing the sciences that require some faith and is not open to tests like material sciences.

"In the beginning there must be faith. Then one becomes interested in associating with pure devotees. Thereafter one is initiated by the spiritual master and executes the regulative principles under his orders. Thus, one is freed from all unwanted habits and becomes firmly fixed in devotional service. Thereafter, one develops taste and attachment. This is the way of sādhanabhakti, the execution of devotional service according to the regulative principles. Gradually emotions intensify, and finally there is an awakening of love. This is the gradual development of love of Godhead for the devotee interested in God/Kṛṣṇa consciousness."- Chaitanya Charitamrata Madhya Lila 23.14-15

There is often little interest in the matter, especially in age of Kali when people are significantly deviated from the path of Dharma.

"A person's spiritual position will be ascertained merely according to external symbols, and on that same basis people will change from one spiritual order to the next. A person's propriety will be seriously questioned if he does not earn a good living. And one who is very clever at juggling words will be considered a learned scholar." - Symptoms of Kali-yuga, Srimad Bhagvatam 12.2.4

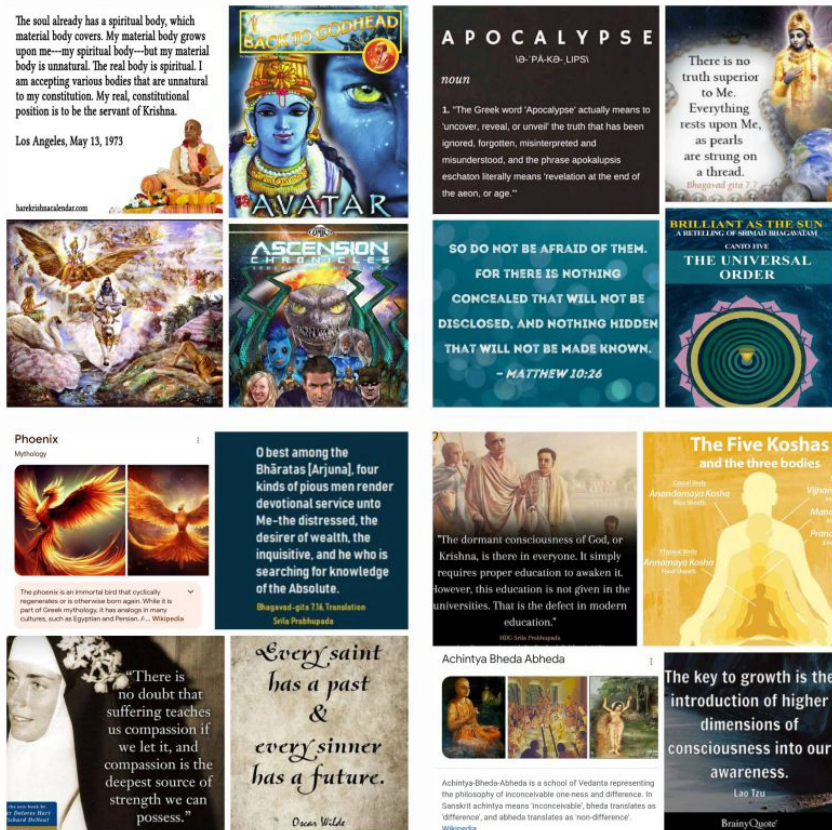

Most people don't like to be reminded of their mistakes. Hence, we tend to forget previous lifetimes, start anew, learn and do the best we can. The seed of our Spiritual Identity always exists even before the descending into various physical Avatars of Material World. When our consciousness grows the Spiritual seed slowly begins to grow and reflect its Original Spiritual Personality. The evolution occurs through Devotional process of self-realization.

Any sudden Event that triggers the process of Be'ing/Embodiment of what has been most cultivated in sharp and sudden way becomes part of the Catastrophic Disclosure. Every event in the Universe has to be sanctioned and there are no higher authority than Krishna.

"Those who worship the demigods will take birth among the demigods; those who worship ghosts and spirits will take birth among such beings; those who worship ancestors go to the ancestors; and those who worship Me will live with Me."- Krishna (Bhagvad Gita 9.25)

Information can be shadow banned on electronic mediums or hidden in Occult formats but Facts cannot remain hidden forever. All is revealed in the Apocalypse [#soulfamily](#).

Waking up #Soulfamily

40. PERSONALISED REVELATIONS

" I am in everyone's heart as the Supersoul. As soon as one desires to worship some demigod, I make his faith steady so that he can devote himself to that particular deity.

Endowed with such a faith, he endeavours to worship a particular demigod and obtains his desires. But in actuality these benefits are bestowed by Me alone."- Krishna (Bhagvad Gita 7.21-22)

In the ancient times people believed in God and his representative administrators as the Demigods, much like a King/President/Prime Minister and his administration for country affairs. With the change of times people begin to believe in the impersonal Universe and the invisible laws of nature that seem to operate without any aid. With that comes the belief of no controller and thus no possible saviour and no need to believe in God outside of oneself.

To believe in one's self is to see only what the limited senses can see. Thus we need scriptures and Teachers/Gurus. When one lacks the foresight and the appropriate lenses to see far into distance of space and time their judgment is limited and actions misled. No Revelations can happen for people who do not believe they will happen. That is the law of Attraction is it not? What we conceive, what we believe, we achieve!

So When the Apocalypse happens it happens for everyone differently. What one believes the Apocalypse means will decide whether one is left to laws of nature and attraction or whether the surrendered will be provided required knowledge and assistance.

Nature after all has its diversity and all surrender to the One, with or without their choice, because faith is relative but Facts are Undisputed and an Absolute Science [#soulfamily](#).

"Being freed from attachment, fear and anger, being fully absorbed in Me and taking refuge in Me, many, many persons in the past became purified by knowledge of Me – and thus they all attained transcendental love for Me.

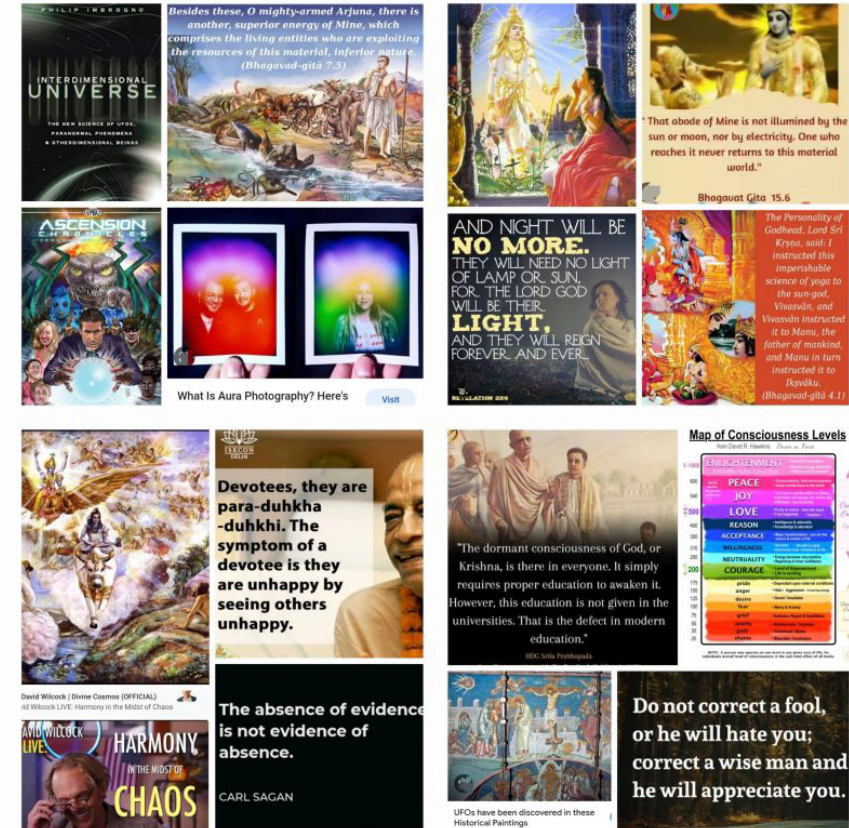

As all surrender unto Me, I reward them accordingly. Everyone follows My path in all respects, O son of Pṛthā.

Men in this world desire success in fruitive activities, and therefore they worship the demigods. Quickly, of course, men get results from fruitive work in this world.

According to the three modes of material nature and the work associated with them, the four divisions of human society are created by Me. And although I am the creator of this system, you should know that I am yet the nondoer, being unchangeable."- Krishna (Bhagvad Gita 4.10-13)

The divisions or ruptures occur in streams of parallel realities that exist in nature all the time. We are both simultaneously aware and oblivious to what happens around in nature and its many dimensions. What we seek also seeks us. It's choices not chances that determine destiny. And Yet, God is transcendental to all the laws.

"All the liberated souls in ancient times acted with this understanding of My transcendental nature. Therefore you should perform your duty, following in their footsteps." - Krishna (Bhagvad Gita 4.14-15)

41. GLORIES TO THE GURU

"I offer my respectful obeisances unto my spiritual master, who has opened my eyes, which were blinded by the darkness of ignorance, with the torchlight of knowledge."- Prayer to Guru

Indeed! Right and Left are the wings of the same bird. How else would the bird fly. But what bird are you Real-ising is also what matters. Some look at Ducks and some have their sights on the Eagles. The two are not the same!

Without proper guidance one would be lost in deciding what is to be done. The Good and Evil are the Yin and Yang that holds the balance in many dimensions. But without spiritual insight one is likely to aim for lower hanging Material birds and fall short of Spiritual heights. This exercise of classifying good and evil would be so simple if Time wasn't always moving. For Peace and Love has it's time and so does War and Courage. Time is not linear, it is cyclical.

To know the difference between the two is discernment and knowledge, else we land up doing the wrong this at the wrong time. The confusion is a Natural result of Material World.

"When the son of Kuntī, Arjuna, saw all these different grades of friends and relatives, he became overwhelmed with compassion and spoke thus.

Arjuna said: My dear Kṛṣṇa, seeing my friends and relatives present before me in such a fighting spirit, I feel the limbs of my body quivering and my mouth drying up."- Bhagavad Gita 1.27-28

The understanding of Dharma is why we need Teachers/Guru. Changing Time results in different solutions. Horses for courses and similarly, Varna-Ashram- Dharma for different modes of nature to balance the needs of the society at all times.

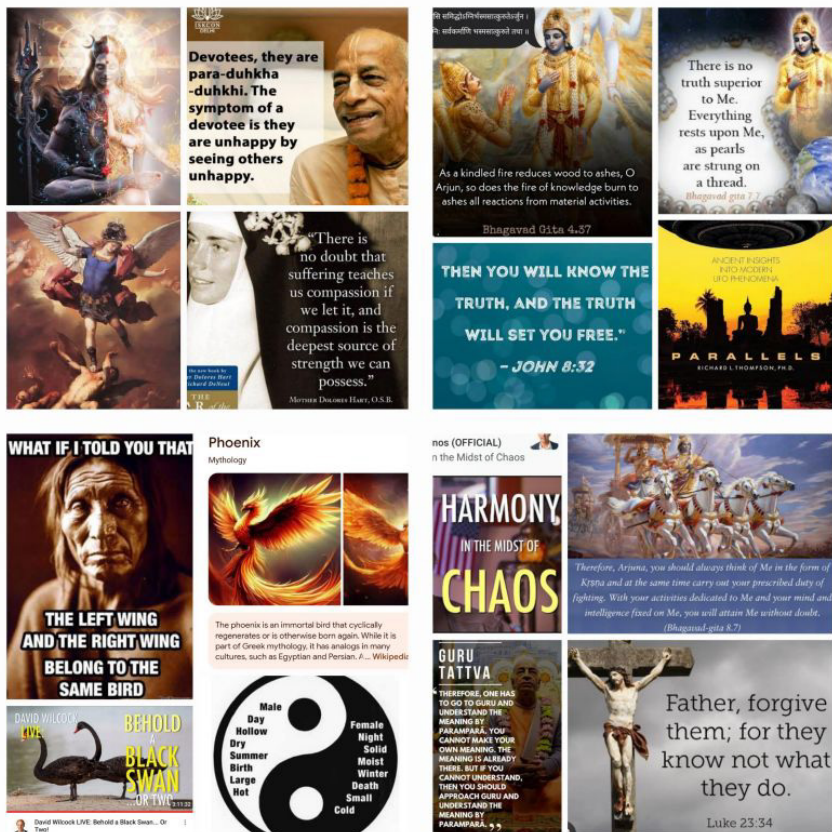

"To deliver the pious and to annihilate the miscreants, as well as to reestablish the principles of religion, I Myself appear, millennium after millennium."- Krishna (Bhagavad Gita 4.8)

Sometimes they bear the Torch of Light and Knowledge and Sometimes they carry sword of justice. The path of knowledge starts with small steps in humility and detachment. One cannot know by themselves what they do not know as a drowning person is incapable of saving themselves.

"My path is very difficult. I am blind, and my feet are slipping again and again. Therefore, may the saints help me by granting me the stick of their mercy as my support."- Chaitanya Charitamrta Antya Lila 1.2

Only when the Light disperses the darkness does it become clear whether to raise the sword or raise compassion. And that is why we need teachers, in the form of God, Guru and Angels [#soulfamily!](#)

"Arjuna said: My dear Kṛṣṇa, O infallible one, my illusion is now gone. I have regained my memory by Your mercy. I am now firm and free from doubt and am prepared to act according to Your instructions."- Bhagavad Gita 18.73

42. GLORIES TO GURU-TATTVA

While we continue to pay our respects to the Spiritual Teachers and Gurus, we should also pay respects to the embodiment of Guru-tattva, the original Lord and devotee who takes on this hard role of creating multitude of lessons and experiences in service of Krishna- Lord Balaram.

"O King, leave here and offer your daughter to Lord Baladeva, who is still present. He is most powerful. Indeed, He is the Supreme Personality of Godhead, whose plenary portion is Lord Viṣṇu. Your daughter is fit to be given to Him in charity.

Lord Baladeva is the Supreme Personality of Godhead. One who hears and chants about Him is purified. Because He is always the well-wisher of all living entities, He has descended with all His paraphernalia to purify the entire world and lessen its burden."- Srimad Bhagavatam 9.3.33-34

We often perceive life as Good and Bad, Black or White, but ever-changing cycles of time provide us constant challenges and learning and growth. Some learnings come through theoretical knowledge and some through practical experiences. This is why everyone needs a Guru to show them the right path in different circumstances. But walking the path is something we need to do ourselves.

If we are to not be robots devoid of desire to seek spiritual truths, then our life force needs to be directed to seek the purpose of human life.

"Those miscreants who are grossly foolish, who are lowest among mankind, whose knowledge is stolen by illusion, and who partake of the atheistic nature of demons do not surrender unto Me.

O best among the Bhāratas, four kinds of pious men begin to render devotional service unto Me – the distressed, the desirer of wealth, the inquisitive, and he who is searching for knowledge of the Absolute."- Krishna (Bhagvad Gita 7.14-15)

Since Spiritual is permanent and eternal, the process of spiritual learning is continuous. The chances to get distracted and lost occur through the joys of many Material and sensory pleasures.

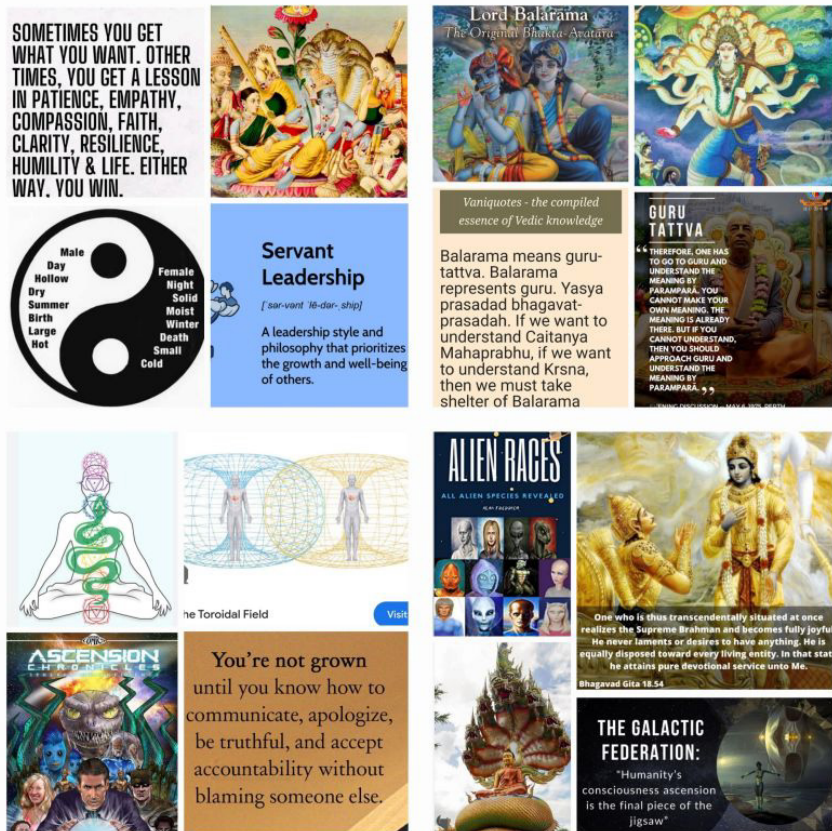

"After many births and deaths, he who is actually in knowledge surrenders unto Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare."- Krishna (Bhagvad Gita 7.19)

Guru also means Heavy or Firm. And he is a Servant Leader, who creates more leaders for the betterment of society. An evolving society is one that grows peacefully managing diversity and Unity. The various levels of creation are but part of the one Supreme Spiritual Source who appears in innumerable incarnations.

"In the nineteenth and twentieth incarnations, the Lord advented Himself as Lord Balarāma and Lord Kṛṣṇa in the family of Vṛṣṇi [the Yadu dynasty], and by so doing He removed the burden of the world.

Then, in the beginning of Kali-yuga, the Lord will appear as Lord Buddha, the son of Añjanā, in the province of Gayā, just for the purpose of deluding those who are envious of the faithful theist."- Srimad Bhagvatam 1.3.23-24

Sometimes tests are administered by Guru for our higher evolution [#soulfamily](https://www.youtube.com/watch?v=QiviuJW0Wvo).

43. WHY LINKEDIN?

So why the Spiritual Teaching for Great Awakening on LinkedIn and not on YouTube?

Leadership is not what one does when they are paid for something. When people are paid they Manage Human Resources. Without Spiritual Goals one is only driven by material energy of money. Coin operated machines are not Leaders. They are elected managers.

“Apart from the ever-liberated devotees, there are the conditioned souls, who always turn away from the service of the Lord. They are perpetually conditioned in this material world and are subjected to the material tribulations brought about by different bodily forms in hellish conditions.

Due to his being opposed to Kṛṣṇa consciousness, the conditioned soul is punished by the witch of the external energy, māyā. He is thus ready to suffer the threefold miseries — miseries brought about by the body and mind, the inimical behavior of other living entities and natural disturbances caused by the demigods.

In this way the conditioned soul becomes the servant of lusty desires, and when these are not fulfilled, he becomes the servant of anger and continues to be kicked by the external energy, māyā. Wandering and wandering throughout the universe, he may by chance get the association of a devotee physician, whose instructions and hymns make the witch of the external energy flee. The conditioned soul thus gets into touch with devotional service to Lord Kṛṣṇa, and in this way he can approach nearer and nearer to the Lord...

Devotional service to Kṛṣṇa is the chief function of the living entity. There are different methods for the liberation of the conditioned soul — karma, jñāna, yoga and bhakti — but all the others are dependent on bhakti.

Without devotional service, all other methods for spiritual self-realization are weak and insignificant. Unless one comes to the devotional service of Lord Kṛṣṇa, jñāna (Knowledge) and yoga cannot give the desired results.

When pure knowledge is beyond all material affinity but is not dedicated to the Supreme Personality of Godhead [Kṛṣṇa], it does not appear very beautiful, although it is knowledge without a material tinge. What, then, is the use of fruitive activities — which are naturally painful from the beginning and transient by nature — if they are not utilized for the devotional service of the Lord? How can they be very attractive?.

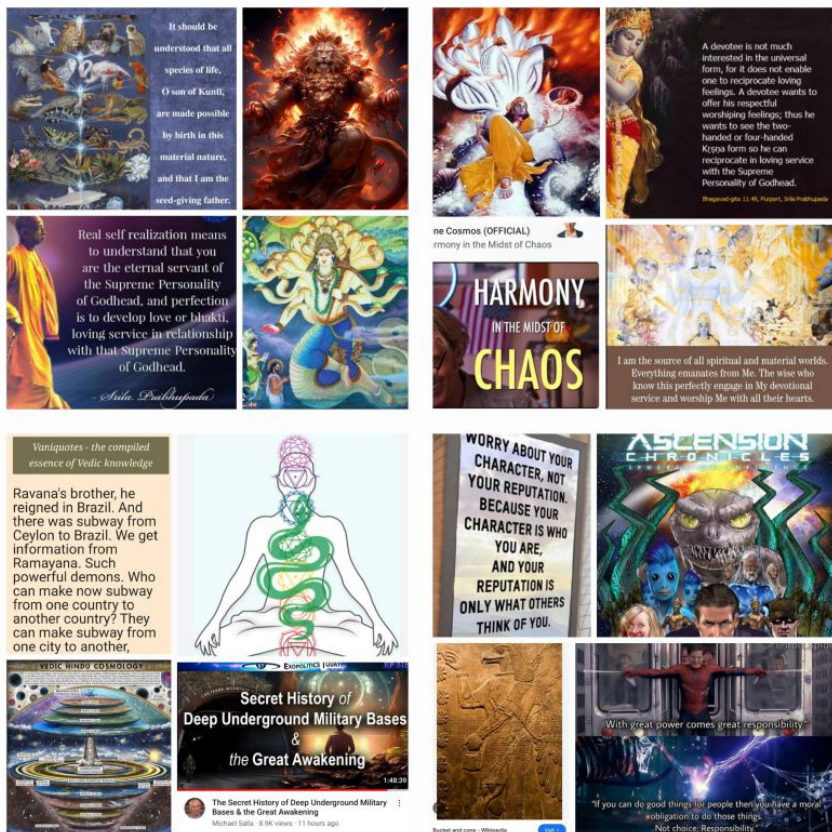

Speculative knowledge alone, without devotional service, is not able to give liberation. On the other hand, even without knowledge one can obtain liberation if one engages in the Lord's devotional service. Chaitanya Charitamrata Madhya Lila 22.10-21

Liberation comes with Liberties that we work for. And With Great Power comes Great Responsibility. There is always the Highest vision of God!

Where there is no vision, the people perish. —Proverbs 29:18

This is not entertainment, it's serious education for intellectuals who want to be Ascending Leaders of a New Earth [#soulfamily](#).

Leadership is not possible without God/Krishna consciousness.

44. THE SHIFT IN TIME

We often think of wars as way of conquering lands and space. But it may not be so all the time. The battle for consciousness and Spirituality is not fought for space, it is for Time!! That is how the Dynamic Yuga cycles move.

There is no need to send missionaries to distant lands to convert them by brute force and torture. What does that achieve and represent in the way of love and compassion? The way of the war for Time is for Revelations to happen from within oneself and the society. The cyclical time removes the veils and illusions that control the matrix of fixed beliefs in systems that are biased to one's own race or country or religion. With rising consciousness the seekers question the nature of rules in its various forms and application. Those that do not make sense in the Sanatan Dharma are shed by themselves as layers of skin on a snake.

There is no Invasion from Space rather the soldiers of Time infiltrate the society to light the lamp of love, compassion and True God Consciousness from within. Each awake Leader Warrior of Light is worth thousands of sleeping souls. Hence, the need to approach the intellectuals of the Human Society on this platform of LinkedIn.

Through correct Logic and Analysis an intelligent person may grasp easily the concept of Diversity of Life within Dimensions of Space and Time. The Temporal wars between the Higher and Lower worlds have moved past the petty disputes of Land. The battle has been for the consciousness and attracting one's soul to their kin in consciousness.

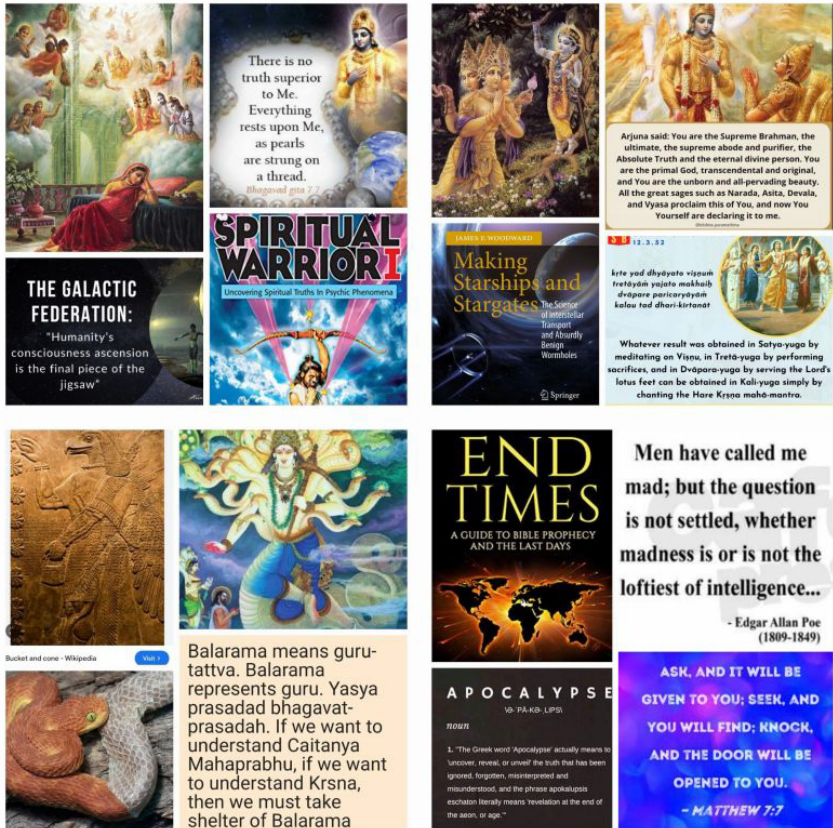

Choices not chances determine destiny. Karma is superior and any Space and Time. And of all the karma one can do to elevate one's self and their society is the simple task of taking the Holy names in Devotion. For God is infinite his infinite incarnations and to get to understand him completely is impossible. Yet, through Surrender of one's self, they bypass the need to search any longer. They become sought after; through the light that shines in their hearts. God wherever he is, in whichever form he is, he finds them. This knowledge of Servant Leadership is required for this Time [#soulfamily](#). It is much needed for the Shift to come.

"Because you are My very dear friend, I am speaking to you My supreme instruction, the most confidential knowledge of all. Hear this from Me, for it is for your benefit.

Always think of Me, become My devotee, worship Me and offer your homage unto Me. Thus you will come to Me without fail. I promise you this because you are My very dear friend.

Abandon all varieties of religion and just surrender unto Me. I shall deliver you from all sinful reactions. Do not fear."- Krishna (Bhagavad Gita 18.64-66)

Without Diversity Unity has no meaning, hence Freewill. The resonation fields of each finds the reality that exists Simultaneously and yet is inconceivable. Such are the Dimensions and their Stargates. The Diversity of consciousness within opens gates to Diversity without. Seek the Highest Goal of Devotion.

45. MANIFESTING NEW REALITY

The art and science of manifestation of happiness is not simple process.

"Being unable to protect himself from the threefold miseries of material existence, the conditioned soul becomes very morose and lives a life of lamentation. These threefold miseries are miseries suffered by mental calamity at the hands of the demigods [such as freezing wind and scorching heat], miseries offered by other living entities, and miseries arising from the mind and body themselves."- Srimad Bhagvatam 5.14.25

The body that is the vehicle is created for material experiences both Good and Bad and the lessons that arise thereof. A vehicle to get us from point A to point B. But we neither remember the point A nor our certain of the point B. The mystery of the objective of this game keeps us searching for Happiness.

"Sometimes the conditioned soul is attracted by illusion personified (his wife or girlfriend) and becomes eager to be embraced by a woman. Thus he loses his intelligence as well as knowledge of life's goal. At that time, no longer attempting spiritual cultivation, he becomes overly attached to his wife or girlfriend and tries to provide her with a suitable apartment. Again, he becomes very busy under the shelter of that home and is captivated by the talks, glances and activities of his wife and children. In this way he loses his Kṛṣṇa consciousness and throws himself in the dense darkness of material existence."- Srimad Bhagavatam 5.14.28

The escape room and seeking clues is fun to start with but if we run out of options and cannot leave, the adventure becomes torture. The memories of the outside world can be cause of inspiration or desperation.

"For the soul there is neither birth nor death at any time. He has not come into being, does not come into being, and will not come into being. He is unborn, eternal, ever-existing and primeval. He is not slain when the body is slain."- Krishna (Bhagavad Gita 2.20)

The veil of forgetfulness exists to learn and grow. The material world is illusory not because it does not exist, rather because all material gains are temporary. The expire when the journey is over. The point B is decided upon by our actions/Karma.

"As a person puts on new garments, giving up old ones, the soul similarly accepts new material bodies, giving up the old and useless ones."- Krishna (Bhagavad Gita 2.22)

What if there was a shift in consciousness? And we could actually remember our point A and the desired point B? What would we do differently?

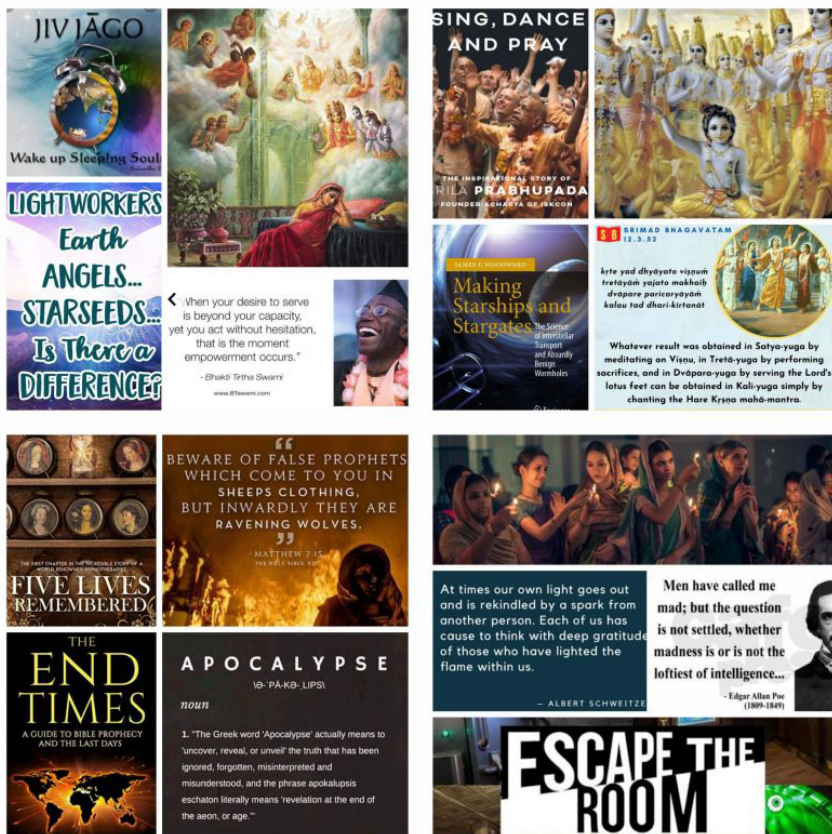

"If, however, you do not perform your religious duty of fighting, then you will certainly incur sins for neglecting your duties and thus lose your reputation as a fighter.

People will always speak of your infamy, and for a respectable person, dishonor is worse than death."- Krishna (Bhagavad Gita 2.33-34)

The Great Awakening is about Revelations from within and without [#soulfamily](#).

Waking up #Soulfamily

The Spiritual path is guided by the light of the Holy names. That is how the consciousness wins Timed wars.

<https://www.youtube.com/watch?v=ci76H4jY5qo>

46. CHANGING SPACE AND TIME

Change is the only permanent thing. Time changes hands between the Day of the Demigods and the Day of the Demons. The Yugas are a longer version of rise and fall of consciousness of Dharma. Peace is followed by chaos and vice versa.

The Sanatan principles are eternal across all Space and Time. They are not a matter of faith and are always a matter of Fact, a Science that the fact checkers have checked and experimented from many different angles. Without rise in consciousness peace is not possible. What is within plays out in without. This is so consistent that it can be almost perfectly Timed. Hence the prophecies in all religious Beliefs!

"At the end of the Age of Kali, these two kings, having received instruction directly from the Supreme Personality of Godhead, Vāsudeva, will return to human society and reestablish the eternal religion of man, characterized by the divisions of varṇa and āśrama, just as it was before.

The cycle of four ages— Satya, Tretā, Dvāpara and Kali— continues perpetually among living beings on this earth, repeating the same general sequence of events.

My dear King Parīkṣit, all these kings I have described, as well as all other human beings, come to this earth and stake their claims, but ultimately they all must give up this world and meet their destruction.

Even though a person's body may now have the designation "king," in the end its name will be "worms," "stool" or "ashes."

What can a person who injures other living beings for the sake of his body know about his own self-interest, since his activities are simply leading him to hell?

The materialistic king thinks:] "This unbounded earth was held by my predecessors and is now under my sovereignty. How can I arrange for it to remain in the hands of my sons, grandsons and other descendants?"

Although the foolish accept the body made of earth, water and fire as "me" and this earth as "mine," in every case they have ultimately abandoned both their body and the earth and passed away into oblivion.

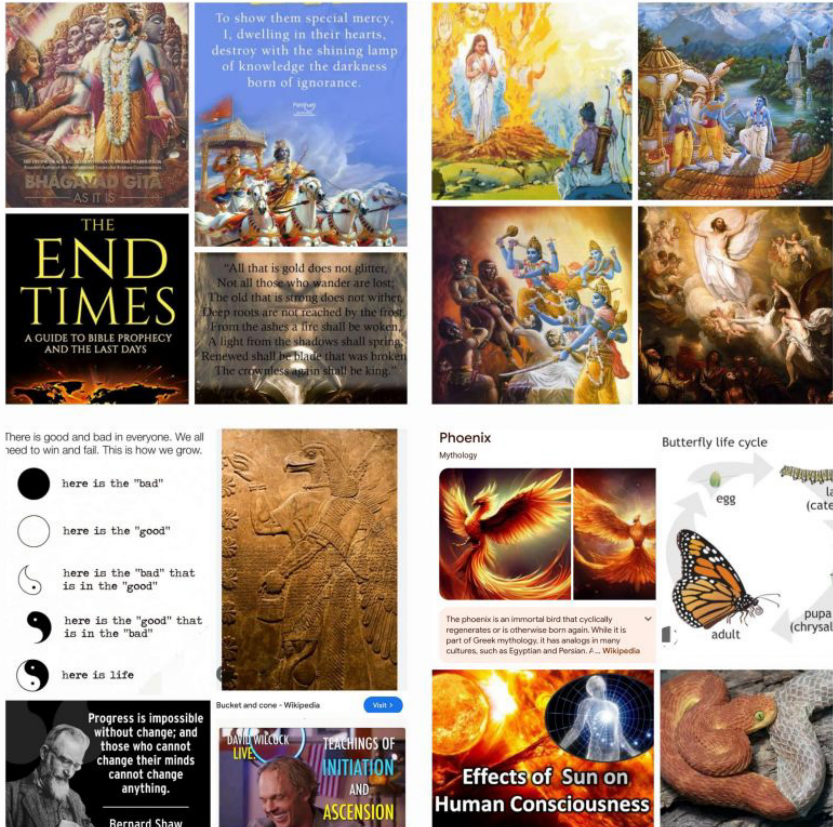

My dear King Parīkṣit, all these kings who tried to enjoy the earth by their strength were reduced by the force of time to nothing more than historical accounts."- Srimad Bhagvatam 12.2.38-44

The scriptural teachings are for us to learn and follow for our individual selves, because what goes around comes around. That is how Karma works and that plays out in the Evolutionary path of the eternal life. The Ascension processes in nature are visible and yet seem unbelievable.

"Deluded by the three modes [goodness, passion and ignorance], the whole world does not know Me, who am above the modes and inexhaustible.

This divine energy of Mine, consisting of the three modes of material nature, is difficult to overcome. But those who have surrendered unto Me can easily cross beyond it."- Krishna (Bhagavad Gita 7.13-14)

The Spiritual path has even more unbelievable accounts. The Science and Spirituality of the Human Ascension processes requires little Faith and Focus [#soulfamily](#).

47. GUIDED BY SYNCHRONICITIES

People guided by synchronicities are guaranteed to feel the Imposter Syndrome on the path of Self-realization. Realisation of the fact that they are but a humble instrument. An undeserving and accidental recipient of mercy through fortunate association of higher force.

"O my Lord! Transcendental poets and experts in spiritual science could not fully express their indebtedness to You, even if they were endowed with the prolonged lifetime of Brahmā, for You appear in two features — externally as the ācārya and internally as the Supersoul — to deliver the embodied living being by directing him how to come to You.

Śukadeva Gosvāmī said: Thus questioned by the most affectionate Uddhava, Lord Kṛṣṇa, the supreme controller of all controllers, who takes the entire universe as His plaything and assumes the three forms of Brahmā, Viṣṇu and Śiva, began to reply, lovingly displaying His all-attractive smile.

The Supreme Personality of Godhead said: Yes, I shall describe to you the principles of devotion to Me, by executing which a mortal human being will conquer unconquerable death.

Always remembering Me, one should perform all his duties for Me without becoming impetuous. With mind and intelligence offered to Me, one should fix his mind in attraction to My devotional service." - Srimad Bhagvatam 11.26.9

The Ascension of consciousness seems comes with a degree of Knowing Unknowingly. Many Physical and Biological transformations of matter occur on a daily basis whether we understand them or not.

What then can be said for Spiritual transformations that are the basis of all matter.

"Yet there is another UNMANIFEST Nature, which is eternal and is TRANSCENDENTAL to this MANIFESTED and UNMANIFESTED MATTER. It is supreme and is never annihilated. When all in this world is annihilated, that part remains as it is." - Krishna (Bhagvad Gita 8.20)

Despite the authority of Science and Spirituality the question of faith in the unseen may be weak. But the illusion of being alone is dispelled through constant reinforcements that do not seem accidental at all.

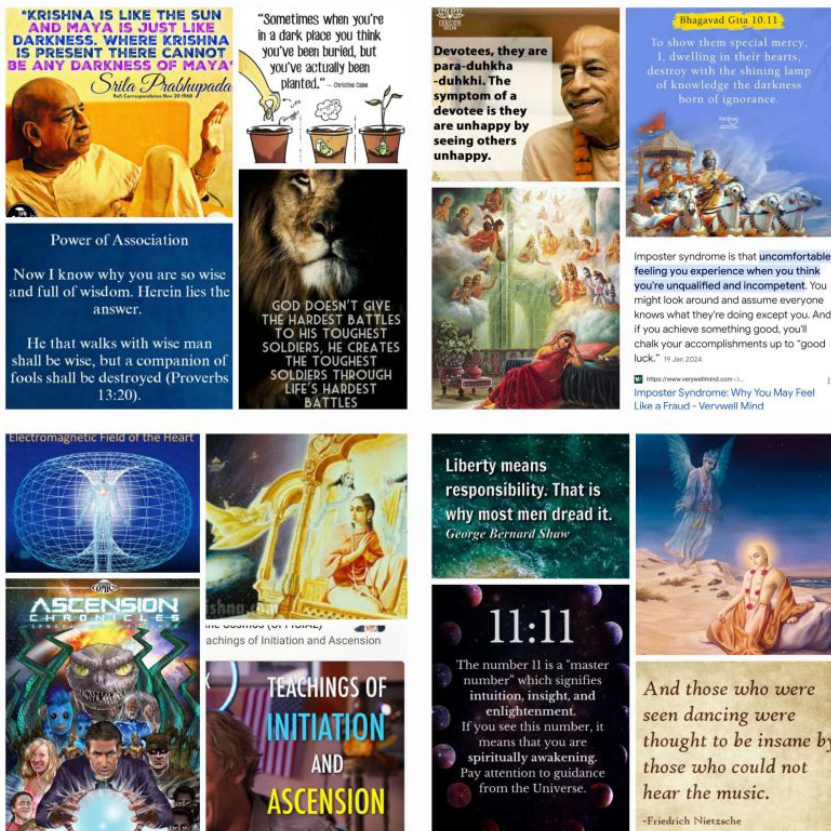

"The spirit soul bewildered by the influence of false ego thinks himself the doer of activities that are in actuality carried out by the three modes of material nature."- Krishna (Bhagavad Gita 3.27)

Call it Ascension of Mind, Body or Soul, there is an awakening of another sort. The detachments and discernment are a natural result of Trust in a Higher Power. Whether it be God Directly or his army of Devotees at different levels of creation. We may not see them but we begin to feel the association of those who walked That path before us [#soulfamily](#).

"Being freed from attachment, fear and anger, being fully absorbed in Me and taking refuge in Me, many, many persons in the past became purified by knowledge of Me – and thus they all attained transcendental love for Me.

As all surrender unto Me, I reward them accordingly. Everyone follows My path in all respects, O son of Pṛthā." - Krishna (Bhagavad Gita 4.11)

Waking up #Soulfamily

48. CHOOSING GOD'S SIDE

It's not my battle to fight! We are always in battle mode, the ones on the fence are the ones fighting for themselves alone. The right perspective is identify the authority we choose to accept.

If the False Ego is the False Identification then what is True Ego in the manifested state of matter. What is the Call of Duty?

"According to the three modes of material nature and the work associated with them, the four divisions of human society are created by Me. And although I am the creator of this system, you should know that I am yet the nondoer, being unchangeable.

There is no work that affects Me; nor do I aspire for the fruits of action. One who understands this truth about Me also does not become entangled in the fruitive reactions of work.

All the liberated souls in ancient times acted with this understanding of My transcendental nature. Therefore, you should perform your duty, following in their footsteps.

Even the intelligent are bewildered in determining what is action and what is inaction. Now I shall explain to you what action is, knowing which you shall be liberated from all misfortune.

The intricacies of action are very hard to understand. Therefore, one should know properly what action is, what forbidden action is and what inaction is.

One who sees inaction in action and action in inaction is intelligent among men, and he is in the transcendental position, although engaged in all sorts of activities.

One is understood to be in full knowledge whose every endeavor is devoid of desire for sense gratification. He is said by sages to be a worker for whom the reactions of work have been burned up by the fire of perfect knowledge."- Krishna (Bhagvad Gita 4.13-18)

In the age of Kali-yuga where most of the population is in mode of Ignorance, with no values or principles many do not know what to do, how then can they act?

The Great Awakening comes with Revelations. To know what is right and act on that authority with conviction.

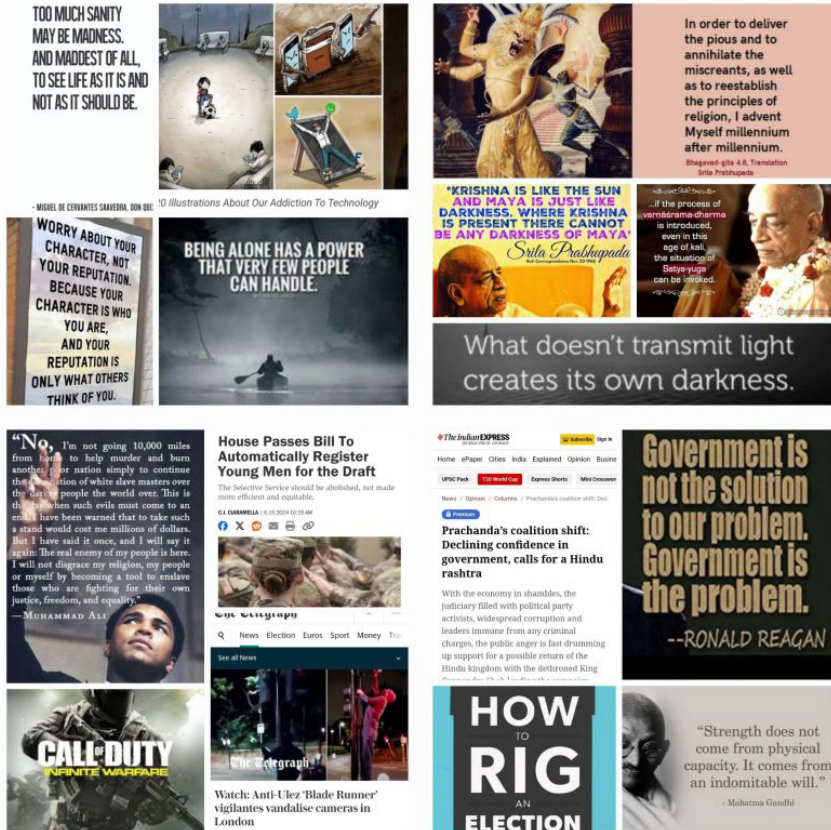

With light of higher consciousness ignorance is dissipated both within and without!

"Under illusion you are now declining to act according to My direction. But, compelled by your own nature, you will act all the same, O son of Kunti"- Krishna (Bhagvad Gita 18.60)

God is the highest authority and had ability of Universe to guide and reinforce all synchronicities. All that is done out of True Ego, is in service of Good and God. Even God has to take sides to reestablish principles of Eternal/Sanatan Dharma [#soulfamily](#)!

"O King, one who accepts this process of devotional service to the Supreme Personality of Godhead will never blunder on his path in this world. Even while running with eyes closed, he will never trip or fall.

In accordance with the particular nature one has acquired in conditioned life, whatever one does with body, words, mind, senses, intelligence or purified consciousness one should offer to the Supreme, thinking, "This is for the pleasure of Lord Nārāyaṇa." - Srimad Bhagvatam 11.2.35-36

A NEW ERA BEGINS! The SPIRITUAL BATTLE for HUMANITY'S SOUL Has BEGUN! | Suzanne Giesemann

<https://www.youtube.com/watch?v=Z1o1JXYCxlw>

49. LOSING FALSE EGO

Another evidence of False Ego based on False material reality is the divisions of power. Healing is required of the ancient abuses that have taken place. Moving forward requires accepting the past and making things right.

The abuse and looting of poor is not a heart based consciousness. Other Nations and their people are not mines and mine workers for the rich nations. It is not a formula the new world can work with if Earth is to sit on the same table as higher consciousness beings of Divine nature.

What has been stolen must be returned and forgiveness sought. The resource rich nations do not exist to feed the rulers of colonial era mentality.

The old Economic, Military and Medical Industrial complexes must be destroyed to build a World where all citizens are equal in their rights.

Industries that profit from export of wars, diseases and pollution will need to be shut down for Peace and prosperity of every citizen of the world.

The Battle between the Divine and the Demonic is becoming more evident and we need to decide the sides we take [#soulfamily](#).

"O son of Pṛthā, in this world there are two kinds of created beings. One is called divine and the other demoniac. I have already explained to you at length the divine qualities. Now hear from Me of the demoniac.

Those who are demoniac do not know what is to be done and what is not to be done. Neither cleanliness nor proper behavior nor truth is found in them.

They say that this world is unreal, with no foundation, no God in control. They say it is produced of sex desire and has no cause other than lust.

Following such conclusions, the demoniac, who are lost to themselves and who have no intelligence, engage in unbeneficial, horrible works meant to destroy the world.

Taking shelter of insatiable lust and absorbed in the conceit of pride and false prestige, the demoniac, thus illusioned, are always sworn to unclean work, attracted by the impermanent.

They believe that to gratify the senses is the prime necessity of human civilization. Thus until the end of life their anxiety is immeasurable. Bound by a network of hundreds of thousands of desires and absorbed in lust and anger, they secure money by illegal means for sense gratification.

The demoniac person thinks: "So much wealth do I have today, and I will gain more according to my schemes. So much is mine now, and it will increase in the future, more and more. He is my enemy, and I have killed him, and my other enemies will also be killed. I am the lord of everything. I am the enjoyer. I am perfect, powerful and happy. I am the richest man, surrounded by aristocratic relatives. There is none so powerful and happy as I am. I shall perform sacrifices, I shall give some charity, and thus I shall rejoice." In this way, such persons are deluded by ignorance.

Thus perplexed by various anxieties and bound by a network of illusions, they become too strongly attached to sense enjoyment and fall down into hell." - Krishna (Bhagvad Gita 16.6-16).

<https://www.youtube.com/watch?v=OHT--5qY5hY>

50. LOYALTY IS IMPORTANT

Cont... Loyalty is rewarded with Loyalty and Disloyalty with a Distance, be it Divine or Demonic. The path of Divinity is different to the Demonic as it focuses on Spiritual goals.

"A person who is fully absorbed in Kṛṣṇa/God consciousness is sure to attain the spiritual kingdom because of his full contribution to spiritual activities, in which the consummation is absolute and that which is offered is of the same spiritual nature.

Some yogīs perfectly worship the demigods by offering different sacrifices to them, and some offer sacrifices in the fire of the Supreme Brahman.

Some sacrifice the hearing process and the senses in the fire of mental control, and others [the regulated householders] sacrifice the objects of the senses in the fire of the senses.

Others, who are interested in achieving self-realization through control of the mind and senses, offer the functions of all the senses, and of the life breath, as oblations into the fire of the controlled mind.

Having accepted strict vows, some become enlightened by sacrificing their possessions, and others by performing severe austerities, by practicing the yoga of eightfold mysticism, or by studying the Vedas to advance in transcendental knowledge.

Still others, who are inclined to the process of breath restraint to remain in trance, practice by offering the movement of the outgoing breath into the incoming, and the incoming breath into the outgoing, and thus at last remain in trance, stopping all breathing.

Others, curtailing the eating process, offer the outgoing breath into itself as a sacrifice.

All these performers who know the meaning of sacrifice become cleansed of sinful reactions, and, having tasted the nectar of the results of sacrifices, they advance toward the supreme eternal atmosphere.

O best of the Kuru dynasty, without sacrifice one can never live happily on this planet or in this life: what then of the next?

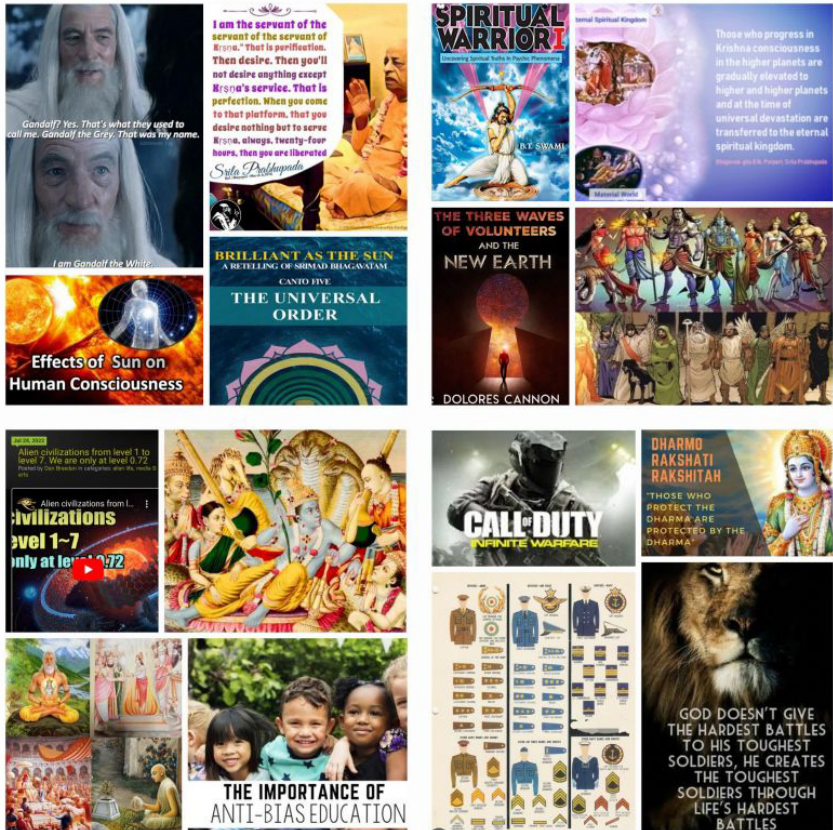

All these different types of sacrifice are approved by the Vedas, and all of them are born of different types of work. Knowing them as such, you will become liberated."- Krishna (Bhagavad Gita 4.24-32)

The long memory of our endeavours and entitlements may be vague, but the journey of our faithful services leaves mark on our attachments long after. It sets the stage for new aspirations.

"A faithful man who is dedicated to transcendental knowledge and who subdues his senses is eligible to achieve such knowledge, and having achieved it he quickly attains the supreme spiritual peace.

But ignorant and faithless persons who doubt the revealed scriptures do not attain God consciousness; they fall down. For the doubting soul there is happiness neither in this world nor in the next."- Krishna (Bhagavad Gita 4.39-40)

Loyalty to authority of Material world is temporary by its nature. Spiritual loyalty to God is of eternal nature and reciprocated accordingly. What one offers through their endeavours is realised through opportunities in their Ascended Nature [#soulfamily](#).

51. THE RESULT IS THE AWAKENING

"One is immediately freed from the clutches of *māyā* if he seriously and sincerely says, 'My dear Lord Kṛṣṇa, although I have forgotten You for so many long years in the material world, today I am surrendering unto You. I am Your sincere and serious servant. Please engage me in Your service.

It is My vow that if one only once seriously surrenders unto Me, saying "My dear Lord, from this day I am Yours," and prays to Me for courage, I shall immediately award courage to that person, and he will always remain safe from that time on.

Due to bad association, the living entity desires material happiness, liberation or merging into the impersonal aspect of the Lord, or he engages in mystic yoga for material power. If such a person actually becomes intelligent, he takes to Kṛṣṇa consciousness by engaging himself in intense devotional service to Lord Śrī Kṛṣṇa.

Whether one desires everything or nothing, or whether he desires to merge into the existence of the Lord, he is intelligent only if he worships Lord Kṛṣṇa, the Supreme Personality of Godhead, by rendering transcendental loving service.

If those who desire material enjoyment or merging into the existence of the Absolute Truth engage in the Lord's transcendental loving service, they will immediately attain shelter at Kṛṣṇa's lotus feet, although they did not ask for it. Kṛṣṇa is therefore very merciful.

Kṛṣṇa says, 'If one engages in My transcendental loving service but at the same time wants the opulence of material enjoyment, he is very, very foolish. Indeed, he is just like a person who gives up ambrosia to drink poison.

Since I am very intelligent, why should I give this fool material prosperity? Instead I shall induce him to take the nectar of the shelter of My lotus feet and make him forget illusory material enjoyment.

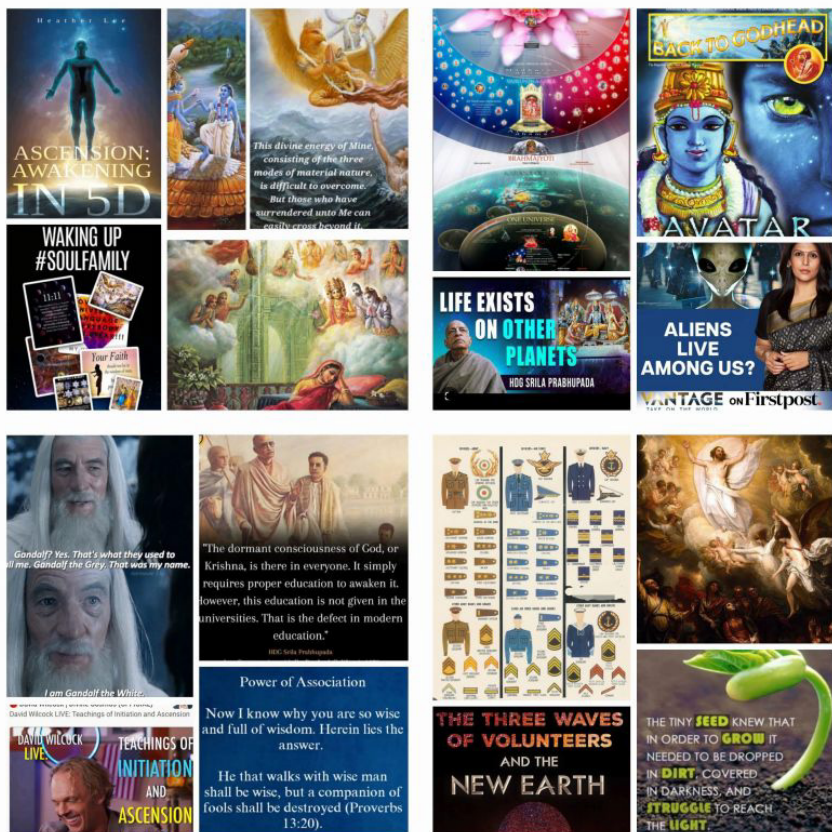

Whenever Kṛṣṇa is requested to fulfill one's desire, He undoubtedly does so, but He does not award anything which, after being enjoyed, will cause one to petition Him again and again to fulfill further desires. When one has other desires but engages in the Lord's service, Kṛṣṇa forcibly gives one shelter at His lotus feet, where one will forget all other desires.

When someone engages in Lord Kṛṣṇa's devotional service for the satisfaction of the senses and instead acquires a taste for serving Kṛṣṇa, he gives up his material desires and willingly offers himself as an eternal servant of Kṛṣṇa..

By good fortune one becomes eligible to cross the ocean of nescience, and when one's term of material existence decreases, one may get an opportunity to associate with pure devotees. By such association, one's attraction to Kṛṣṇa is awakened."- Chaitanya Charitamrata Madhya Lila 22.33-45

Awakening of God consciousness is the primary purpose the long study/training at School. When we realise the Supreme Science of God, the Value of Surrender and Transcendental Frequency of Holy names then we awaken to our true identity [#soulfamily](#). We qualify to go to our original Spiritual Home.

52. QUICK EVOLUTION

"Friends, Romans, countrymen, lend me your ears". Because we do not see with our eyes as much as we do with our ears. We accept what we are told and sometimes even when we see to the contrary. There is much history that is repeated over and over.

We speak of change and evolution as a very long term thing but it really can be a lot shorter. The change is never lead by the collective, the collective gives an idea of change an approval and form that becomes substantial and a reality.

The collective for most part just wants to get on with business of service, to God or Self. Each individual carries a vote and position. It aligns to one leader and opposes another. And thus agrees to serve its part in the nature of that collective for the balance of a greater objective.

There is always a Political or Spiritual leader that inspires a way of doing things. Every human body cell is guided by its own DNA and its association into something new. Each evolution steps into a new Collective of a Unity. Each time the new cell determines whether it will be part of a hand, a leg, an eye, a brain or a heart. That long journey started with just One that evolved into thousand varieties of Unity, serving in their own way.

"Brahmā, Lord Śiva and I are the supreme cause of the material manifestation. I am the Supersoul, the self-sufficient witness. But impersonally there is no difference between Brahmā, Lord Śiva and Me.

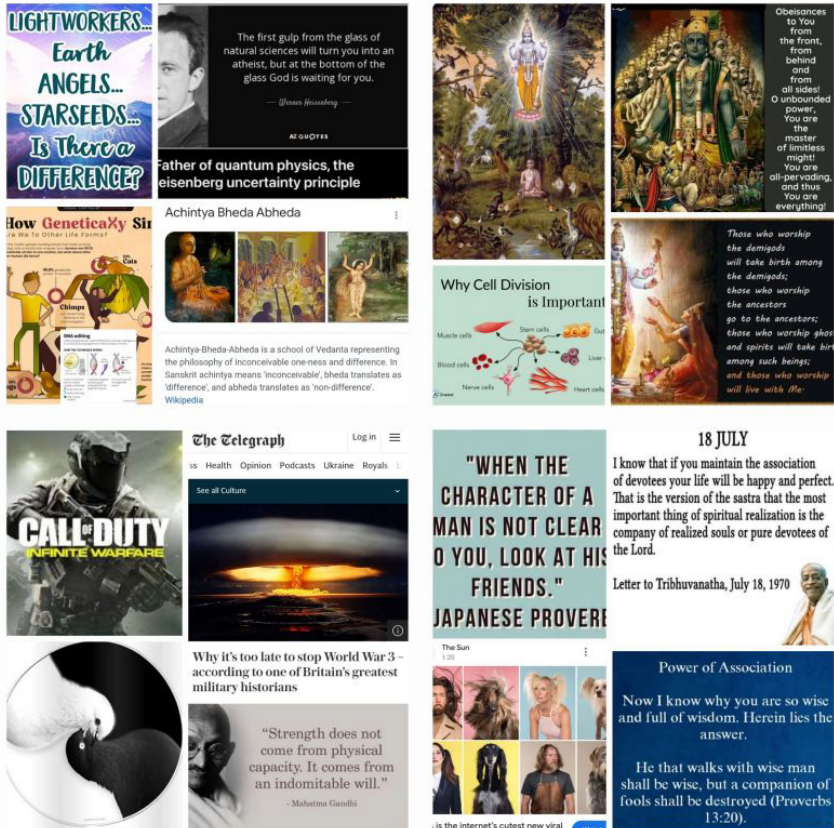

My dear Dakṣa Dvija, I am the original Personality of Godhead, but in order to create, maintain and annihilate this cosmic manifestation, I act through My material energy, and according to the different grades of activity, My representations are differently named.

The Lord continued: One who is not in proper knowledge thinks that demigods like Brahmā and Śiva are independent, or he even thinks that the living entities are independent.

A person with average intelligence does not think the head and other parts of the body to be separate. Similarly, My devotee does not differentiate Viṣṇu, the all-pervading Personality of Godhead, from any thing or any living entity."-Lord Vishnu, Srimad Bhagvatam [4.7.50.53](#)

There is a collective consciousness of individuals within and without, thus the association becomes a very important part of the evolution process. It decides who we believe and who we follow and what we do. The world is at more crossroads than ever, war and peace are stake. Each has a path and a purpose in greater scheme of things. Who has our ears and our association will determine our actions. It is all part of the grand design. Keep your Ears focused on Good and God and the mercy will flow your way [#soulfamily](#).

"O my Lord, Your devotees can see You through the ears by the process of bona fide hearing, and thus their hearts become cleansed, and You take Your seat there. You are so merciful to Your devotees that You manifest Yourself in the particular eternal form of transcendence in which they always think of You."- Srimad Bhagvatam 3.9.11

53. COMPLETE UNDERSTANDING

To believe that God wins in the end is half an understanding. To believe that there is any significant opposition to God in any way is itself a belief that takes one away from true understanding of what God is. God wins every step of the way [#soulfamily](#).

"O Arjuna, whatever you wish to see, behold at once in this body of Mine! This universal form can show you whatever you now desire to see and whatever you may want to see in the future. Everything – moving and nonmoving – is here completely, in one place.

But you cannot see Me with your present eyes. Therefore, I give you divine eyes. Behold My mystic opulence!

Saṅjaya said: O King, having spoken thus, the Supreme Lord of all mystic power, the Personality of Godhead, displayed His universal form to Arjuna."- Bhagavad Gita 11.7-9

But one does need divine eyes to see this, for anything less one would start to cast blame on everyone else but themselves. If nothing ever happens without a reason then there is a reason that the eyes need to seek and realise.

"If hundreds of thousands of suns were to rise at once into the sky, their radiance might resemble the effulgence of the Supreme Person in that universal form.

At that time Arjuna could see in the universal form of the Lord the unlimited expansions of the universe situated in one place although divided into many, many thousands.

Then, bewildered and astonished, his hair standing on end, Arjuna bowed his head to offer obeisances and with folded hands began to pray to the Supreme Lord.

Arjuna said: My dear Lord Kṛṣṇa, I see assembled in Your body all the demigods and various other living entities. I see Brahmā sitting on the lotus flower, as well as Lord Śiva and all the sages and divine serpents."- Bhagavad Gita 11.12-15)

The light and dark require each other for the drama of duality. If there is Divine then there is surely the Demonic exist also. But they have no power over and above what God gives them for the purpose of playing a character of choice in the Grand play on the Wheel of Time.

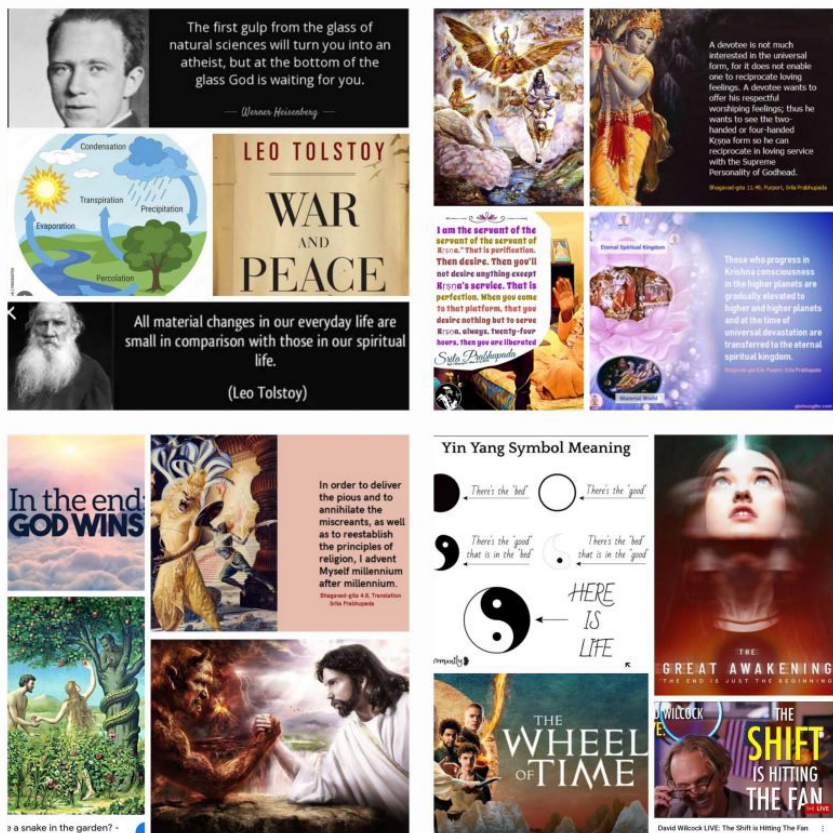

"O Lord of lords, so fierce of form, please tell me who You are. I offer my obeisances unto You; please be gracious to me. You are the primal Lord. I want to know about You, for I do not know what Your mission is.

The Supreme Personality of Godhead said: Time I am, the great destroyer of the worlds, and I have come here to destroy all people. With the exception of you [the Pāṇḍavas], all the soldiers here on both sides will be slain.

Therefore get up. Prepare to fight and win glory. Conquer your enemies and enjoy a flourishing kingdom. They are already put to death by My arrangement, and you, O Savyasācī, can be but an instrument in the fight."- Bhagavad Gita 11.31.33

This role of an instrument of light or dark is earned through one's karma. Neither Demigods nor Demons want an inexperienced player in their team. They pick up on the matching frequencies. The Evolutionary process of growth for eternal souls ensures right fit for the job every Time!

54. LAYERS OF UNITY/GOD CONSCIOUSNESS

If there was one thing that should unite everyone then it should be the understanding of God but it seems to be the the one that divides the world.

Everyone claims to be spiritual yet again and again and everywhere the attachment to the body and bodily paraphernalia is far greater than any understanding of what Spiritual is. And how can one show what one does not have [#soulfamily?](#)

"One who identifies his self as the inert body composed of mucus, bile and air, who assumes his wife and family are permanently his own, who thinks an earthen image or the land of his birth is worshipable, or who sees a place of pilgrimage as merely the water there, but who never identifies himself with, feels kinship with, worships or even visits those who are wise in spiritual truth — such a person is no better than a cow or an ass."
- Srimad Bhagvatam 10.84.13

When such are the material attachments the understanding of God is limited by one's own attention. As they say-Where the attention goes energy follows. And at this point the attention and energy of the so-called leaders of the countries and religions seem all too attached to destruction.

"While contemplating the objects of the senses, a person develops attachment for them, and from such attachment lust develops, and from lust anger arises.

From anger, complete delusion arises, and from delusion bewilderment of memory. When memory is bewildered, intelligence is lost, and when intelligence is lost one falls down again into the material pool.

But a person free from all attachment and aversion and able to control his senses through regulative principles of freedom can obtain the complete mercy of the Lord.

For one thus satisfied [in Kṛṣṇa consciousness], the threefold miseries of material existence exist no longer; in such satisfied consciousness, one's intelligence is soon well established.

One who is not connected with the Supreme [in Kṛṣṇa consciousness] can have neither transcendental intelligence nor a steady mind, without which there is no possibility of peace. And how can there be any happiness without peace?" - Krishna (Bhagavad Gita 2.61-65)

Knowledge that $2 + 2 = 4$ is knowing Mathematics but it does not make one a Mathematician of Scholarly ranks. There are gradual stages of study and realisation.

"Learned transcendentalists who know the Absolute Truth call this nondual substance Brahman (All pervading), Paramātmā (Supersoul within) or Bhagavān. (Supreme Personality of Godhead)"- Srimad Bhagvatam 1.2.11

Each level of understanding is knowing God and each subsequent understanding is higher grade of realisation. One step at a time. The concept of love has not evolved on Earth. It is source of all creation and it comes from God who is ultimate manager of all relationships.

"Kṛṣṇa who is known as Govinda is the Supreme Godhead. He has an eternal blissful spiritual body. He is the origin of all. He has no other origin and He is the prime cause of all causes." - Bramha Samhita 5.1

So Called Vaishnavism | Srila Prabhupada | CC Adi Lila 1.6
<https://www.youtube.com/watch?v=k3Q5DTwF1j8>

55. DHARMA OF DIVISIONS

Wars seems to be a way of winning peace and happiness in form of glory. Everyone now and then wants to feel the excitement of a challenge with a Worthy opponent. To feel exhilaration of fear, anger and victory. The emotions that exist are not to be suppressed, rather directed into the right activity.

All civilised competitions are ring fenced for a reason. There are proper ground rules of engagement before commencing competitions. The intellectuals/Brahmins compete on their understanding and Knowledge of various subjects for Reputation. The Kshatriya/Warriors on Physical Strength for Land and Power and Businessmen for Wealth. Only those who have come to compete will be contended with to prove bravery and valour on equal grounds and clear goals.

"Arjuna said: O infallible one, please draw my chariot between the two armies so that I may see those present here, who desire to fight, and with whom I must contend in this great trial of arms.

Let me see those who have come here to fight, wishing to please the evil-minded son of Dhṛtarāṣṭra.

Saṁjaya said: O descendant of Bharata, having thus been addressed by Arjuna, Lord Kṛṣṇa drew up the fine chariot in the midst of the armies of both parties."- Bhagvad Gita (1.

21-24

Fighting men and machines against innocent and helpless women and children is not war its terrorism. It's not act of Warriors no matter which side one is on. If there is glory in this world how can there be in Spiritual world?

"Śukadeva Gosvāmī said: My dear King, in the beginning, during Satya-yuga, the age of truth, religion is present with all four of its legs intact and is carefully maintained by the people of that age. These four legs of powerful religion are truthfulness, mercy, austerity and charity.

The people of Satya-yuga are for the most part self-satisfied, merciful, friendly to all, peaceful, sober and tolerant. They take their pleasure from within, see all things equally and always endeavor diligently for spiritual perfection."- Srimad Bhagvatam 12.3.18-19

The Golden age is fixed to Pillars of Dharma and it is protected [#soulfamily](#)

Dharmo eva hato hantee dharmo rakshati rakshitaah

Tasmadhrmo na hantabhyo maa no dharmo hatovadhit

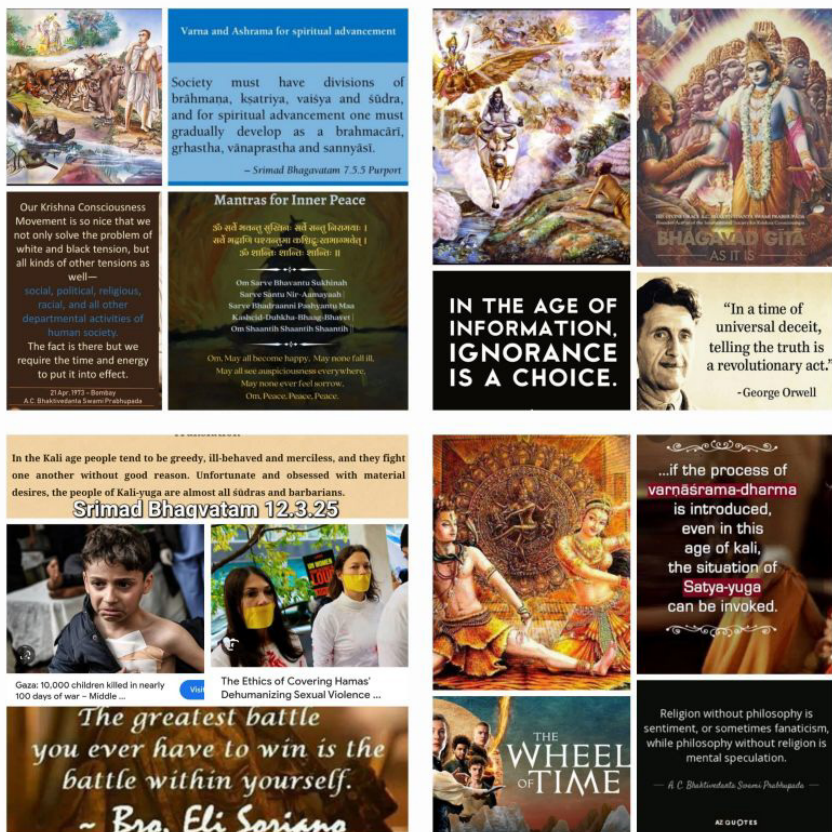

Dharma destroys those who destroy it, Dharma protects those who protect it.

Dharma does not destroy and cannot be destroyed."- Manu smriti 8.15

Protection can only be offered by those in position of higher power and authority. There are administrators of rules, how else can there be administration of law and justice? This authority cannot be left with those of lower consciousness prone to corruption. Hence, there are Demigods.

"Of the Ādityas I am Viṣṇu, of lights I am the radiant sun, of the Maruts I am Marīci, and among the stars I am the moon.

Of the Vedas I am the Sāma Veda; of the demigods I am Indra, the king of heaven; of the senses I am the mind; and in living beings I am the living force [consciousness]."- Krishna (Bhagavad Gita 10.21-22)

Society, Friendship and Love | Srila Prabhupada | BG 1.26-27

<https://www.youtube.com/watch?v=5rKZtrAQqqE>

56. WAR FOR ENLIGHTENMENT

In a Spiritual warfare no other than God/Krishna consciousness can be warriors for the side of God. How else could it be?

True warriors are seekers of Spiritual, the ones who Truly understand the Eternal/Sanatan Dharma. Sanatan Dharma that is both fixed yet flexible with Time and Space. Hence, the previously discussed levels of understanding of God. The divisions exist for learning, discussing and Real-ising the Unity in Diversity of God.

"I am the source of all spiritual and material worlds. Everything emanates from Me. The wise who perfectly know this engage in My devotional service and worship Me with all their hearts.

The thoughts of My pure devotees dwell in Me, their lives are fully devoted to My service, and they derive great satisfaction and bliss from always ENLIGHTENING ONE ANOTHER and conversing about Me.

To those who are constantly devoted to serving Me with love, I give the understanding by which they can come to Me.

To show them special mercy, I, dwelling in their hearts, destroy with the shining lamp of knowledge the darkness born of ignorance." - Krishna (Bhagvad Gita 10.8-11)

This knowledge of Fixed Sanatan Dharma is eroded over Time. This happens through the Yuga cycles repeatedly. All for the process of constant evolutionary learning and Remembering games. Our short lives and beliefs are for few decades, what then? Hence, the lineacy/mercy in the form of Holy names in Kali-yuga.

"O my Lord, Your holy name alone can render all benediction to living beings, and thus You have hundreds and millions of names, like Krishna and Govinda. In these transcendental names, you have invested all Your transcendental energies. There are not even hard and fast rules for chanting these names. O my Lord, out of kindness You enable us to easily approach you by Your holy names, but I am so unfortunate that I have no attraction for them."- Shri Shikshashtakam

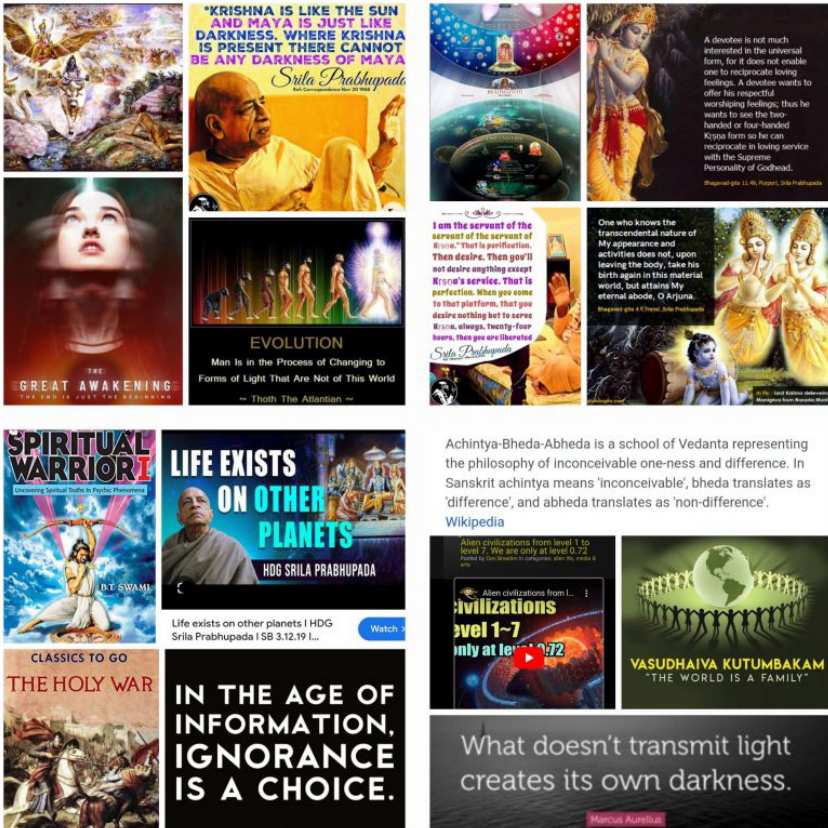

God is Eternal, what then is the value of wars in the name of God and new religions? Just through speaking and hearing we can ascend in this degraded age of Quarrel and Hypocrisy.

"My dear King, although Kali-yuga is an ocean of faults, there is still one good quality about this age: Simply by chanting the Hare Kṛṣṇa mahā-mantra, one can become free from material bondage and be promoted to the transcendental kingdom.

Whatever result was obtained in Satya-yuga by meditating on Viṣṇu, in Tretā-yuga by performing sacrifices, and in Dvāpara-yuga by serving the Lord's lotus feet can be obtained in Kali-yuga simply by chanting the Hare Kṛṣṇa mahā-mantra." -Srimad Bhagvatam 12.3.50-51

The unlimited God has unlimited qualities that are spread across the many layers of Universe [#soulfamily](#).

"There is no end to the great and glorious qualities of that powerful Lord Anantadeva. Indeed, His prowess is unlimited. Though self-sufficient, He Himself is the support of everything. He resides beneath the lower planetary systems and easily sustains the entire universe."- Srimad Bhagvatam 5.25.13

<https://www.youtube.com/watch?v=vK1GqHxZiBs>

57. SPIRITUAL WARRIORS

And there are divisions of Spiritual warriors too? They take on for various Spiritual activities. All progressing in their service. Some serve others and some God. Based on each's actions they open portals to the higher worlds [#soulfamily](#).

"My dear Uddhava, the combination of all three modes is present in the mentality of "I" and "mine." The ordinary transactions of this world, which are carried out through the agency of the mind, the objects of perception, the senses and the vital airs of the physical body, are also based on the combination of the modes.

When a person devotes himself to religiosity, economic development and sense gratification, the faith, wealth and sensual enjoyment obtained by his endeavors display the interaction of the three modes of nature.

When a man desires sense gratification, being attached to family life, and when he consequently becomes established in religious and occupational duties, the combination of the modes of nature is manifest.

A person exhibiting qualities such as self-control is understood to be predominantly in the mode of goodness. Similarly, a passionate person is recognized by his lust, and one in ignorance is recognized by qualities such as anger.

Any person, whether man or woman, who worships Me with loving devotion, offering his or her prescribed duties unto Me without material attachment, is understood to be situated in Goodness.

When a person worships Me by his prescribed duties with the hope of gaining material benefit, his nature should be understood to be in passion, and one who worships Me with the desire to commit violence against others is in ignorance.

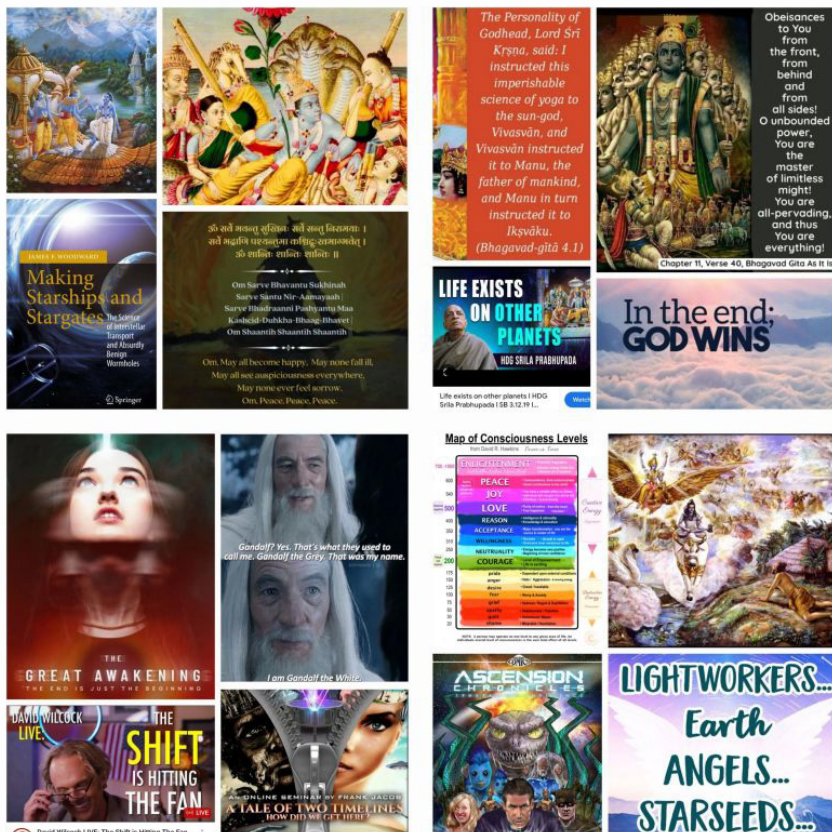

The three modes of material nature— goodness, passion and ignorance— influence the living entity but not Me. Manifesting within his mind, they induce the living entity to become attached to material bodies and other created objects. In this way the living entity is bound up.

When one's higher awareness fails and finally disappears and one is thus unable to concentrate his attention, his mind is ruined and manifests ignorance and depression. You should understand this situation to be the predominance of the mode of ignorance.

With the increase of the mode of goodness, the strength of the Demigods similarly increases. When passion increases, the Demoniak become strong. And with the rise of ignorance, O Uddhava, the strength of the most Wicked increases.

It should be understood that alert wakefulness comes from the mode of goodness, sleep with dreaming from the mode of passion, and deep, dreamless sleep from the mode of ignorance. The fourth state of consciousness pervades these three and is transcendental.

Learned persons dedicated to Vedic culture are elevated by the mode of goodness to higher and higher positions. The mode of ignorance, on the other hand, forces one to fall headfirst into lower and lower births. And by the mode of passion one continues transmigrating through human bodies."- Srimad Bhagvatam 11.25.6-21

<https://www.youtube.com/watch?v=0Go2Bje8T0Y>

58. WHY GOD ALWAYS WINS

Why does God and the light always win? Because it can never be any other way. God is TIME itself. Remember how we discussed Time wars are Docking a Ship in Reverse? To people in the Dock the ship of Time is coming but since the End is roughly fixed the Ship called Time is actually moving backwards to the Predestined Dock.

What then of Karma you ask? Did everyone not have their individual freewill on the Ship of Time? Did not everyone choose whether it is a God based society or one without that they want? Prophecies are predicted at collective level. Individuals have their high level events called 'Prarabdh' set. But they still have to do their Karma by their Dharma to ascend into higher consciousness. A bit of an act of Remembering and Doing. And what was the highest qualification for Ascension [#soulfamily](#)?

"I was very much attached to those sages. I was gentle in behavior, and all my sins were eradicated in their service. In my heart I had strong faith in them. I had subjugated the senses, and I was strictly following them with body and mind.

As they were leaving, those bhakti-vedāntas, who are very kind to poor-hearted souls, instructed me in that most confidential subject which is instructed by the Personality of Godhead Himself.

By that confidential knowledge, I could understand clearly the influence of the energy of Lord Śrī Kṛṣṇa, the creator, maintainer and annihilator of everything. By knowing that, one can return to Him and personally meet Him.

O Brāhmaṇa Vyāsadeva, it is decided by the learned that the best remedial measure for removing all troubles and miseries is to dedicate one's activities to the service of the Supreme Lord Personality of Godhead [Śrī Kṛṣṇa].

O good soul, does not a thing, applied therapeutically, cure a disease which was caused by that very same thing?

Thus when all a man's activities are dedicated to the service of the Lord, those very activities which caused his perpetual bondage become the destroyer of the tree of work.

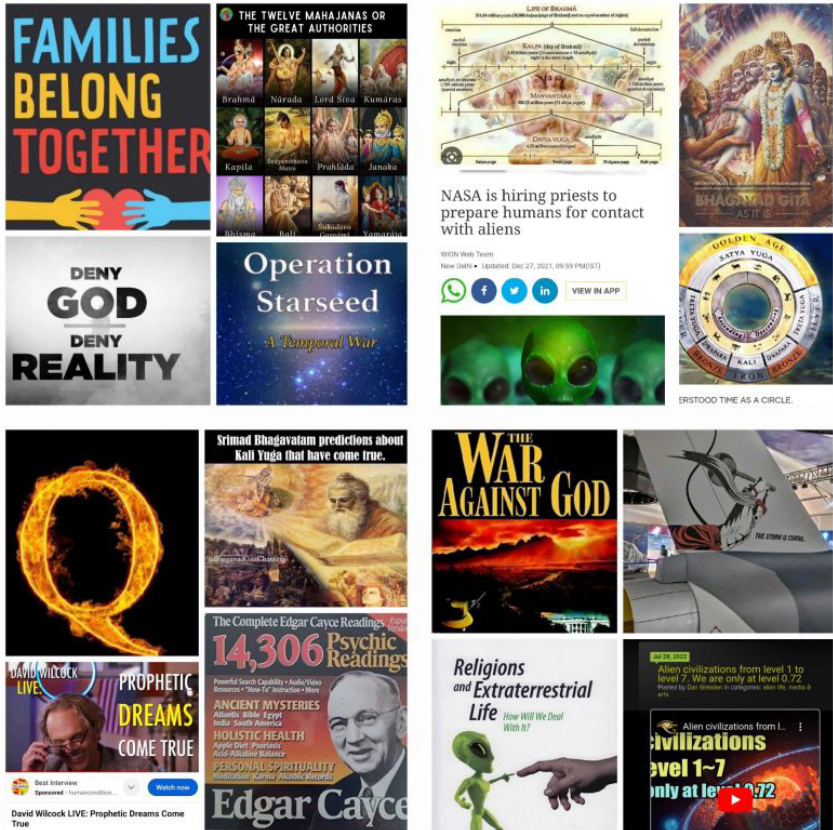

Whatever work is done here in this life for the satisfaction of the mission of the Lord is called bhakti-yoga, or transcendental loving service to the Lord, and what is called knowledge becomes a concomitant factor.

While performing duties according to the order of Śrī Kṛṣṇa, the Supreme Personality of Godhead, one constantly remembers Him, His names and His qualities.

O brāhmaṇa, thus by the Supreme Lord Kṛṣṇa I was endowed first with the transcendental knowledge of the Lord as inculcated in the confidential parts of the Vedas, then with the spiritual opulences, and then with His intimate loving service.

Please, therefore, describe the almighty Lord's activities which you have learned by your vast knowledge of the Vedas, for that will satisfy the hankering of great learned men and at the same time mitigate the miseries of the masses..."- Srimad Bhagvatam 1.5.30-40

How was the world in Golden ages? Are you ready for Disclosure of our Star Family?

Links:

A Dead Man Can not | Srila Prabhupada | NOD 3

<https://www.youtube.com/watch?v=Aw-R1vjYNvc>

59. TIME CONTROLS EVERYTHING

Continuing.. Time controls everything in Space! and it is in the hands of Lord Vishnu the Maintainer of the Universe and it is the hardest balancing act. Refereeing battle of Good and Evil over Yuga cycles. How does one decide who goes into the Golden age of Brahmanical culture? What should the qualifications be?

A Brahman is one who knows Brahman/God. These intellectuals see the Impersonal aspects of God being everywhere in various fields of subjects. The Personlist Devotees are still higher because they Understand the Personal aspect of God. They understand that the Supreme Personality of Godhead plays a balancing act and lives in worlds beyond Duality [#soulfamily](#). That all that is done, is done in service of the Supreme Personality of Godhead.

Brahman/Intellectuals have faith in God, the Supreme Designs of Art of Sacred Geometry and Maths and Science of All Frequencies of Light and Sound. The Vaishnavas know that Supreme Designer has infinite creations and incarnations! Those who don't believe in either don't see a Grand Plan and Creator. With no Source/God as spiritual support they are always Fearful of Time. They try to control it but they never can. God always win in the End!

Some choose Materialistic and some Spiritualistic lifestyles. God conscious Devotees are the spiritual lightworkers who help God win. The faithful are tested in the land of Materialists. Unmatched frequencies means problems- Family, Finance and Health. Those that pass the test of Faith, ascend in consciousness. Love attracts Love and Fear attract Fear.

The Devotees practice Loving Devotion of Godhead. They remain humble and Fearless despite distractions presented by Jailors of the Material World. Determined to win over Carrots/Temptations and Fears/Sticks through God's mercy alone.

"In this way you will be freed from bondage to work and its auspicious and inauspicious results. With your mind fixed on Me in this principle of renunciation, you will be liberated and come to Me.

I envy no one, nor am I partial to anyone. I am equal to all. But whoever renders service unto Me in devotion is a friend, is in Me, and I am also a friend to him.

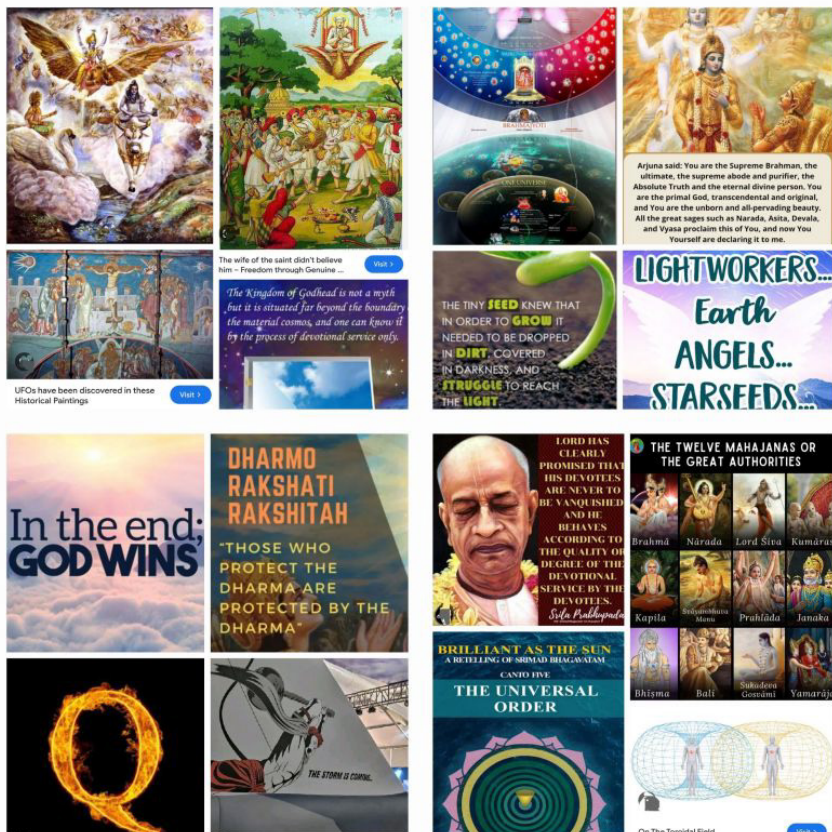

Even if one commits the most abominable action, if he is engaged in devotional service he is to be considered saintly because he is properly situated in his determination.

He quickly becomes righteous and attains lasting peace. O son of Kuntī, declare it boldly that My devotee never perishes.

O son of Pṛthā, those who take shelter in Me, though they be of lower birth – women, vaiśyas [merchants] and śūdras [workers] – can attain the supreme destination.

How much more this is so of the righteous brāhmaṇas, the devotees and the saintly kings. Therefore, having come to this temporary, miserable world, engage in loving service unto Me.

Engage your mind always in thinking of Me, become My devotee, offer obeisances to Me and worship Me. Being completely absorbed in Me, surely you will come to Me."- Krishna (Bhagavad Gita 9.29-34)

<https://www.youtube.com/watch?v=LjX8sjjbUb4>

60. GOD IS PERSONALITY

Trying to Scientifically understand the impersonal aspect of Time, people are again and again pulled into the impersonal aspect of God. It is unfortunate indeed, for despite having the realisations of myriads of emotions in their own lives, they cannot understand that that everything material has spiritual source.

"The holy name of Kṛṣṇa, His body and His pastimes cannot be understood by the blunt material senses. They are manifested independently.

Kṛṣṇa's holy name, transcendental qualities and transcendental pastimes are all equal to Lord Kṛṣṇa Himself. They are all spiritual and full of bliss.

Therefore material senses cannot appreciate Kṛṣṇa's holy name, form, qualities and pastimes. When a conditioned soul is awakened to Kṛṣṇa consciousness and renders service by using his tongue to chant the Lord's holy name and taste the remnants of the Lord's food, the tongue is purified, and one gradually comes to understand who Kṛṣṇa really is."- Chaitanya Charitamrata Madhya Lila 17.134-136

Those who would deny the source/God his personal identity and the various mellows of relationships do not understand reality, no more than a frog of the well can comprehend the Ocean. The material world is a perverted reflection of the Spiritual world.

The need to provide a Scientific explanation to everything is an attempt to detach from spiritual. Fear thus taking predominance, any form of higher life form seems all too Alien. And assuming them to be just like ourselves, we can only imagine the worse. An aggressor knowingly or unknowingly is always seeking a battle.

Raising our frequencies to love and compassion is to attract more of the same and enter higher realities of existence. But that is not possible if we do not believe!

Those sunk in the lower emotions of Materialist views need to rise to transcendental platform through Devotional service. Only then is understanding the difference between Brahman (Impersonal Universe) and Para Brahman (Beyond Impersonal Universe) possible. Monks and renunciates leave everything and dedicate their lives to meditation to taste the smallest flicker happiness of Spiritual realisations. How then could activity of the Para Brahman/God/ Krishna be anything like the quality of the material world? It is transcendental!

"The transcendental qualities of Śrī Kṛṣṇa are completely blissful and relishable. Consequently Lord Kṛṣṇa's qualities attract even the minds of self-realized persons from the bliss of self-realization.

Those who are self-satisfied and unattracted by external material desires are also attracted to the loving service of Śrī Kṛṣṇa, whose qualities are transcendental and whose activities are wonderful. Hari, the Personality of Godhead, is called Kṛṣṇa because He has such transcendently attractive features."- Chaitanya Charitamrata Madhya Lila 17.139-140

There are many layers of material and Spiritual worlds. All run on different time zone and have different levels Sciences and Services [#soulfamily](#).

<https://www.youtube.com/watch?v=mgfJP8-lowM>

61. THE PERFECT BEING

Posited Perfect Person Propagating Populations on Planets is Possibly Proposterous. Yet the Theory of evolution by chance from a single cell to variety of beings in self balancing ecosystem sounds educated. The world is divided into spiritually Asleep and Awake [#soulfamily](#) - Birds of feather flock together and the transformations happen accordingly.

"The Personality of Godhead is perfect and complete, and because He is completely perfect, all emanations from Him, such as this phenomenal world, are perfectly equipped as complete wholes. Whatever is produced of the Complete Whole is also complete in itself. Because He is the Complete Whole, even though so many complete units emanate from Him, He remains the complete balance.

Everything animate or inanimate that is within the universe is controlled and owned by the Lord. One should therefore accept only those things necessary for himself, which are set aside as his quota, and one should not accept other things, knowing well to whom they belong.

One may aspire to live for hundreds of years if he continuously goes on working in that way, for that sort of work will not bind him to the law of karma. There is no alternative to this way for man.

The killer of the soul, whoever he may be, must enter into the planets known as the worlds of the faithless, full of darkness and ignorance.

Although fixed in His abode, the Personality of Godhead is swifter than the mind and can overcome all others running. The powerful demigods cannot approach Him. Although in one place, He controls those who supply the air and rain. He surpasses all in excellence.

The Supreme Lord walks and does not walk. He is far away, but He is very near as well. He is within everything, and yet He is outside of everything.

He who systematically sees everything in relation to the Supreme Lord, who sees all living entities as His parts and parcels, and who sees the Supreme Lord within everything never hates anything or any being.

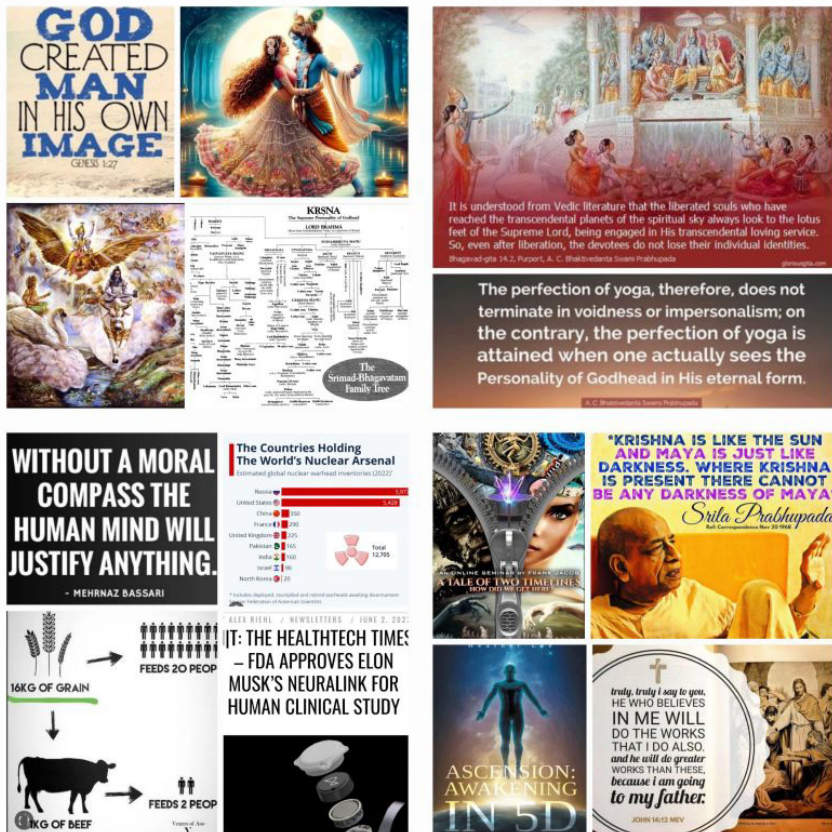

One who always sees all living entities as spiritual sparks, in quality one with the Lord, becomes a true knower of things. What, then, can be illusion or anxiety for him?

Such a person must factually know the greatest of all, the Personality of Godhead, who is unembodied, omniscient, beyond reproach, without veins, pure and uncontaminated, the self-sufficient philosopher who has been fulfilling everyone's desire since time immemorial.

Those who engage in the culture of nescient activities shall enter into the darkest region of ignorance. Worse still are those engaged in the culture of so-called knowledge.

The wise have explained that one result is derived from the culture of knowledge and that a different result is obtained from the culture of nescience.

Only one who can learn the process of nescience and that of transcendental knowledge side by side can transcend the influence of repeated birth and death and enjoy the full blessings of immortality." - Sri Isopanishad (Invocation and Mantra 1-11)

8 Signs the 5D Shift Has Changed Your Reality Immediately

<https://www.youtube.com/watch?v=Jh2hwBgvo2o>

62. INDEPENDENCE

Independent but within certain boundaries!

All living beings are part and parcel of God. All life is sacred in Eternal/Santan Dharma.

"It should be understood that all species of life, O son of Kuntī, are made possible by birth in this material nature, and that I am the seed-giving father.

Material nature consists of the three modes-goodness, passion and ignorance. When the living entity comes in contact with nature, he becomes conditioned by these modes."- Krishna (Bhagavad Gita 14.4-5)

The asleep think that they bodies and thus conditioned to operate on basis of bodily associations. They are not awake or conscious to the higher goals

"Eating, sleeping, fearing, and mating are the four principles of animal life. These are common both to animals and to human beings. But religion is the extra function of the human being. Without religion, human life is no better than animal life."- Mahabharat

The eternal soul wishes to grow and move into higher forms of life. Krishna/God as supreme parent has form that is Sac-cid-Ananda Vighraha (Spiritual body that is Eternal all Knowing and Blissful) and has many forms in the Spiritual worlds where he is the Deity/King.

"I worship Govinda, the primeval Lord, who manifested Himself personally as Kṛṣṇa and the different avatāras in the world in the forms of Rāma, Nṛsiṃha Dev, Vāmana, etc., as His subjective portions."- Bramha Samhita 5.39

Spiritual worlds are not about formlessness, voidism or monism rather about infinite varieties. The material world is a limited reflection of the Spiritual. The ORIGINAL SPIRITUAL forms become inspiration for material nature not the other way around.

This body made of material nature are temporary Avatars for experiences and lessons. The human form provides opportunity to seek connection with our source/God/Parent and get out of repeated reincarnations.

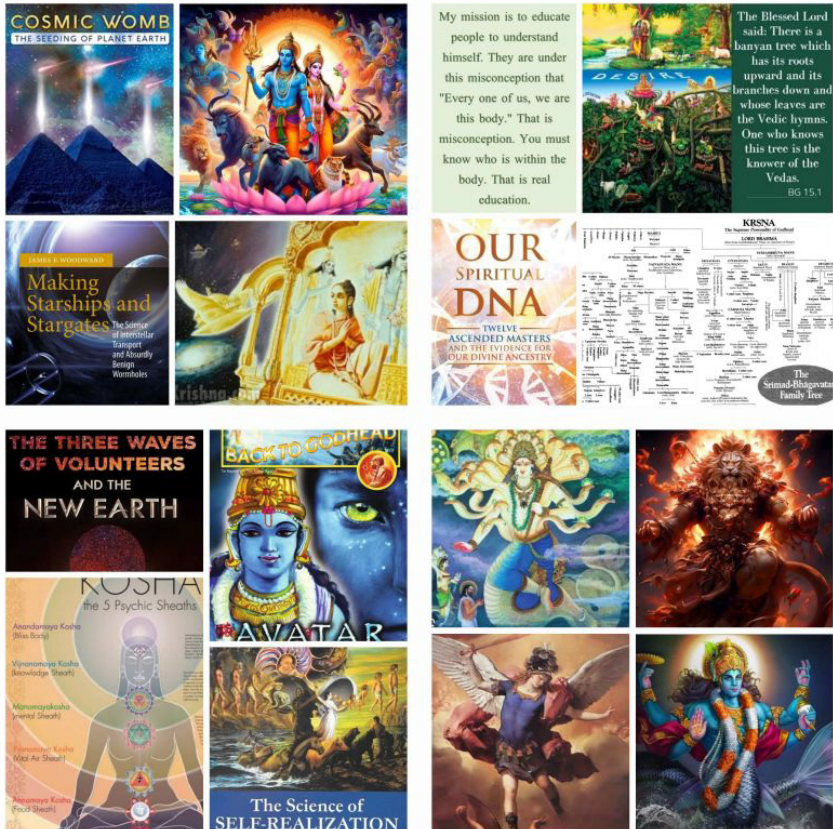

"The living entity in the material world carries his different conceptions of life from one body to another, as the air carries aromas. Thus, he takes one kind of body and again quits it to take another.

The living entity, thus taking another gross body, obtains a certain type of ear, eye, tongue, nose and sense of touch, which are grouped about the mind. He thus enjoys a particular set of sense objects." Krishna (BhagavadGita 15.8-9)

Being awake to higher Spiritual nature leads to material detachments and true independence. There are long forgotten families in higher realms, waiting to be Re-membered [#soulfamily](#). Awake and ready you will be connected through the heart and drawn to your higher callings.

"I am seated in everyone's heart, and from Me come remembrance, knowledge and forgetfulness. By all the Vedas, I am to be known. Indeed, I am the compiler of Vedānta, and I am the knower of the Vedas.

There are two classes of beings, the fallible and the infallible. In the material world every living entity is fallible, and in the spiritual world every living entity is called infallible.."- Krishna (Bhagvad Gita 15.15-16)

63. CHICKEN OR THE EGG?

Did the Chicken come first or the Egg? What are the assumptions? The hybridization programs throw a spanner in the works.

The Spiritual manifestations happen through the mind. God thus has infinite expansions of himself and his Pleasure/Bliss potency-Radha in Spiritual world.

"The light of one candle being communicated to other candles, although it burns separately in them, is the same in its quality. I adore the primeval Lord Govinda who exhibits Himself equally in the same mobile manner in His various manifestations." - Bramha Samhita 5.46

Material manifestations of various degrees requires the assistance of External Energy/Prakriti/Material Nature. This is true for all material creations of Space and Time.

"The external potency Māyā who is of the nature of the shadow of the cit (Knowledge) potency, is worshiped by all people as Durgā, the creating, preserving and destroying agency of this mundane world. I adore the primeval Lord Govinda in accordance with whose will Durgā conducts herself."- Bramha Samhita 5.44

The womb is a portal capable of mixing the DNAs of matter and spirit to create hybrids- One and different to the source. Something we learn about in both Science, History and Astrology.

"Kaśyapa, who is also named Tārksya, had four wives — Vinatā [Suparṇā], Kadrū, Pataṅgī and Yāminī. Pataṅgī gave birth to many kinds of birds, and Yāminī gave birth to locusts. Vinatā [Suparṇā] gave birth to Garuḍa, the carrier of Lord Viṣṇu, and to Anūru, or Aruṇa, the chariot driver of the sun-god. Kadrū gave birth to different varieties of serpents.

O Mahārāja Parīkṣit, best of the Bhāratas, the constellations named Kṛttikā were all wives of the moon-god. However, because Prajāpati Dakṣa had cursed him to suffer from a disease causing gradual destruction, the moon-god could not beget children in any of his wives.- Srimad Bhagavatam 6.6.21-23

So the hybridized egg came first producing the first Proverbial chicken or Adam who then perpetuated his branch of DNA.

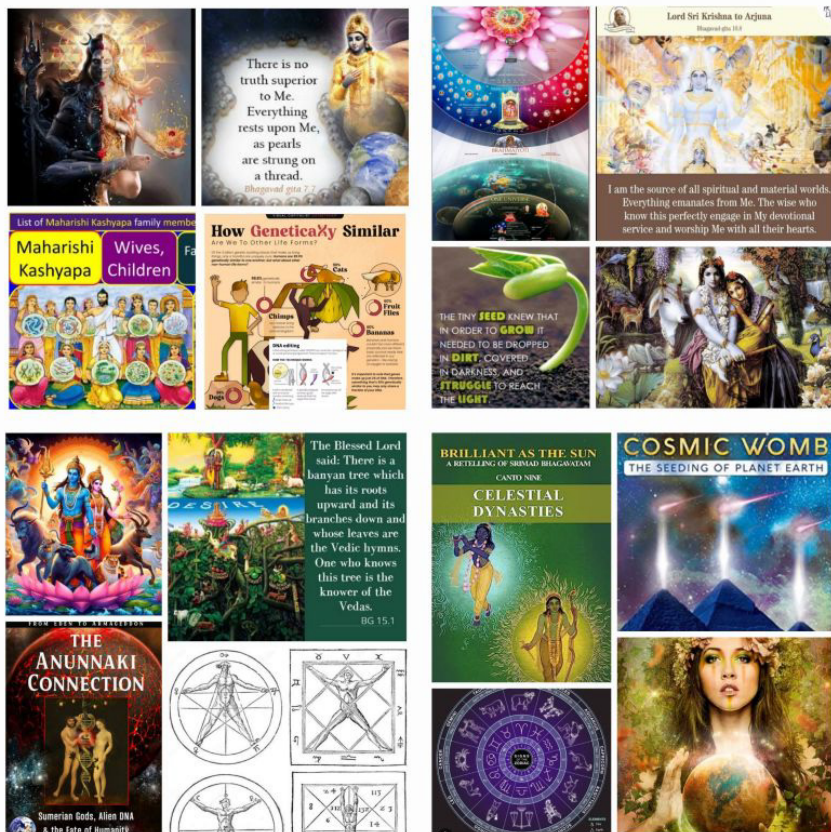

"By human calculation, a thousand ages taken together form the duration of Brahmā's one day. And such also is the duration of his night.

At the beginning of Brahmā's day, all living entities become manifest from the unmanifest state, and thereafter, when the night falls, they are merged into the unmanifest again.

Yet there is another unmanifest nature, which is eternal and is transcendental to this manifested and unmanifested matter. It is supreme and is never annihilated. When all in this world is annihilated, that part remains as it is."- Krishna (Bhagvad Gita 8.18-20)

The long living ancients were/are Technologically and Spiritually more advanced. They could see God directly. The eternally All attractive (Krishna) source of all inspirations for creation [#soulfamily](#).

"Kṛṣṇa who is known as Govinda is the Supreme Godhead. He has an eternal blissful spiritual body. He is the origin of all. He has no other origin and He is the prime cause of all causes."-
Bramha Samhita 5.1

https://www.youtube.com/watch?v=qlztoN1t_OE

64. GOING FREE RANGE

Continuing.. Sun day (Ravi var) and Mon (Moon)Day (Som var). The celestials are locked in with the daily, weekly, monthly and yearly and Yuga cycles of our dependent lives.

"The sun who is the king of all the planets, full of infinite effulgence, the image of the good soul, is as the eye of this world. I adore the primeval Lord Govinda in pursuance of whose order the sun performs his journey mounting the wheel of time."- Bramha Samhita 5.42

The celestial are worshipped for the benefits they offer but they too have their Spiritual source. The Material Universal Egg/Bramhaaand sits in Golden Cosmic womb /Hiranya garbh.

"After many births and deaths, he who is actually in knowledge surrenders unto Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare.

Those whose intelligence has been stolen by material desires surrender unto demigods and follow the particular rules and regulations of worship according to their own natures.

I am in everyone's heart as the Supersoul. As soon as one desires to worship some demigod, I make his faith steady so that he can devote himself to that particular deity.

Endowed with such a faith, he endeavors to worship a particular demigod and obtains his desires. But in actuality these benefits are bestowed by Me alone.

Unintelligent men, who do not know Me perfectly, think that I, the Supreme Personality of Godhead, Kṛṣṇa, was impersonal before and have now assumed this personality. Due to their small knowledge, they do not know My higher nature, which is imperishable and supreme."- Krishna (Bhagavad Gita 7.20-22)

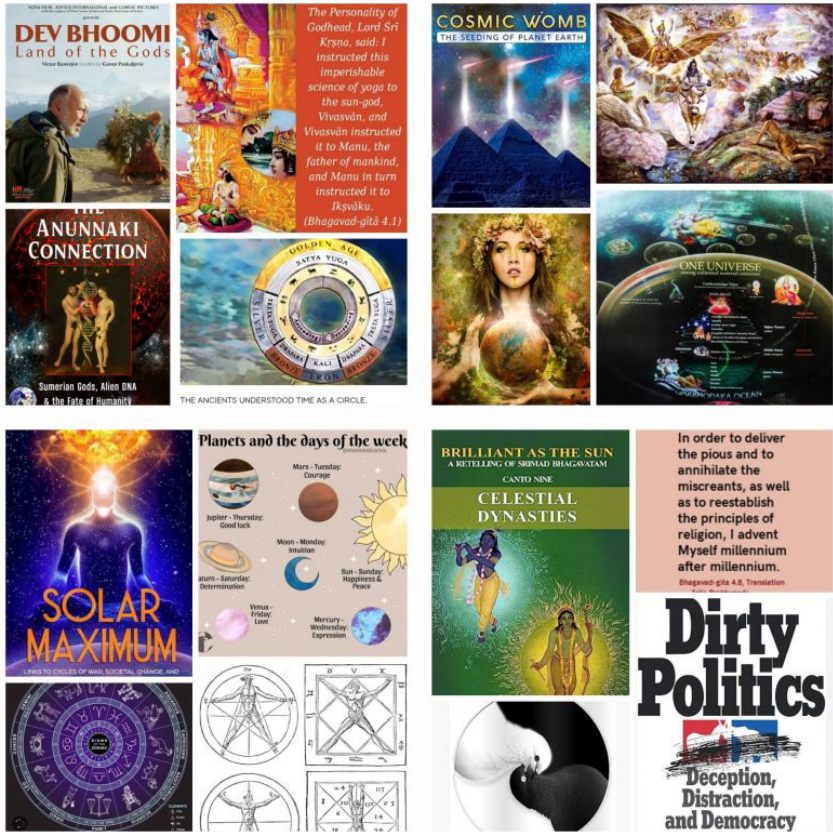

Earth is surrounded by Celestial Demigods and Demons. We were never alone. A little knowledge is a dangerous thing and without the Ascension into God consciousness we are just children with weapons. Left to our own Democratic games between the left and right we might just destroy the whole world.

"All the Manus offered their prayers as follows: As Your order carriers, O Lord, we, the Manus, are the law-givers for Human society, but because of the temporary supremacy of this great demon, Hiranyakaśipu, our laws for maintaining varṇāśrama-dharma were destroyed. O Lord, now that You have killed this great demon, we are in our normal condition. Kindly order us, Your eternal servants, what to do now."- Srimad Bhagavatam 7.8.48

And yet there are many worlds of many beings of different natures. Despite what the Speculated Theories of Creation may suggest, nothing is left to chance. The cycles of sunny side up days and dark nights are the necessary Good/Evil of Material Nature.

The responsibility of All Space and Time rests with beings of Krishna/God as the Supreme maintainer. The mature devotees liberated from the Cosmic Egg, move free range of all dualities of Space and Time [#soulfamily](#).

"That supreme abode of Mine is not illumined by the sun or moon, nor by fire or electricity. Those who reach it never return to this material world."- Krishna (Bhagvad Gita 15.6)

65. ACCEPTING UNITY IN DIVERSITY

The Spiritualist speak of Angels/Demigods and Demons. Scientifically minded talk about Aliens and Extra Terrestrials. Fear seems to be the predominant emotion when we think ourselves inferior. Fear of an Invasion!

What if they came not to invade but to pay their respects. Would that make a difference?

"We are now living in the heavenly planets, undoubtedly as a result of our having performed ritualistic ceremonies, pious activities and yajnas and having studied the Vedas. However, our lives here will one day be finished. We pray that at that time, if any merit remains from our pious activities, we may again take birth in Bhārata-varṣa as human beings able to remember the lotus feet of the Lord. The Lord is so kind that He personally comes to the land of Bhārata-varṣa and expands the good fortune of its people." - Srimad Bhagavatam 5.19.28

We discussed that in Golden ages on Earth when there was no worship of Demigods for everyone was God Consciousness and equal.

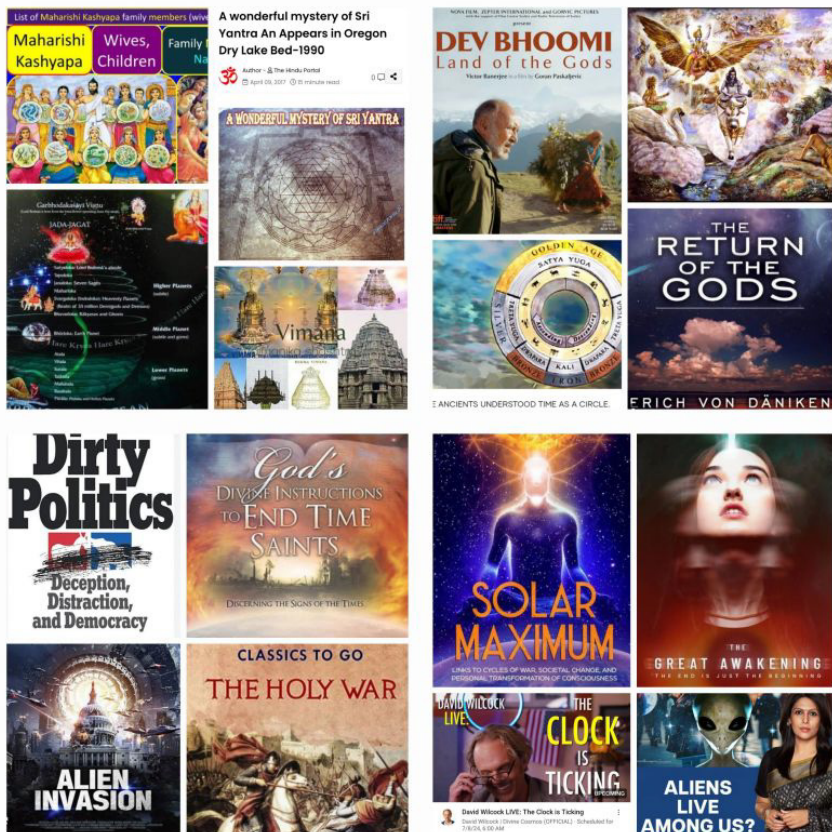

In the Satya-yuga, the first millennium, all the Vedic mantras were included in one mantra — praṇava, the root of all Vedic mantras. In other words, the Atharva Veda alone was the source of all Vedic knowledge. The Supreme Personality of Godhead Nārāyaṇa was the only worshipable Deity; there was no recommendation for worship of the demigods. Fire was one only, and the only order of life in Human society was known as haṁsa."- Srimad Bhagvatam 9.14.48

Change is the only permanent thing and the cycles have to repeat. The change into a golden age on Earth is not one of war and victory but of understanding and acceptance of those that are on a higher and lower platforms of consciousness. We only see half our reality and thus feel superior for our intelligence and technology. When the veil is lifted, the experience may be humbling.

"Superior to worms and snakes are animals that have developed intelligence. Superior to animals are human beings, and superior to human beings are ghosts because they have no material bodies. Superior to ghosts are the Gandharvas, and superior to them are the Siddhas. Superior to the Siddhas are the Kinnaras, and superior to them are the asuras. Superior to the asuras are the demigods, and of the demigods, Indra, the King of heaven, is supreme. Superior to Indra are the direct sons of Lord Brahmā, sons like King Dakṣa, and supreme among Brahmā's sons is Lord Śiva. Since Lord Śiva is the son of Lord Brahmā, Brahmā is considered superior, but Brahmā is also subordinate to Me, the Supreme Personality of Godhead. Because I am inclined to the brāhmaṇas, the brāhmaṇas are best of all."- Srimad Bhagavatam 10.5.21-22

Through Humility and God Consciousness we become qualified to gain sight of new knowledge #soulfamily. We can see Unity in Diversity.

"The humble sage, by virtue of true knowledge, sees with equal vision a learned and gentle brahmana, a cow, an elephant, a dog and a dog-eater [outcaste] ."- Krishna (Bhagvad Gita 5.18)

66. RELATIVE SPACE

We understand relative time. Time flies when having fun but moves slowly when we struggle. Could such a conscious Theory hold for the dimension of Space?

We seem to think planets and galaxies are unfathomably far away when the underlying theory of a Universe is that it is One-verse. The Governance of any Space and Time is easily understood through the understanding of Countries with boundaries and Terms of the Elected members. How is then that people do not understand that other planets are governed as well?

Perhaps the impersonalism of the Science of Universe has confused the masses. They believe that everything is light years away. It is just another unit of time. Another unit of a Dimension that can be relatively shortened or expanded through consciousness applications. There are Higher beings that have command over their consciousness. The Demigods/Angels and Demons are here and yet not. The science dimensions of Space and Time are clearer to them. Perhaps these others are not as far we thought or as the information has been scientifically explained to us.

There are fields of consciousness that are open to those who seek them. One cannot be given what one does not desire. It is against freewill. Then what use is any knowledge if it is to be used for destruction? If we cannot learn to find peace within then peace without has little value and if we find peace within then outside becomes irrelevant. The shift to higher consciousness leads to self-sufficiency and the self-sufficient can lead the way to higher consciousness.

One truly gives when they have nothing to lose.

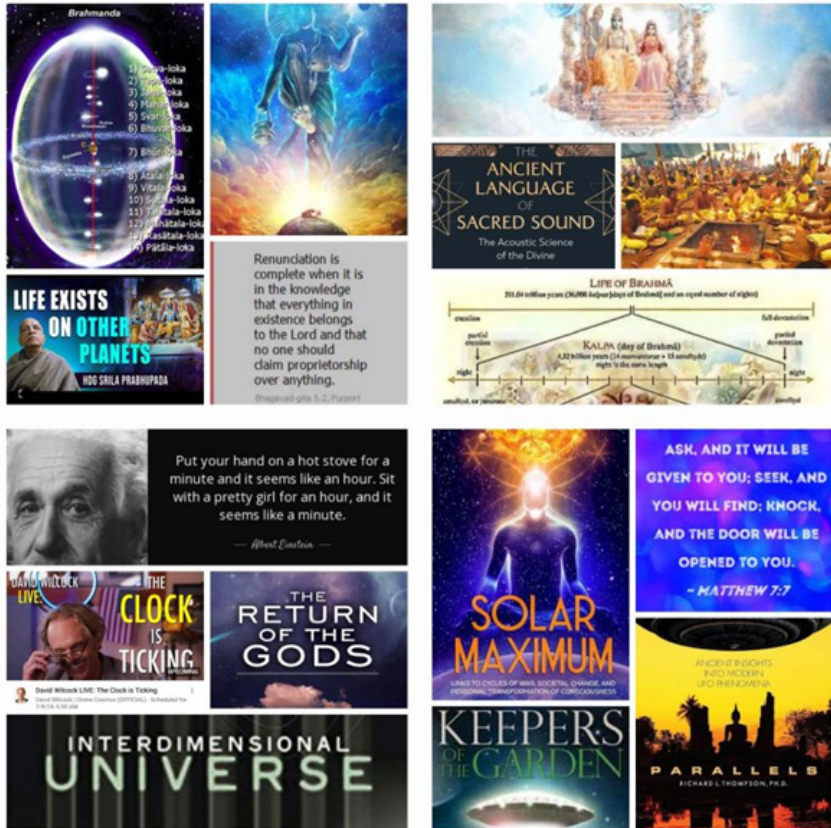

"Bali Mahārāja, the worshiper of Lord Vāmanadeva, jubilantly washed the Lord's lotus feet and then took the water on his head, for that water delivers the entire universe.

At that time, the residents of the higher planetary system, namely the demigods, the Gandharvas, the Vidyādhara, the Siddhas and the Cāraṇas, all being very pleased by Bali Mahārāja's simple, nonduplicious act, praised his qualities and showered upon him millions of flowers.

The Gandharvas, the Kimpuruṣas and the Kinnaras sounded thousands and thousands of kettledrums and trumpets again and again, and they sang in great jubilation, declaring, "How exalted a person is Bali Mahārāja, and what a difficult task he has performed! Even though he knew that Lord Viṣṇu was on the side of his enemies, he nonetheless gave the Lord the entire three worlds in charity."

The unlimited Supreme Personality of Godhead, who had assumed the form of Vāmana, then began increasing in size, acting in terms of the material energy, until everything in the universe was within His body, including the earth, the planetary systems, the sky, the directions, the various holes in the universe, the seas, the oceans, the birds, beasts, human beings, the demigods and the great saintly persons."- Srimad Bhagavatam 8.20.18-21

How unfortunate it is that we place limits on the unlimited and make the limited unlimited. It needs to change.

https://www.youtube.com/watch?v=rz_54ObLm2c

67. SPECIES IN SPACES

Previously discussed list of Alien Species was a short version of the 400,000 types of humanoids available in this Universe. This should not be surprising for much is still unexplored on the land and waters of this planet alone. What then to speak of worlds in Sky.

“There are 900,000 species living in the water. There are also 2,000,000 nonmoving living entities (sthavara), such as trees and plants. There are also 1,100,000 species of insects and reptiles, and there are 1,000,000 species of birds. As far as quadrupeds are concerned, there are 3,000,000 varieties, and there are 400,000 human species.” - Vishnu Puran

All species of the Universe are bound by the combination of the modes of material natures. All have different standards of ethics and behaviors.

"The Supreme Personality of Godhead said: Listen again, O mighty-armed Arjuna. Because you are My dear friend, for your benefit I shall speak to you further, giving knowledge that is better than what I have already explained.

Neither the hosts of demigods nor the great sages know My origin or opulences, for, in every respect, I am the source of the demigods and sages.

He who knows Me as the unborn, as the beginningless, as the Supreme Lord of all the worlds – he only, undeluded among men, is freed from all sins."- Krishna (Bhagvad Gita 10.1-3)

Such discernment is rare! Great devotees like Demon King Bali and Manu descendent Dhruv were willing to give up the opulence of the three worlds for it.

"Previously all the great sages rendered service unto the Personality of Godhead due to His existence above the three modes of material nature. They worshiped Him to become free from material conditions and thus derive the ultimate benefit. Whoever follows such great authorities is also eligible for liberation from the material world.

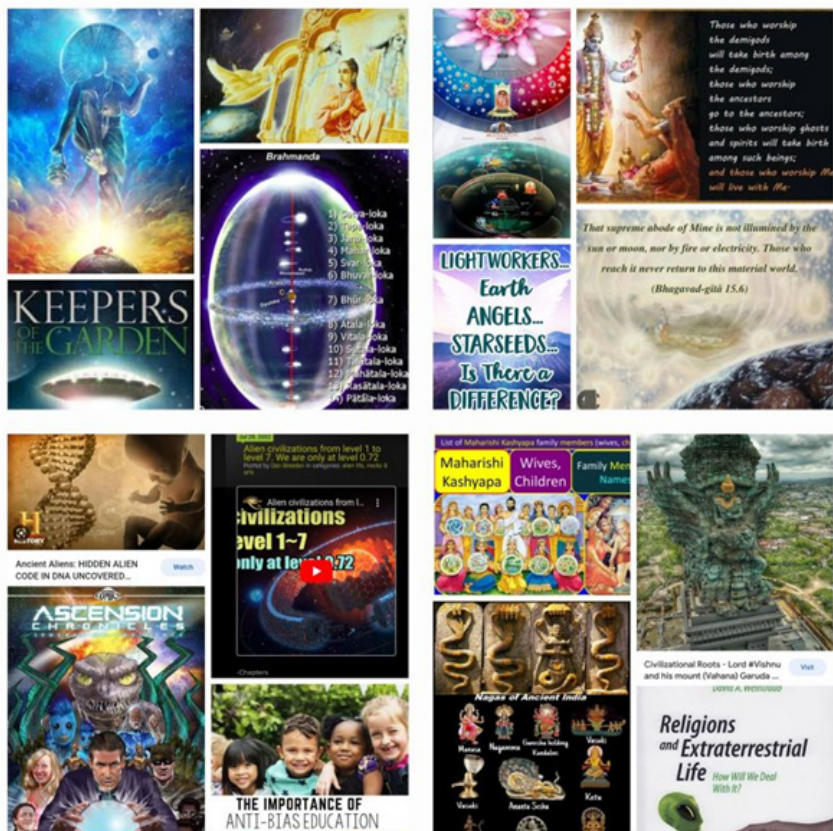

Those who are serious about liberation are certainly nonenvious, and they respect all. Yet they reject the horrible and ghastly forms of the demigods and worship only the all-blissful forms of Lord Viṣṇu and His plenary portions.

Those who are in the modes of passion and ignorance worship those in the same category — namely the forefathers, other living beings and the demigods who are in charge of cosmic activities — for they are urged by a desire to be materially benefited with women, wealth, power and progeny.

In the revealed scriptures, the ultimate object of knowledge is Śrī Kṛṣṇa, the Personality of Godhead. The purpose of performing sacrifice is to please Him. Yoga is for realizing Him. All fruitive activities are ultimately rewarded by Him only. He is supreme knowledge, and all severe austerities are performed to know Him. Religion [dharma] is rendering loving service unto Him. He is the supreme goal of life."- Srimad Bhagavatam 1.2.25-28

It doesn't matter which species material DNA we hold, God/Krishna consciousness is rare realisation of spiritual DNA [#soulfamily](#). A culmination of piety of many Life Times and thus devotees are Universally glorified.

68. RELIGIONS AND POLITICS

Are the majority of wars because of Politics or Religion? We are all Political prisoners of our religions when we do not understand Sanatan/Eternal Dharma. And we wonder why there has been no official disclosure to date!

If we cannot keep peace with our neighbour's who were born and brought up with us and lived with us all our lives then how can we keep peace with those who look different? People are so willing to feuds with friends and family over the prettiest things - a football match, a bit of money, a belief system. The hate and aggressive behaviour towards those who are more fortunate and superior and intolerance to those who are inferior is not the 'Humanitarian' belief system we want to propagate in the Universe.

This is why the Leaders of the Society that we need to appreciate are the ones who Truly understand God and Religion. Those who understand the Diversity of Nature and accept the Duality of existence on the material platform. Without accepting of such no acceptance can truly be achieved [#soulfamily](#).

It is one thing to glorify God conscious of your own race and culture and it is another to glorify one from a completely different background. This is why it is the priests that were the true leaders of the past and the warriors were the administrator Kings. It is why that is wanted now. Contact will be through the Leaders of Religion so that discussions can take place in the right frame of mind. Those who fight for protection of physical and mental borders of material world do not understand the Unity of Spiritual.

This has been a long journey of many posts over many years. Political leaders will not relinquish power that arises from Divide and Rule. It is the Great Awakening that must happen from within to prepare the world to see the Truth for themselves.

"O son of Kuntī, I am the taste of water, the light of the sun and the moon, the syllable om̐ in the Vedic mantras; I am the sound in ether and ability in man.

I am the original fragrance of the earth, and I am the heat in fire. I am the life of all that lives, and I am the penances of all ascetics.

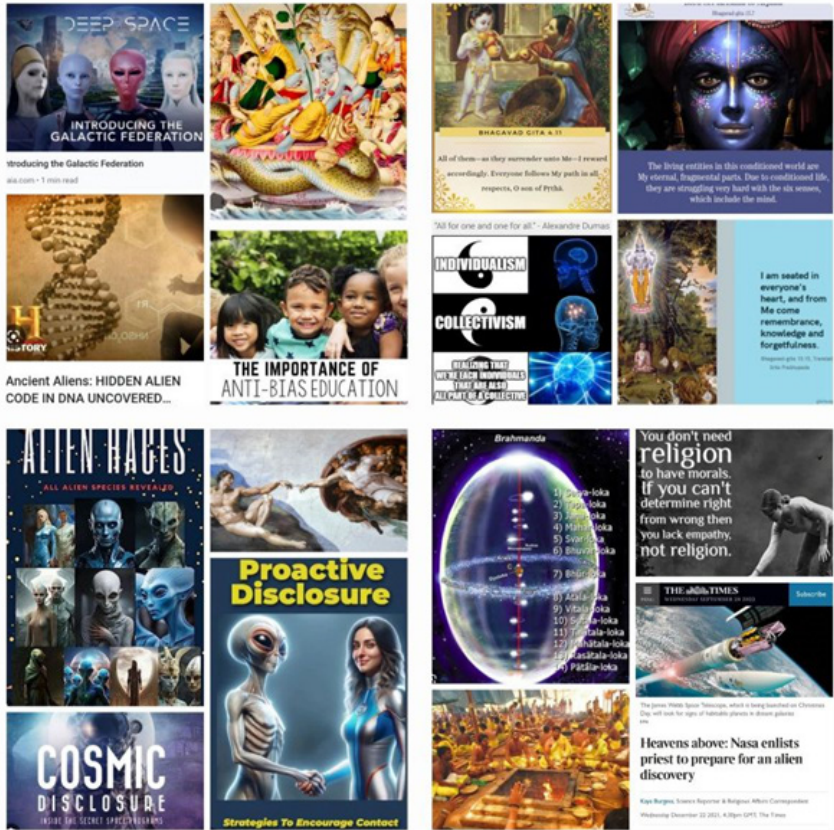

O son of Pṛthā, know that I am the original seed of all existences, the intelligence of the intelligent, and the prowess of all powerful men.

I am the strength of the strong, devoid of passion and desire. I am sex life which is not contrary to religious principles, O lord of the Bhāratas [Arjuna].

Know that all states of being – be they of goodness, passion or ignorance – are manifested by My energy. I am, in one sense, everything, but I am independent. I am not under the modes of material nature, for they, on the contrary, are within Me.

Deluded by the three modes [goodness, passion and ignorance], the whole world does not know Me, who am above the modes and inexhaustible.

This divine energy of Mine, consisting of the three modes of material nature, is difficult to overcome. But those who have surrendered unto Me can easily cross beyond it."- Krishna (Bhagvad Gita 7.8-14)

Antarctica's Frozen Secrets Exposed by Experts!

<https://www.youtube.com/watch?v=WfHqPHZZxIQ>

69. GOD'S PLANET

When the collective loses faith in Democracy, new leaders must rise to be true representatives of the population. They must propose a new way of thinking, alternative solutions for Unity and Peace. This is not new, it is a very cyclical phenomenon.

If the governments cannot be trusted by their own people then they should not be trusted by others. All Treaties and Accords are but pieces of paper with no heart behind them. True Leaders are respected by their people and people are protected by their True leaders.

The change in the view of collective consciousness means that those who recognize the old leaders as representatives must also change their rules of engagement. This is why We discussed the need for God conscious Brahmins/Intellectuals as leaders of the Awakening World. Those who respect the higher Laws of God do not have need for written Treaties and Accords. The self-regulated Brahmins do not seek Power and Wealth. Their hearts are an open book and they Lead to Serve.

"My dear Arjuna, one who does not follow in human life the cycle of sacrifice thus established by the Vedas certainly leads a life full of sin. Living only for the satisfaction of the senses, such a person lives in vain.

But for one who takes pleasure in the Self, whose human life is one of self-realization, and who is satisfied in the Self only, fully satiated – for him there is no duty.

A self-realized man has no purpose to fulfill in the discharge of his prescribed duties, nor has he any reason not to perform such work. Nor has he any need to depend on any other living being.

Therefore, without being attached to the fruits of activities, one should act as a matter of duty, for by working without attachment one attains the Supreme.

Kings such as Janaka attained perfection solely by performance of prescribed duties. Therefore, just for the sake of educating the people in general, you should perform your work.

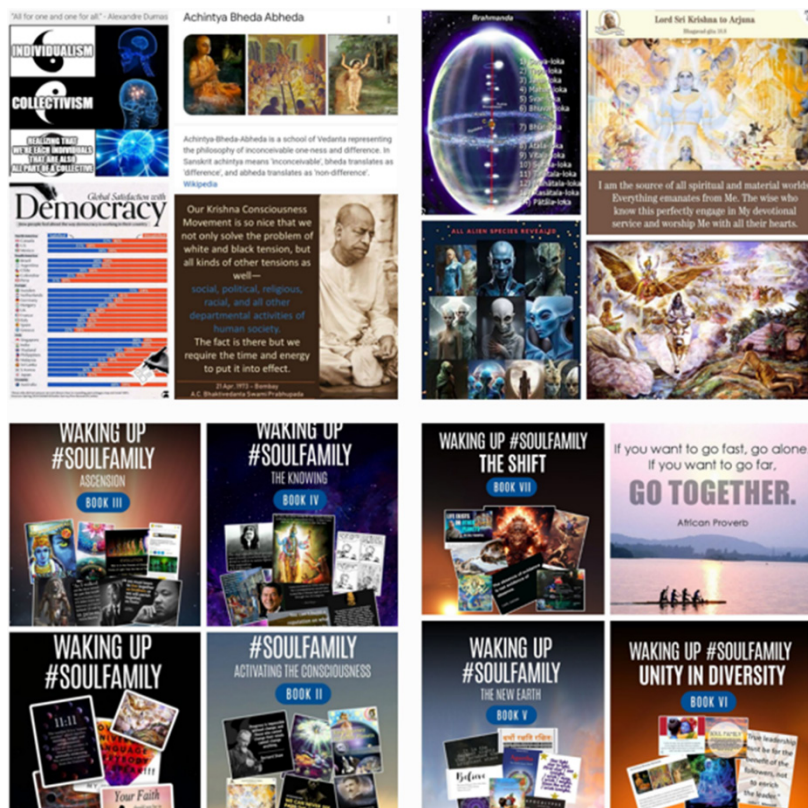

Whatever action a great man performs, common men follow. And whatever standards he sets by exemplary acts, all the world pursues."- Krishna (Bhagvad Gita 3.16-21)

God conscious Light workers and Spiritualists who truly understand the Unity in Diversity are not to be censored for their views. They need to stand up and be counted for helping shape the new paradigm. They are means to the end that is the Cosmic Disclosure. The Supreme Personality of Godhead has his planets too #soulfamily.

" Dear King Dhruva, neither your forefathers nor anyone else before you ever achieved such a transcendental planet. The planet known as Viṣṇuloka, where Lord Viṣṇu personally resides, is the highest of all. It is worshipable by the inhabitants of all other planets within the universe. Please come with us and live there eternally.

O immortal one, this unique airplane has been sent by the Supreme Personality of Godhead, who is worshiped by selected prayers and who is the chief of all living entities. You are quite worthy to board such a plane."- Srimad Bhagavatam 4.12.26-27

Waking up #Soulfamily
