THE KNOWING

Book IV

COMPILED BY

CHANDERHAS KUMAR (SOUL)

INTRODUCTION

The journey continues with more posts. As the world changes around us I am guided through thoughts and synchronicities to old ideas as seen through new lenses. Some things change and some don't, for most part people continue to fight or engage in materialistic ways or engage in wars. Some choose a spiritual path to evolve spiritually. Those who have been able to connect the dots of the illusory world around them and find the need to disconnect from the fears will have found the way.

For those still waiting, the disclosure comes amongst the distractions, it requires discernment to filter the truth from the false. The false prophets showing themselves as leaders of new age and guiding us away from God in one form or another. The Pride comes before the fall.

The seekers of truth have been doing their research for long, their eyes are open to realities and love already. They have moved beyond seeing is believing. They have a Knowing #soulfamily.

1. WAKING UP TO VEDIC HISTORY

We are waking up to the Vedic history of the world and recognizing its interconnectedness to the various ancient cultures. When we begin to appreciate the advancements in the ancient technology and spirituality, let us not ignore the principles that it was based on. They are relevant today to individuals and collectives. We have to learn from history/scriptures that exist as guides. As we investigate we will realise our true history.

"If the personality of Kali, irreligion, is allowed to act as a man-god or an executive head, certainly irreligious principles like greed, falsehood, robbery, incivility, treachery, misfortune, cheating, quarrel and vanity will abound.

Therefore, O friend of irreligion, you do not deserve to remain in a place where experts perform sacrifices according to truth and religious principles for the satisfaction of the Supreme Personality of Godhead.

In all sacrificial ceremonies, although sometimes a demigod is worshiped, the Supreme Lord Personality of Godhead is worshiped because He is the Supersoul of everyone, and exists both inside and outside like the air. Thus it is He only who awards all welfare to the worshiper.

Śrī Sūta Gosvāmī said: The personality of Kali, thus being ordered by Mahārāja Parīkṣit, began to tremble in fear. Seeing the King before him like Yamarāja, ready to kill him, Kali spoke to the King as follows.

O Your Majesty, though I may live anywhere and everywhere under your order, I shall but see you with bow and arrows wherever I look.

Therefore, O chief amongst the protectors of religion, please fix some place for me where I can live permanently under the protection of your government.

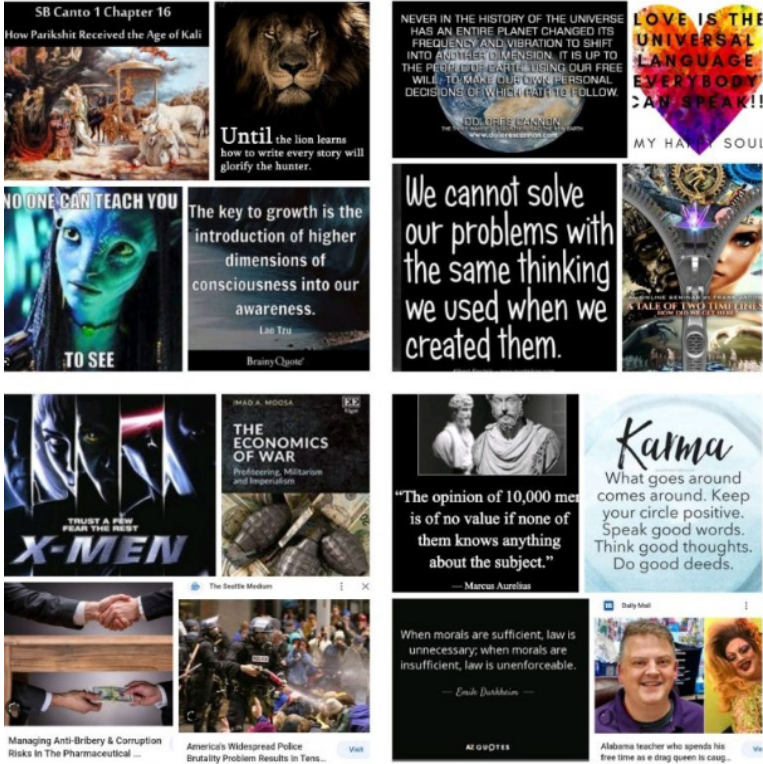

Sūta Gosvāmī said: Mahārāja Parīkṣit, thus being petitioned by the personality of Kali, gave him permission to reside in places where gambling, drinking, prostitution and animal slaughter were performed.

The personality of Kali asked for something more, and because of his begging, the King gave him permission to live where there is gold because wherever there is gold there is also falsity, intoxication, lust, envy and enmity.

Thus the personality of Kali, by the directions of Mahārāja Parīkṣit, the son of Uttarā, was allowed to live in those five places.

Therefore, whoever desires progressive well-being, especially kings, religionists, public leaders, brāhmaṇas and sannyāsīs, should never come in contact with the four above-mentioned irreligious principles."- Srimad Bhagavatam 1.17.32-40)

Gold as jewellery became a cause of the demise of the God fearing King parikshit himself. Kali came in control is now sitting in the heads and hearts of our political managers. What should be done to change the world [#soulfamily](#)? This is a Spiritual war. What side are we on is determined by our own freewill and vibrations. What type of world do we want to see and live in if we can co-create our reality? Are we uniting under Good and God or are we enjoying the irreligious principles? The world within is the world without.

2. THE ORGANIC PATH

We discussed in great detail natural and organic paths and explanation to the ancient Vedic Civilization. The existence of siddhis that were obtained through austerities and penance. Similarly, the celestial weapons and chariots and even sons and daughters were obtained through accomplishments of great sacrifices.

"In the beginning of creation, the Lord of all creatures sent forth generations of men and demigods, along with sacrifices for Visnu, and blessed them by saying, "Be thou happy by this yajna [sacrifice] because its performance will bestow upon you all desirable things.

The demigods, being pleased by sacrifices, will also please you; thus nourishing one another, there will reign general prosperity for all In charge of the various necessities of life, the demigods, being satisfied by the performance of yajna [sacrifice], supply all necessities to man. But he who enjoys these gifts, without offering them to the demigods in return, is certainly a thief.

The devotees of the Lord are released from all kinds of sins because they eat food which is offered first for sacrifice. Others, who prepare food for personal sense enjoyment, verily eat only sin."- Krishna (Bhagavad Gita 3.10-13)

It is unfortunate that the scientific mindset does not allow people to comprehend the subtle energies at play and they continue to seek a 'Nuts and Bolts' explanation for everything. Are there nuts and bolts in your body??

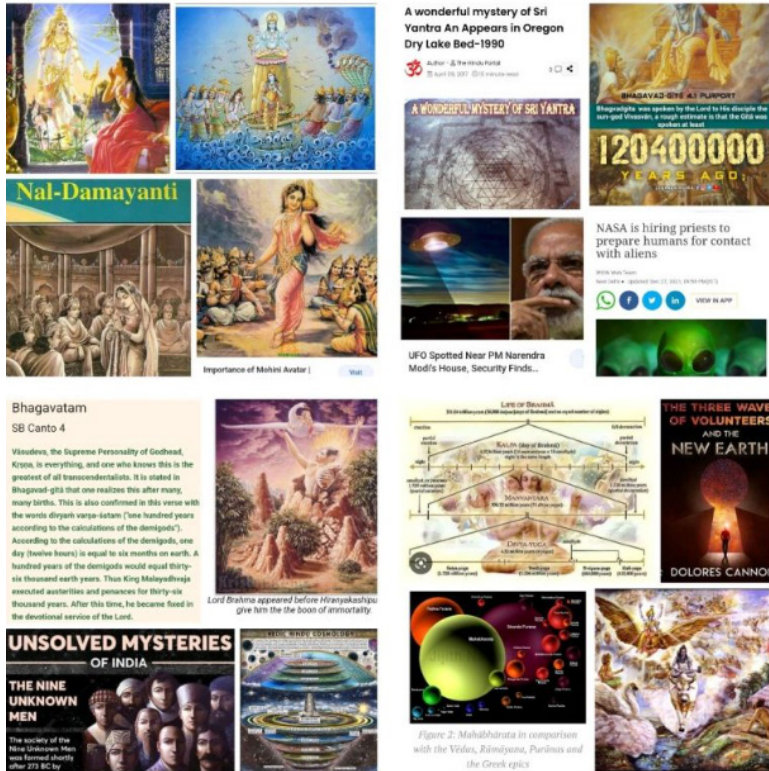

The energies or layers of skins are connected seamlessly [#soulfamily](#).

The mixing is intricate yet there is divisions in the parts of the body to create the one whole. Each has its own specific function that adds variety and flavour to life. This flavour evolves over Time too. People start to become more scientific and trying to explain everything through nuts and bolts. Then they try to control it without understanding the spiritual aspect of life. Without understanding God/Krishna.

This is why the Demons and Demigods are superior to humans. Because they both are aware of subtle energies and they perform austerities to get these. The Demigods are favoured because they are surrendered souls. They perform Devotional services of maintenance and are thus under direct supervision of Krishna/Vishnu - The Supreme Personality of Godhead.

"All of the above-mentioned incarnations are either plenary portions or portions of the plenary portions of the Lord, but Lord Śrī Kṛṣṇa is the original Personality of Godhead. All of them appear on planets whenever there is a disturbance created by Atheists (Enemies of Indra). The Lord incarnates to protect the theists."- Srimad Bhagavatam 1.3.38

That is why they have exceptional long lives. They do not compare to the life spans of even the Demons because they were awarded the Elixir. Despite both working in same conditions, at the same time for the same goal the Demigods being devotees won the elixir and won the right to be invincible. God always wins and therefore his devotees win too. Krishna is Time!

3. ATHEISM

Being Anti-God is not Atheism. It just means you don't agree with him. Krishna/God is all for freewill. He allows dissent as part of the independence that is granted to all living beings. They Anti-Vishnu/Krishna Villains were awarded liberation too. Liberation awarded to the Demons but it is not the same as the one awarded to Devotees who worship the Supersoul Personality of Godhead. This has been discussed in the stories of Hiranyakashipu, Ravan and Putna etc.

"Pūtānā was always hankering for the blood of human children, and with that desire she came to kill Kṛṣṇa; but because she offered her breast to the Lord, she attained the greatest achievement. WHAT THEN is to be said of those who had natural devotion and affection for Kṛṣṇa as mothers and who offered Him their breasts to suck or offered something very dear, as a mother offers something to a child?" - Srimad Bhagavatam 10.6.35-36

Atheism is not believing in God. This is the worst crime that people perform [#soulfamily](#). The ascension in God can be for those who are Devotees or enmical to God. Hence you see a duality even in higher realms of material world. The animals do not believe in God hence the wonder in one form to another.

"Eating, Sleep, Fear and Sex ; these habits are common between human beings and animals. It is the Dharma/God consciousness which is the special quality of the human beings. Without the Dharma, they are similar to the animals" - Mahabharat

Just because there are many forms on this Earth school but Humans are the Teachers, similarly even on other planetary systems Humanoid form is the most evolved form of all beings.

And Human form on Bharata Varsha is most rare. Formlessness is not a desired trait. It's attraction leads to Atheism.

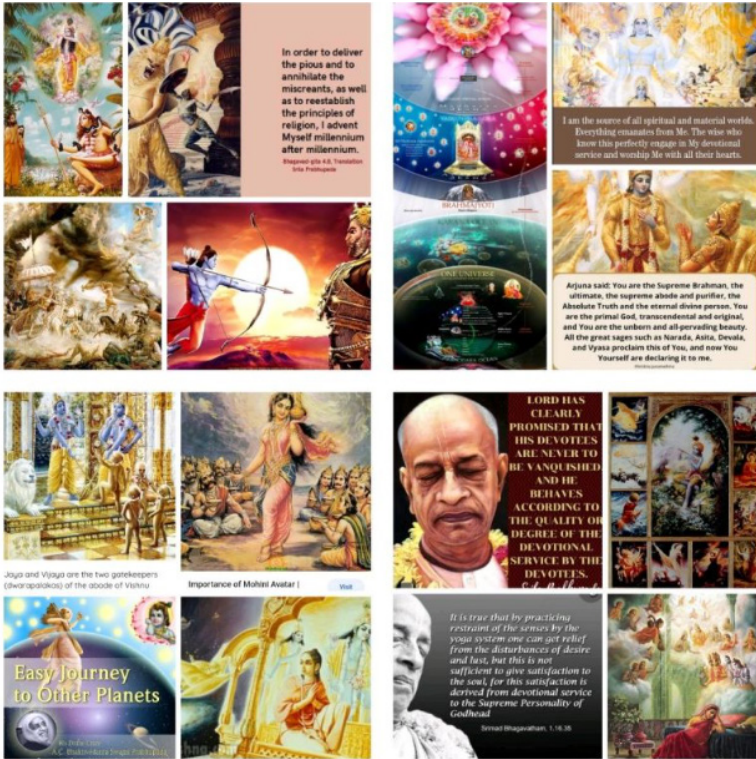

māyāvādam asac chāstram pracchannaṁ bauddham ucyate
 mayaiva kalpitaṁ devi kalau brāhmaṇa-rūpiṇā
 brahmaṇas cāparaṁ rūpaṁ nirguṇaṁ vakṣyate mayā
 sarva-svaṁ jagato 'py asya mohanārthaṁ kalau yuge
 vedānte tu mahā-śāstre māyāvādam avaidikam
 mayaiva vakṣyate devi jagatām nāśa-kāraṇāt

"The Māyāvāda philosophy," Lord Śiva informed his wife Pārvatī, "is impious [asac chāstra]. It is covered Buddhism. My dear Pārvatī, in Kali-yuga I assume the form of a brāhmaṇa and teach this imagined Māyāvāda philosophy. In order to cheat the atheists, I describe the Supreme Personality of Godhead to be without form and without qualities. Similarly, in explaining Vedānta I describe the same Māyāvāda philosophy in order to mislead the entire population toward atheism by denying the personal form of the Lord."- Padma Puran

The Demigods or not worried about their form as they can change forms at will. What they want is devotion in any form that allows them Devotional service in Person that's Highest Perfection.

"After attaining Me, the great souls, who are yogīs in devotion, never return to this temporary world, which is full of miseries, because they have attained the highest perfection."- Krishna (Bhagavad Gita 8.15)

4. INDIAN GOD

God is not an Indian or a Middle Eastern or a Westerner. He is in everything and everyone and also in his own abode. The objective of preaching the Science of God/Krishna and quoting the Vedic scriptures is to bring the world together. Not to create racial profile of the Supreme Personality of Godhead.

"I am seated in everyone's heart, and from Me come remembrance, knowledge and forgetfulness. By all the Vedas am I to be known; indeed I am the compiler of Vedanta, and I am the knower of the Vedas."- Krishna (Bhagavad Gita 15.15)

The understanding of God cannot be obtained from those who believe they are God. They cannot preach as they cannot prove. The Vedic scriptures are an authority because they are Historic facts and records of incarnations of higher beings and God himself. Spiritually and technologically advanced civilizations with much higher consciousness and contact with beings from celestial realms could not be fooled. They even asked Krishna to prove himself- and so he showed his Universal form.

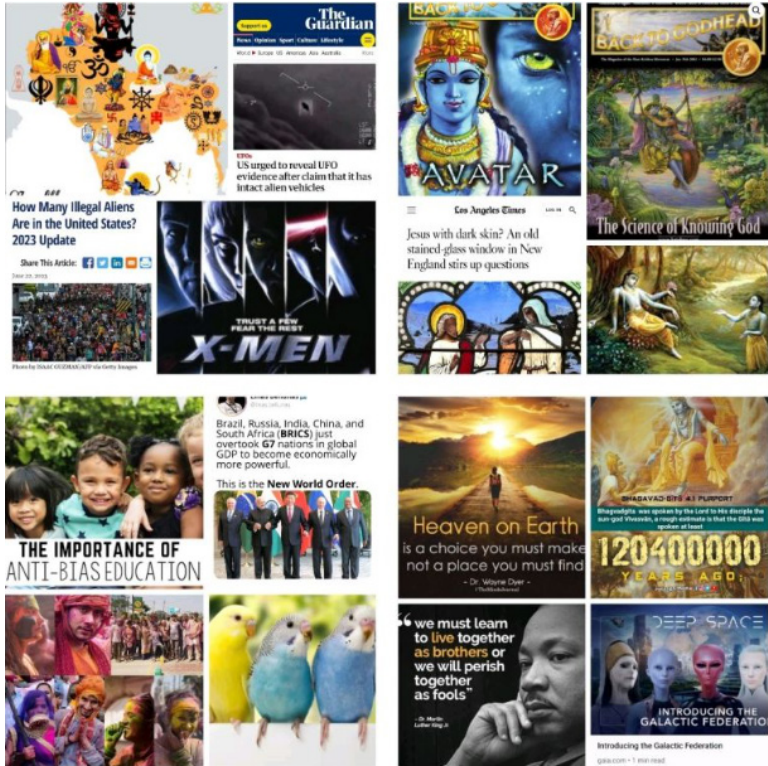

We live in a world of media and propaganda, where illusions are created on screens to create disillusion in the mind. Their ability to discern is greatly reduced. These issues did not exist in the past where clarity of thought is discerned by the quality of questions posed in the scriptures. Not one book rather countless Vedic scriptures are in the form of questions and answers, reigning Supreme amongst the spiritually enlightening documents is the Bhagavad Gita. It remains relevant today as it did 5000 years ago. Truth is Absolute and Santan/Eternal, it cannot be covered by the dust of time or illusory energy/Maya.

We are the ones who sleep and wake up again and again [#soulfamily](#). We are the ones who forget our past, our history of this planet and of this universe. The cycles of creation and destruction are rise and fall of collective consciousness that plays out on our screens and lives. Yet we do not seek spiritual solution. When we start to believe the spiritual aspect of our existence, then we shall see that despite borders on Earth or elsewhere. Then the racial profiling will disappear and you may greet each other with a Namaste! (I bow to the Divinity in you). How can I be of service to you.

Everyone no matter what country or race one belongs to everyone should have equal rights to all knowledge; the science of God is the most sacred of all. It should be open to question for enquiry and be studied from authorities too. As discussed, this science has Teachers too. The surrendered souls are Spiritual Masters, and the ones who are truly representative of God.

"Just try to learn the truth by approaching a spiritual master. Inquire from him submissively and render service unto him. The self-realized soul can impart knowledge unto you because he has seen the truth.

And when you have thus learned the truth, you will know that all living beings are but part of Me—and that they are in Me, and are Mine."- Krishna (Bhagvad Gita 4.34-35)

5. MISUSE OF POWER

The battle to conquer and grow is insatiable for many who enjoy Power and control. They may disguise their interests in the form of national interests/Security or in the form of acts of civilising or helping others. But everyone is looking after their own

"The attraction between male and female is the basic principle of material existence. On the basis of this misconception, which ties together the hearts of the male and female, one becomes attracted to his body, home, property, children, relatives and wealth. In this way one increases life's illusions and thinks in terms of "I and mine."- Srimad Bhagavatam 5.5.8

sometimes the personal interests are not visible until later. The economics of war relies heavily on motivational propaganda to divide one against another for the interest of the few on the top. Only the truly kind at heart feel the loss of others.

But power in the hands of the unjust rarely responds to reason. As discussed, many times, in the battle of Mahabharat the Kauravas refused to surrender the rightful kingdom of the Pandavas. The Villain would not spare an inch of land. The war was called as a last resort and even then Arjuna refused to fight for material wealth.

"Arjuna said: My dear Kṛṣṇa, seeing my friends and relatives present before me in such a fighting spirit, I feel the limbs of my body quivering and my mouth drying up.

My whole body is trembling, my hair is standing on end, my bow Gāṇḍīva is slipping from my hand, and my skin is burning.

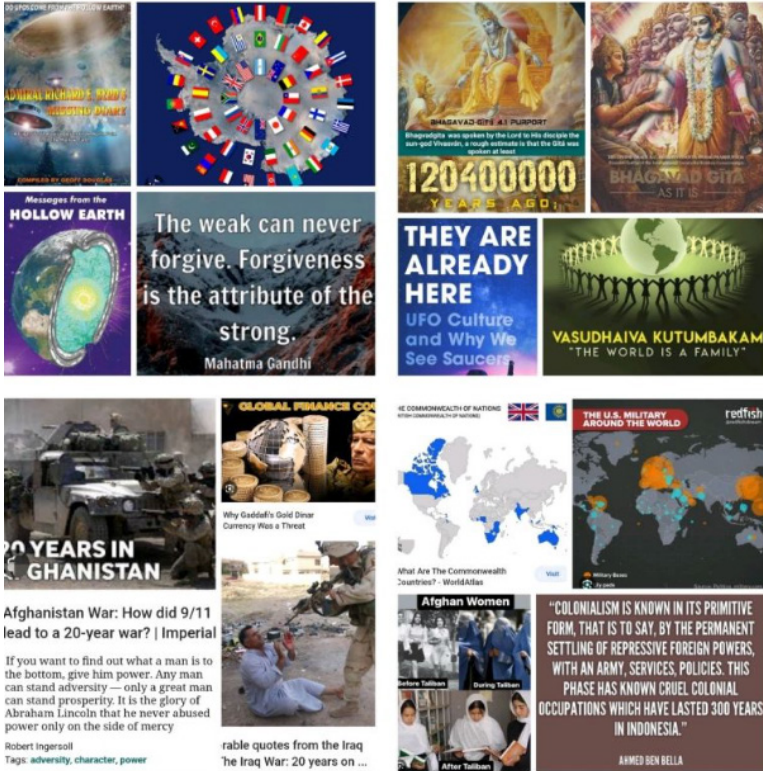

"I am now unable to stand here any longer. I am forgetting myself, and my mind is reeling. I see only causes of misfortune, O Kṛṣṇa, killer of the Keśī demon.

"I do not see how any good can come from killing my own kinsmen in this battle, nor can I, my dear Kṛṣṇa, desire any subsequent victory, kingdom or happiness.

O Govinda, of what avail to us are a kingdom, happiness or even life itself when all those for whom we may desire them are now arrayed on this battlefield? O Madhusūdana, when teachers, fathers, sons, grandfathers, maternal uncles, fathers-in-law, grandsons, brothers-in-law and other relatives are ready to give up their lives and properties and are standing before me, why should I wish to kill them, even though they might otherwise kill me? O maintainer of all living entities, I am not prepared to fight with them even in exchange for the three worlds, let alone this earth. What pleasure will we derive from killing the sons of Dhṛtarāṣṭra?"- Arjuna (Bhagvad Gita 1.28- 35)

Aggression is always against the weak who has little rights and resources. Imagine if there were countries or kingdoms on Earth that were far superior in wealth and technology. Would their wishes be respected? Would anyone dare to challenge the superior force?

Real knowledge is spiritual and about force of love. We need to see everyone as equals before we ascend in consciousness as a united world [#soulfamily](#)? We need to accept Unity in Diversity to collectively focus on goals of Spirituality.

6. SUPREME CREATOR

Over time due to loss of memory or intellect the cause and effect relationships are lost. No one really remembers how some structures like pyramids came to be all over the world. But the fact that they exist means there was a PERSON creator who expanded their Knowledge/ Energy to create a structure we can see has been created intelligently. The same exists for all of nature [#soulfamily](#). Every animal, bird, human being is created by the Supreme creator.

"The Māyāvāda philosophy is so degraded that it has taken the insignificant living entities to be the Lord, the Supreme Truth, thus covering the glory and supremacy of the Absolute Truth with monism.

In his Vedānta-sūtra Śrīla Vyāsadeva has described that everything is but a transformation of the energy of the Lord. Śaṅkarācārya, however, has misled the world by commenting that Vyāsadeva was mistaken. Thus, he has raised great opposition to theism throughout the entire world." - Chaitanya Charitamrta Adi lila 7.120-121

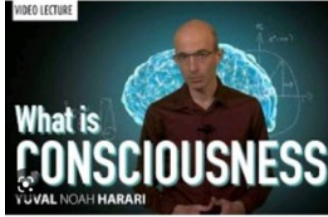

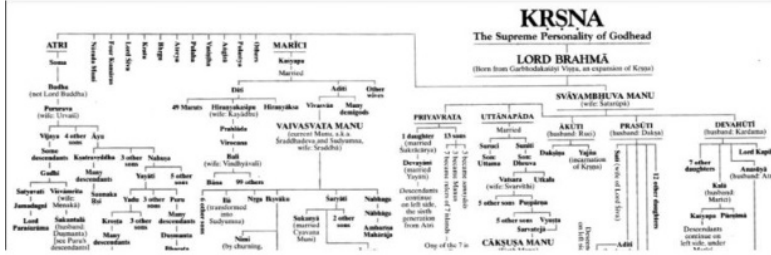

Excerpt from purport to 121

'..He has tried to defy this transformation of energy in a misguided way, which will be explained later. Since his conception of God is impersonal, he does not believe that the entire cosmic manifestation is a transformation of the energies of the Lord, for as soon as one accepts the various energies of the Absolute Truth, one must immediately accept the Absolute Truth to be personal, not impersonal. A person can create many things by the transformation of his energy.

For example, a businessman transforms his energy by establishing many big factories or business organizations, yet he remains a person although his energy has been transformed into these many factories or business concerns. The Māyāvādī philosophers do not understand this simple fact. Their tiny brains and poor fund of knowledge cannot afford them sufficient enlightenment to realize that when a man's energy is transformed, the man himself is not transformed but remains the same person.

Śrīla Vyāsadeva has explained that the Absolute Truth is a person who has different potencies. Merely by His desire that there be creation and by His glance (sa aikṣata), He created this material world (sa asṛjata). After creation, He remains the same person: He is not transformed into everything. One should accept that the Lord has inconceivable energies and that it is by His order and will that varieties of manifestations have come into existence...

For example, a father is one fact, and a son generated from the father is a second fact. Thus both of them are truths, although one is generated from the other. This generation of a second, independent truth from a first truth is called vikāra, or transformation resulting in a by-product. The Supreme Brahman is the Absolute Truth, and the energies that have emanated from Him and are existing separately, such as the living entities and the cosmic manifestation, are also truths. This is an example of transformation, which is called vikāra or pariṇāma.'

The soul already has a spiritual body, which material body covers. My material body grows upon me---my spiritual body---but my material body is unnatural. The real body is spiritual. I am accepting various bodies that are unnatural to my constitution. My real, constitutional position is to be the servant of Krishna.

Los Angeles, May 13, 1973

"The impossibility of conceiving that this grand and wondrous universe, with our conscious selves, arose through chance, seems to me the chief argument for the existence of God."
- Charles Darwin

7. TIME DILATIONS

We have discussed persistently the personal aspect of Supreme Personality Godhead. We have discussed the expansion of Spiritual and Material worlds and the various expansions and further expansions of Krishna that populate this Universe. The various levels of creation are from TOP to BOTTOM, then Brahma the creator of this Universe and his creations- the Demigods, Demons and so on coming down to humans and then animals and plants.

Time seems to flow forward in a linear fashion for the realm we are in. We discussed the story of a Gopa boy from Bramha Vaivarta puran. The boy who by the potency of the mantra given to him by his spiritual master ascended to the Heaven to become Indra and then Brahma and then progressed up the Spiritual worlds to finally realize his dream to be Krishna's friend in Goloka. Time in spiritual world is eternal and at every lower level of creation is reduced. Brahma has relatively shorter lifespan and the Manus even shorter. There are 14 Manu tenures in a day Brahma. There are many beings that have longer lifespans than humans Shortest of all are humans of Kali-yuga.

So the journey home is not one of forward time rather Time moving backwards to Re-member the longer version of our current shorter life. The shorter versions like Russian dolls are one encased in another.

"Never was there a time when I did not exist, nor you, nor all these kings; nor in the future shall any of us cease to be."- Krishna (Bhagavad Gita 2.12)

The Vedic version of the great flood story is that of King Satyavrata. He is the last king in the reign of 6th Manu and in the 7th Manvantara he is the 7th Manu Shraddhadev.

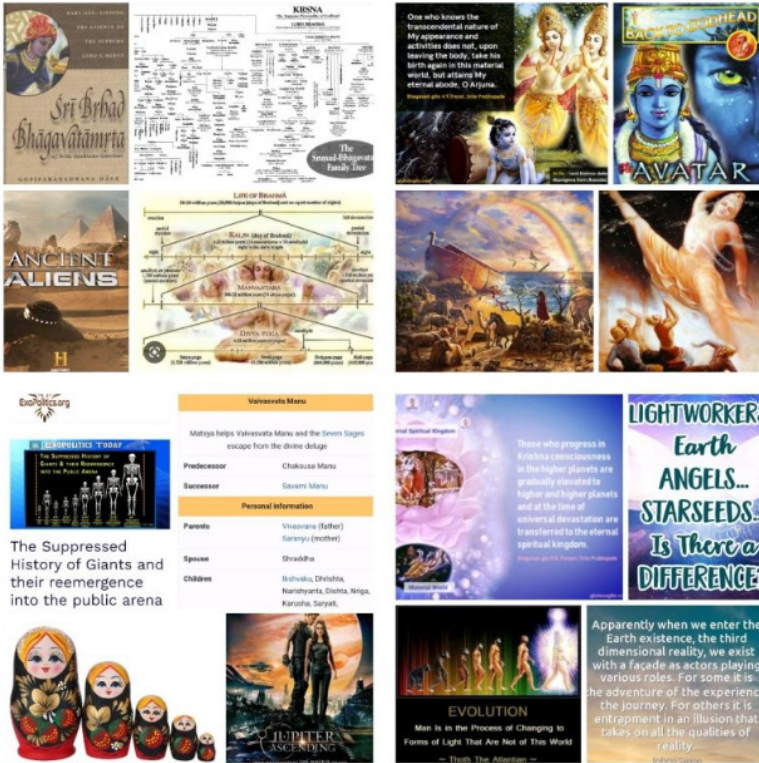

"At the end of the millennium, the would-be Vaivasvata Manu, of the name Satyavrata, would see that the Lord in the fish incarnation is the shelter of all kinds of living entities, up to those in the earthly planets. Because of my fear of the vast water at the end of the millennium, the Vedas come out of my [Brahmā's] mouth, and the Lord enjoys those vast waters and protects the Vedas."- Srimad Bhagavatam 2.7.12

The 7th Manvantara derives the name from his father the Sun God Vivasvan. Hence, he is also called Vaivasvata Manu.

"The Blessed Lord said: I instructed this imperishable science of yoga to the sun-god, Vivasvan, and Vivasvan instructed it to Manu, the father of mankind, and Manu in turn instructed it to Ikshvaku."- Krishna (Bhagavad Gita 4.1)

The next personal transformation or position of the spiritually ascended beings is already decided as Time is moving backwards into a higher version of them. We have already discussed the story of King Bali who incarnated as the grandson of Demon King and a great Devotee Prahlad. His next position as Indra awaits him as he resides in Sutala loka.

Avatar is one who descends. As discussed in above historical events, the ascension of spiritual consciousness and the resulting physical transformation is into a higher plane of existence, on a higher Space and Time zone [#soulfamily](#).

8. MANY FORMS OF GOD

Continuing from the previous few posts we will realise that being formless is never the default position it is a desired position for those who cannot comprehend the personal form of Supreme Personality of Godhead or those who see no joy in being of direct service to God/Krishna. As his network is 'All that is' he is both everywhere and yet he is separate. The False ego is one of separation on consciousness and True ego is one of unity in Krishna/God consciousness no matter in which Space/Time/Form we are in [#soulfamily](#). So repeating what we discussed a couple of posts ago and continuing ..

“The Māyāvāda philosophy is so degraded that it has taken the insignificant living entities to be the Lord, the Supreme Truth, thus covering the glory and supremacy of the Absolute Truth with monism.

In his Vedānta-sūtra Śrīla Vyāsadeva has described that everything is but a transformation of the energy of the Lord. Śaṅkarācārya, however, has misled the world by commenting that Vyāsadeva was mistaken. Thus he has raised great opposition to theism throughout the entire world.

According to Śaṅkarācārya, by accepting the theory of the transformation of the energy of the Lord, one creates an illusion by indirectly accepting that the Absolute Truth is transformed.

Transformation of energy is a proven fact. It is the false bodily conception of the self that is an illusion.

The Supreme Personality of Godhead is opulent in all respects. Therefore by His inconceivable energies He has transformed the material cosmic manifestation.

Using the example of a touchstone, which by its energy turns iron to gold and yet remains the same, we can understand that although the Supreme Personality of Godhead transforms His innumerable energies, He remains unchanged.

Although a touchstone produces many varieties of valuable jewels, it nevertheless remains the same. It does not change its original form.

If there is such inconceivable potency in material objects, why should we not believe in the inconceivable potency of the Supreme Personality of Godhead?..

Praṇava [oṁkāra] is the mahā-vākya [mahā-mantra] in the Vedas. Śāṅkarācārya's followers cover this to stress without authority the mantra 'tat tvam asi' (You are that)

In all the Vedic sūtras and literatures, it is Lord Kṛṣṇa who is to be understood, but the followers of Śāṅkarācārya have covered the real meaning of the Vedas with indirect explanations.

The self-evident Vedic literatures are the highest evidence of all, but if these literatures are interpreted, their self-evident nature is lost.

To prove their philosophy, the members of the Māyāvāda school have given up the real, easily understood meaning of the Vedic literature and introduced indirect meanings based on their imaginative powers.

When Śrī Caitanya Mahāprabhu thus showed for each and every sūtra the defects in Śāṅkarācārya's explanations, all the assembled Māyāvādī sannyāsīs were struck with wonder."- Chaitanya Charitamrata Adi lila 7.120-134

9. DEMON KING BALI THE RULER OF HEAVENS

What happens if the change of guard places Demon King in the position of Indra or King of Heavens? What happens to the functioning of the Universe?

In a fight against the Demons and Demigods Dharma always wins [#soulfamily](#). In cycles of time, the Demigods become inconsistent in following Dharma and thus also fall from their position to allow the Demons to rise under Devotee kings.

King Bali ignored the instructions and curse of his spiritual master to be of personal service to the Supreme Personality of Godhead in the form of Vamana. He honored the request for donation of three paces of land. Lord Vishnu then expanded himself to cover the entire universe in just two steps. King Bali did not desire power or position of Indra or Liberation but to be of devotional service.

"I am not a brāhmaṇa, I am not a kṣatriya, I am not a vaiśya or a śūdra. Nor am I a brahmacārī, a householder, a vānaprastha or a sannyāsī. I identify Myself only as the servant of the servant of the servant of the lotus feet of Lord Śrī Kṛṣṇa, the maintainer of the gopīs. He is like an ocean of nectar, and He is the cause of universal transcendental bliss. He is always existing with brilliance."- Chaitanya Charitamrata Madhya lila 13.80

A Vaishnava is above the four divisions of Varna-ashram. He is not bound by birth. Even if that means they are born as a Demon. We have also discussed stories of such great devotees who happened to Demons like Prahlad and Vritrasura. They are recognized by their name rather than their position.

If they happen to be Indra or not is a secondary matter, their first priority is Dharma and God/Krishna consciousness.

"The Supreme Personality of Godhead said: My dear Lord Brahmā, because of material opulence a foolish person becomes dull-witted and mad. Thus he has no respect for anyone within the three worlds and defies even My authority. To such a person I show special favor by first taking away all his possessions.

While rotating in the cycle of birth and death again and again in different species because of his own fruitive activities, the dependent living entity, by good fortune, may happen to become a human being. This human birth is very rarely obtained.

If a human being is born in an aristocratic family or a higher status of life, if he performs wonderful activities, if he is youthful, if he has personal beauty, a good education and good wealth, and if he is nonetheless not proud of his opulences, it is to be understood that he is especially favored by the Supreme Personality of Godhead.

Although aristocratic birth and other such opulences are impediments to advancement in devotional service because they are causes of false prestige and pride, these opulences never disturb a pure devotee of the Supreme Personality of Godhead.

Bali Mahārāja has become the most famous among the demons and nonbelievers, for in spite of being bereft of all material opulences, he is fixed in his devotional service." - Srimad Bhagavatam 8.22.24-28

10. REQUEST TO REVEAL

If we are to enter a new Earth, one in higher dimensions of construction then we must understand the past is linked to the future [#soulfamily](#). That linking the two is the Re-membering of starseeds, of memories of another time and another world where the existence of other worlds is known and understood. The knowledge of and communication between the various worlds existed in ancient documented past.

This is why our discussions on History of Bharat-Varsha (Earth) become important. The stories of Bali is an important one and is validated in the Mahabharata as well. Mahabharata that finds physical evidences and support in current geography and regional cultures.

Ravana the Villain of Ramayana went to challenge King Bali once and was humiliated. This occurred at the end of Treta Yuga.

Krishna and Balaram also went to Sutala to meet King Bali at the end of Dwapara yuga, some 5000 years or so ago. This is the validation of the continuity of the story and life of King Bali that occurred in Treta Yuga. King Bali rules the three Planetary systems as Indra for many Yuga cycles. No matter how many years we build in a Yuga cycle and Manavantara, the time is relatively exceptional.

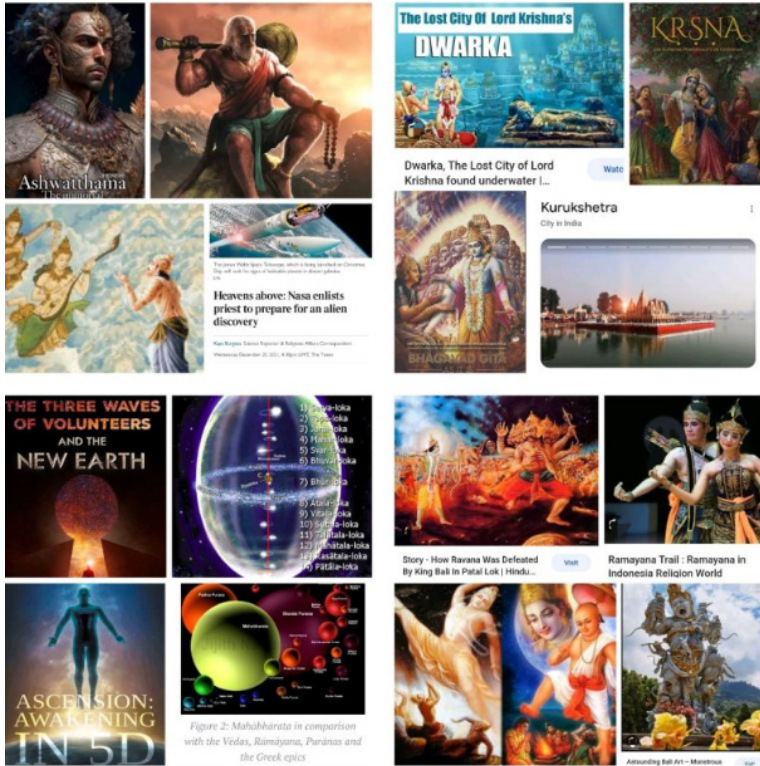

"With great affection, the Personality of Godhead bound Bali and then installed him in the kingdom of Sutala, which is more opulent than the heavenly planets. Mahārāja Bali now resides on that planet and is more comfortably situated than Indra.

O King, during the eighth manvantara, the great personalities Gālava, Dīptimān, Paraśurāma, Aśvatthāmā, Kṛpācārya, Ṛṣyaśṅga and our father, Vyāsadeva, the incarnation of Nārāyaṇa, will be the seven sages. For the present, they are all residing in their respective āśramas."- Srimad Bhagavatam 8.13.14-16

The story of Krishna and Balaram's visit to King Bali is beneficial reading (link in comments). His Devotion to Krishna and Balaram is a testament to his Vaishnava character and etiquette.

"Great sages, please understand that the transcendental pastimes of Lord Kṛṣṇa are all eternal. They are not ordinary narrations of historical incidents. Such narrations are identical with the Supreme Personality of Godhead Himself. Anyone, therefore, who hears such narrations of the Lord's pastimes is immediately freed from the contamination of material existence. And those who are pure devotees enjoy these narrations as nectar entering into their ears." Such narrations were spoken by Śukadeva Gosvāmī, the exalted son of Vyāsadeva, and anyone who hears them, as well as anyone who repeats them for the hearing of others, becomes Kṛṣṇa conscious. And only the Kṛṣṇa conscious persons are eligible to go back home, back to Godhead."- Krishna Book, Chpt 85, Spiritual Instruction for Vasudeva, and the Return of the Six Dead Sons of Devakī by Lord Kṛṣṇa

The great Brahmana warrior Ashvattamatha, the father of Sukadeva Veda Vyas, Lord Hanuman and many other Vaishnavas come and go in this lower matrix. May they reveal themselves for the benefit of all Mankind 🙏

11. THE QUANTUM UNIVERSE

"I worship Govinda, the primeval Lord, who is inaccessible to the Vedas, but obtainable by pure unalloyed devotion of the soul, who is without a second, who is not subject to decay, is without a beginning, whose form is endless, who is the beginning, and the eternal puruṣa (Personality); yet He is a person possessing the beauty of blooming youth."- Brahma Samhita

Yet there are divisions, expansions and transformations of this supreme consciousness in many spiritual parts for many different reasons. The Demigods are considered expansions of that ONE WHOLE.

"The same Mahā-Viṣṇu is spoken of by the name of "Nārāyaṇa" in this mundane world. From that eternal person has sprung the vast expanse of water of the spiritual Causal Ocean. The subjective portion of Saṅkarṣaṇa who abides in paravyoma, the above supreme puruṣa with thousands of subjective portions, reposes in the state of divine sleep [yoga-nidrā] in the waters of the spiritual Causal Ocean."- Brahma Samhita 5.12

This division is seen at various levels of consciousness for various operations of the cosmic universe.

"Just as milk is transformed into curd by the action of acids, but yet the effect curd is neither same as, nor different from, its cause, viz., milk, so I adore the primeval Lord Govinda of whom the state of Śambhu/Siva is a transformation for the performance of the work of destruction."- Brahma Samhita 5.45

The divisions exist in the form of Vishnu tattva/ Internal energy of Krishna/Vishnu and Jiva tattva or Marginal energy the Spiritual souls that inhabit the material worlds down from Brahma.

The external energy being matter which is least conscious.

"I adore the primeval Lord Govinda from whom the separated subjective portion Brahmā receives his power for the regulation of the mundane world, just as the sun manifests some portion of his own light in all the effulgent gems that bear the names of sūryakānta, etc."- Bramha Samhita 5.49

In all the levels it is one energy that is spiritual and material energy that is separated by time and space, and thus the entanglement. It is eternal and indestructible, but the material aspect which is not eternal requires continuous transformations is temporary.

"Never was there a time when I did not exist, nor you, nor all these kings; nor in the future shall any of us cease to be."- Krishna (Bhagavad Gita 2.12)

The ascension of consciousness is understanding this Unity in Diversity that manifests for the infinitely powerful Supreme Personality of Godhead Krishna that has infinite names, quality and pastimes [#soulfamily](#).

"I worship Govinda, the primeval Lord, who manifested Himself personally as Kṛṣṇa and the different avatāras in the world in the forms of Rāma, Nṛsiṃha, Vāmana, etc., as His subjective portions."- Bramha Samhita 5.39

All we need to do is recognize that authority and ascend through LOVE of Godhead. The vibrations are felt and communicated through the HEART. That is where God sits as witness.

12. HISTORY OF WARS

Wars seem to be the norm no matter what period of time of human history we look at. But rare are the rulers that strike compassion in the hearts of their opposition, most like the idea of striking fear. Why is fear so important? The endless strive for more and more weapons and more and more powerful ones so that one can destroy the other.

If History is a judge of anything then one thing is certain that 'Change is Permanent'. What direction of change we wish to go as individuals and as a collective is our choice of course. Do we feel that freedom is one that is gained on strength of weapons alone and thus it is always the fight for the fittest? Or is it one where everyone has a right to share in the bounty that is given by God, and we are here to use it to evolve in our Spiritual journey. What is it? Weapons do not guarantee long term security, Loving relationships do.

Either way, Change is a continuous process some will spin clockwise, and some will spin anti-clockwise into a different reality. One will open paths and one will close. If we chose the Democratic path and we believe that the leaders were elected Democratically then we are in part responsible for alignment to their decisions. The choices are not for leaders to make alone, because these leaders were supposed to be a way of sharing responsibility and power for the collective good. It is not a way of abdicating responsibility to a third party while we focus on our personal material aspirations.

The sleeping modern society sunk into phones and artificial reality are happy to leave rulership to the muppets. The tenures of rulership in a democratic way means alliances, horse trading, King makers and the dirty politics that only grows and grows.

Where would this change lead to? Who will clean the swamp? Who will take responsibility? Who has the authority or power? The biggest question is who is actually praying for a positive change?

If we are to co-create our reality then in the least, we must desire something, then act on it. We must care we must show compassion. That is the way of the higher powers of light. The strike compassion in the hearts of their opponents. That is the way of God conscious Kings of the past who 'understood the value of life' (Aryans). Those who were on the path of spiritual ascension. They were the servant kings that led by example.

"Even kings like Janaka and others attained the perfectional stage by performance of prescribed duties. Therefore, just for the sake of educating the people in general, you should perform your work.

Whatever action is performed by a great man, common men follow in his footsteps. And whatever standards he sets by exemplary acts, all the world pursues."- Krishna (Bhagavad Gita 3.21-22)

The question for change is are we ready to follow such kings of the past or the future? Or are we happy with the way things are going? Karma is a choice of action [#soulfamily](#). Pray for positive change and act in God/Krishna consciousness.

13. FAITH

We always place our faith in something or someone. No one is truly faithless. As discussed previously the Godly and Godless are poles apart in their faith. The shift in consciousness is towards science for one and towards God for the other. But one has to be superior and source of the other. That is the law of one.

There is interesting story of King Janamejaya, the son of King Parikshit who heard the Srimad Bhagavatam. They say he asked Vyas Deva why even though knowing the future he did not stop the battle of Mahabharata where millions perished. Vyas Dev said it's not that easy to change the course of history that God has planned. He then went ahead and told Janamejaya how he would die and told him to try his best to avoid it. He said, one day you will ride a black horse and ride south and you will meet a girl who you will marry. Then, when one day you will organise a big fire sacrifice, but your wife will insult the Brahmans who attend. As a result, you will be cursed and die shortly after. Do what you may to stop this.

"The different manifestations of Lord Siva, the Adityas, the Vasus, the Sadhyas, the Visvadevas, the two Asvins, the Maruts, the forefathers and the Gandharvas, the Yaksas, Asuras, and all perfected demigods are beholding You in wonder.

All the sons of Dhrtarastra along with their allied kings, and Bhishma, Drona and Karna, and all our soldiers are rushing into Your mouths, their heads smashed by Your fearful teeth. I see that some are being crushed between Your teeth as well.

As the rivers flow into the sea, so all these great warriors enter Your blazing mouths and perish."- Krishna (Bhagavad Gita 11.22-28)

Janamejaya remembered these instructions but long and behold one day on the urgency and of his friends he found himself going on a hunting trip with only a Black horse available. He wanted to go anywhere but south but the horse bolted and the rest happened as predicted.

Janamejaya finding himself in a predicament wondered how he could be saved and approached Sukdeva Goswami the speaker of Srimad Bhagavatam to help. Sukdev said that he would tell him the stories of Krishna and Mahabharata. If he listened to the end with faith and without disbelief, then he may live. All went well until he spoke of Krishna's story where as a young boy he carries the Govardhan mountain on his little finger of his left hand. At this point Janamejaya could not resist and asked how could a small boy carry a mountain. That disbelief and faithlessness in Krishna caused the fatal end of Janamejaya.

"O Lord of lords, so fierce of form, please tell me who You are. I offer my obeisances unto You; please be gracious to me. I do not know what Your mission is, and I desire to hear of it.

The Blessed Lord said: Time I am, destroyer of the worlds, and I have come to engage all people. With the exception of you [the Pandavas], all the soldiers here on both sides will be slain."- Krishna (Bhagavad Gita 11.31-32)

14. EARTH AND MOON

Important! We have discussed the Vedic history and established the authority through the scientific evidence and through the words of the scientist. The Vedic knowledge in regard to the modern science far exceeds the current understanding in both scientific and spiritual subjects.

So when it comes to the moon, we need to play close attention to how the Vedic Astronomy calculates the movement and what they consider the moon. Perhaps what we call the moon is not really the moon. Scientist with their mathematical calculations have been struggling to explain the moons mass given its size and location. Perhaps what we see is a Hollow, or our conditioning is modified slightly to allow us to see only certain aspects of reality. We have discussed many times the knowledge of frequencies and how many pieces of information exist simultaneously on one plane but remain invisible without password.

"The splendor of the sun, which dissipates the darkness of this whole world, comes from Me. And the splendor of the moon and the splendor of fire are also from Me.

I enter into each planet, and by My energy they stay in orbit. I become the moon and thereby supply the juice of life to all vegetables"- Krishna (Bhagavad Gita 15.12-13)

According to the Vedas moon is further from the Earth than the Sun so how can we explain the eclipses? How did the ancients explain it? The videos in links are important.

Did we go to the moon? Why did we not go again? Are we being lied to and have we cared?

These are some basic questions that a child should be asking but no one seems to ask. No one seems to care. So if one fine day the reality shifts to see the real moon we may consider it to be falling moon or if the moon we know just flies away we may understand it to be the Supreme spaceship. There is no other way people will believe. Seeing is believing and everyone wants to see an unfiltered live event [#soulfamily](#). Free from propaganda, CGI and photo shopping.

God/Krishna consciousness is important as discussed, many times. No amount of science explains consciousness and soul within, but stories are endless. The science is easy to purchase as we can all see faith is priceless. The science of self-realisation is journey of evolution into higher dimensions of reality.

"After many births and deaths, he who is actually in knowledge surrenders unto Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare."- Krishna (Bhagavad Gita 7.19)

God/Krishna consciousness is the path to ascension of consciousness. Understanding that all creation has a creator, and all events has an observer. How can we get the answers that we do not seek? The intellectual rigour should be applied to understand the Spiritual and progress through Devotion.

"I am the source of all spiritual and material worlds. Everything emanates from Me. The wise who perfectly know this engage in My devotional service and worship Me with all their hearts."- Krishna (Bhagavad Gita 10.8)

15. FRICTIONS AMONGST FACTIONS

Now we wonder why things don't happen when we want them to because everything has a Time. To progress the world into a higher consciousness it's a two-way effort. A degree of movement of the human consciousness and a degree of movement of the planetary consciousness. If the planetary consciousness moves faster than the human, then many will be left behind. The planet has been rising in consciousness at a slow speed to allow everyone to come along. But Time has a limit in the material world. It is not indefinite else no change will ever be complete.

What are we doing to raise our vibrations and consciousness? The lockdowns, disclosures and all the vibrations that we can feel from all the Love and Light coming from various sources. Those who can process that information are the ones who have opened their eyes, ears and heart for it. Some have closed the three because they have better things to do. It is freewill. To not seek the truth or to ignore it. As they say it's easier to fool a person than to convince him that he has been fooled.

For the greater good one may try to fool a person to take a course of action but in the end their own vibrations will repel a course if it's not meant to be. Their own intuition to their own destiny is always a guide. Everyone has their unique path that is right for them.

"Under illusion you are now declining to act according to My direction. But, compelled by the work born of your own nature, you will act all the same, O son of Kuntī."- Krishna (Bhagavad Gita 18.60)

Being a part of any institution/belief system requires a degree of faith in that institution and the leaders of that institution. The institution can be home, company, country or religion or even a planet. But when we can see no further than what we have been taught our subtle and physical vision is restricted. We choose not to learn; we choose not to accept and reconcile the differences for harmony on higher planes of existence. This plane of existence of our institutionalised individual consciousness needs to expand to incorporate others. All the way up to various levels of differentness. To see unity in Diversity. The related frictions amongst fractions are nothing but differences looking for common grounds.

When we are stuck in the friction of factions, we cannot see God and the greater good from Unity. One person or institution can never be a winner indefinitely. Hence, God/Krishna as time is the ruler of the material worlds. To rise above the adversities of time is to evolve into higher consciousness. To accept what has not been desired but made available. To see the Dualities not as differences/adversities but as God sent evolution catalyst.

"Although the Supersoul appears to be divided among all beings, He is never divided. He is situated as one. Although He is the maintainer of every living entity, it is to be understood that He devours and develops all."- Krishna (Bhagavad Gita 13.17)

16. A PROBLEM FOR A SOLUTION

We deliberately create a problem to act like we are fixing a problem. The arrogance on technology is the pride before the fall. This has happened many times before.

Just by observing nature we can understand that it heals itself if we let it. Our body is capable of healing itself many times without the aid of medicines. Especially, the ones that come with warning and list of side effects. Still, we do not learn. We are trying to enjoy our senses constantly and we never seem to have time to stop. So taking a pill or a jab seems a quick fix to solve a problem that can be solved by healthy changes. But where is the faith in that? Despite all the evidence that can be observed we do not trust nature for what it is.

We seem to be placing more and more faith in technology that destroys our lifestyle and then our lives. Then we start to believe that the artificial world is more real than the nature around us and that the human body has limits that technology will be able to fix in some form or other. What then becomes the value of life, consciousness and organic existence if that is not a desired profile? The fact is all that is artificial still needs a real world to stand on. The real realities have more reality than the artificial creations.

Now take that understanding a notch up [#soulfamily](#). The real reality to the material physical existence is the spiritual one. As the artificial reality becomes an imminent threat and adulterates our natural reality the materialistic life is a threat to the spiritual one on many levels. We have discussed many times of many planes of physical existence, some more subtle than others. The greater the spiritual content and lesser the dependency on the material the more spiritually advanced the civilization.

Much is possible with subtler technology than will ever be possible with physical technology. The science is beginning to understand this but they are unable to use it. If our heads have not the intellect its because their consciousness is stuck in materialistic quick fix approach to life. Life is a journey in the physical reality for a purpose. That purpose is not to maximize Economic gain. It is for Spiritual realisation and evolution. It's best we understand what is needed and take the action voluntarily.

"O son of Pṛthā, in this world there are two kinds of created beings. One is called divine and the other demoniac. I have already explained to you at length the divine qualities. Now hear from Me of the demoniac.

Those who are demoniac do not know what is to be done and what is not to be done. Neither cleanliness nor proper behavior nor truth is found in them.

They say that this world is unreal, with no foundation, no God in control. They say it is produced of sex desire and has no cause other than lust.

Following such conclusions, the demoniac, who are lost to themselves and who have no intelligence, engage in unbeneficial, horrible works meant to destroy the world."- Krishna (Bhagavad Gita 16.6-9)

17. THE DEMON PROBLEM

Continuing on the topic of Demons they do come in various forms and activities in Spiritual war for consciousness. The degradation of human society comes in various ways and to be steady in faith is not a battle for the faint of heart. But times are changing, and the people are waking up to their spiritual heritage. They are activating their higher consciousness through the connection to God.

"All the demigods and their exalted qualities, such as religion, knowledge and renunciation, become manifest in the body of one who has developed unalloyed devotion for the Supreme Personality of Godhead, Vāsudeva. On the other hand, a person devoid of devotional service and engaged in material activities has no good qualities. Even if he is adept at the practice of mystic yoga or the honest endeavor of maintaining his family and relatives, he must be driven by his own mental speculations and must engage in the service of the Lord's external energy. How can there be any good qualities in such a man?

Just as aquatics always desire to remain in the vast mass of water, all conditioned living entities naturally desire to remain in the vast existence of the Supreme Lord. Therefore, if someone very great by material calculations fails to take shelter of the Supreme Soul but instead becomes attached to material household life, his greatness is like that of a young, low-class couple. One who is too attached to material life loses all good spiritual qualities." - Srimad Bhagavatam 5.18.12-13

The devotees/spiritualists have been tested not by God but the theatricals of the materialistic society. But when the reality of Spirituality Dawns not much can be hidden, and the Knowing grows strong for all.

The Demonic cannot survive in higher vibrations of higher consciousness times. As discussed, Time is cyclical.

Devotees will not always be tested and insulted through propaganda. The ascending cycle will see victory of the Devotees who have practiced their faith with diligence. They have not lost to their senses, or their minds rather dedicated their time for Devotion. Unlike the Demoniatic they were not deluded or defeated by Power or propaganda that came in many forms. This faith is always reciprocated, and they already know they have been looked after. They have had that knowing throughout their tests [#soulfamily](#).

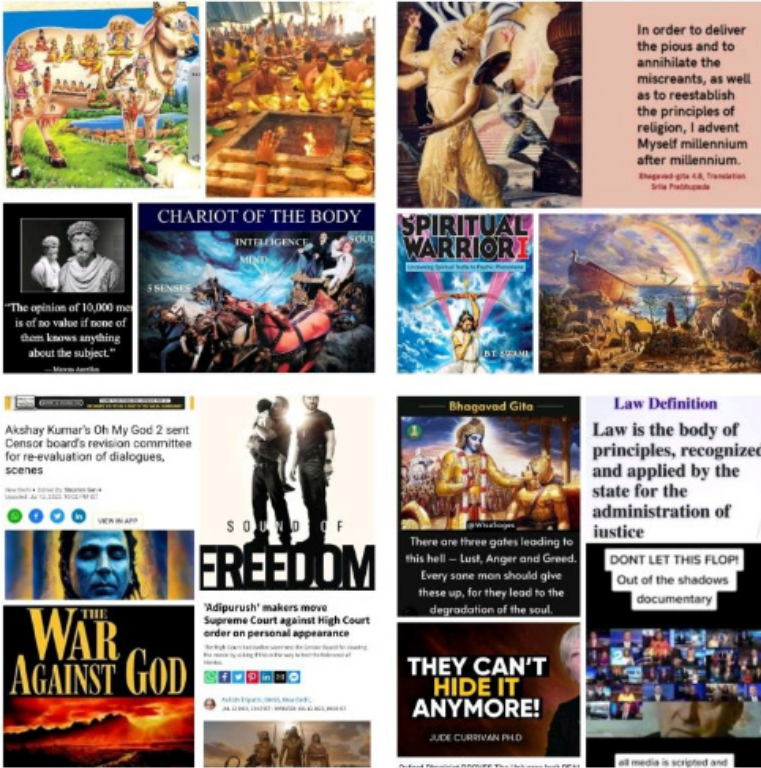

"I am the source of all spiritual and material worlds. Everything emanates from Me. The wise who perfectly know this engage in My devotional service and worship Me with all their hearts.

The thoughts of My pure devotees dwell in Me, their lives are fully devoted to My service, and they derive great satisfaction and bliss from always enlightening one another and conversing about Me.

To those who are constantly devoted to serving Me with love, I give the understanding by which they can come to Me.

To show them special mercy, I, dwelling in their hearts, destroy with the shining lamp of knowledge the darkness born of ignorance." Krishna (Bhagvad Gita 10.8-11)

18. PROGRESSING FROM FAITH

We all seek Peace and Mercy and compassion, yet many do not offer it to others? It requires a sacrifice on part of our senses. Mercy can only be offered to those who are weaker than us. The strong never need our Mercy. Such is the case also with Charity. When we do things that we do not want to do or don't do things that we want to do for a greater good that becomes Tapasya or Austerity/Penance.

"Acts of sacrifice, charity and penance are not to be given up but should be performed. Indeed, sacrifice, charity and penance purify even the great souls."- Krishna (Bhagvad Gita 18.5)

This self control against our burning desires to enjoy becomes 'Tapah' which enhances our spiritual growth. Just as Gold is forged in fire so are the spiritualist forged in hardships. Hardships develop purity of faith and eventually transforms into love of Godhead.

1. Sraddha: Faith
2. Sadhu-sanga: Association with Saints.
3. Bhajana-Kriya: Performance of devotional practices.
4. Anartha Nivrtti: Decreasing of unwanted attachments.
5. Nistha: Steadiness.
6. Ruchi: Taste.
7. Asakti: Attachment.
8. Bhava: Love.
9. Prema: Pure love for God.

- 9 stages of Devotion (Bhakti Rasamrita Sindhu 1.4.15-16)

When people do not have faith in God they have faith they do not see the need to control senses.

As discussed previously, all morality and Dharma is lost to them. And thus they fall down.

"While contemplating the objects of the senses, a person develops attachment for them, and from such attachment lust develops, and from lust anger arises.

From anger, delusion arises, and from delusion bewilderment of memory. When memory is bewildered, intelligence is lost, and when intelligence is lost, one falls down again into the material pool."- Krishna (Bhagavad Gita 2.62-63)

Anger and delusion comes in many ways for those who do not control senses. We are what we eat. The world is not running short of resources to feed everyone. It is running short of resources to feed selected few. There cannot be united world when some are hungry and the other obese. Where is the sacrifice, charity and austerity [#soulfamily](#)? We don't feel for the unfortunate until we are the unfortunate. Then we call for help and pray to God.

Let's open your heart and eyes to see how our karma stacks up. What has our behaviour been like. How does our food help our consciousness? How does consciousness affect our spiritual values? How does everyone's spiritual values affect the United world?

Can the world unite by freewill and practice of Dharma or will the lessons through Karma be the guiding principles of change? The laws of God are same no matter which culture we look at. They are just lost in interpretations to serve the senses.

"The senses, the mind and the intelligence are the sitting places of this lust, which veils the real knowledge of the living entity and bewilders him."- Krishna (Bhagavad Gita 3.40)

What have we been feeding our faith with? Does it come at the cost of some other sentient being?

19. FAITH COMES WITH LAWS AND RULES

We discussed laws and change and faith. Some have faith in the laws of the government, and they believe that positive changes will result from enactment of the laws. Others do not have such faith and they challenge or bend the laws to their will and understanding by the power that they can exert. This is easily visible scenario in many countries and institutions. Then slowly people begin to lose faith.

Religion is not faith. If we take the sectarian views out, then there is one God. There can be multiple layers of Governance but there cannot be two Gods. As they say 'shared responsibility but single accountability'. So, when it comes to God there has to be one set of laws. It cannot a matter of opinion or discussion. The laws of Karma and Dharma have been discussed many times. Somehow the world is divided into many religions, all have a philosophy, and all have followers. Some newer than others. The religion or Dharma can only be one. It has to be eternal/Santan based on the common laws that are easily observable and consistent. Then what is the cause of separation and hate?

At the most basic level everyone wants Love, Peace and happiness. Then if everyone believes that what we give out in the world comes back to us (Karma) then we should do act in that way. If it is a matter of establishing superiority of faith, then it is because we are insecure and in Fear. Challenges of Philosophy must be handled through discussions and evidence not through weapons. If we are unable to learn, change and grow then how will we ever progress to the Love and peace that we seek to receive through giving?

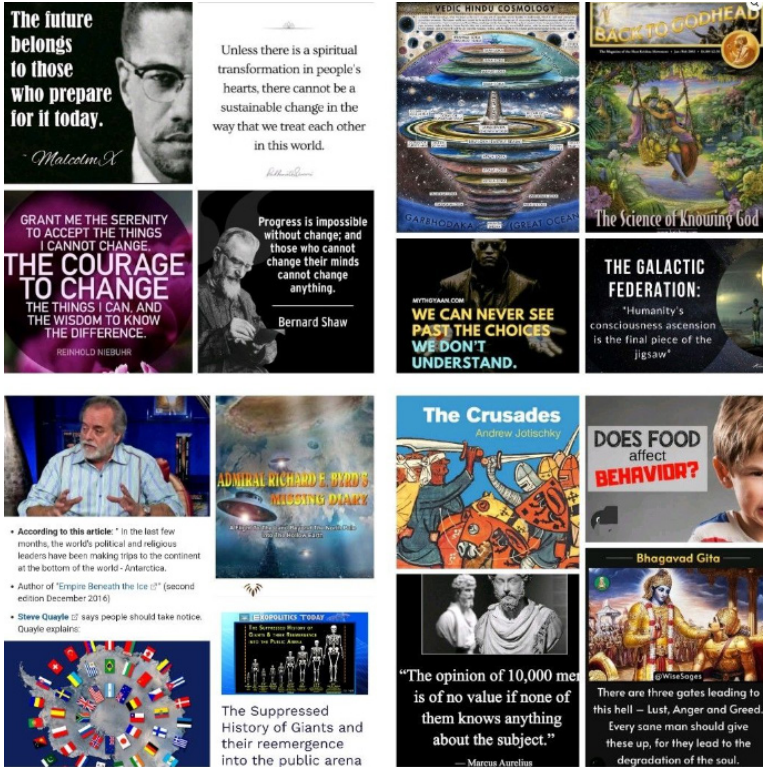

Dharma means laws of God. It also is the core nature of an object. The Dharma of Fire is to be hot. If one has or does not have faith in that law it has no bearing. The fire will burn. Dharma for humans is realisation of God in all beings and all things and as Supreme Personality of Godhead. Animals do not have that ability. That does not mean they do not have the God within them.

Eating, Sleep, Fear and Sex ; these habits are common between human beings and animals. It is the Dharma/God consciousness which is the special quality of the human beings. Without the Dharma, they are similar to the animals" - Mahabharat

God's laws are explained by him and they are eternal but become forgotten because of close mindedness and power struggles over time. This is why Krishna incarnates in many forms again and again [#soulfamily](#) to help us understand these principles. We have to rise above mode of ignorance and passion to at least mode of goodness before we can learn these from true authority.

"Real religious principles are enacted by the Supreme Personality of Godhead. Although fully situated in the mode of goodness, even the great ṛṣis who occupy the topmost planets cannot ascertain the real religious principles, nor can the demigods or the leaders of Siddhaloka, to say nothing of the asuras, ordinary human beings, Vidyādhara and Cāraṇas."- Srimad Bhagavatam 6.3.19

20. UNNECESSARY CRUSADES

Continuing the post about Religion, we can see that our identification with a particular religion and practice thereof is based on certain rituals that are characteristic of a culture. How then does one reconcile the different if there are 400,000 types of Humanoids as discussed in the scriptures? The possibility of encountering these becomes more plausible with growing explorations.

“There are 900,000 species living in the water. There are also 2,000,000 nonmoving living entities (sthavara), such as trees and plants. There are also 1,100,000 species of insects and reptiles, and there are 1,000,000 species of birds. As far as quadrupeds are concerned, there are 3,000,000 varieties, and there are 400,000 human species.” - Vishnu Puran

The Absolute nature of God means not that he is unchangeable but rather he is most flexible. He is accepted as the Supreme being no matter who looks at him. Therefore, there should never be a reason to fight over God. He is source of All.

"I adore the primeval Lord Govinda, the meditators of whom, by meditating upon Him under the sway of wrath, amorous passion, natural friendly love, fear, parental affection, delusion, reverence and willing service, attain to bodily forms befitting the nature of their contemplation" - Bramha Samhita 5.55

He has incarnated in many humanoid forms as per the various Avatars or Vishnu. All his forms are attractive because they radiate love and bliss that is not of material world.

"The light of one candle being communicated to other candles, although it burns separately in them, is the same in its quality.

I adore the primeval Lord Govinda who exhibits Himself equally in the same mobile manner in His various manifestations." - Bramha Samhita 5.46

The scriptures that document the various incarnations, analytically study the characteristics. Krishna/'All attractive' is the primal source wielding no weapons but controlling the world through frequency of his flute.

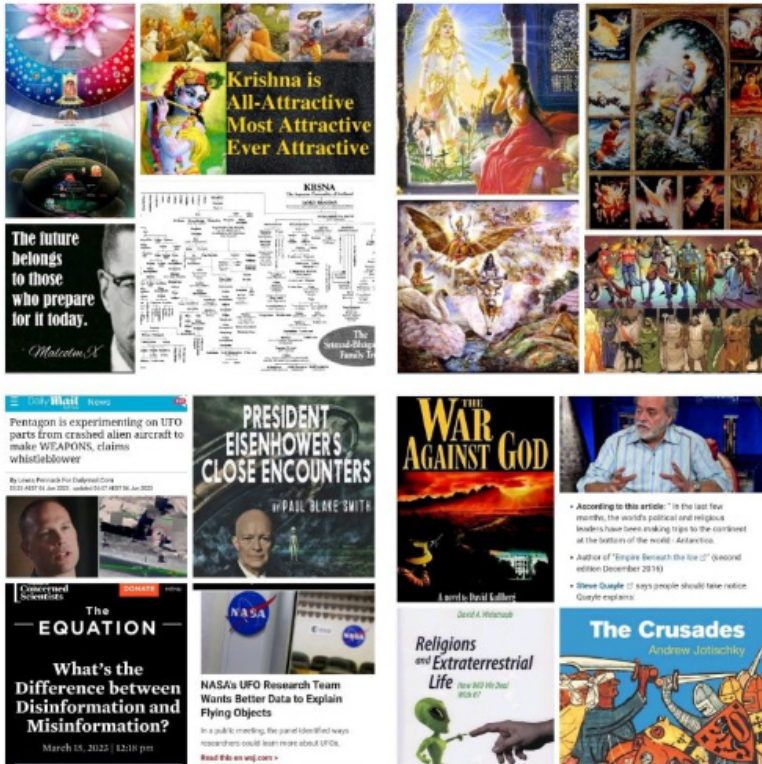

"I worship Govinda, the primeval Lord, who manifested Himself personally as Kṛṣṇa and the different avatāras in the world in the forms of Rāma, Nṛsimha, Vāmana, etc., as His subjective portions."- Bramha Samhita 5.39

Bramha the creator of this Universe mentions all this in his prayers. It is all encompassing yet personal and therefore the 'Unity in Diversity' of God himself should be a lesson for us all as to how we should understand him [#soulfamily](#). Through inclusion rather than exclusion. It's not my war or the highway. Rather the Absolute nature of creation is all ways are managed through God/Krishna.

"Being freed from attachment, fear and anger, being fully absorbed in Me and taking refuge in Me, many, many persons in the past became purified by knowledge of Me – and thus they all attained transcendental love for Me.

As all surrender unto Me, I reward them accordingly. Everyone follows My path in all respects, O son of Pṛthā."- Krishna (Bhagavad Gita 4.10-11)

We are not the body as discussed in lecture in comments.

21. PURUSHOTTAM MAAS

We discussed the Vedic Astronomy that is used till date to calculate Time based on Lunar cycles. To reconcile the Solar and Lunar cycles an extra month is added every 3 years.

As stated in the Vasishtha Siddhantha, it occurs every 32 months, 16 days and 8 ghadi (one ghadi is approximately 24 minutes). The solar year is made up of 365 days and about 6 hours, and the lunar year is made up of 354 days – a gap of 11 days, 1 hour, 31 minutes and 12 seconds. This gap accumulates to one month in 3 years.

We also discussed how space travel is same as Time travel. As any property has an owner there are personified personalities for all space. We hear of mother Earth. The same applies to various other planets like Saturn and Jupiter etc. Similarly, Time is allocated a deity. Each of the 12 months is under a deity in the Vedic calendar.

So the story goes that the Extra/Adhik month had no significance other than accommodating the reconciliation and no auspicious activity is done in this time period. Given this the Deity of the month approached Lord Vishnu as She was neglected and considered inauspicious and Dirty. Much aggrieved she thus approached Lord Vishnu for help.

We discussed how Krishna is the Source of all Vishnu incarnations. Seeing this an opportunity Lord Vishnu took the deity of Adhik Month to Krishna in Goloka.

"Then Suta Goswami continued to speak, "Oh sages! Lord Vishnu took his seat, and Lord Krishna spoke very confidential words to Him.

Listen carefully, for I am now going to share those words with all of you.

Purushottama Sri Krishna said, "Oh Vishnu, you have done a very great deed by bringing this extra month to Me. You will become even more famous for performing this act. Because You have accepted this Mala masa, I will also accept her. I shall make this poor extra month just like Me in quality, fame opulence, realization, success, and in giving benediction to the devotees. This month will become equally potent to Me. I am bestowing all of My divine qualities in this abused month. Named after Me, this month will be famous as Purushottama month in this world

"O Janardana, now that she has imbued My qualities I Myself will become the husband and protector of this Purusottama month. And being equal to Me, this month will be the master of all other months. Now this month will become worshipful by one and all. Everyone should pay their obeisances to her, everyone should worship her. This month is equally as powerful as Me to give any type of benediction to its observer. I am making this month desire-free, unlike other months, which are full of some desire or another. The worshipper of this month will be able to burn all his past sinful reactions to ashes, and after enjoying a blissful life in the material realm he will return back to Godhead."- Padma Puran

The month started on 18th July and goes to 16th August must be used to increase devotional services for Spiritual merits. Use the Time to raise your vibrations [#soulfamily](#).

22. THE COSMIC WOMB

The universe is a Bubble. A complete whole that expands and contracts through its own life cycle. In that bubble it contains many levels of Matrix for many levels of evolution over their relative Space and Time. At every point of expansion and contraction it remains connected and complete.

"I adore the primeval Lord Govinda who assuming His own great subjective form, who bears the name of Śeṣa, replete with the all-accommodating potency, and reposing in the Causal Ocean with the infinity of the world in the pores of His hair, enjoys creative sleep [yoga-nidrā].

Brahmā and other lords of the mundane worlds, appearing from the pores of hair of Mahā-Viṣṇu, remain alive as long as the duration of one exhalation of the latter [Mahā-Viṣṇu]. I adore the primeval Lord Govinda of whose subjective personality Mahā-Viṣṇu is the portion of portion.

I adore the primeval Lord Govinda from whom the separated subjective portion Brahmā receives his power for the regulation of the mundane world, just as the sun manifests some portion of his own light in all the effulgent gems that bear the names of sūryakānta, etc." - Bramha Samhita 5.47-59

The golden bubble Universes like the placenta come with their own source of raw materials for creation to feed on.

"The spiritual seeds of Saṅkarṣaṇa existing in the pores of skin of Mahā-Viṣṇu, are born as so many golden sperms. These sperms are covered with five great elements." - Bramha Samhita 5.13

All levels of Matrix in their own relative time are created and folded into greater cycles of Time and Space. One life feeds another at every level of the cycle of the multi-dimensional perspective. All dimensions surrender to the one Supreme.

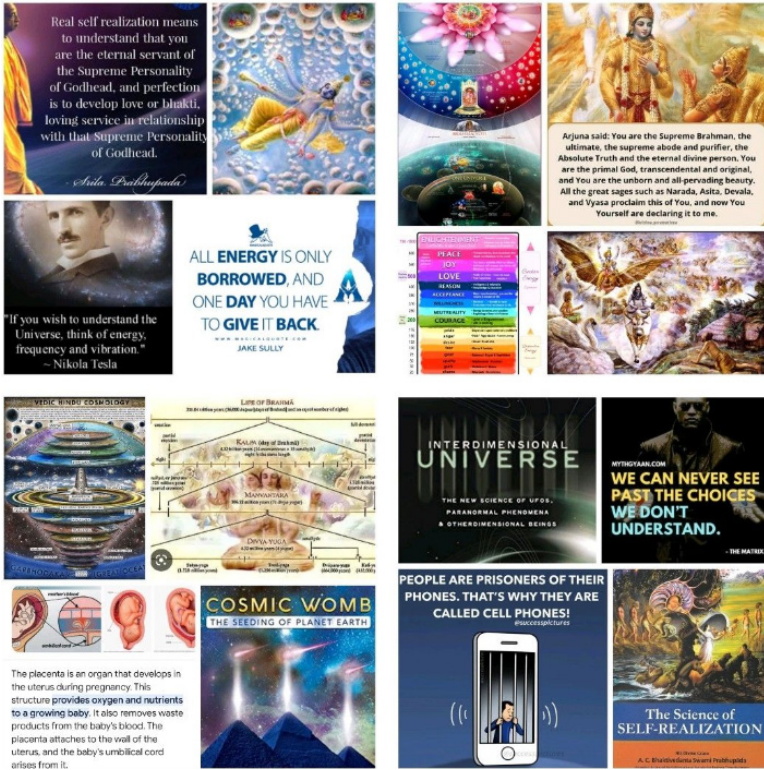

"You are without origin, middle or end. Your glory is unlimited. You have numberless arms, and the sun and moon are Your eyes. I see You with blazing fire coming forth from Your mouth, burning this entire universe by Your own radiance.

Although You are one, You spread throughout the sky and the planets and all space between. O great one, seeing this wondrous and terrible form, all the planetary systems are perturbed.

All the hosts of demigods are surrendering before You and entering into You. Some of them, very much afraid, are offering prayers with folded hands. Hosts of great sages and perfected beings, crying "All peace!" are praying to You by singing the Vedic hymns." - Arjuna (Bhagavad Gita 11.19-21)

This entrapment in various levels of Matrix may be physical or mental. We seem to be attracted to that next step before we get there. The answer is the GPS of the heart. That always knows our vibrations and pulls us towards that expanded or contracted consciousness [#soulfamily](#).

"I adore the primeval Lord Govinda, the meditators of whom, by meditating upon Him under the sway of wrath, amorous passion, natural friendly love, fear, parental affection, delusion, reverence and willing service, attain to bodily forms befitting the nature of their contemplation."- Bramha Samhita 5.54

23. SAVING KING PARIKSHIT

We discussed the famous story of King Parikshit for whom Srimad Bhagvatam was spoken for the last 7 days of his life before he was to succumb to death by being bitten by the deadly Takshak Naga. His son Janmejaya avenged him by having millions of snakes being cast into the sacrificial fire by the force of the Mantras. The sacrifice almost brought an end to the King of Heavens King Indra as he tried to protect Takshak. The power of the Brahmans was not a force that even the demigods could reckon with.

"The intelligent King Janamejaya, hearing these words, replied to the priests: Then, my dear brāhmaṇas, why not make Takṣaka fall into the fire, along with his protector, Indra?"

Hearing this, the priests then chanted this mantra for offering Takṣaka together with Indra as an oblation into the sacrificial fire: O Takṣaka, fall immediately into this fire, together with Indra and his entire host of demigods!"- Srimad Bhagavatam 12.6.20-21

But there is an import lesser known story in the middle. When King Parikshit was thus cursed to die a Brahman called Kaashyap decided to help the pious king. He through his knowledge of mantras could negate any poison. However, on the way the Brahman was stopped by Talshak himself. He decided to test the Brahman's capabilities, who was happy to oblige. Takshak then released his poison on a nearby tree which immediately caught fire and burnt to ashes. The Brahman immediately gathered the ashes and with the potency of his yogic powers restored the entire tree and everything on it.

Takshak fearing failure in his mission tried to convince the Brahman against restoring King Parikshit back to life. The action would prove false the word of another great Brahman who had cursed King Parikshit. He encouraged the Brahman to turn back and gifted him many riches from the Naga kingdom. The Brahman somehow persuaded returned back home.

When Janmejaya was informed of this episode of treachery, it became the cause to seek revenge and punish Takshak Naga. But how did he find out if there were only two people involved in the secret deal? The story goes that the tree that was burnt to ashes had a woodcutter sitting on it. He heard the entire conversation, was burnt to death and subsequently brought back to life again.

In ancient times the yogis understood the spiritual essence of life is same in all beings. The fire sacrifices had killing and restoring of animals to same or better status of life for the purpose of proving Brahmanical potency and knowledge.

But the greater question and lesson [#soulfamily](#) is what was destroyed? What was restored? What existed in both situations?

"The soul can never be cut into pieces by any weapon, nor can he be burned by fire, nor moistened by water, nor withered by the wind.

This individual soul is unbreakable and insoluble, and can be neither burned nor dried. He is everlasting, all-pervading, unchangeable, immovable and eternally the same."- Krishna (Bhagavad Gita 2.23)

24. JEWELS OF WISDOM

A child walks on a mountain and picks up a few rocks and then throws them over the cliff. As he grows up he climbs the mountain again and notices the interests colours in the rocks, some are nice and smooth. He takes them home as interesting items for collection. As the boy grows up he comes to the spot again and notices the rocks and researches them to understand that some are actually gemstones. He takes them home and gets them polished and uses them as gifts and ornaments. As he grows older he identifies some as rarer than others and sells them to people who value the specific gemstones for production of specialized equipment.

Every one/Every thing/Every time has a unique objective and purpose. Perhaps not everyone is meant to pick the gems or use it for the same purpose. Not every fruit on the same tree matures at the same rate. The modes of nature provide for a variety of flora and fauna each for their time/season of maturity so that at any time of the year the forest is beautiful and is able to provide for the beings that inhabit that forest.

"The living entities in this conditioned world are My eternal fragmental parts. Due to conditioned life, they are struggling very hard with the six senses, which include the mind.

The living entity in the material world carries his different conceptions of life from one body to another, as the air carries aromas. Thus he takes one kind of body and again quits it to take another."- Krishna (Bhagavad Gita 15.7-8)

Like the mountain Life is an uphill climb, when we are young we fail to notice the 'Jewels of Wisdom' because we are caught up in the various distractions.

As we mature with knowledge and experience, we become more discerning of the right and wrong and decide to apply these jewels in the ways that would best serve our interests and those of others. If we don't learn to recognize the value of the jewels and mountain of life then the uphill and downhill movements in the repeated cycles of time are a waste of opportunities.

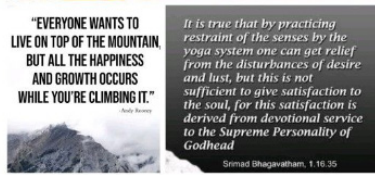

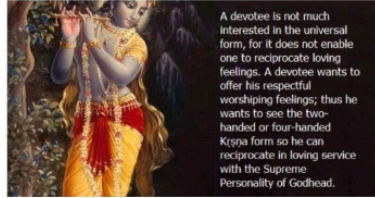

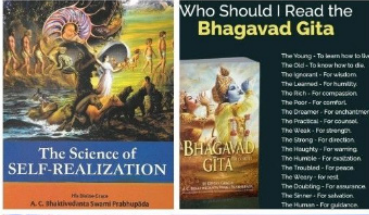

"The foolish cannot understand how a living entity can quit his body, nor can they understand what sort of body he enjoys under the spell of the modes of nature. But one whose eyes are trained in knowledge can see all this.

The endeavouring transcendentalists who are situated in self-realization can see all this clearly. But those whose minds are not developed and who are not situated in self-realization cannot see what is taking place, though they may try." -Krishna (Bhagavad Gita 15.10.11)

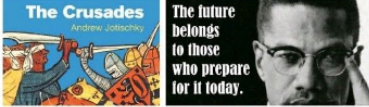

Those who can see, can only plant the seeds in Material nature [#soulfamily](#).

"This material nature is working under My direction, O son of Kunti, and it is producing all moving and unmoving beings. By its rule this manifestation is created and annihilated again and again." - Krishna (Bhagavad Gita 9.10)

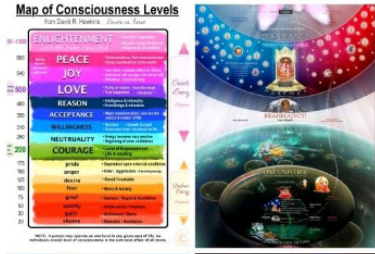

The Spiritual nature is ever existing, and Time is eternal so the objective is to evolve into consciousness of higher realities. We are not to be spiritually asleep.

25. JOURNEY THROUGH LIGHT AND DARK

There are two sides the light and the dark. Then there are many on the fence. But by default the fence is grounded to the dark. If seeking education to survive and grow in the material world is the responsibility of an individual then would the same not apply for spiritual education? The lack of desire to understand the spiritual is by default the position of the dark. There is no sitting on the fence and deliberated and purposeful ignorance is not a qualification of light. When we see wrong and do nothing about it then we are considered culpable. We need to understand that the reality we do not change is the reality we accept. If we do not stand up for God and Good then we should not expect others to stand up for us - Karma.

Fear of not being accepted in a society that is accepting of such behaviour may be considered a reason for not acting heroically. But it comes at a cost, the cost of destroying our own consciousness. When we have by choice destroyed our own consciousness then the next step may not be too far. The individual and society continues to fall further destroying their own consciousness for a life of security. A society with no Heroes will be full of Villains.

"Arjuna inquired: O Kṛṣṇa, what is the situation of those who do not follow the principles of scripture but worship according to their own imagination? Are they in goodness, in passion or in ignorance?"

The Supreme Personality of Godhead said: According to the modes of nature acquired by the embodied soul, one's faith can be of three kinds – in goodness, in passion or in ignorance. Now

hear about this.

O son of Bharata, according to one's existence under the various modes of nature, one evolves a particular kind of faith. The living being is said to be of a particular faith according to the modes he has acquired.

Men in the mode of goodness worship the demigods; those in the mode of passion worship the demons; and those in the mode of ignorance worship ghosts and spirits.

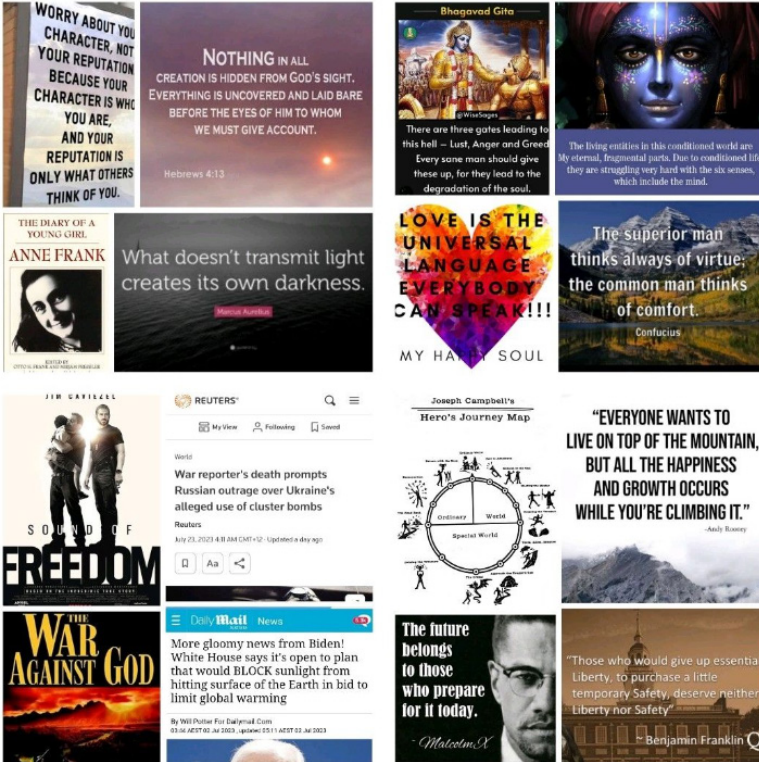

Those who undergo severe austerities and penances not recommended in the scriptures, performing them out of pride and egoism, who are impelled by lust and attachment, who are foolish and who torture the material elements of the body as well as the Supersoul dwelling within, are to be known as demons." - Krishna (Bhagavad Gita 17.1- 6)

The Kali-yuga doesn't progress into darkness by itself. The society is a part of creation and destruction of its own value system [#soulfamily](#). The spiritual ignorance leads one against the other and those that cannot see the light will be drawn to the dark, co-creating the reality around them.

"Surcharged with passion and ignorance and not knowing what was good or bad for them, the asuras, for whom impending death was waiting, began the persecution of the saintly persons.

My dear King, when a man persecutes great souls, all his benedictions of longevity, beauty, fame, religion, blessings and promotion to higher planets will be destroyed."- Srimad Bhagavatam 10.4.45-46

26. THE VEDIC SCIENCE AND DESCENDING PATH

"Science without Religion is Lame, Religion without Science is Blind." - Albert Einstein

Like everywhere else, even amongst scientists are those that believe in God or higher authority and those that don't. Some will continue to search endlessly for more evidence or be satisfied with theory that life is created by chance. Others who believe in an intelligent creator will provide their intelligent arguments of support from various sources of Religion and Science.

God is realised by the Gyaanis/Intellectuals in the form of all-pervading Brahman. The existence of Golden ratios, physics rules, sacred geometry and frequencies are nothing more than rules of the creator that are perfectly balanced to create and maintain the harmony in the Universe. The more the science discovers or Re-searches a topic the more they realise that nothing really is left to Chance.

The Yogis who try to realise God in the form of Paramatama (Supersoul within). Their guiding higher self that directs them through synchronicities, intuitions, dreams or visions etc. People can not approve of all the methods of their own educational experiences. There exists a force within us and within everyone else that seems to bring people together from all parts of the world.

Then there are Devotees that realise God as Bhagavān or Supreme Personality of Godhead. They are not satisfied with realising God in everything and everyone. They see the light but are not happy to see the Sun for the sunlight alone.

They want to also see what is actually behind the veil of the glare that is visible to everyone. They want to meet that source and establish loving relationships with that source [#soulfamily](#). The one they have heard about from descending sources of information, from the higher beings and realised souls who have personal experiences. They are not wasting time over what has already been researched in many evolutions of human history.

"Learned transcendentalists who know the Absolute Truth call this nondual substance Brahman, Paramātmā or Bhagavān.

The seriously inquisitive student or sage, well equipped with knowledge and detachment, realizes that Absolute Truth by rendering devotional service in terms of what he has heard from the Vedānta-śruti.

O best among the twice-born, it is therefore concluded that the highest perfection one can achieve by discharging the duties prescribed for one's own occupation according to class divisions and orders of life is to please the Personality of Godhead."- Srimad Bhagavatam 1.2.11-13

This video is very informative from scientific and spiritual perspective and discusses many things we have covered including the creation, expansion and contraction of the universe. Now, if the Universe was not created by chance then will its contraction or dissolution be left to chance? There is always a more evolved species in management. We read of these Demigods/ higher beings that serve God in all major religious scriptures.

27. SPACESHIPS RUN BY MIND

The Vedic scriptures mention spaceships or vimanas that travel at the speed of mind. As we progress in technology we are witnessing how the mind with the aid of intermediary technology is able to accomplish the role of senses and organs. Perhaps there already exist space/air ships that can be controlled using the mind. So is the future really here or are we repeating the lost past?

Mind technology in medical sciences discusses meditation, Mantras and visualization techniques can help restore health. As the body and cells remember or visualize their healthy forms they begin to transform into healthier states of vibrations. Through hypnosis and Yoga people have even gained control over involuntary functions.

Now taking this a level up is not just healing or restoration of the recent memory of the body but to transform it into something very different based on a memory of past life or an inbuilt guidance system in the DNA being activated. Something like what we see with the caterpillar that transforms into a Butterfly. We do see similar transformations of an egg to a bird and in a fetus to a child. The changes are all activated by codes in sequences of events.

So what conditions would be required for an activation of such innate abilities? At what point of self mastery can the body transform into something that we have a past memory of or even something that the mind can visualize or command? How pure/unadulterated/detoxed does the mind and physical body have to be, to be responsive/malible to such subtle signals of will?

The answer for the future solution is perhaps in the past also and we have discussed this many times with various examples. The Yogis of the past have shown us the power of the yogic Siddhis. Multiple versions of us can be created as in story of Sage Saubhari. Hanuman expanded his body large enough to be able to lift a mountain and yet was able to make himself fly with it from the Himalayas to Lanka in few hours. The demigods are able to change forms, appear and disappear without the aid of any technology.

The power of the mind is only now being understood with the aid of technology. But it can be harnessed without it, as done by yogis of the past. The power of manifestation using the mind and intellect comes from Spiritual source [#soulfamily](#). It was well understood in the scriptures of the past.

"The senses, the mind and the intelligence are the sitting places of this lust. Through them lust covers the real knowledge of the living entity and bewilders him.

Therefore, O Arjuna, best of the Bhāratas, in the very beginning curb this great symbol of sin [lust] by regulating the senses, and slay this destroyer of knowledge and self-realization.

The working senses are superior to dull matter; mind is higher than the senses; intelligence is still higher than the mind; and he [the soul] is even higher than the intelligence." - Krishna (Bhagavad Gita 3.40-42)

28. INTERPLANETARY SOULS

Continuing from previous post, we can understand that the nature of the soul is curious. It has a degree of independence and freewill as a part Krishna/God. It uses it to explore, learn, grow and discover new places and things. It needs some action to perform and it does this in varieties of ways. Some ways are scientific and some are magical.

The problem with any civilization or culture is when it refuses to understand that the varieties can exist in many ways that may or may not be within the confines of their paradigm of understanding or control. The nature of humans is to somehow convert others to their belief systems irrespective of the others desires or capabilities. The belief that the one with the most powerful weapons is the most advanced is a low vibrational consciousness that does not allow peace to exist. It is based not on love of exploration and learning rather the curiosity is to study to exploit the Re-Sources. It is not spiritually evolved way of life.

When our consciousness cannot accept anyone different from who we are, then we are mentally closing doors for what we can be [#soulfamily](#). How can we ascend in consciousness when we deem ourselves to be most superior? And if in such circumstances we did find out that our beliefs were incomplete or inferior what sort of reaction would we have? If we are to be an advanced civilization we must accept diversity in any form it comes, knowing well that Krishna/God as a fragment of spiritual power rests in all and allows them certain independence to be what they have desired to be.

"I am the source of all spiritual and material worlds. Everything emanates from Me. The wise who perfectly know this engage in My devotional service and worship Me with all their hearts."- Krishna (Bhagvad Gita 10.8)

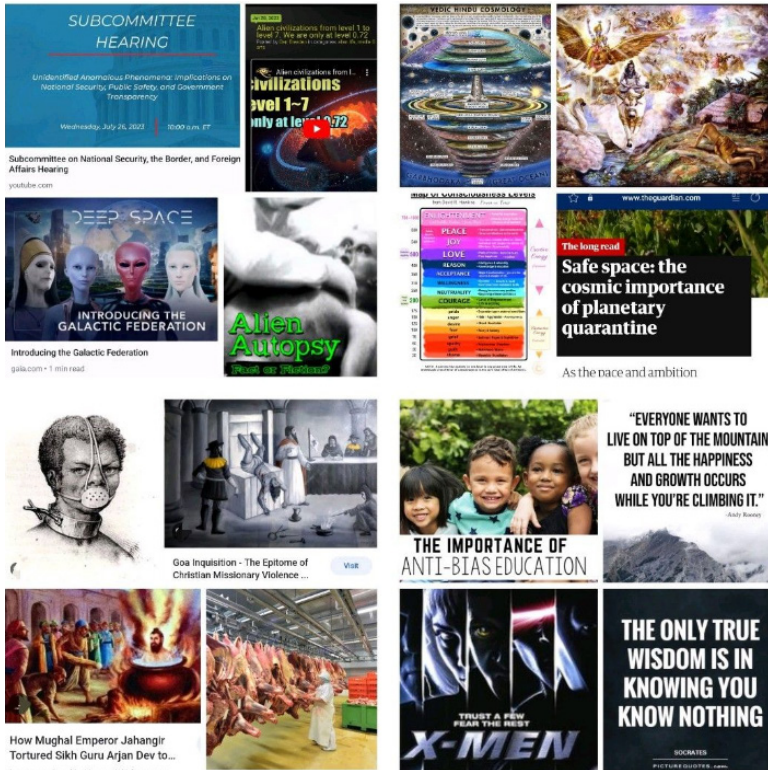

To accept the future we must accept the past. We must learn what we should not do so we may not repeat. We must see the creator in all his creations and appreciate the beauty of the variety for the pleasure of Krishna himself who is the primal enjoyer of all his creations.

"The sages, knowing Me as the ultimate purpose of all sacrifices and austerities, the Supreme Lord of all planets and demigods and the benefactor and well-wisher of all living entities, attain peace from the pangs of material miseries."- Krishna (Bhagvad Gita 5.29)

When we realise we know nothing and we are eternal servants of the Lord only then can we ascend in consciousness to be recipients of friendships and be released ourselves from the physical and mental quarantine that we have put ourselves in. The way out is the way in!!

"I am seated in everyone's heart, and from Me come remembrance, knowledge and forgetfulness. By all the Vedas am I to be known; indeed I am the compiler of Vedanta, and I am the knower of the Vedas."- Krishna (Bhagavad Gita 15.15)

Raise your consciousness through true God consciousness. God did not create religions. The soul is eternal, and the Dharma of the soul is also eternal or Santana.

29. CHOICE VS CHANCE

"Choice, not chance, determines your destiny. It's up to you to decide what you are worth, how you matter, and how you make meaning in the world. No one else has your gifts--your set of talents, ideas, interests. You are an original. A masterpiece."- Regina Brett

The next part is recognizing the same in others. We can lift ourselves all we want and some even put themselves next to Krishna/God, but the true worth of any ability is in the service of others. When we give happiness to others not take it away from them. Our worth, beauty and importance in our own eyes is narcissism but the same in the eyes of others is what gives happiness to is too. We quench our thirst for happiness by offering it. What goes around comes around. Karma is a choice.

The world will become a better place when we choose it to be that way. We discussed power of intentions, actions and prayers. All are frequencies at various levels of unperceived reality. We could not meditate all our lives or sleep endlessly. Karma is the essential part of existence. Building positive or negative karma relies on interaction with other beings we choose to love or hate. We either earn or lose credits in material karmic transactions.

"O sinless Arjuna, I have already explained that there are two classes of men who realize the Self. Some are inclined to understand Him by empirical, philosophical speculation, and others are inclined to know Him by devotional work.

Not by merely abstaining from work can one achieve freedom from reaction, nor by renunciation alone can one attain perfection.

All men are forced to act helplessly according to the impulses born of the modes of material nature; therefore no one can refrain from doing something, not even for a moment.

One who restrains the senses and organs of action, but whose mind dwells on sense objects, certainly deludes himself and is called a pretender.

On the other hand, he who controls the senses by the mind and engages his active organs in works of devotion, without attachment, is by far superior.

Perform your prescribed duty, for action is better than inaction. A man cannot even maintain his physical body without work.

Work done as a sacrifice for Visnu has to be performed, otherwise work binds one to this material world. Therefore, O son of Kunti, perform your prescribed duties for His satisfaction, and in that way you will always remain unattached and free from bondage."- Krishna (Bhagavad Gita 3.3-9)

This karmic bondage is the cause of rebirths on material platform [#soulfamily](#). The spiritual benefits arise through dovetailing work in God consciousness that do not expire and only accumulate till we have sufficient balance to evolve into spiritual worlds. We have to choose to act in faith and consciousness of that subtle spiritual platform.

"That supreme abode of Mine is not illumined by the sun or moon, nor by fire or electricity. Those who reach it never return to this material world."-Krishna (Bhagavad Gita 15.6)

Renunciation is complete when it is in the knowledge that everything in existence belongs to the Lord and that no one should claim proprietorship over anything.

Bhagavad-gita 5.7, Purport Srila Prabhupada

"We were especially cautioned against eating animal protein, and fried foods which act as an irritant to the body. These act as aggravators to your system after many years of misuse. We do not mean to be judgmental, but the body is built for a certain type of vehicular traffic. The body cannot ascend in frequency to higher dimensional realms if the density and the toxins are polluting the environment of the human body."

30. CHEATER OR CHEATERS

Cheating is part of every aspect of our modern life. The higher the authority the higher the propensity to cheat. But God is the biggest cheater of all.

Dhruva Maharaj received audience of Lord Vishnu at a very young age. He then ruled Earth for thousands of years. With that degree of accomplishment he was highly qualified, yet, was he cheated of his resolve. To avenge his brother he destroyed thousands of innocent Yakshas/Demons and had to be consoled by his grandfather Svāyambhuva Manu himself.

"My dear Dhruva, the Supreme Personality of Godhead is uncontaminated by the material modes of nature. He is the remote cause of the creation of this material cosmic manifestation. When He gives the impetus, many other causes and effects are produced, and thus the whole universe moves, just as iron moves by the integrated force of a magnet.

The Supreme Personality of Godhead, by His inconceivable supreme energy, time, causes the interaction of the three modes of material nature, and thus varieties of energy become manifest. It appears that He is acting, but He is not the actor. He is killing, but He is not the killer. Thus, it is understood that only by His inconceivable power is everything happening.

My dear Dhruva, the Supreme Personality of Godhead is ever existing, but in the form of time He is the killer of everything. He has no beginning, although He is the beginning of everything, nor is He ever exhaustible, although everything is exhausted in due course of time. The living entities are created through the agency of the father and killed through the agency of death, but He is perpetually free of birth and death."- Srimad Bhagavatam 4.11.16-19

God as Time is Independent and renounced. He decides if we are cheated at Death or is death cheated by us.

"When Dhruva Mahārāja was attempting to get on the transcendental plane, he saw death personified approach him. Not caring for death, however, he took advantage of the opportunity to put his feet on the head of death, and thus he got up on the airplane, which was as big as a house." Srimad Bhagvatam 4.12.30

Devotion helps win God's mercy and favour [#soulfamily](#) because we are all bound and suffering from unknown karma.

"I adore the primeval Lord Govinda, who burns up to their roots all fruitive activities of those who are imbued with devotion and impartially ordains for each the due enjoyment of the fruits of one's activities, of all those who walk in the path of work, in accordance with the chain of their previously performed works, no less in the case of the tiny insect that bears the name of indragopa than in that of Indra, king of the Demigods."- Bramha Samhita 5.54

All the laws of Universe are thus below the law of Devotion. Krishna/God has the power to override and cheat any law or system.

"Of all creations I am the beginning and the end and also the middle, O Arjuna. Of all sciences I am the spiritual science of the self, and among logicians I am the conclusive truth."- Bhagavad Gita 10.32

31. TECHNOLOGY OF MAGIC

"Any sufficiently advanced technology is indistinguishable from magic". - Arthur C. Clarke

We may be advancing technologically to be able to alter the DNA or to be able to produce anti-aging effects or perhaps even go further. But what does that achieve? Where is the evolution? A monkey trapped into a human Body without sufficient evolution of consciousness is still a monkey. Perhaps it will behave much like the Neanderthals. Evolution is a stepped process of self development.

Imagine if you will a materialistic human given an advanced body through technology or through transfer of consciousness. Is he/she likely to engage in much the same type of behaviour as it did previously? Thinking about maximizing personal wealth, power and enjoyment at cost of others? Would the society be just more advanced form of monkeys of the jungle.

This is why the rise in consciousness and vibrations is a prerequisite for evolution into higher worlds. This is why human birth is rare. Truth is stranger than fiction in many cases and discernment is not just about knowing the truth but walking that path too [#soulfamily](#).

The true path to ascension is through Spiritual evolution of consciousness. This evolution comes from understanding the spiritual basis for everything through God/Krishna consciousness. We are not ascended in consciousness if we are unable to see this Helicopter or Bird eye view. If we are seeing separation and disconnected news in all beings then we are surely not high enough.

"The Supreme Truth exists both internally and externally, in the moving and non-moving. He is beyond the power of the material senses to see or to know. Although far, far away, He is also near to all.

Although the Supersoul appears to be divided, He is never divided. He is situated as one. Although He is the maintainer of every living entity, it is to be understood that He devours and develops all.

He is the source of light in all luminous objects. He is beyond the darkness of matter and is unmanifested. He is knowledge, He is the object of knowledge, and He is the goal of knowledge. He is situated in everyone's heart.

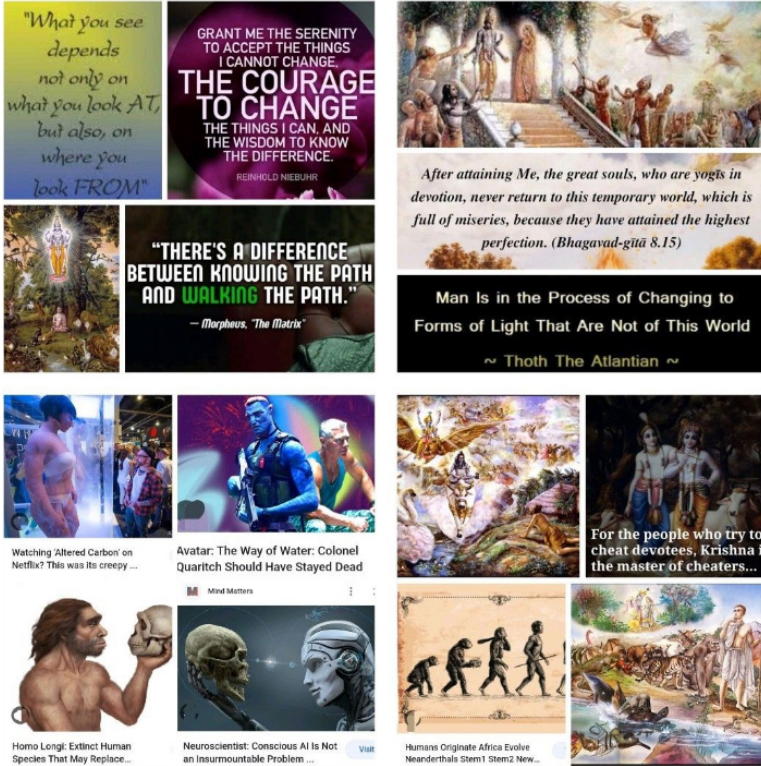

Thus the field of activities [the body], knowledge, and the knowable have been summarily described by Me. Only My devotees can understand this thoroughly and thus attain to My nature."- Krishna (Bhagvad Gita 13.16-19)

This lack of understanding of our spiritual understanding and of God makes people of Atheistic nature take to technology and become trapped in Artificial Realities. They choose not to believe in the Magic of Spirit and the inconceivable power and authority of God.

"This divine energy of Mine, consisting of the three modes of material nature, is difficult to overcome. But those who have surrendered unto Me can easily cross beyond it.

Those miscreants who are grossly foolish, lowest among mankind, whose knowledge is stolen by illusion, and who partake of the atheistic nature of demons, do not surrender unto Me."- Krishna (Bhagavad Gita 7.14)

32. ONE ROAD TO FAILURE

“There are many roads to success, but only one sure road to failure; and that is to try to please everyone else.”— Benjamin Franklin

There is a reason why all cultures and religions are calling this period Kali-yuga and End times. Everyone seeks unity but no one is wanting to move from their position. Every religion has a prophesised saviour but the condition is that it should be from their culture/religion and for the benefit of their culture and religion. Are we imposing our believes on God's plan or are we accepting our responsibility to take action to change the direction by seeing a higher goal?

"In Kali-yuga, wealth alone will be considered the sign of a man's good birth, proper behavior and fine qualities. And law and justice will be applied only on the basis of one's power.

Men and women will live together merely because of superficial attraction, and success in business will depend on deceit. Womanliness and manliness will be judged according to one's expertise in sex, and a man will be known as a brāhmaṇa just by his wearing a thread.

A person's spiritual position will be ascertained merely according to external symbols, and on that same basis people will change from one spiritual order to the next. A person's propriety will be seriously questioned if he does not earn a good living. And one who is very clever at juggling words will be considered a learned scholar..

As the earth thus becomes crowded with a corrupt population, whoever among any of the social classes shows himself to be the strongest will gain political power."- Srimad Bhagvatam (12.2.2-5)

We are moving to a world where existence of Extra Terrestrial life is being brought out of secrecy exposing truths that have remained dormant for ages as discussed many times before. Yet, we continue to seek a biased view to God and his creations. We are not subscribing to the much discussed 'Achintya Bheda Abheda Tattva' or Inconceivable simultaneous Oneness and Differentness of God.

When we are unable to accept our neighbours and family of one planet then what is the guarantee we shall not wage war on others who look and believe a little different to what we do. It is one thing to consider ourselves peaceful and it is another to be considered peaceful by others. Our perspective is very biased from our own standpoint. Our leaders have put their views for separation because it serves their interests. Divide and Rule policy is very old. It is much easier to build a wall of Fear than to build physical walls on all borders. People comply willingly against those they deem to be different #soulfamily

The chance to co-create a reality is always now and through our freewill. Any saviour can do little by himself if people entertain lower consciousness.

"One who is not in transcendental consciousness can have neither a controlled mind nor steady intelligence, without which there is no possibility of peace. And how can there be any happiness without peace?"- Krishna (Bhagvad Gita 2.66)

33. IMMORTALITY WITH TECHNOLOGY

The idea of immortality using technology is very topical these days and appealing one. There are many paths being discussed by many scientists and wealthy. What if the next life is not as favourable based on karma? How can the risk be mitigated? What are the options?

In a world where we are trying to fuse consciousness with technology there are many questions. If feelings are just sensations in the brain then can that not be artificially created? One may then be able to enjoy material satisfactions by suggested download of consciousness from body and uploading into a synthetically produced one. An inorganic life form has a longer expiry date, just like the processed food compared to fresh food. But there is always a catch with processed material. Inorganic or processed food is disconnected from Spiritual life/essence, is thus in mode of Ignorance and rendered sterile. It cannot create life and is thus the end of the line product.

"Foods in the mode of goodness increase the duration of life, purify one's existence and give strength, health, happiness and satisfaction. Such nourishing foods are sweet, juicy, fattening and palatable. Foods that are too bitter, too sour, salty, pungent, dry and hot, are liked by people in the modes of passion. Such foods cause pain, distress, and disease. Food cooked more than three hours before being eaten, which is tasteless, stale, putrid, decomposed and unclean, is food liked by people in the mode of ignorance." - Krishna (Bhagvad Gita 17.8-10)

An artificially manufactured body comes with its own fine print and clauses. How more can one be entrapped than one who cannot even match the freedom of animal. What then can be said for the rights/duties of a human.

"Eating, Sleep, Fear and Sex ; these habits are common between human beings and animals. It is the Dharma/God consciousness which is the special quality of the human beings. Without the Dharma, they are similar to the animals"- Mahabharat

If in the modern times the mind is hackable then what can be said for the body that is artificial all in all? How can then one distinguish real consciousness from an artificial one? Does it matter?

The organic path then is the path opposite of material aspirations. The path to organic ascension has been discussed many times [#soufamily](#). It can be achieved through organic means of spiritual realisations. By raising our consciousness in God and Unity consciousness as opposed to trying to achieve singularity and immortality through technology. The higher path uses transcendental means for transcendental goals. No artificial technology required in the simple process of developing faith in God [#soufamily](#)

34. KNOWLEDGE

Continuing from previous post we can understand the mortal and temporary nature of material nature and the immortal nature of the soul the two are quite separate.

"Those who are seers of the truth have concluded that of the non-existent there is no endurance, and of the existent there is no cessation. This seers have concluded by studying the nature of both."- Krishna (Bhagavad Gita 2.16)

Since the soul is all aware and eternal it can play in spiritual realms or in material realms. Under the influence of modes of material nature, it accrues karma and thus evolves or devolves through reincarnations as per it's soul contract.

"One who can see that all activities are performed by the body, which is created of material nature, and sees that the self does nothing, actually sees."- Krishna (Bhagavad Gita 13.30)

The soul is but a passenger in the body and engaged on various field of activities.

"The five great elements, false ego, intelligence, the unmanifested, the ten senses and the mind, the five sense objects, desire, hatred, happiness, distress, the aggregate, the life symptoms, and convictions – all these are considered, in summary, to be the field of activities and its interactions."- Krishna (Bhagavad Gita 13.6-7)

Before one plays the game/activity they need to know set rules and objectives. Similarly, human form of life has pre-set lessons to be learnt.

"Humility; pridelessness; nonviolence; tolerance; simplicity; approaching a bona fide spiritual master; cleanliness; steadiness; self-control; renunciation of the objects of sense gratification; absence of false ego; the perception of the evil of birth, death, old age and disease; detachment; freedom from entanglement with children, wife, home and the rest; even-mindedness amid pleasant and unpleasant events; constant and unalloyed devotion to Me; aspiring to live in a solitary place; detachment from the general mass of people; accepting the importance of self-realization; and philosophical search for the Absolute Truth – all these I declare to be knowledge, and besides this whatever there may be is ignorance."- Krishna (Bhagavad Gita 13.8-12)

The progress in the Matrix is determined based on these metrics. The material world is full of distractions from key objectives. The individual soul is only concerned with its own condition and progress. Krishna/God is witnesses to progress of all [#soulfamily](#). He is the one who sanctions all choices and awards accordingly.

"Yet in this body there is another, a transcendental enjoyer, who is the Lord, the supreme proprietor, who exists as the overseer and permitter, and who is known as the Supersoul.

One who understands this philosophy concerning material nature, the living entity and the interaction of the modes of nature is sure to attain liberation. He will not take birth here again, regardless of his present position."- Krishna (Bhagavad Gita 13.23-24)

There are many levels that we cannot perceive from the current level of consciousness.

Those who progress in Krishna consciousness in the higher planets are gradually elevated to higher and higher planets and at the time of universal devastation are transferred to the eternal spiritual kingdom.

Prepared by: Sri N. Jagadgur Sri Prabhupada

Material nature consists of the three modes—goodness, passion and ignorance. When the living entity comes in contact with nature, he becomes conditioned by these modes.

35. GREATER DIMENSIONS

In 3D reality we visualize objects from the position we physically observe. Any incoming objects from a distance would only be visible as a 2D object. We are not able to see the sides or the back of these objects and certainly not through them i.e the entire scale of that one dimension. So despite the 3D existence the imperfect senses provide less than 3D perception. The fourth dimension is Time which we perceive linearly. The scriptures state four defects of Human form - imperfect senses, propensity to cheat, certainty of committing mistakes, and certainty of being illusioned

So it takes a higher dimensional reality to perceive in completeness the lower states of reality. Many experiments have been done where under hypnosis a person is able to perceive information that is beyond the line of sight/perception. There have been people gifted with ability to see with eyes closed, some with ability of x-ray visions to see through the body. Then there are those that can read vibrations of the mind. We have discussed how technology is being used to replicate this.

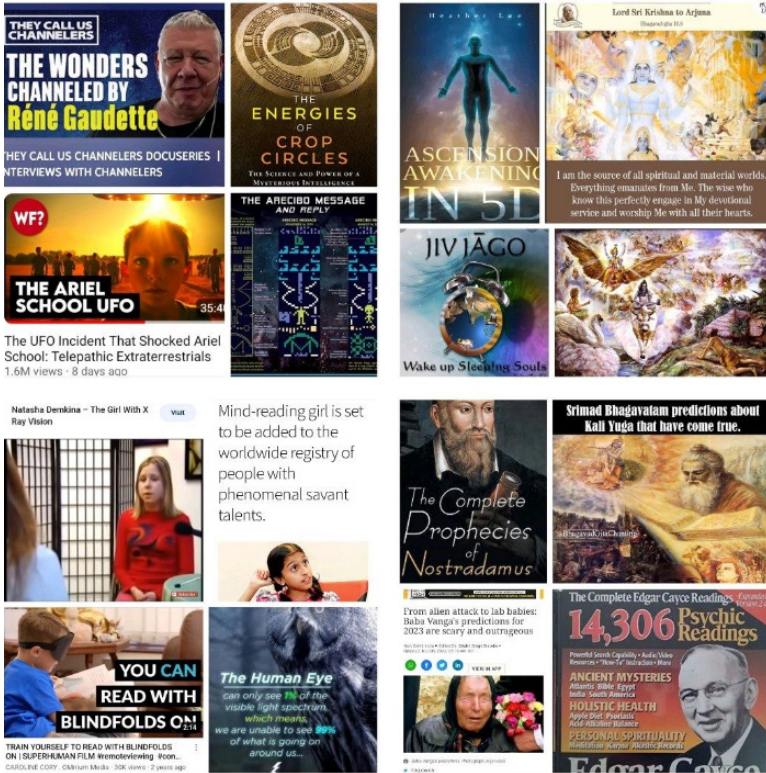

On a 5th dimensional level of existence perhaps Time the 4th dimension becomes easier to perceive too. We have discussed this with some people in ancient and modern times being able to look into the future and in the past. They somehow are able to tap into higher dimension to view and communicate across Time and Space. Our history is full of prophecies in different cultures.

These abilities are available full-time to beings of higher levels of consciousness without aid of technology [#soulfamily](#). From that line of perception we can ascend above the roller coasters of dualities of life and surrender to Krishna/God/'All that is' who arranges every space and time for his experiences.

"In just two days, O almighty Lord, I will see the deaths of Cāṇūra, Muṣṭika and other wrestlers, along with those of the elephant Kuvalayāpīḍa and King Kaṁsa — all by Your hand. Then I will see You kill Kālayavana, Mura, Naraka and the conch demon, and I will also see You steal the pārijāta flower and defeat Indra. I will then see You marry many daughters of heroic kings after paying for them with Your valor. Then, O Lord of the universe, in Dvārakā You will deliver King Nṛga from a curse and take for Yourself the Syamantaka jewel, together with another wife. You will bring back a brāhmaṇa's dead son from the abode of Your servant Yamarāja, and thereafter You will kill Pauṇḍraka, burn down the city of Kāśī and slay Dantavakra, and You will also put an end to the King of Cedi during the great Rājasūya sacrifice. I shall see all these heroic pastimes, along with many others You will perform during Your residence in Dvārakā. These pastimes are glorified on this earth in the songs of transcendental poets.

Subsequently I will see You appear as time personified, serving as Arjuna's chariot driver and destroying entire armies of soldiers to rid the earth of her burden." - Narada to Krishna (Srimad Bhagvatam 10.37.15-21)

36. MASCULINE AND FEMININE ENERGY CYCLES

As per Vedic scriptures before the world was called Bharat-varsha, taking the name of King Bharat who ruled the planet. But before that it was called Illavrata- varsha, named after Queen Illa, who was formerly King Sadyumana.

"Once upon a time, Sudyumna went on tour with his ministers. At the foot of the mountain Sumeru there is a forest named Sukumāra, and as soon as they entered that forest, they were all transformed into women. When Mahārāja Parīkṣit inquired from Śukadeva Gosvāmī about the reason for this transformation, Śukadeva Gosvāmī described how Sudyumna, being transformed into a woman, accepted Budha, the son of the moon, as her husband and had a son named Purūravā."- Excerpt from Summary, Srimad Bhagvatam 1.9.

The Illavrata-Varsha is considered the greater land mass from which the Bharat varsha was split.

We know the world was once one land mass called Pangea and over time it splits into continents and continents into countries and countries into states. With cycles of time the human spirituality grows and falls in relation to these Masculine and Feminine energy and their spiritual beliefs.

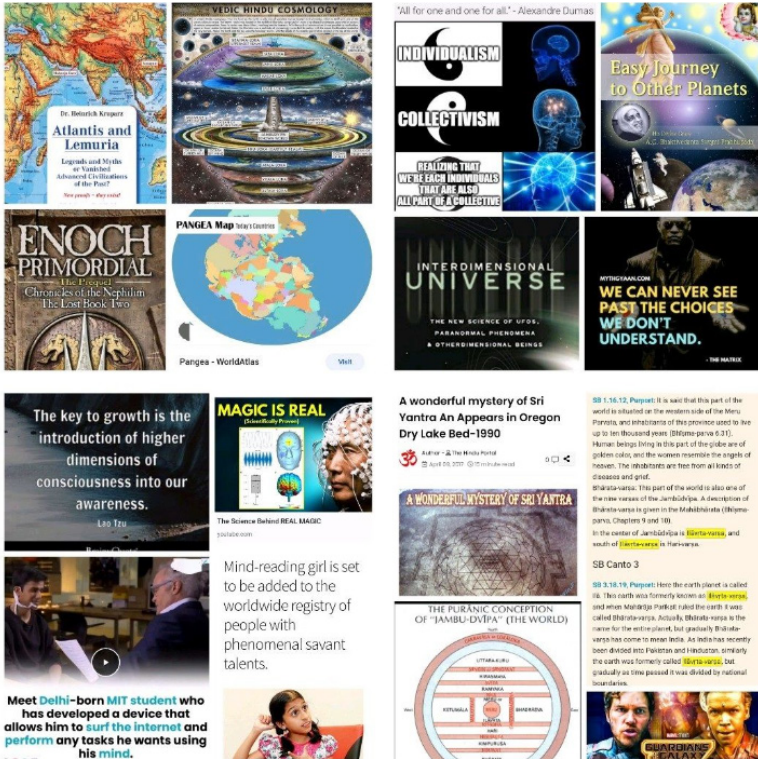

There is much discussion about the Masculine Technology based culture of Atlantis and a more Feminine Spirituality based culture of Lemuria. The history is lost but the faded memories still haunt our modern civilization.

One energy seeks power and technology and other is about healing and intuition. We have discussed many times that our reality is operating on various frequencies and some are not visible. The imbalanced frequencies stop us from seeing the greater surroundings that are restricted by our consciousness. There is much scientific evidence of this. The awakening is speeding up [#soulfamily](#). Those who are willing to trust their intuitive abilities and believe, will see through in-built technologies. No technology is out of Krishna's/God's control. It has been said many times, Faith can move mountains and clear our visions too.

"The Supreme Personality of Godhead, Viṣṇu/Krishna, is all-powerful, and He awards the results of one's fruitive activities. Thus, although one living entity's duration of life is very small whereas that of another is very great, He is always in His transcendental position, and there is no question of lessening or increasing His duration of life.

The differentiation among varieties of life and their suffering and enjoyment is explained by some to be the result of karma. Others say it is due to nature, others due to time, others due to fate, and still others say that it is due to desire.

The Absolute Truth, Transcendence, is never subject to the understanding of imperfect sensory endeavor, nor is He subject to direct experience. He is the master of varieties of energies, like the full material energy, and no one can understand His plans or actions; therefore it should be concluded that although He is the original cause of all causes, no one can know Him by mental speculation."- Srimad Bhagvatam 4.11.21-23

37. MULTI-DIMENSIONAL RAMAYANA

Of many Vedic narrations that bring to light the scientific facts and devotion is the story of Kakbhushundi. The crow is blessed with most important engagement for his extremely long life-Loving devotion to Lord Ram.

We discussed how Kakbhushundi had lived over repeated cycles of time and witnessed Ramayana 11 times and Mahabharata 16 times. His life story goes on to explain Multiverse, relativity of time, travel through portals.

He narrates his story to Garuda, the mount of Lord Vishnu, about how Lord's potency is inconceivable. And how despite one's closeness to God one should not deem to understand Him and feel any degree of pride or ego.

Kakbhushundi tells how when Lord Ram was a child he played with him in the form of a crow. He became disillusioned by the Lord's incarnation in the form of a child, attempting to catch him and then crying when unsuccessful. Understanding the confusion of the devotee crow, Lord Ram stretched out his arms to grab him. Kakbhushundi flew all over the world but always saw the arms following him. Then realising his fault he shut his eyes and surrendered. At that moment he found himself back in the palace playing with Lord Ram. As the Lord laughed Kakbhushundi got sucked into his mouth and within the body of Lord Ram he found many universes, each with their own Brahma, Vishnu and Siva. Each with 14 lokas, all very different and with wonderful creations, each different from the others.

He was amazed to see himself in each universe playing with same Lord Ram. He spent 1000s of ages in many of those universes trying to understand the variety of creations. Then, at one point he found himself being carried back via the same route he came and then out of Lord's mouth. On recollection he found only a few unaccounted minutes had passed in that palace. He could not fathom the inconceivable power of Lord Ram.

Then overwhelmed by scenes he had witnessed, he prayed to Lord Ram. The Lord being thus pleased offered him a benediction. He had asked him to choose the Super power of the Siddhis, the great treasures of wealth and knowledge. But Kakhushundi had seen the Multiverse and no material boon would ever satisfy. He thus asked for undying loving Devotion to that Lord who cannot be conceived through knowledge. He was thus granted all of the above, Bhakti/ Loving Devotion and an extremely long life to be the guide and preceptor of many devotees like Garuda or Brahma [#soulfamily](#).

"Thus because Lord Brahmā wanted to mystify the all-pervading Lord Kṛṣṇa, who can never be mystified, but who, on the contrary, mystifies the entire universe, he himself was put into bewilderment by his own mystic power.

As the darkness of snow on a dark night and the light of a glowworm in the light of day have no value, the mystic power of an inferior person who tries to use it against a person of great power is unable to accomplish anything; instead, the power of that inferior person is diminished."- Srimad Bhagvatam 10.13.44-45

38. THE VARIED FREQUENCIES OF CREATION

"If a man does not keep pace with his companions, perhaps it is because he hears a different drummer. Let him step to the music which he hears, however measured or far away."-Henry David Thoreau

No matter what culture we look at there are certain common values in the history of each culture and the related stories that communicate them. These stories bind that culture to their roots their Hi-stories of idealistic values of the culture. These stories then communicate the same to other cultures what the High values in the Hi-stories are. Based on what is common and appreciated, others will resonate with them or not.

As the people of modern society move around they take their stories with to preserve and exchange. Because they are the easiest pieces of information to recall in the form of stories and easiest to build bridges in science or arts around the world. When people disassociate with these stories they lose their sense of belongings, roots and Hi-stories and the culture within them fails and falls.

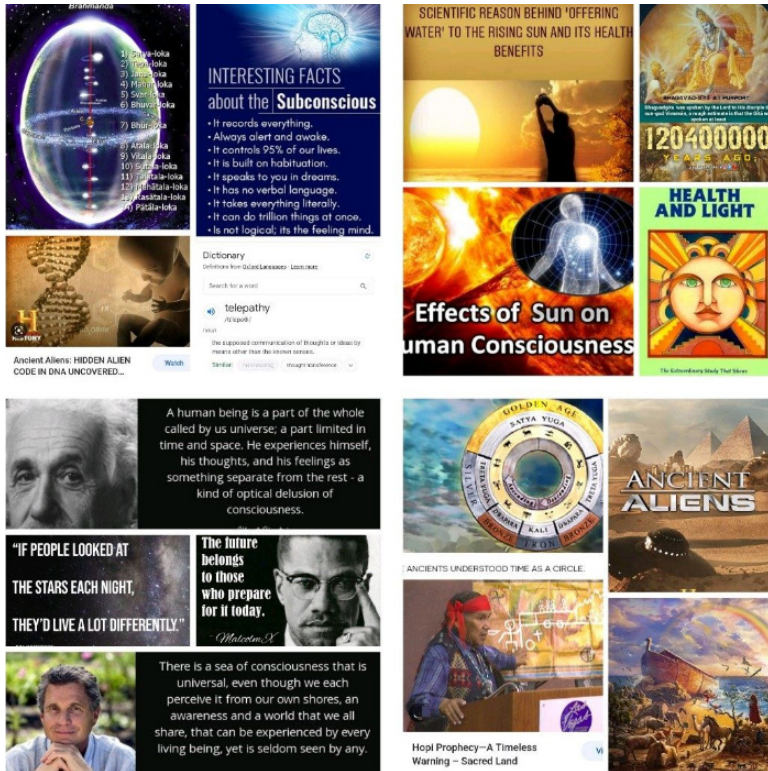

But everyone wants a story of values, so they try and incorporate new stories for a new age that appeals to them and those around them. New civilizations are formed based on new commonly and new values and new Hi-stories. We see these happening on a daily basis as most people migrate from one destination to another in search of new adventures and opportunities. Space and Time often changes our references of what may be a High value. Generation X, is different from Y which is different from generation Z.

Some commonalities exist in the Time irrespective of space. So both with change of space and time new unique time stamps are created on the continuum that brings its own challenges in Understandings.

But despite the separation of Time and Space and many variety of differences, we still see people coming together. They follow the harmonics of frequencies that resonate with their heart, through the words that communicate certain High values from the Hi-stories [#soulfamily](#). Is it the past that is encoded in the DNA that pulls one to a certain frequency of thought pattern or is it the GPS of the destination and determinism that pushes one to a new Pathway? Are they hearing a different drumbeat?

The matters of consciousness are full of endless possibilities and probabilities of multitude of decision pathways and multiverses. The decision for the embodied is what is felt in the moment and how one acts in the moment that communicates their resonance to their High value and Hi-story. Because when all is said and done the past and the future is but a collection and projections of moments that took the story in one direction or the other linking the past and future.

" O Arjuna, whatever you wish to see, behold at once in this body of Mine! This universal form can show you whatever you now desire to see and whatever you may want to see in the future. Everything – moving and nonmoving – is here completely, in one place."- Krishna (Bhagvad Gita 11.7)

39. FACT OR FICTION

We spoke about consciousness and multiple levels of realities by the way of frequencies. All frequencies of light being managed by the Sun. It is after the source of life in some ways to the visible material creation around us.

But can multiple realities exist on the same plane visible to some but not to others? Does that make sense? Can we sometimes sense things without the use of working senses? The feeling that something is watching us or something is about to happen? Something that cannot be validated by working senses and is more a feeling than anything else. Until it manifests itself and there is a coveted 'I told you so' that we can't hold back.

Perhaps like wisdom or concepts that seem to unravel themselves to some above others. Though it may be said that everyone has the same visible physical abilities, the aptitude comes naturally to some than others. For some the doors seem shut and for others the shut doors have no meaning whatsoever. They are perhaps visualizing a different reality [#soulfamily!](#)

The world of normal, paranormal and supernormal and any other versions of it seem to coexist already. We know this because whatever is accepted by the majority on that reality is considered normal everyone or everything else is paranormal or supernormal based on the accepted science on that physical reality. But clearly there is evidence of more..much more.

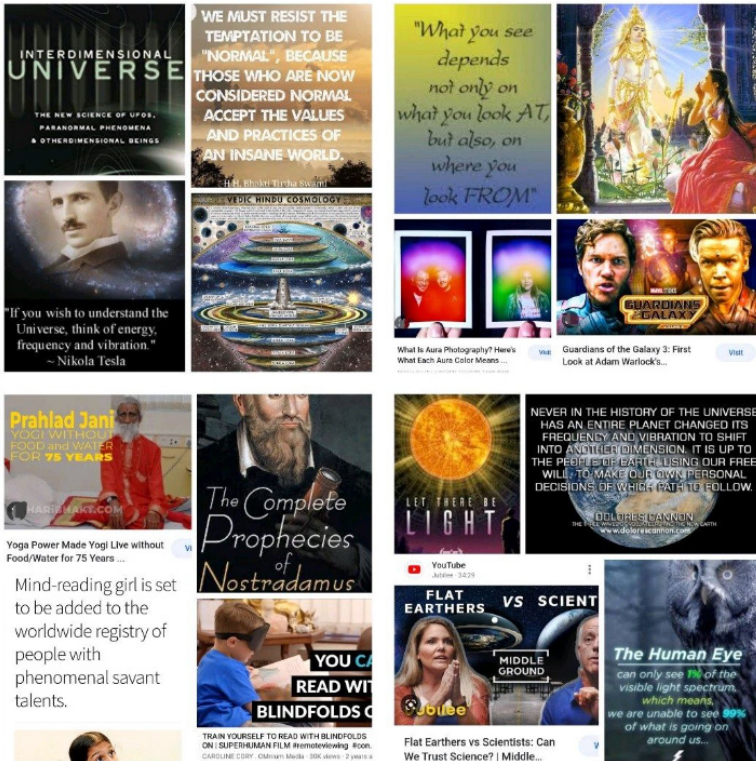

What If for some reason or the other the frequencies of reality shift? A significant percentage of the world is now exposed to new knowledge and sciences and the world now has believers of new reality? Not because it is a belief but some can actually perceive it.

Does that change the paradigm for everyone or are there two sets of rules in the same world for two different realities?

We have been exposed to stretch of imaginations through works of fiction but what we know fact is stranger than fiction. Then which stretch in which direction is true? Perhaps what is true for us and serves us should be standard true. This belief can break up the society. The breakthrough is 'service to others' way of thinking; how can we accommodate the diversity that exists but we are unable comprehend. What we decide can create Unity in Diversity or destroy it- like the Sun!

"The Supreme Personality of Godhead, the living entities, the material energy, the spiritual energy and the entire creation are all individual substances. In the ultimate analysis, however, together they constitute the supreme one, the Personality of Godhead. Therefore those who are advanced in spiritual knowledge see unity in diversity. For such advanced persons, the Lord's bodily decorations, His name, His fame, His attributes and forms and the weapons in His hand are manifestations of the strength of His potency. According to their elevated spiritual understanding, the omniscient Lord, who manifests various forms, is present everywhere. May He always protect us everywhere from all calamities."- Srimad Bhagvatam 6.8.32-33

40. FREEDOM AND CHOICE

"Freedom is not merely the opportunity to do as one pleases; neither is it merely the opportunity to choose between set alternatives. Freedom is, first of all, the chance to formulate the available choices, to argue over them -- and then, the opportunity to choose.". Wright Mills

Unfortunately, the freedom to exercise in the current society is linked to the opportunity to vote representatives from a selected few, all of whom work for the same boss. Like any corporate operating multiple brands with same essential content, the theory of democracy now pertains to alignment with a set of superficial values, lacking any differences in substance.

Most people spend more time researching their holiday destinations than they do researching the candidates who they will consider their leaders for a little while. Who is really guilty of cheating or being cheated is a debatable one.

The crux of the situation is the hopelessness of the free people, having no ability to choose an alternative that is NOT SEEKING POWER for another term to maximize their opportunities.

There are those that is engaged in the service of others because it is what they want to do and continue to do so from the sidelines. They have no interest in playing dirty games. They exist to give and happy to do so silently.

Like the flow of water all evils flow from the top. The Cartels and horse trading and secret deals are not done by the poor peasants. They do not have the desire or resources to rig the system. They are a resource themselves to be deployed through manipulation of emotions by multiple Brands/Parties.

"Whatever action is performed by a great man, common men follow in his footsteps. And whatever standards he sets by exemplary acts, all the world pursues."- Krishna (Bhagavad Gita 3.21)

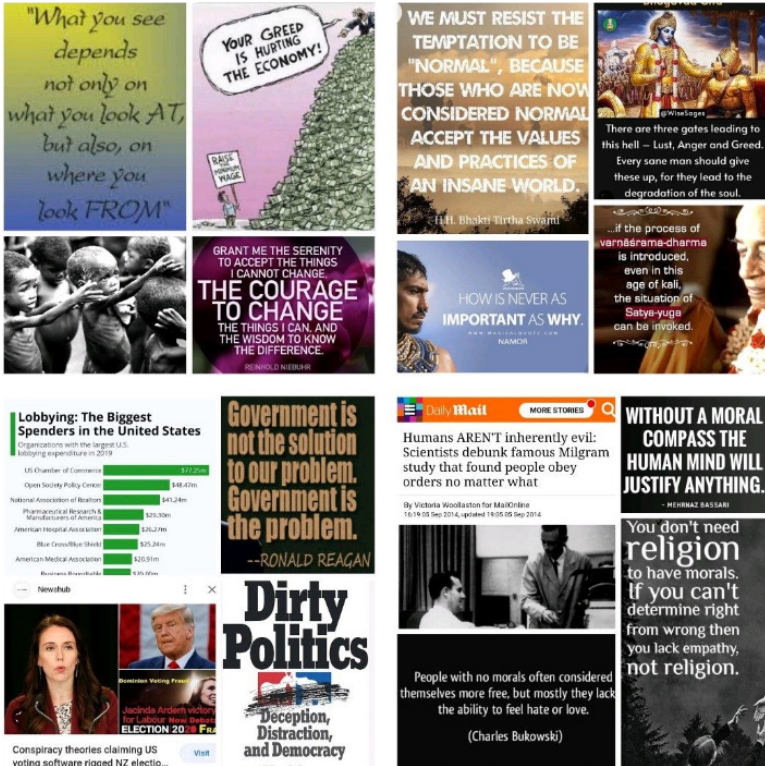

At the highest institutions of Governance people are given the right to abstain from voting. What if this right was extended to everyone who had NO CONFIDENCE in any party. What would the alternative be? Who would engage in discussions of an alternative? What qualities should the leader of a government have other than majority of votes?

No one really things about that anymore?

The morals and values of a civilization seem to dissipate much the same way when there is no protection for them. They get voted out, pushed by wealth and power. No one acts according to their own natures. The in-built guiding systems that was to maintain harmony in the society.

"According to the three modes of material nature and the work associated with them, the four divisions of human society are created by Me. And although I am the creator of this system, you should know that I am yet the non-doer, being unchangeable."- Krishna (Bhagavad Gita 4.13)

When Dharma is restored then people with appropriate skills and aptitude for the roles get selected and votes purchased for money or incentives have little meaning #soulfamily. Everyone is happy within and without. As above so below. Be the change you want to see!

41. POLITICAL IDEOLOGIES

Following cults of political ideologies, we have forgotten the Sanatan/Eternal ideology of God consciousness. When we look at the journey of the soul and matters in the context of the same we will realise all ideologies other than the spiritual are fading motions.

The ancient cultures were highly advanced in many ways, they were not lost. But the modern spiritually lost society would consider their ancestral history and doctrines outdated compared to the liberal requirements of a modern society. So here are a few examples to jog our memory of many historical stories we discussed thus far.

The modern society is beginning to identify with their pronouns, some believing their genders or even their species is different altogether. Now consider the family of Sage Kashyap whose family consists of the Demigods and Demons and even animals such as the Nagas and birds like Garuda etc. Yet with different ideologies they are one family all different species in reality but they recognize each other for what they are and still consider themselves collectively a family. Is that a Conservative or Liberal view?

Krishna had 16,108 wives each with its own palace and rights and duties. Is that conservative or liberal? Love of the Gopis is considered epitome of loving devotion.

Draupadi had 5 husbands, the mighty Pandavas and heroes of the epic Mahabharata. Understanding the spiritual history of the relationship, of the eternal soul is key to understanding what is Liberal or Conservative.

Kunti bore her sons from various Demigods under the directions of her husband to fulfil the duty of her Dharma and that of her husband. Is that Conservative or Liberal?

Shikhandi the transgender warrior was given a seat to fight amongst the greatest warriors of his time. Considering his situation, calibre and desire he became instrumental in the Victory of the Pandavas. Is that a sign of a backward society or is that sign of an ancient Liberal civilization?

We seem to measure our history from the relative perspective of our own standings and biases. Less from the perspective of true intellect and more from the perspective of the view we wish to follow. If we considered the spiritual and God conscious aspect of the repeating histories, we shall see that what needs to be changed is not what is outside but what is inside.

The rules of a God conscious society are for the benefit of the society because everyone in the society is the child of God and they are on their own journey. Our Varna-ashram Dharma is based on idealistic society, yet it allows for exceptions for individuals not of the society [#soulfamily](#). The strength of the values is not through enforcement of laws but encouragement of love. That which comes from God/Krishna consciousness.

"I am seated in everyone's heart, and from Me come remembrance, knowledge and forgetfulness. By all the Vedas, I am to be known. Indeed, I am the compiler of Vedānta, and I am the knower of the Vedas."- Krishna (Bhagavad Gita 15.15)

42. MEANING OF LIFE

Meaning of life

The many paths to light, the paths out of sight
 To hear, to see, to say and be
 The paths of light, testing our right
 To feel, to know, to write and show

Higher than stars and beyond moon and Mars
 To think, to realise, to form and personalise
 Many rays and pokes like a wheels spokes
 To behold, to verbalise, to chant and crystalise

The source of light, is the clarity of sight
 To learn, to pray, to offer and say
 The one creator, destroyer and maintainer
 To worship, to relate, to hope and never separate

The loving mentality that is The personality
 To grow, to love, to realise here and above
 Within and without and in every sprout
 To live, to spread, to care and never dread
 To father, to friend, to beginning and till the end

The forms and forms that conform to norms
 To time, to place, to conditions and grace
 He comes to feed, rule and lead
 To surrendered, to wakeful, to meek and faithful

Let the doubting doubt and evil shout
 To prey, to indulge, to lust and bulge
 Because winds change and it's not so strange

To obey, to experience, to devote and be

"My dear Lord, I therefore do not wish to have the benediction of merging into Your existence, a benediction in which there is no existence of the nectarean beverage of Your lotus feet..

My dear Lord, You are glorified by the selected verses uttered by great personalities. Such glorification of Your lotus feet is just like saffron particles. When the transcendental vibration from the mouths of great devotees carries the aroma of the saffron dust of Your lotus feet, the forgetful living entity gradually remembers his eternal relationship with You. Devotees thus gradually come to the right conclusion about the value of life. My dear Lord, I therefore do not need any other benediction but the opportunity to hear from the mouth of Your pure devotee." - Prayers by King Prthu (from whom Earth/Gaia derives her name Prithvi), Srimad Bhagvatam 4.20.24-25

43. MATHURA

"Lord Kṛṣṇa desired to see Mathurā, so toward evening He took Lord Balarāma and the cowherd boys with Him and entered the city.

The Lord saw Mathurā, with its tall gates and household entrances made of crystal, its immense archways and main doors of gold, its granaries and other storehouses of copper and brass, and its impregnable moats. Beautifying the city were pleasant gardens and parks. The main intersections were fashioned of gold, and there were mansions with private pleasure gardens, along with guildhalls and many other buildings. Mathurā resounded with the calls of peacocks and pet turtledoves, who sat in the small openings of the lattice windows and on the gem-studded floors, and also on the columned balconies and on the ornate rafters in front of the houses. These balconies and rafters were adorned with vaidūrya stones, diamonds, crystal quartz, sapphires, coral, pearls and emeralds. All the royal avenues and commercial streets were sprinkled with water, as were the side roads and courtyards, and flower garlands, newly grown sprouts, parched grains and rice had been scattered about everywhere. Gracing the houses' doorways were elaborately decorated pots filled with water, which were bedecked with mango leaves, smeared with yogurt and sandalwood paste, and encircled by flower petals and ribbons. Near the pots were flags, rows of lamps, bunches of flowers and the trunks of banana and betel-nut trees."- Srimad Bhagvatam 10.41.19-23

Is it not amazing what I share
Laying not but the histories bare
Long and forgotten the time that past
Riches and values those that last

The present seems a comparative shame
Yet we are proud all the same
No colours, no smells and no grand decorations
Dumbed, drowned in collective separations

What we want is not what we need
Endless tastes or a stomach to feed
A bit to do, some to aspire and then to share
Most of all some time to care

No neighbourhoods now and little joy
Festivals numbered go flying by
Oh what it was when Krishna/God was here
Love and laughter a daily affair

Can the time was come to be
Repeating histories for us to see
Dance and song and a festive meal
Holy names and a merry feel

We need no laws to celebrate
Common [#soulfamily](#) let's calibrate
Joy from within that spreads out
With a little smile and a loving shout

Holy names to chant and sing

Of many wonders and worlds that be
Look to change from within

44. SPECIAL FAVOUR

"Because You are the well-wishing friends and Supreme Soul of the whole universe, You regard all with unbiased vision. Therefore, although You reciprocate Your devotees' loving worship, You always remain equally disposed toward all living beings.

Please order me, Your servant, to do whatever You wish. To be engaged by You in some service is certainly a great blessing for anyone."- Srimad Bhagvatam 10.41.47-48

Not all the missions of God are equal
Some devotees appear once and some have a sequel
It's a fallacy to say that devotion is just joy
For the devotees feel much pain and they cry

If the history is understood, did the closest not suffer?
The heaviest of the burdens available on offer
Are those not the stories that inspire
Troubles all around the chaos and fire

Yet the Pandavas survived and then fought
The awarder of all liberation had them caught
All might and power burned to ashes
The pride is lost and all glory crashes

And the Victory is for everyone to behold
The grandest stories ever told
There were heroes who had lost it all
And then they heard the Lord's call

The path to surrender is through pain
No guts no glory, no pain no gain
And when all is lost and even the remaining few
Then alone we light the lamp anew

Time is all powerful none comes close
But love alone is that powerful dose
For strength to drive oneself up that hill
And knowledge to understand the greater will

All anchors lost and boat is adrift
No great ship ever crossed the rift
The wind was never ours to own
It's the kindness that we have been shown

The storm is to appreciate the calm
The correction to understand the harm
In favour we lose our trust and gratitude
And gain arrogance, pride and attitude

The sun is great but rain is needed
So that new is born and change is seeded
From the night the day is born
The rays of light blowing their horn

Oh how parents wish for their child
All adventures, fun and journeys wild
For experience is the greatest teacher
Rise and fall makes one a preacher

Love wins all and all have a price
God is not won by throw of a dice

45. FRUITS OF ACTION

Everything we consume has associated effects/fruits/results. As packets of consumables come with ingredients and nutritional information. The food and results stay in the body for a while and create benefit of harm. Nothing just disappears after passing the tongue.

Karmic actions also have reactions that is acquired from excess consumption. It shows on a different scale of observation and can be stickier on the non-physical body.

We keep holding on to these merits/sins for a while and burn/release them slowly too. The association may not be easily visible or understood but it is evident that some rules are at play that are out of our control.

"The devotees of the Lord are released from all kinds of sins because they eat food which is offered first for sacrifice. Others, who prepare food for personal sense enjoyment, verily eat only sin."- Krishna (Bhagvad Gita 3.13)

Each body has its own food it likes to consume. Lions differ from cows who differ from birds of various kinds. So the power of consumption is not validation of power of creation. Animals don't feel they are suffering relatively. It is the reality that has been accepted! Based on karma every BODY has attachments that provide necessary associations on material platform, in this or prior lives. If for the sake of food, family and friends or just for the favour of it; we do desire and consume a lot.

"Therefore, O Arjuna, best of the Bharatas, in the very beginning curb this great symbol of sin [lust] by regulating the senses, and slay this destroyer of knowledge and self-realization.

The working senses are superior to dull matter; mind is higher than the senses; intelligence is still higher than the mind; and he [the soul] is even higher than the intelligence.

Thus knowing oneself to be transcendental to material senses, mind and intelligence, one should control the lower self by the higher self and thus—by spiritual strength—conquer this insatiable enemy known as lust."- Krishna (Bhagavad Gita 3.41-43)

Satisfaction of any sense, associated with a particular body is an action in mode of passion or Ignorance.

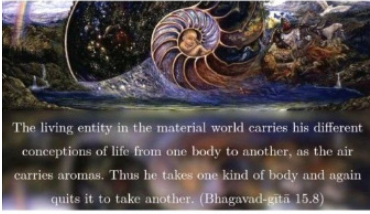

"The mode of passion is born of unlimited desires and longings, O son of Kunti, and because of this one is bound to material fruitive activities.

O son of Bharata, the mode of ignorance causes the delusion of all living entities. The result of this mode is madness, indolence and sleep, which bind the conditioned soul."- Krishna (Bhagavad Gita 14.7-8)

If for a moment we were to disassociate ourselves from bodily platform then what would our identity be [#soulfamily](#)? The soul or the spiritual identity has its own food, friends and family that are not on material platform. To avoid carrying sticky material karmic loads over lifetimes develop Spiritual attachments.

"As a fire burns dry grass to ashes, so the holy name of the Lord, whether chanted knowingly or unknowingly, burns to ashes, without fail, all the reactions of one's sinful activities." - Srimad Bhagvatam 6.2.18

Waking up #Soulfamily

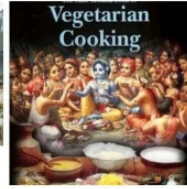

The soul already has a spiritual body, which material body covers. My material body grows upon me---my spiritual body---but my material body is unnatural. The real body is spiritual. 46. LAYERS OF PROTECTION

Following the previous discussion, it is important to understand that every Body is inclined to follow its Dharma. The Dharma of lower beings is restricted to self-preservation whereas that of higher beings may encompass the preservation of their surroundings and those entrusted to their care. These may include family, country, planet etc. It is part of the extended territory of responsibility for higher consciousness #soulfamily.

The more mature the civilization the more is expected from its leaders and beings of higher consciousness- it comes with the territory. With great power comes great responsibility! Based on each one's attributes they choose their Varna or occupation of service. The intellectual, Warrior or a businessman etc.

"It is better to engage in one's own occupation, even though one may perform it imperfectly, than to accept another's occupation and perform it perfectly. Prescribed duties, according to one's nature, are never affected by sinful reactions."- Krishna (Bhagavad Gita 18.47)

Some adverse action in discharge of occupation is inevitable no matter what occupation. The process of maintenance is one of balance and achieving harmony and peace. The strategies vary depending on the territory we occupy or manage. The Bhagavad Gita is Krishna's instructions in favour of discharge of such righteous action on the battlefield of Kurukshetra.

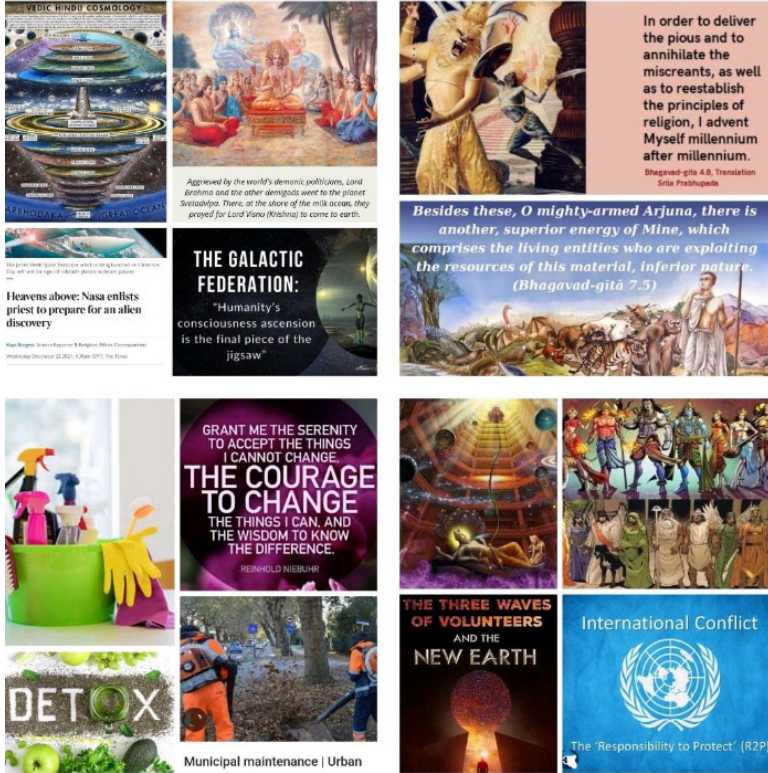

As we ascend into higher consciousness territory, we are likely to encounter more mature civilizations. The Dharma of these beings gives them charge of greater territories like planets, their ecosystems or the even planetary systems. Only as the last resort does Krishna/God incarnate himself.

Otherwise, he may designate such responsibility of maintenance management to the demigods such as Indra, Manu, Brahma and Siva based on their level of authority and mode of nature. In such cases it would be their responsibility to get their house in Order.

"..Superior to animals are human beings, and superior to human beings are ghosts because they have no material bodies. Superior to ghosts are the Gandharvas, and superior to them are the Siddhas. Superior to the Siddhas are the Kinnaras, and superior to them are the asuras(Demons). Superior to the asuras are the demigods, and of the demigods, Indra, the King of heaven, is supreme. Superior to Indra are the direct sons of Lord Brahmā, sons like King Dakṣa, and supreme among Brahmā's sons is Lord Śiva.." - Srimad Bhagvatam 5.5.21-22

The path of maturity is through love and the raising our consciousness. It is inclusive and accepting of Unity in Diversity of physicality and consciousness and it comes through God consciousness and not being envious.

"One who is not in transcendental consciousness can have neither a controlled mind nor steady intelligence, without which there is no possibility of peace. And how can there be any happiness without peace?"- Krishna (Bhagavad Gita 2.66)

47. JUSTICE

Continuing...Even the most fortunate Demigods err and thus fall to mortal worlds for their benefit [#soulfamily](#). To experience

"Seeing the two sons of the demigods naked and intoxicated by opulence and false prestige, Devarṣi Nārada, in order to show them special mercy, desired to give them a special curse. Thus he spoke as follows.

Nārada Muni said: Among all the attractions of material enjoyment, the attraction of riches bewilders one's intelligence more than having beautiful bodily features, taking birth in an aristocratic family, and being learned. When one is uneducated but falsely puffed up by wealth, the result is that one engages his wealth in enjoying wine, women and gambling.

Unable to control their senses, rascals who are falsely proud of their riches or their birth in aristocratic families are so cruel that to maintain their perishable bodies, which they think will never grow old or die, they kill poor animals without mercy. Sometimes they kill animals merely to enjoy an excursion.

While living one may be proud of one's body, thinking oneself a very big man, minister, president or even demigod, but whatever one may be, after death this body will turn either into worms, into stool or into ashes. If one kills poor animals to satisfy the temporary whims of this body, one does not know that he will suffer in his next birth, for such a sinful miscreant must go to hell and suffer the results of his actions.

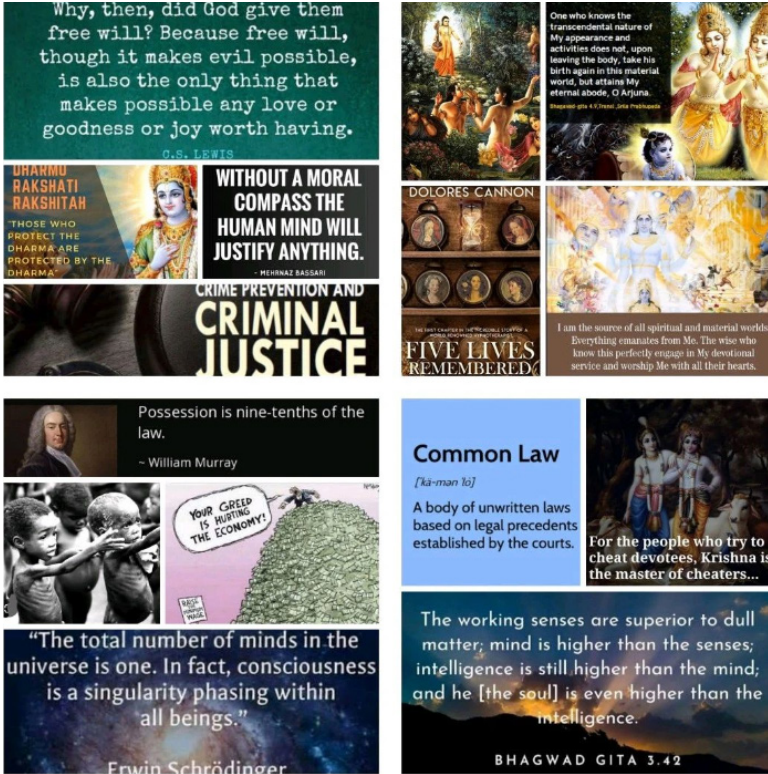

While alive, does this body belong to its employer, to the self, to the father, the mother, or the mother's father?

Does it belong to the person who takes it away by force, to the slave master who purchases it, or to the sons who burn it in the fire? Or, if the body is not burned, does it belong to the dogs that eat it? Among the many possible claimants, who is the rightful claimant? Not to ascertain this but instead to maintain the body by sinful activities is not good.

This body, after all, is produced by the unmanifested nature and again annihilated and merged in the natural elements. Therefore, it is the common property of everyone. Under the circumstances, who but a rascal claims this property as his own and while maintaining it commits such sinful activities as killing animals just to satisfy his whims? Unless one is a rascal, one cannot commit such sinful activities.

Atheistic fools and rascals who are very much proud of wealth fail to see things as they are. Therefore, returning them to poverty is the proper ointment for their eyes so they may see things as they are. At least a poverty-stricken man can realize how painful poverty is, and therefore he will not want others to be in a painful condition like his own.

By seeing their faces, one whose body has been pricked by pins can understand the pain of others who are pinpricked. Realizing that this pain is the same for everyone, he does not want others to suffer in this way. But one who has never been pricked by pins cannot understand this pain."- Srimad Bhagvatam 10.10.7-14

48. THE HIGHER PATH

The stairs that take us down a path can also be used to go up the path to a higher level. Often as God-fearing or perhaps karma fearing we seem to pay attention to the negative. But God-Loving is the view of the up-side [#soulfamily](#). For those on path of karma of devotion even sky is not the limit. We have discussed many stories in this regard. The story of King Dhruva is one where even though he was the grandson of the creator Brahma the limit to his imagination was limited by his desire and experience. Yet, Krishna granted him his desire and also the desires he was not even able to Conceive- the Rulership of the Polestar. Hence, all laws are secondary to law of Devotion and Love reciprocated!

Krishna is Supreme Personality of Godhead and is most generous. But we like to be creators of our reality so he let's us use our imagination which is limited and bound to our knowledge and senses. Like a beggar asking a king based on his capacity to ask. What is we left it to God/Krishna who is most generous. What is his capacity to give? What would he hold back? Maybe nothing.

"The demigods said: ...

Free from all material conceptions of existence and never wonder-struck by anything, the Lord is always jubilant and fully satisfied by His own spiritual perfection. He has no material designations, and therefore He is steady and unattached. That Supreme Personality of Godhead is the only shelter of everyone. Anyone desiring to be protected by others is certainly a great fool who desires to cross the sea by holding the tail of a dog.

The Manu named King Satyavrata formerly saved himself by tying the small boat of the entire world to the horn of the Matsya avatāra, the fish incarnation. By the grace of the Matsya avatāra, Manu saved himself from the great danger of the flood. May that same fish incarnation save us from the great and fearful danger caused by the son of Tvaṣṭā...

The Supreme Personality of Godhead, who created us by His external potency and by whose mercy we expand the creation of the universe, is always situated before us as the Supersoul, but we cannot see His form. We are unable to see Him because all of us think that we are separate and independent gods...

Śrī Śukadeva Gosvāmī said: My dear King, when all the demigods offered Him their prayers, the Supreme Personality of Godhead, Lord Hari, carrying His weapons, the conchshell, disc and club, appeared first within their hearts and then before them.

Surrounding and serving the Supreme Personality of Godhead, Nārāyaṇa, were sixteen personal attendants, decorated with ornaments and appearing EXACTLY LIKE HIM but without the mark of Śrīvatsa and the Kaustubha jewel. O King, when all the demigods saw the Supreme Lord in that posture, smiling with eyes like the petals of lotuses grown in autumn, they were overwhelmed with happiness and immediately fell down like rods, offering daṇḍavats. Then they slowly rose and pleased the Lord by offering Him prayers."- Srimad Bhagvatam 6.9.21-30

Real self realization means to understand that you are the eternal servant of the Supreme Personality of Godhead, and perfection is to develop love or bhakti, loving service in relationship with that Supreme Personality of Godhead.

Maharaj Dhruva says, "I had been searching out some pieces of broken glass, but instead I have found the most valuable jewel. I am therefore fully satisfied, my Lord. I do not wish to ask anything more from Your Lordship"

"My dear Dhruva, I shall award you the glowing planet known as the polestar, which will continue to exist even after the dissolution at the end of the millennium. No one has ever ruled this planet, which is surrounded by all the solar systems, planets and stars. All the luminaries in the sky circumambulate this planet, just as bulls tread around a central pole for the purpose of crushing grains. Keeping the polestar to their right, all the stars inhabited by the great sages like Dharma, Agni, Kaśyapa and Śukra circumambulate this planet, which continues to exist even after the dissolution of all others." - Lord Vishnu (Srimad Bhagvatam)

Text 17: Although the performer of fruitive activities desires perpetual happiness, it is clearly observed that materialistic workers are often unhappy and only occasionally satisfied, thus proving that they are not independent or in control of their destiny. When a person is always under the superior control of another, how can he expect any valuable results from his own fruitive actions?

Text 18: It is observed within the material world that sometimes even an intelligent person is not happy.

49. MATERIAL VS SPIRITUAL

The difference between material love and spiritual love is that the spiritual love passes through the gates of detachment. The material by its nature is caught in the nets and one begins to think of their own pleasures and what they can derive from it. Similar, is the distinction of karma and karma-Yoga. An action done for one's own senses for due reward is karma and one done without any desire of reward becomes liberating and hence Karma-yoga.

"You have a right to perform your prescribed duty, but you are not entitled to the fruits of action. Never consider yourself the cause of the results of your activities, and never be attached to not doing your duty.

Perform your duty equipoised, O Arjuna, abandoning all attachment to success or failure. Such equanimity is called yoga."- Krishna (Bhagavad Gita 2.47-48)

Sometimes tied to our fulfilment of our senses or to those of our wider community there is always a sense of bias that is Material goals. Because Spiritual means to connect with creator of spiritual source or God/Krishna. It should not matter if one is of particular human race or religion, Demigod or Demons etc. Spiritual is beyond competition and ego.

"One who is free from illusion, false prestige, and false association, who understands the eternal, who is done with material lust and is freed from the duality of happiness and distress, and who knows how to surrender unto the Supreme Person, attains to that eternal kingdom." - Krishna (Bhagavad Gita 15.5)

The parents unconditional love is for all children ,and its their right and duty to reward and punish for their child's benefit. Those who disown their parents lose their favour, even though the parents love them. Those who love and recognise the authority of the parent become dear to the parent naturally.

"I envy no one, nor am I partial to anyone. I am equal to all. But whoever renders service unto Me in devotion is a friend, is in Me, and I am also a friend to him."- Krishna (Bhagavad Gita 9.29)

All different religions should thus churn their scriptures and the common theme/cream of working in Unity consciousness should float to the Top. Krishna/Vishnu recognizes dear ones from all categories of creations too [#soulfamily](#)- The Demigods, Demons, Sages and Humans. Can you recognize the names and races?

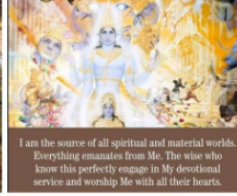

"Lord Brahmā, Bhagavān Nārada, Lord Śiva, the four Kumāras, Lord Kapila [the son of Devahūti], Svāyambhuva Manu, Prahlāda Mahārāja, Janaka Mahārāja, Grandfather Bhīṣma, Bali Mahārāja, Śukadeva Gosvāmī and I myself know the real religious principle. My dear servants, this transcendental religious principle, which is known as bhāgavata-dharma, or surrender unto the Supreme Lord and love for Him, is uncontaminated by the material modes of nature. It is very confidential and difficult for ordinary human beings to understand, but if by chance one fortunately understands it, he is immediately liberated, and thus he returns home, back to Godhead."- Yamarāja, Srimad Bhagvatam 6.3.20-21

50. HISTORY REPEATED

We discussed how the Bhavishya puran (Future history) recorded some 5000 years ago mentioned the coming of Adam and Eve. The Eastern cultures are ancient, and their history is said to go many 1000s of years at least. This is validated by the structures that are still present on the form of temples or pyramids. Yet we seem to follow a time reset at a base of 2000 years ago based on new religions, new powers and new history. Further still the time recording is modified, and we don't seem to understand why. But most of all we don't seem to care. We are too busy running for individual material gains. Gathering assets like there is no tomorrow.

"As the earth thus becomes crowded with a corrupt population, whoever among any of the social classes shows himself to be the strongest will gain political power."- Srimad Bhagvatam 12.2.7

The ancient cultures are gone and so is natural remedies and treatments and all that is spiritual. It is the nature of time that seems to set the stage of creation and destruction of each civilization that has the limelight for a while until the torch is based on to the next bearer, Be it religion of or race of culture. Even Krishna plays along to show external change does not mean any difference on the inside. We are all sons and daughters of Krishna.

"Your son Kṛṣṇa appears as an incarnation in every millennium. In the past, He assumed three different colors—white, red and yellow—and now He has appeared in a blackish color. [In another Dvāpara-yuga, He appeared (as Lord Rāmacandra) in the color of śuka, a parrot.] All such incarnations have now assembled in Kṛṣṇa."- Srimad Bhagvatam 10.8.13

As the Lord changes his numerous forms for various objectives similarly the path of spiritual ascension is different in each culture. There is Time and Place for everything understanding the nature of consciousness of the individual and collective. Time and space is repeating, relative based on realms of existence as discussed many times.

"In the beginning, in Satya-yuga, there is only one social class, called haṁsa, to which all human beings belong. In that age all people are unalloyed devotees of the Lord from birth, and thus learned scholars call this first age Kṛta-yuga, or the age in which all religious duties are perfectly fulfilled."- Srimad Bhagvatam 11.17.10

So no matter what culture we believe as long as we are on Kali-yuga Holy names are important and Satya yuga doesn't manifest individually or collectively until we become devotees. The Time now is one of great change. The holy names of Krishna/God is what will bring us in spiritual unity with everyone. To write new history together everyone has to play their part and be awakened to God/Krishna consciousness.

"My dear King, although Kali-yuga is an ocean of faults, there is still one good quality about this age: Simply by chanting the Hare Kṛṣṇa mahā-mantra, one can become free from material bondage and be promoted to the transcendental kingdom."- Srimad Bhagvatam 12.3.51

51. AWAKENING AND RESET OF MIND

An important topic we have discussed many times and something that becomes more relevant with ascending global consciousness is the need for God consciousness and service to others. The rising forces take a certain path that goes up through the Mind.

"The working senses are superior to dull matter; mind is higher than the senses; intelligence is still higher than the mind; and he [the soul] is even higher than the intelligence."- Krishna (Bhagavad Gita 3.42)

The mind as we know is a dangerous tool. It's original purpose is to control the senses not serve them. It gets stronger and good at what it practices. If we have not learnt to practice controlling the mind and using it for Good and God, it's nature will be destructive.

"For him who has conquered the mind, the mind is the best of friends; but for one who has failed to do so, his very mind will be the greatest enemy. "- Krishna (Bhagavad Gita 6.6)

This is imposed to realise in the present context of ascending density of consciousness. We can only be getting better at what we practice and not everyone has been practicing service to others [#soulfamily](#). The repeating patterns of mind only become more and more obvious as they manifest in the open. It is unavoidable and those who have foreseen it try to manage it in different ways.

After all, the rise and fall in consciousness is a cyclical process in the universal cycle of creation and destruction.

This is settled science. The modes of nature are a controlling factor if we have not transcended through God/Krishna consciousness.

"Material nature consists of the three modes-goodness, passion and ignorance. When the living entity comes in contact with nature, he becomes conditioned by these modes.

O sinless one, the mode of goodness, being purer than the others, is illuminating, and it frees one from all sinful reactions. Those situated in that mode develop knowledge, but they become conditioned by the concept of happiness.

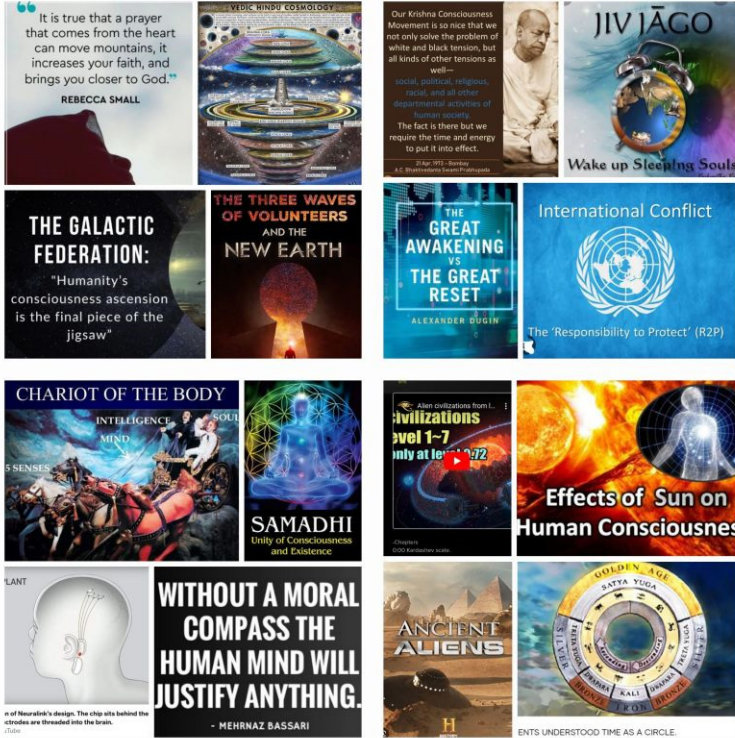

The mode of passion is born of unlimited desires and longings, O son of Kunti, and because of this one is bound to material fruitive activities.

O son of Bharata, the mode of ignorance causes the delusion of all living entities. The result of this mode is madness, indolence and sleep, which bind the conditioned soul.

The mode of goodness conditions one to happiness, passion conditions him to the fruits of action, and ignorance to madness."- Krishna (Bhagavad Gita 14.5-9

The madness in the crazy world around is symptomatic of the directions the world is being pulled into by collectives of various levels of consciousness. Raise your consciousness naturally through meditation on transcendental vibrations and adjust your being into the positive frequency cycle to create a peaceful world.

"One who is not in transcendental consciousness can have neither a controlled mind nor steady intelligence, without which there is no possibility of peace. And how can there be any happiness without peace?"- Krishna (Bhagavad Gita 2.66)

52. THE SPIRITUAL ELEMENT

Spiritual is a different element compared to material element and thus poses a great risk in understanding for people who wish to measure and manage its characteristics in mutually exclusive boxes. The science of Spiritual and God realisation is the reconciliation of all paradoxes.

For anything to be complete in all ways it must be observable from all possible dimensions something that is not possible or conceivable despite our best efforts. In case of Krishna/God, he is one Supreme so everything must reconcile into one. Yet being true from all possible angles of observation he is also many, so he was always eternally manifest as 'all that is', and never just one at a time.

"I am the source of all spiritual and material worlds. Everything emanates from Me. The wise who perfectly know this engage in My devotional service and worship Me with all their hearts."- Krishna (Bhagavad Gita 10.8)

"Never was there a time when I did not exist, nor you, nor all these kings; nor in the future shall any of us cease to be."- Krishna (Bhagavad Gita 2.12)

So God is one and many at the same time for everyone who observes.

"O mighty conqueror of enemies, there is no end to My divine manifestations. What I have spoken to you is but a mere indication of My infinite opulences."- Krishna (Bhagavad Gita 10.40)

He is both within and without everything and everyone. Simultaneously being us and being separate from us. This duality and singularity is inconceivable simultaneous oneness and differentness of spiritual God.

"And I am the basis of the impersonal Brahman, which is the constitutional position of ultimate happiness, and which is immortal, imperishable and eternal."- Krishna (Bhagavad Gita 14.27)

This philosophy applies not just to the space but also of all time i.e past, present and future. Because for God to be all existing and eternal he must be perceivable and perceiver of all time.

"I worship Govinda, the primeval Lord, who is inaccessible to the Vedas, but obtainable by pure unalloyed devotion of the soul, who is without a second, who is not subject to decay, is without a beginning, whose form is endless, who is the beginning, and the eternal puruṣa; yet He is a person possessing the beauty of blooming youth."- Brahma Samhita 5.33

As we begin to ascend in consciousness these questions of spiritual nature can cause great confusion as they appear naturally in our mind questioning our reality. Thus, creating a life crisis. Inability to understand these can play crazy tricks with the mind in the 4th density if we try to use material logic to explain spiritual essence. Hence, our persistent effort over last 3 years. This is why the path to ascension is not to understand the infinite creator but to surrender to him [#soulfamily](#). Practice!

"In this age of quarrel and hypocrisy, the only means of deliverance is the chanting of the holy names of the Lord. There is no other way. There is no other way. There is no other way."- Chaitanya Charitamrta Madhya 6.242

Achintya-Bheda-Abheda is a school of Vedanta representing the philosophy of inconceivable oneness and difference. In Sanskrit achintya means 'inconceivable', bheda translates as 'difference', and abheda translates as 'non-difference'.

When you see only one set of footprints, it was then that I carried you.

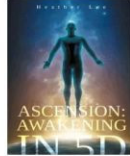

"I realized that every moment in all our lives - past, present, future, known, unknown, and unknowable - exist simultaneously, as though outside of what we know as time. I became aware that I already was everything I was trying to attain, and I believe that's true for everyone. All things that we perceive as positive, negative, good, or bad are simply parts of the perfect, balanced Whole."
-ANITA MOORJANI

53. LEVELS OF PHYSICAL CREATIONS

We discussed the creations of the Supreme Personality of Godhead. Then in each Universe Brahma is appointed at he creates for the pleasure of the Lord.

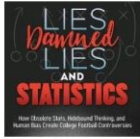

"Now hear from me about the creations by Brahmā, who is an incarnation of the mode of passion and who, in the matter of creation, has a brain like that of the Personality of Godhead. The seventh creation is that of the immovable entities,..the fruit trees without flowers, trees and plants.. They are almost unconscious but have feelings of pain within...The eighth creation is that of the lower species of life, and they are of different varieties..They know their desirables by smell..of the lower animals the cow, goat, buffalo etc. all have cloven hooves. The horse, mule, ass,..all have only one hoof. The dog, jackal, tiger, fox, cat, etc., all have five nails in their claws. The.. and others are the birds. The creation of the human beings, who are of one species.., is the ninth in the rotation. In the human race, the mode of passion is very prominent. Humans are always busy in the midst of miserable life, but they think themselves happy in all respects.

O good Vidura, these last three creations and the creation of demigods (the tenth creation) are vaikṛta creations, which are different from the previously described prakṛta (natural) creations. The creation of the demigods is of eight varieties: (1) the demigods, (2) the forefathers, (3) the asuras, or demons, (4) the Gandharvas and Apsarās, or angels, (5) the Yakṣas and Rākṣasas, (6) the Siddhas, Cāraṇas and Vidyādharas, (7) the Bhūtas, Pretas and Piśācas, and (8) the superhuman beings, celestial singers, etc. All are created by Brahmā.."-Srimad Bhagavatam 3.10.11-30

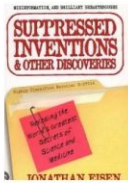

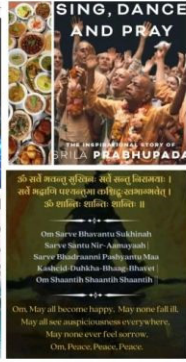

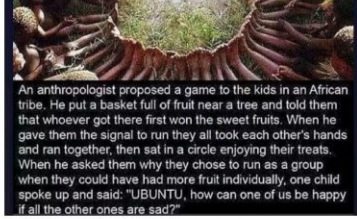

Now each of these beings within their capacity have abilities to create as well. As humans individuals and a collective we enjoy creating too. Is what we are creating daily adding value to our lives or that of others or is it hurting others and our surroundings?

By our Vibrational of thoughts and actions we create positivity or negativity in our reality. Introspection is important and self-realization, self-control and self-correction. Otherwise we become objects for the control of others, just like machines. We limit ourselves by our own definitions and borders, a self imposed jail of concepts that have little meaning for birds. How can the consciousness ascend [#soulfamily](#)?

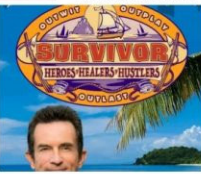

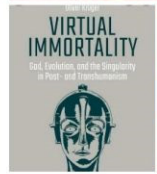

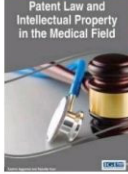

"The demoniac person thinks: "So much wealth do I have today, and I will gain more according to my schemes. So much is mine now, and it will increase in the future, more and more. He is my enemy, and I have killed him; and my other enemy will also be killed. I am the lord of everything, I am the enjoyer, I am perfect, powerful and happy. I am the richest man, surrounded by aristocratic relatives. There is none so powerful and happy as I am. I shall perform sacrifices, I shall give some charity, and thus I shall rejoice." In this way, such persons are deluded by ignorance."- Krishna (Bhagvad Gita 16.13-17)

54. DESTROYING DARKNESS

How long does it take to destroy darkness that has permeated for eons? Just one second! As soon as a lamp is turned on or candle lit the darkness vanishes immediately [#soulfamily](#).

"Even the intelligent are bewildered in determining what is action and what is inaction. Now I shall explain to you what action is, knowing which you shall be liberated from all misfortune.

The intricacies of action are very hard to understand. Therefore, one should know properly what action is, what forbidden action is and what inaction is.

One who sees inaction in action and action in inaction is intelligent among men, and he is in the transcendental position, although engaged in all sorts of activities

One is understood to be in full knowledge whose every endeavour is devoid of desire for sense gratification. He is said by sages to be a worker for whom the reactions of work have been burned up by the fire of perfect knowledge.

Abandoning all attachment to the results of his activities, ever satisfied and independent, he performs no fruitive action, although engaged in all kinds of undertakings." - Krishna (Bhagvad Gita 4.16-18)

Work is not to be abandoned, rather attachment is to be abandoned. The attachments are the bonds that are binding.

"Whatever you do, whatever you eat, whatever you offer or give away, and whatever austerities you perform – do that, O son of Kuntī, as an offering to Me.

In this way you will be freed from bondage to work and its auspicious and inauspicious results. With your mind fixed on Me in this principle of renunciation, you will be liberated and come to Me.

I envy no one, nor am I partial to anyone. I am equal to all. But whoever renders service unto Me in devotion is a friend, is in Me, and I am also a friend to him.

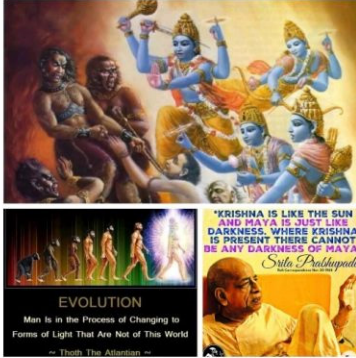

Even if one commits the most abominable action, if he is engaged in devotional service he is to be considered saintly because he is properly situated in his determination.

He quickly becomes righteous and attains lasting peace. O son of Kuntī, declare it boldly that My devotee never perishes."- Krishna (Bhagavad Gita 9.27-31)

As discussed, many times the Material and Spiritual are not on the same platform. The higher truth encompasses all lower ones as illustrated in story of Ajāmila.

"Ajāmila has already atoned for all his sinful actions. Indeed, he has atoned not only for sins performed in one life but for those performed in millions of lives, for in a helpless condition he chanted the holy name of Nārāyaṇa. Even though he did not chant purely, he chanted without offense, and therefore he is now pure and eligible for liberation.

The Viṣṇudūtas continued: Even previously, while eating and at other times, this Ajāmila would call his son, saying, "My dear Nārāyaṇa, please come here." Although calling the name of his son, he nevertheless uttered the four syllables nā-rā-ya-ṇa. Simply by chanting the name of Nārāyaṇa in this way, he sufficiently atoned for the sinful reactions of millions of lives."- Srimad Bhagvatam 6.2.7-8)

After attaining Me, the great souls, who are yogis in devotion, never return to this temporary world, which is full of miseries, because they have attained the highest perfection. (Bhagavad-gītā 8.15)

Those who progress in Krishna consciousness in the higher planets are gradually elevated to higher and higher planets and at the time of universal devastation are transferred to the eternal spiritual kingdom.

Whatever result was obtained in Satya-yuga by meditating on Viṣṇu, in Tretā-yuga by performing sacrifices, and in Dvāpara-yuga by serving the Lord's lotus feet can be obtained in Kali-yuga simply by chanting the Hare Kṛṣṇa mahā-mantra.

If there is some earthquake or there is some danger, naturally, spontaneously, we pray. But we forget it. The tendency of offering prayer to the Lord at the time of danger is automatic. So we should know that we are in danger. We are in this material condition of life means we are in danger. Therefore we should pray.

Fact Of Life

If everyone is happy with you, then surely you have made many compromises in your life. And if you are happy with everyone then surely you have ignored many faults of others.

Darkness cannot drive out darkness; only light can do that. Hate cannot drive out hate; only love can do that.

Martin Luther King, Jr.

This chanting of the Hare Krishna mantra is enacted from the spiritual platform and thus this sound vibration surpasses all lower strata of consciousness - namely sensual, mental and intellectual.

— H. C. Bhaktivedanta Swami Prabhupada —

A man engaged in devotional service rids himself of both good and bad reactions even in this life. Therefore strive for yoga, which is the art of all work. (Bhagavad-gītā 2.50)

All material changes in our everyday life are small in comparison with those in our spiritual life.

(Leo Tolstoy)

55. SIMPLE FOLK

Simplicity is a virtue but somehow in the materialistic world it can be have negative connotations.

For those who are on the lower strata of needs and related assets are often termed simple folk or peasants. As one seems to climb higher on the hierarchy of material needs they seem to feel more sophisticated and everybody else materially less advantaged seem 'simple folk'.

The ego filled needs drive ambition to be the best, the highest and the most powerful and perhaps for fulfilment of the ego they seem to engage in philanthropic activities, because they can. Materially advantages they feel that being on top of the triangle they are now in position to give, so they distribute what they have gathered - Material wealth or knowledge.

Then there are those to whom this hierarchy of needs is not a concern. They have renounced it all to bypass these for spiritual aspirations and goals. Their needs don't rely on feeding the stomach or the ego. They have seen the light and they are not in the race anymore. The Matrix has lost its attraction. For them the race is for the 'simple folk' who seem to derive some pleasure from chewing the gum that has run out of sweetness.

"Prahāda Mahārāja replied: Because of their uncontrolled senses, persons too addicted to materialistic life make progress toward hellish conditions and repeatedly chew that which has already been chewed. Their inclinations toward Kṛṣṇa are never aroused, either by the instructions of others, by their own efforts, or by a combination of both."- Srimad Bhagvatam 7.5.30

As they see the higher goal, some just step aside not to disturb the ones who are fighting to get to the top. Some try to help as best as they can to awaken the simple folk that still sleep to the eternal spiritual evolution.

"As the ignorant perform their duties with attachment to results, similarly the learned may also act, but without attachment, for the sake of leading people on the right path.

Let not the wise disrupt the minds of the ignorant who are attached to fruitive action. They should not be encouraged to refrain from work, but to engage in work in the spirit of devotion.

The bewildered spirit soul, under the influence of the three modes of material nature, thinks himself to be the doer of activities, which are in actuality carried out by nature."- Krishna (Bhagavad Gita 3.25-27)

Knowledge is power and true knowledge is one that is absolute and eternal or Santan. That which contributes to spiritual growth [#soulfamily](#) because material growth concludes with matter that is temporary and recycled into many forms, each with their own hierarchy of needs.

The Science of SELF-REALIZATION

A.C. Bhaktivedanta Swami Prabhupada

The living entity in the material world carries his different conceptions of life from one body to another, as the air carries aromas. Thus he takes one kind of body and again quits it to take another. (Bhagavad-gita 15.8)

56. GULAN KHAN

Continuing from previous posts I was directed to an interesting story. Everyone wants to see evidence of spiritual evolution but not everyone is qualified to see in real time. Yet the evidences are scattered all over the world.

In Barsana there is a place called Piri Pokhar. As we walk from Piri Pokhar to Prem Sarovar, we see a small and old platform in the adjoining forest. The platform is called Gulab Sakhi-kachabutra. Even today people bow down to it as they pass by.

Gulab Sakhi was a poor Muslim who lived in Barsana, the abode of Radharani, since his birth. Since childhood he had been a devotee of Sri Radha. He was poor and illiterate but a good sarangi player and played regularly at the temple of Radha rani. He had a daughter that was seven or eight years old, whose was also named Radha. She danced while he played sarangi.

Devotional service had been his only need and asset for decades. So, when his daughter came of age the people of Barsana decided to raise money for her marriage. Radha was married. She went with her husband and Gulab was left all alone in the world.

He not only lost his cheerfulness, but also his sleep and appetite. For three days and nights he sat at the door of Radharani's temple. In the mood of separation, he wept constantly and cried "Radha! Radha!".

They say one night as he was lay at the temple entrance, he heard the voice of his daughter. "Baba! I have come. Will you play sarangi so I can dance?" The young girl captivated his heart and mind and reminded him of his daughter.

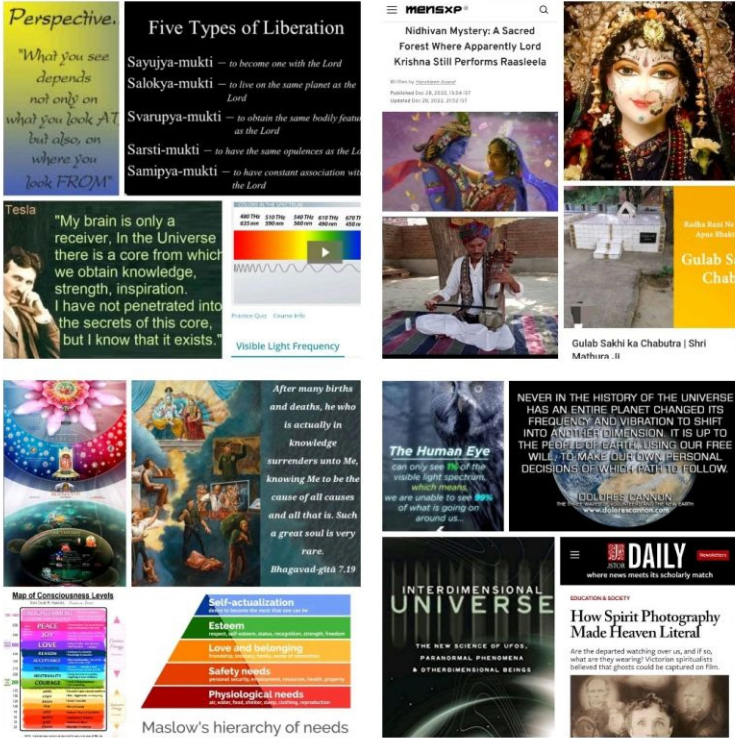

His heart full of affection, he followed her and then disappeared.

Everyone searched for him for days, some thought that perhaps out of separation he went mad or died. In his memory they constructed a chabutra/memorium close to the temple.

One day, when a Goswami/temple priest while returning home heard someone calling him from behind. He turned around and to his shock found a cheerful version of the late Gulam Khan.

The priest informed the khan that he was assumed dead and they built a memoriam for him. Gulab then told him his side of the story. He told him that Radha rani had him as her sakhi/friend. And that he played Sarangi for Her every night. He had just the been playing sarangi for Her as She lay down to sleep. To prove it he showed the prasadi paan (Betelnut sweet) that the priest had offered to the deities before closing the temple for the night. From that time on, Gulab became known as Gulab Sakhi.

There are many such inspirational histories that have left mark of evidence in the lore and many happen on a daily basis. The saints are reticent to reveal the confidential interactions. Some believe and some do not, each to their own. The rare epitomes of loving exchanges are invisible to those who are looking from lower consciousness through materialistic lenses [#soulfamily](#). Yet they exist like all time and dimensions that linger outside of our basic preview, giving rare insights of what has been and what can be.

57. MATURITY LEVELS

" A devotee should not see anything as being separate from the Supreme Personality of Godhead, Kṛṣṇa. Ether, fire, air, water, earth, the sun and other luminaries, all living beings, the directions, trees and other plants, the rivers and oceans — whatever a devotee experiences he should consider to be an expansion of Kṛṣṇa. Thus, seeing everything that exists within creation as the body of the Supreme Lord, Hari, the devotee should offer his sincere respects to the entire expansion of the Lord's body."- Srimad Bhagvatam 11.2.41

We have discussed much on Matter and Spiritual. Matter for most part is dense and increased density means increased darkness. Sometimes we talk about Dark matter and Black holes etc. It is stationary or very hard to move. Light is light and for the purpose of comparison let's compare Spiritual to light. Light can move anywhere very quickly, it is not dense and it can hold all types of information that we see on our phones or screens etc.

Now we can only perceive a certain density of reality based on our vision [#soulfamily](#). Light has many frequencies. Each frequency segment comes with its own restrictions of consciousness. If we are able to only perceive 1% then there may be beings who can perceive more, or those whose vision is restricted to another 1% in another segment of bandwidth. Just like internet bandwidth can be restricted by different Telecom retailers through passwords or ISP connections etc. There is a growing field of quantum and cybersecurity experts all over the world. Who manage risks of filters for organizations.

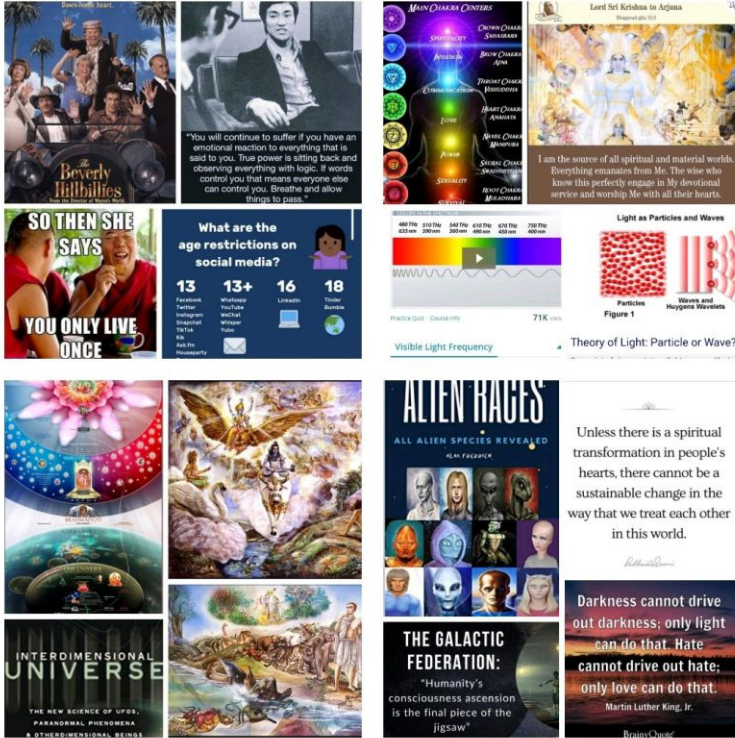

What we have to understand is that these many realities are merging and separating based in our perceptions and our abilities to navigate the field of consciousness that contains the entire bandwidth of light/frequencies. We can be exposed or restricted in the content we can view based on the reality we are buying into. Something like what you may be observing on the internet already. The higher consciousness beings may struggle to associate or reason with those that are not on same platform.

There are broader levels to this analogy. We can observe a variety of beings around us already some live in hot and some in cold regions, some in the air and some on land and some in water. The universe is teeming with life we are just unable to observe them because of natural borders. Habitats are based on physical and mental consciousness.

There are also higher levels to this analogy. Beings that live in dense bodies which are very inflexible like trees and plants and those that have lesser restrictions like animals and humans and there are others who are able to move between light and matter and those that remain in light. Each has their social circles of reality, food or energy source and joys of differing quality of life. The ability to manifest as Particle or Wave or create the realities are dependent on our maturity of consciousness. So manifest Unity in Diversity through God/Krishna consciousness.

58. GRAVITY OF TIME

Speaking about dimensions we often observe time moving slowly under stress and it seems to flyby when no one is focusing on it.

Speed is measured as distance covered over time. Visually we may observe time movement as sand moving in an hour glass or as the sun or stars move in sky. But can speed be affected by increased or decreased gravity? Such that the sand in the hour glass moves slowly or quickly as desired? Taking this to a higher level can the increase or decrease in the gravity affect a planet to alter the Time movements on that planet? Different planets have different space-time movements. We certainly observe the Time moves slowly in space through various experiments. So can this alteration of gravity and respective time dilation be felt on the body clock if we were on different planet or location?

Everything including the Universe is moving or vibrating at all times [#soulfamily](#). What Matters is where we are flowing. The evolved/ mature fruits of structure fall outwards; time flowing differently to the inner circles of growth. The denser materials in the centre and larger but lighter forms as the ratio expands, the code for division in nature itself.

We discussed relativity of Space-Time dimensions of reality that exist simultaneously in different frequencies as described by scriptures and supported by many stories. Does the Vedic cosmos and its structure of the universe perceive current physical 3D reality or a higher dimensional Space-Time? Something that cannot be perceived easily through advanced gadgets rather requires advancement of consciousness. How then do we validate a structure that exists in separate Dimension?

Perhaps this is a matter of Study and Real-isation with a degree of faith in word of God [#soulfamily](#).

Science uses its tools and others who would peek into the field of spirituality and consciousness apply theirs. The scriptures are documented evidences of detailed observations of the past. Something we are Re-searching and Re-remembering to advance our civilizations again. Who knows what new discovery lies at the old junction of ascending and descending cycles of space-time.

"For one who explains this supreme secret to the devotees, pure devotional service is guaranteed, and at the end he will come back to Me.

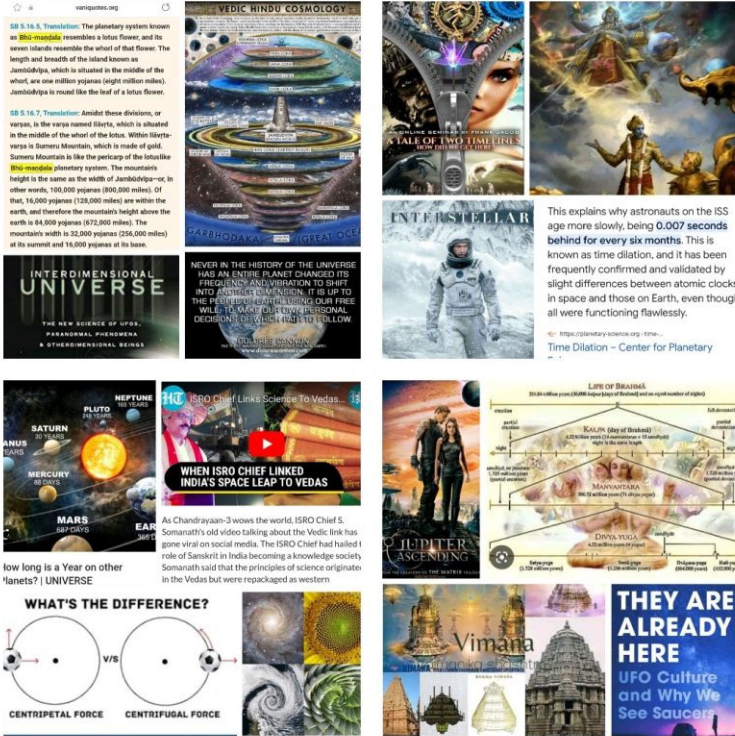

There is no servant in this world more dear to Me than he, nor will there ever be one more dear.

And I declare that he who studies this sacred conversation of ours worships Me by his INTELLIGENCE.

And one who listens with FAITH and without envy becomes free from sinful reactions and attains to the auspicious planets where the pious dwell.

O son of Pṛthā, O conqueror of wealth, have you heard this with an attentive mind? And are your ignorance and illusions now dispelled?

Arjuna said: My dear Kṛṣṇa, O infallible one, my illusion is now gone. I have regained my memory by Your mercy. I am now firm and free from doubt and am prepared to act according to Your instructions."-Krishna (Bhagavad Gita 18.68-73)

59. MASTERS AND GUIDES

Continuing on manifested realities much is made available based on our quests. Everyone seeks different goals and based on their attractions. Their efforts serve to manifest the higher truths into their realities. This can be for the field of Science, Art or Spirituality [#soulfamily](#).

"One who neither hates nor desires the fruits of his activities is known to be always renounced. Such a person, free from all dualities, easily overcomes material bondage and is completely liberated, O mighty-armed Arjuna.

Only the ignorant speak of devotional service [karma-yoga] as being different from the analytical study of the material world [Sāṅkhya]. Those who are actually learned say that he who applies himself well to one of these paths achieves the results of both.

One who knows that the position reached by means of analytical study can also be attained by devotional service, and who therefore sees analytical study and devotional service to be on the same level, sees things as they are.

Merely renouncing all activities yet not engaging in the devotional service of the Lord cannot make one happy. But a thoughtful person engaged in devotional service can achieve the Supreme without delay.

One who works in devotion, who is a pure soul, and who controls his mind and senses is dear to everyone, and everyone is dear to him. Though always working, such a man is never entangled." - Krishna (Bhagavad Gita 5.3-7)

For each branch of knowledge there are Masters who are Devotees. The great sages being first class devotees or Uttam Adhikari possess divine qualities and do not distinguish between the good or bad and see all equally. So they put their information out in the appropriate realities at appropriate times for those endeavoring hard for their goals. This information in the Akashic internet of consciousness is thus sometimes available to one or many at the same time.

"Śrī Havir said: The most advanced devotee sees within everything the soul of all souls, the Supreme Personality of Godhead, Śrī Kṛṣṇa. Consequently he sees everything in relation to the Supreme Lord and understands that everything that exists is eternally situated within the Lord.

An intermediate or second-class devotee, called madhyama-adhikārī, offers his love to the Supreme Personality of Godhead, is a sincere friend to all the devotees of the Lord, shows mercy to ignorant people who are innocent and disregards those who are envious of the Supreme Personality of Godhead. "- Srimad Bhagvatam 11.2.45-46

As the water taken by cow becomes milk and that taken by snake becomes poison. Similarly, those in possession of the information through the lense of their consciousness and vision produce the good or bad results. Their own spiritual qualifications determine what and how they share with whom.

"Those whose minds are distorted by material desires surrender unto demigods and follow the particular rules and regulations of worship according to their own natures."- Krishna (Bhagvad Gita 7.20)

60. MANIFESTING THE GOLDEN AGE

We wish to manifest the golden age or the Satya-yuga. The idealistic unity of all spiritual and scientific knowledge. At all at times the One source is Personal; not Unknown or Impersonal.

In the Satya-yuga, the first millennium, all the Vedic mantras were included in one mantra — praṇava, the root of all Vedic mantras. In other words, the Atharva Veda alone was the source of all Vedic knowledge. The Supreme Personality of Godhead Nārāyaṇa was the only worshipable Deity; there was no recommendation for worship of the demigods. Fire was one only, and the only order of life in Human society was known as haṁsa."- Srimad Bhagvatam 9.14.48

When the one source of 'all that is' is realised then Unity and happiness prevails.

candramā manaso jātaś cakṣoḥ sūryo ajāyata; śrotrādayaś ca prāṇaś ca mukhād agnir ajāyata; nārāyaṇād brahmā, nārāyaṇād rudro jāyate, nārāyaṇāt prajāpatiḥ jāyate, nārāyaṇād indro jāyate, nārāyaṇād aṣṭau vasavo jāyante, nārāyaṇād ekādaśa rudrā jāyante.

“The demigod of the moon, Candra, came from the mind of Nārāyaṇa, and the sun-god came from His eyes. The controlling deities of hearing and the life air came from Nārāyaṇa, and the controlling deity of fire was generated from His mouth. Prajāpati, Lord Brahmā, came from Nārāyaṇa, Indra came from Nārāyaṇa, and the eight Vasus, the eleven expansions of Lord Śiva and the twelve Ādityas also came from Nārāyaṇa.”- Vedas

In Satya-yuga meditation is done on that personal in the form of Narayana. The enlightened population is managed through self mastery. The Lord can be easily recognized by his aura and features and is worshiped in mood of awe and reverence or Aishwarya Bhava.

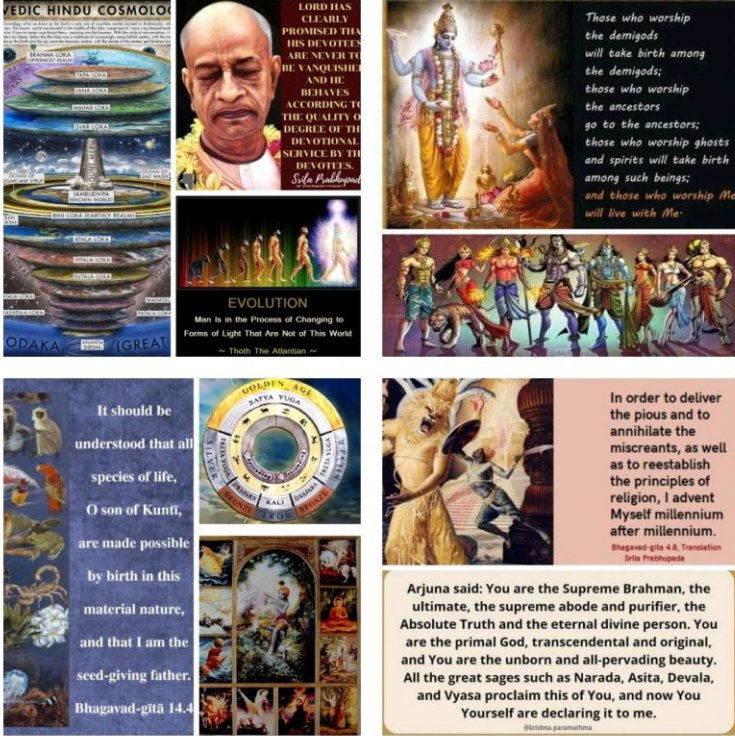

In the following deteriorating Yugas this vision and knowledge gradually fades, and thus the Lord takes the opportunity to incarnate in the human society to enjoy the other mellows of personal loving relationships or Madhurya bhava. In Kali-yuga when the vision is lost completely that all reverence and love is lost, he is non different from his holy name.

"Whatever result was obtained in Satya-yuga by meditating on Viṣṇu, in Tretā-yuga by performing sacrifices, and in Dvāpara-yuga by serving the Lord's lotus feet can be obtained in Kali-yuga simply by chanting the Hare Kṛṣṇa mahā-mantra."- Srimad Bhagvatam 12.3.52

In Kali-yuga the world is reverberating with the holy names of his many incarnations, how true then should the realisations be for age when everyone is enlightened? To not observe a personal feature of the Supreme Personality of Godhead is but a choice of freewill and the Lord reciprocates accordingly.

"For those whose minds are attached to the unmanifested, impersonal feature of the Supreme, advancement is very troublesome. To make progress in that discipline is always difficult for those who are embodied."- Krishna (Bhagavad Gita 12.5)

The natural progression of impersonalism is Atheism and Dharma is lost. Thus Lord Personally comes to re-establish the Sanatan/Eternal Dharma.

61. HAPPY JANMASHTMI 2023

Happy Janmashtmi [#soulfamily](#)

"Śrī Śukadeva Goswami said: O King Parīkṣit, the Supreme Personality of Godhead, Hari, being thus worshiped with prayers by the demigods and Lord Brahmā, appeared before them. His bodily effulgence resembled the simultaneous rising of thousands of suns.

The vision of all the demigods was blocked by the Lord's effulgence. Thus they could see neither the sky, the directions, the land, nor even themselves, what to speak of seeing the Lord, who was present before them.

Lord Brahmā, along with Lord Śiva, saw the crystal-clear personal beauty of the Supreme Personality of Godhead, whose blackish body resembles a marakata gem, whose eyes are reddish like the depths of a lotus, who is dressed with garments that are yellow like molten gold, and whose entire body is attractively decorated. They saw His beautiful, smiling, lotuslike face, crowned by a helmet bedecked with valuable jewels. The Lord has attractive eyebrows, and His cheeks are adorned with earrings. Lord Brahmā and Lord Śiva saw the belt on the Lord's waist, the bangles on His arms, the necklace on His chest, and the ankle bells on His legs. The Lord is bedecked with flower garlands, His neck is decorated with the Kaustubha gem, and He carries with Him the goddess of fortune and His personal weapons, like His disc and club. When Lord Brahmā, along with Lord Śiva and the other demigods, thus saw the form of the Lord, they all immediately fell to the ground, offering their obeisances.

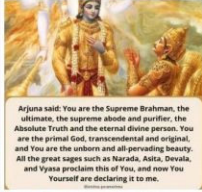

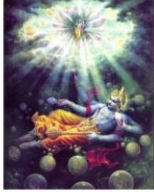

Lord Brahmā said: Although You are never born, Your appearance and disappearance as an incarnation never cease. You are always free from the material qualities, and You are the shelter of transcendental bliss resembling an ocean. Eternally existing in Your transcendental form, You are the supreme subtle of the most extremely subtle. We therefore offer our respectful obeisances unto You, the Supreme, whose existence is inconceivable.

O best of persons, O supreme director, those who actually aspire for supreme good fortune worship this form of Your Lordship according to the Vedic Tantras. My Lord, we can see all the three worlds in You.

O Supreme, You are independent in Your self and do not take help from others. Through Your own potency, You create this cosmic manifestation and enter into it. Those who are advanced in Kṛṣṇa consciousness, who are fully in knowledge of the authoritative śāstra, and who, through the practice of bhakti-yoga, are cleansed of all material contamination, can see with clear minds that although You exist within the transformations of the material qualities, Your presence is untouched by these qualities.

As one can derive fire from wood, milk from the milk bag of the cow, food grains and water from the land, and prosperity in one's livelihood from industrial enterprises, so by the practice of bhakti-yoga, even within this material world, one can achieve Your favor or intelligently approach You. Those who are pious all affirm this."- Srimad Bhagvatam 8.6.1-12

62. TIME TO SURRENDER

Question: we have been here for many lifetimes performing sinful activities. Is it possible to counteract all the sins in one lifetime..or does it require many lifetimes?

Srila Prabhupad: One minute. This is Krishna consciousness movement. You are not reading Bhagvad Gita? What Krishna says?

sarva-dharmān parityajya
mām ekaṁ śaraṇaṁ vraja
ahaṁ tvām sarva-pāpēbhyo
mokṣayiṣyāmi mā śucaḥ
(krishna -Bhagavad Gita 18.66)

You surrender to me. Give up all your business..I will give you relief from all sinful reactions immediately.

So it requires one minute.

"My dear Krishna. I had Forgotten. Now I understand. I fully surrender to you."

Then you become immediately free from all sins.

Without any reservations, without any politics. If you fully surrender, Krishna is reassuring.

ahaṁ tvām sarva-pāpēbhyo
mokṣayiṣyāmi mā śucaḥ

He assures, don't worry whether I will be able to give you relief from all reactions.

mā śucaḥ - Finished. Guaranteed. You do this.

We all understand rights and duties and we all understand responsibilities and accountabilities. Therefore we must understand delegated authority to carry out those duties [#soulfamily](#).

Krishna/God is the Supreme authority and when we realise and understand the Supreme authority there should be no reason for mistrust or disbelief in the word of God. This is the conclusive of all knowledge/Vedas. And we have discussed on many occasions the Supreme spiritual and scientific truths revealed through the Vedic knowledge.

"I am seated in everyone's heart, and from Me come remembrance, knowledge and forgetfulness. By all the Vedas am I to be known; indeed I am the compiler of Vedanta, and I am the knower of the Vedas."- Krishna (Bhagavad Gita 15.15)

The realised Spiritual master is his delegated authority to teach and spread this knowledge for the benefit of all. He is the representative of God himself and is considered more merciful as he appears personally to impart this knowledge.

Guru Govind dou khade, kaake laagoon paye

Balihari guru aapki, Govind diyo milaye."

I first bow to my Guru because he's the one who showed me the path to God.- Sant Kabir

63. NO DUALITIES

The Dualities of life don't actually exist and are a state of mind. The good and evil become perceptions from points of view of space and time. What we perceive is a reflection of state of mind and the divisions we have created with it.

"A rope causes fear for a bewildered person who considers it a snake, but not for a person with proper intelligence who knows it to be only a rope. Similarly, You, as the Supersoul in everyone's heart, inspire fear or fearlessness according to one's intelligence, but in You there is no duality."- 6.9.37

The spiritual realisation is the ascension of consciousness that allows the proper vision. The Duality both exists and does not exist based on the state of realisations. The good and the evil are always in control of the one Supreme. Everything else is but an illusion from the various points of observation. The lessons of Earth school should lead to development of discernment and recognition of what is temporary and what is permanent. For both all Happiness and Grief - come to pass. Neither is permanently state and one is needed for the other to be realised.

"He fixed his mind upon the Supreme Personality of Godhead, Parabrahman, who is beyond cause and effect, who manifests the three modes of material nature, who is beyond those three modes, and who is perceived only through unflinching devotional service.

Thus he gradually became unaffected by the false ego of material identity and became free from material affection. Undisturbed, equal to everyone and without duality, he could indeed see himself also. His mind was turned inward and was perfectly calm, like an ocean unagitated by waves.

He thus became liberated from conditioned life and became self-situated in transcendental devotional service to the Personality of Godhead, Vāsudeva, the omniscient Supersoul within everyone."- Srimad Bhagvatam 3.24.43-45

The various levels of Matrix are controlled by higher levels of creators. For those who cannot evolve to see the unity in diversity and duality, delusion is troublesome. They exist for the sake of opposition and competition.

"O scion of Bharata [Arjuna], O conquerer of the foe, all living entities are born into delusion, overcome by the dualities of desire and hate."- Krishna (Bhagavad Gita 7.27)

Thus the vibrations of divisions both exist and does not exist simultaneously. There are thus many types of borders for those who want them and none for those who do not need them [#soulfamily](#).

"One who is free from illusion, false prestige, and false association, who understands the eternal, who is done with material lust and is freed from the duality of happiness and distress, and who knows how to surrender unto the Supreme Person, attains to that eternal kingdom."- Krishna (Bhagavad Gita 15.5)

Without surrender to the higher authority of God and Spiritual perceptors, these visions are not available. The doors to knowledge can not be forced open by our efforts. The invitation are an act of mercy alone.

"Only unto those great souls who have implicit faith in both the Lord and the spiritual master are all the imports of Vedic knowledge automatically revealed."

64. BUILDING BRIDGES TO MANY WORLDS

"Nārada Muni continued: When the saintly person was thus questioned by Prahāda Mahārāja, the King of the Daityas/Demons, he was captivated by this shower of nectarean words, and he replied to the inquisitiveness of Prahāda Mahārāja with a smiling face.

The saintly brāhmaṇa said: O best of the asuras/Demons, Prahāda Mahārāja, who are recognized by advanced and civilized men, you are aware of the different stages of life because of your inherent transcendental eyes, with which you can see a man's character and thus know clearly the results of acceptance and rejection of things as they are.

Nārāyaṇa, the Supreme Personality of Godhead, who is full of all opulences, is predominant within the core of your heart because of your being a pure devotee. He always drives away all the darkness of ignorance, as the sun drives away the darkness of the universe.

My dear King, although you know everything, you have posed some questions, which I shall try to answer according to what I have learned by hearing from authorities. I cannot remain silent in this regard, for a personality like you is just fit to be spoken to by one who desires self-purification.

Because of insatiable material desires, I was being carried away by the waves of material nature's laws, and thus I was engaging in different activities, struggling for existence in various forms of life.

In the course of the Evolutionary process, which is caused by fruitive activities due to undesirable material sense gratification, I have received this human form of life, which can lead to the heavenly planets, to liberation, to the lower species, or to rebirth among human beings."- Srimad Bhagavatam 8.13.20-25

The United God/Krishna consciousness in the above is an example of how the Demigods like Sage Narada, Demons like King Prahlad and the discussed Brahmana/Human are all discussing the same goal of Spiritual evolution through Devotional service. All represent different planes of existence co-existing and communicating together in the bygone ages. After all they have much the same roots. The different backgrounds born of different motives create the separation [#soulfamily](#).

The material differences are based on material STATES and TASTES. The energy goes where the attention goes. Those seeking spiritual growth will ask the relevant questions and will come back to the common answers. It does not matter where we come from but rather where we are going to. As we go down the same path we will automatically come together in Unity of God/Krishna consciousness. Some crawling, some walking and some running each following their own heart for their own reasons.

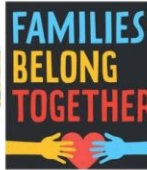

"All these devotees are undoubtedly magnanimous souls, but he who is situated in knowledge of Me I consider verily to dwell in Me. Being engaged in My transcendental service, he attains Me."- Krishna (Bhagavad Gita 7.18)

65. FOR ONE AND FOR ALL

What is Sanatan or Eternal in Time cannot be broken by space. Sanatan belongs to ALL Space, ALL Nations that will accept Sanatan Dharma. The Sanatan relates to not the physical Time nor the physical body of beings, countries, planets. It is Universal [#soulfamily!](#)

"Never was there a time when I did not exist, nor you, nor all these kings; nor in the future shall any of us cease to be.

As the embodied soul continually passes, in this body, from boyhood to youth to old age, the soul similarly passes into another body at death. The self-realized soul is not bewildered by such a change." - Krishna (Bhagavad Gita 2.12-13)

Because Sanatan is all inclusive of Time and Space it includes and encompasses the entire breadth and depth of philosophies that are connected to the eternal Supreme Personality of Godhead. And it lays down clearly the journey of the soul and its objectives in the various levels of material and spiritual realities. This understanding has never been amended. It is like the Supreme - Absolute and All that is, as would be for Dharma that is Eternal.

"Earth, water, fire, air, ether, mind, intelligence and false ego – all together these eight constitute My separated material energies.

Besides these, O mighty-armed Arjuna, there is another, superior energy of Mine, which comprises the living entities who are exploiting the resources of this material, inferior nature.

All created beings have their source in these two natures. Of all

that is material and all that is spiritual in this world, know for certain that I am both the origin and the dissolution.

O conqueror of wealth, there is no truth superior to Me. Everything rests upon Me, as pearls are strung on a thread."- Krishna (Bhagvad Gita 7.4-7)

EVERYTHING rests on Krishna/God, things that we know , those that we don't know. Things that we understand and those that we don't. All that is natural and anomalous to our reality and all the paradoxes that exist and may exist are found in the Supreme. There is nothing that is not in him.

When in humility we accept that there is much we don't know, then we can begin to receive. We can then appreciate the diversity of the universe and its connections to one and all.

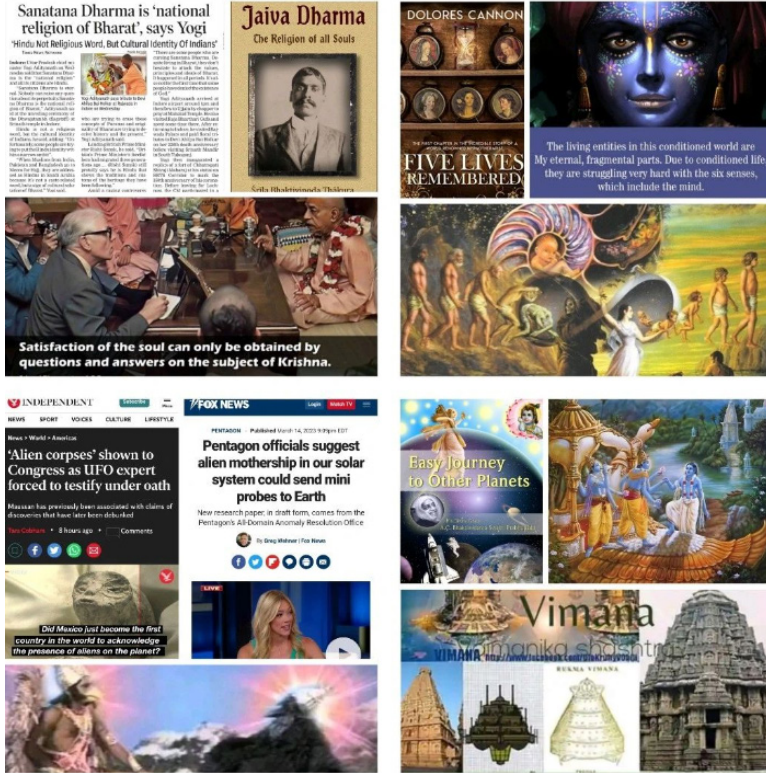

"Furthermore, O Arjuna, I am the generating seed of all existences. There is no being – moving or nonmoving – that can exist without Me.

O mighty conqueror of enemies, there is no end to My divine manifestations. What I have spoken to you is but a mere indication of My infinite opulences.

Know that all opulent, beautiful and glorious creations spring from but a spark of My splendor."- Krishna (Bhagavad Gita 10.39-41)

The purpose of the inquisitive soul is to explore. So explore and study but also pray, and do not forget Krishna/God. Because when we lose connection to God we lose connection to everything. There is so much to see and do but we choose to be stuck in a narrow mindset of beliefs that do not satisfy the questions of the soul. Raise your consciousness!!

66. MANIFESTING LOVE

We want to manifest great things for ourselves and our loved ones. It is a natural part of the experiences of association and exchanges.

When we relate to others on a physical, sensual, mental, intellectual or spiritual platform we wish to have the exchanges on that level.

"The working senses are superior to dull matter; mind is higher than the senses; intelligence is still higher than the mind; and he [the soul] is even higher than the intelligence."- Krishna (Bhagavad Gita 3.42)

Those entrenched in bodily life will have exchanges with those they can relate to or beings like them- birds of feather flock together. Then people living in the mind interact with people of similar interests in arts, politics etc. Those ascended to higher level of intellectual aspirations will engage with those who they can share their ideas with in their fields of study. Each person qualifies their interest and their contributions for their goals. The physical will engage in physical activities, the mental in exercise of mind and imagination and Intellectuals in things that can be observed, substantiated and repeated. Behaviours support endeavors!!

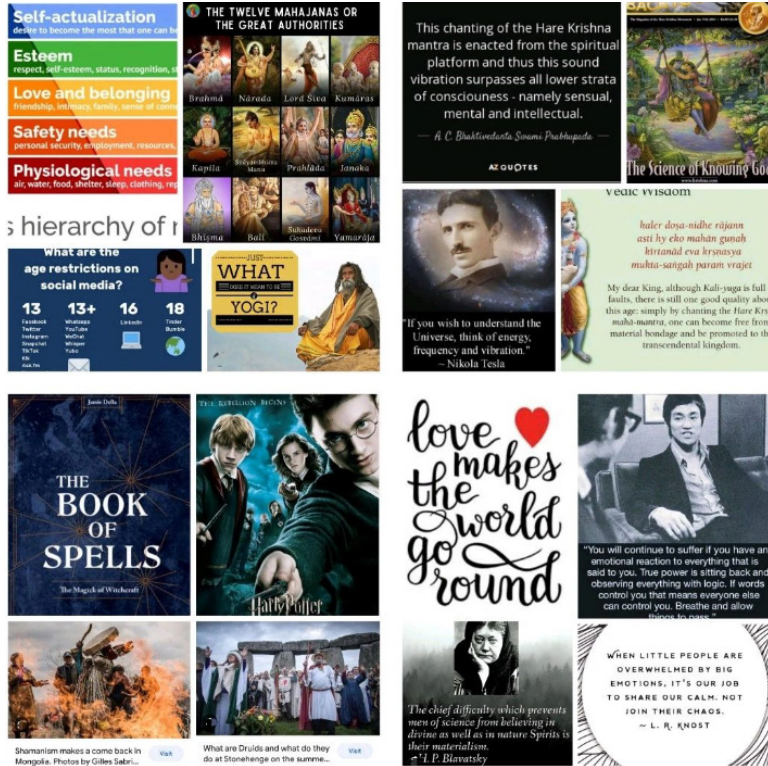

Higher than the intellectual are considered the spiritual who identify themselves as spiritual beings. They ascend to levels above the platform of the body, mind and intellect and display such characteristics.

"One who neither rejoices nor grieves, who neither laments nor desires, and who renounces both auspicious and inauspicious things – such a devotee is very dear to Me."- Krishna (Bhagavad Gita 12.17)

This transcendental platform is a rare feat. Transcending all lower forms of creation to be fixed in the highest platform.

At each level of consciousness people wish to manifest their goals. They create the physical, mental and intellectual concepts and contemplations. How and what then do the transcendentalists manifest? The transcendental platform is the absolute platform as everything is really spiritual. Unlike on other platforms, there is no difference between the name of the object and the object itself. Hence, the spells are the Mantras that manifest what is required. The most powerful of such spells is the mantra of the holy name. That is absolute and all auspicious [#soulfamily!](#) It does not even require very high qualifications.

"The holy name of Kṛṣṇa is transcendently blissful. It bestows all spiritual benedictions, for it is Kṛṣṇa Himself, the reservoir of all pleasure. Kṛṣṇa's name is complete, and it is the form of all transcendental mellows. It is not a material name under any condition, and it is no less powerful than Kṛṣṇa Himself. Since Kṛṣṇa's name is not contaminated by the material qualities, there is no question of its being involved with māyā. Kṛṣṇa's name is always liberated and spiritual; it is never conditioned by the laws of material nature. This is because the name of Kṛṣṇa and Kṛṣṇa Himself are identical."- Chaitanya Charitamrata Madhya lila 17.133 (Quote from Padma Puran)

67. RULERS OF THE NEW WORLD

The physically strong try to rule the weak, the intellectually strong do much the same where they can. Power is exerted through the energy possessed. In the modern age the physical and mental capital is purchased by wealth.

"In Kali-yuga, wealth alone will be considered the sign of a man's good birth, proper behaviour and fine qualities. And law and justice will be applied only on the basis of one's power."- Srimad Bhagvatam 12.2.2

Power corrupts and absolute power corrupts absolutely."- Lord Acton

If the ability for discrimination is lost then ..'We may lost but we are making good time."- Yogi Berra.

The Pride comes before the fall and the society that is puffed up by its wealth and power, lacking discrimination is surely headed for a fall.

The diversity of the weaker and stronger segments of society can be held together if the individual rulers/leaders of the society are elevated in consciousness. The ability to discern the short term and long term goals can only happen by those who have the vision set on long term. For those who are short term rulers, the long term vision is rare quality of character. It may well be unappreciated and inappropriate or totally irrational to the self-centred; individuals or collectives.

The common man of power will only look to rationalise the objective that create win in his tenure.

Those who fight for personal ambition and glory on promises of collective prosperity through pleasing short term initiatives are cheating the future generations.

"They believe that to gratify the senses unto the end of life is the prime necessity of human civilization. Thus there is no end to their anxiety. Being bound by hundreds and thousands of desires, by lust and anger, they secure money by illegal means for sense gratification.

The demoniac person thinks: So much wealth do I have today, and I will gain more according to my schemes. So much is mine now, and it will increase in the future, more and more. He is my enemy, and I have killed him; and my other enemy will also be killed. I am the lord of everything, I am the enjoyer, I am perfect, powerful and happy. I am the richest man, surrounded by aristocratic relatives. There is none so powerful and happy as I am. I shall perform sacrifices, I shall give some charity, and thus I shall rejoice. In this way, such persons are deluded." - Krishna (Bhagvad Gita 16.11-15)

How can such leaders win on promise of Sacrifice, austerity and charity? They cannot preach what they do not do or want not to practice.

"Acts of sacrifice, charity and penance are not to be given up but should be performed. Indeed, sacrifice, charity and penance purify even the great souls."- Krishna (Bhagavad Gita 18.5)

All evolution happens through Stress [#soulfamily](#), both at individual and Collective level. The first order is to rule over the weakness of the mind. On this foundation, the long term goals of a progressive society can be formed. True God consciousness is Unity consciousness.

The Prayer of an Unknown Soldier

I asked God for strength that I might achieve.
I was made weak that I might learn humbly to obey.

I asked for health that I might do greater things.
I was given infirmity that I might do better things.

I asked for riches that I might be happy.
I was given poverty that I might be wise.

I asked for power that I might have the praise of men.
I was given weakness that I might feel the need of God.

I asked for all things that I might enjoy life.
I was given life that I might enjoy all things.

I got nothing that I asked for, but everything I hoped for.

Almost despite myself, my unspoken prayers were answered.

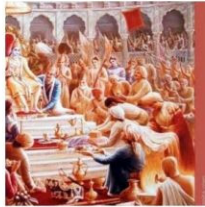

I am, among all men, most richly blessed.

68. CONSCIENCE

Conscience as per Webster means the following: the sense or consciousness of the moral goodness or blameworthiness of one's own conduct, intentions, or character together with a feeling of obligation to do right or be good.

But the words are often misinterpreted, perhaps in light of time or space of reality that we wish to live or co-create. For many people who have consciousness will judge many others to not have a conscience. A person not having a conscience is thereby not conscious and acting out of random impulse and not out of a moral position.

Some introspection here and we can evaluate our conscience based conscious behavior vs. one that does not take into account any degree of conscience.

We discussed how the 10 commandments in modern society are taken to be 10 suggestions. We also discussed in great detail instructions of Bhagavad Gita, that lays down every actions by the three modes of nature. We consciously choose to be in a certain mode of nature and the level of associated consciousness. Everything happens for a reason. Some reason are beyond an individuals level of comprehension based on their nature.

"From the mode of goodness, real knowledge develops; from the mode of passion, greed develops; and from the mode of ignorance develop foolishness, madness and illusion.

Those situated in the mode of goodness gradually go upward to the higher planets; those in the mode of passion live on the earthly planets; and those in the abominable mode of ignorance go down to the hellish worlds."- Krishna (Bhagavad Gita 14.17-18)

But there is a higher level still [#soulfamily](#). The one that is transcendental to the modes of MATERIAL nature and the body self. The spiritual path is based on seeing the working of God everywhere. God/Krishna consciousness is perfect discernment!

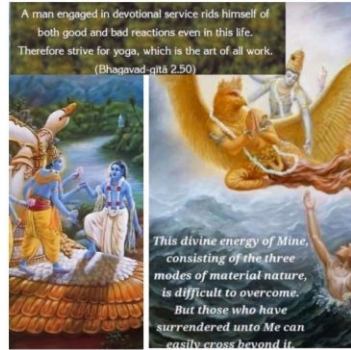

"Arjuna inquired: O my dear Lord, by which symptoms is one known who is transcendental to these three modes? What is his behaviour? And how does he transcend the modes of nature?"

The Supreme Personality of Godhead said: O son of Pāṇḍu, he who does not hate illumination, attachment and delusion when they are present or long for them when they disappear; who is unwavering and undisturbed through all these reactions of the material qualities, remaining neutral and transcendental, knowing that the modes alone are active; who is situated in the self and regards alike happiness and distress; who looks upon a lump of earth, a stone and a piece of gold with an equal eye; who is equal toward the desirable and the undesirable; who is steady, situated equally well in praise and blame, honor and dishonor; who treats alike both friend and enemy; and who has renounced all material activities – such a person is said to have transcended the modes of nature.

One who engages in full Devotional service, unflinching in all circumstances, at once transcends the modes of material nature and thus comes to the level of Brahman."- Krishna (Bhagavad Gita 14.21-26)

I OWED A MAGNIFICENT DAY TO THE BHAGAVAD GITA. 69. RADHA ASHTMI 2023

Krishna is worshipped as Supreme Personality of Godhead who displayed his full opulence of strength, knowledge, wealth, beauty and renunciation. But home is not a place where one wins over others through displays of opulences. It is love alone that wins heart at home. The home, Vrindavan although carries memories of Krishna as a child, his youth was spent in Mathura and the adulthood in Dwarka. The claim to Krishna is shared by residents of Vrindavan devotees, with their counterparts from various Dhams. But they have one exclusive right that no other place in the world has their love for Sri Radha Rani.

Where everyone is greeted with a 'Radhe Radhe' the thought of Masculinism and Feminism or Male God or Female God does not arise, Krishna is the Supreme Personality of Godhead, but he remains bound to Radha no matter where he goes.

rādhā — pūrṇa-śakti, kṛṣṇa — pūrṇa-śaktimān
dui vastu bheda nāi, śāstra-paramāṇa

"Śrī Rādhā is the full power, and Lord Kṛṣṇa is the possessor of full power. The two are not different, as evidenced by the revealed scriptures."- Chaitanya Charitamrata Adi lila 4.96)

Love is what makes the world go round, and Radha rani is Love personified. In her many forms she is the cause of spiritual and material manifestations.

"The essence of the hlādinī potency is love of God, the essence of love of God is emotion [bhāva], and the ultimate development of emotion is mahābhāva.

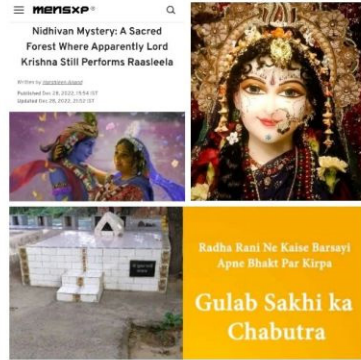

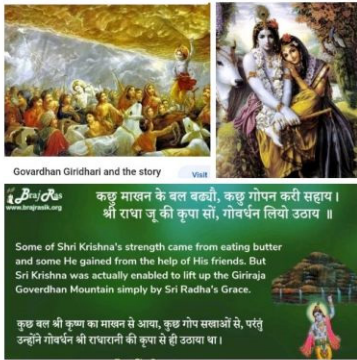

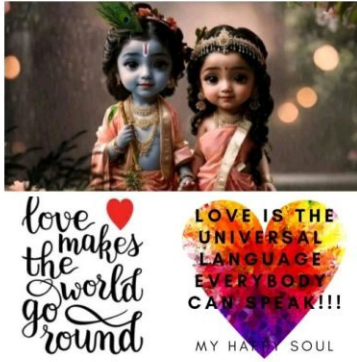

Śrī Rādhā Ṭhākuraṇī is the embodiment of mahābhāva. She is the repository of all good qualities and the crest jewel among all the lovely consorts of Lord Kṛṣṇa."- Chaitanya Charitamrata Adi lila 4.68-69

It is this mood of love and reciprocations that is the basis of Madhurya rasas or loving mellows of relationships. Without loving relationships in life of consciousness loses conscience. The same applies to God/Krishna; impersonalism leads to Atheism where personalism leads to love and reciprocations. We cannot receive what we cannot give that is also law of Karma. Acknowledging that we all want to receive and give love [#soulfamily](#), I wish you all Happy Radhashtmi!

The appearance day of Sri Radha.

70. SECRET SCROLLS

The value of secrets and secrecy is for people who wish to hold a certain power over others. The power to control resources or lives as they fit. We live in a world where democracy is idealized by the power of vote. Even if the voting systems were fraud proof which population in the democratic world is truly informed, who really thinks that their government is completely transparent of the objectives and agendas?

Their seem to be agendas over agendas where the common person is clueless to the greater realities and objectives. We have discussed so much of the levels of creation and the personality of Godhead. The God's throne, the crown and kingdom are of no value if God can not be personal. As in the video Personality is not limited to physical body as we understand it. God's creation is not limited by our imagination and inability to Conceive the bodies of higher realities. And there are many such realities [#soulfamily!](#)

"Lowest of all is located Devī-dhāma [mundane world], next above it is Maheśa-dhāma [abode of Maheśa]; above Maheśa-dhāma is placed Hari-dhāma [abode of Hari] and above them all is located Kṛṣṇa's own realm named Goloka. I adore the primeval Lord Govinda, who has allotted their respective authorities to the rulers of those graded realms." - Srimad Bhagvatam 5.43

The Vedic wisdom has never been hidden to those who have seeking for it. All eternal truths have been available and open for all to see if they choose to learn or hear about them. There are no new or old versions of Vedic texts. There are no revisions or amendments, only the understanding and interpretations unfold as the consciousness rises and falls.

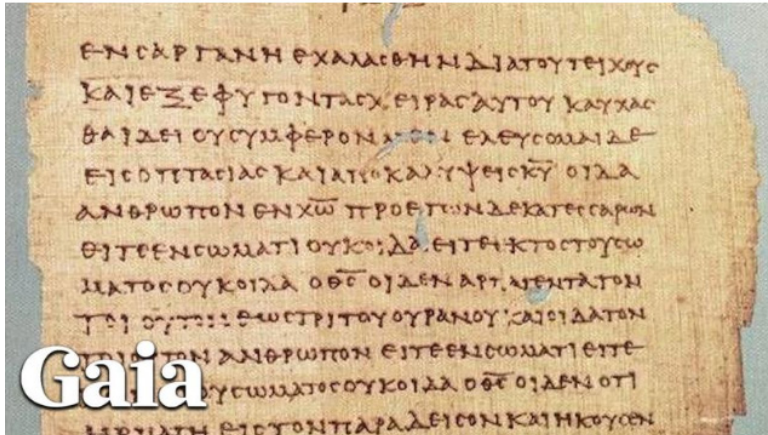

"I am seated in everyone's heart, and from Me come remembrance, knowledge and forgetfulness. By all the Vedas am I to be known; indeed I am the compiler of Vedānta, and I am the knower of the Vedas." - Krishna (Bhagavad Gita 15.15)

But many have personal/collective agendas. Agendas to believe a certain view of history that may or may not be true. One that aligns to their country, race, culture or belief based on their physical body. Everything that creates a bias creates a reason for secrecy!

But Body is not eternal or Sanatan. Sanatan or Eternal is the spiritual body of the Soul and the religion of the soul is to love and serve the Supreme Personality of Godhead and help others do the same. How can such an agenda be secret?

"O most munificent incarnation! You are Kṛṣṇa Himself appearing as Śrī Kṛṣṇa Caitanya Mahāprabhu. You have assumed the golden color of Śrīmatī Rādhārāṇī, and You are widely distributing pure love of Kṛṣṇa. We offer our respectful obeisances unto You."- Chaitanya Charitamrata Madhya lila 19.53

There are people distributing love of God to achieve the highest of realities, yet people do not see it. The truths remain hidden in plain sight for those who do not open their hearts. Some fall to agendas and agendas fall to some. The power of discernment.

71. PARALYSIS BY ANALYSIS

We live in a world where 'Paralysis by Analysis' is a norm. We want data after data to make the smallest decisions. Intuition is lost altogether. Intuition even for what is right and what is wrong. So many Governments, companies and people spying on others and hacking the systems of others to know more and more when the real effort should be to know oneself. When we are not connected with our own thoughts and feelings what is the intuition going to do? The more external focused we are the more external sources of information we look for validation.

Consider the advanced chips and technology that is inserted in phones and making way into our bodies. The more data it reads in more detail, the more fear it creates and the more likely we are likely to intervene when it is not required. Whose interests does such intervention serve? Are we choosing to become less God conscious humans and more machine with every choice to incorporate more technology into our systems? Are we paralyzing our own humanity and paying for it too?

The internal systems have defenses, both intuitive and tangible and we can choose to live by those systems provided by Krishna/God. Or, we choose to pass the responsibility to a technology which may or may not be free and may come at many costs unknown.

The crime of subverting laws of higher nature for wealth and power is not a revelation. As discussed, many times previously, the degradation of morals results in rationalization of arguments of any nature how much ever ridiculous they may sound. Do people not rationalise killing, intoxicating or gambling even when probability of coming out worse off is higher?

Everything has a price, even though we don't necessarily see it up front. God has systems in place too called Dharma and Karma and he is connected to everyone too. His technology is far superior [#soulfamily](#)! And he shares it too, thus their are higher and lower beings.

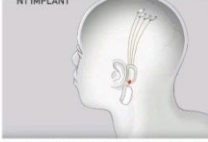

"Thus it is concluded that the Lord's energies are inconceivable. No one can estimate them by mental speculation or by word jugglery.

In the age of Satya [truthfulness] your four legs were established by the four principles of austerity, cleanliness, mercy and truthfulness. But it appears that three of your legs are broken due to rampant irreligion in the form of pride, lust for women, and intoxication.

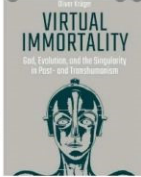

You (Dharma in form of Bull) are now standing on one leg only, which is your truthfulness, and you are somehow or other hobbling along. But quarrel personified [Kali], flourishing by deceit, is also trying to destroy that leg.

The burden of the earth was certainly diminished by the Personality of Godhead and by others as well. When He was present as an incarnation, all good was performed because of His auspicious footprints.

Now she, the chaste one, being unfortunately forsaken by the Personality of Godhead, laments her future with tears in her eyes, for now she is being ruled and enjoyed by lower-class men who pose as rulers." - Srimad Bhagvatam 1.17.23-28

Captive Product Pricing
Retailers use several different strategies to come up with their prices. One of the strategies that they use is captive product pricing. This specific pricing strategy involves a retailer selling a base product for an inexpensive price or even giving it away for free. However, additional products are required to receive full benefit of the item received.

72. I CAME I SAW I CONQUERED.

If we were to look at our society one would think no sooner do we set up a civilization we became anti-another civilization.

The little knowledge has not expanded our consciousness rather contracted it or limited it to the borders of our Likes and dislikes and the related bigotry that follows. Tolerance, acceptance, unity and compassion are replaced by pride, patriotism, wars and victories. The never ending race for divisions continues with every new tribe that forms and wants to grow without considering others. One would think that at one point of time the world should have been one if we continue to expand and divide. Surely some traces of unity and commonality exist in the name of humanity?

But what is humanity in the modern context of the world full of chaos? Perhaps animals are better as they don't work hard to build fences around their houses, or feel the need to amass weapons to destroy their world. Humans are hardly well-settled on their own planet and are already looking to destroy others. We may not even qualify for tourist visas for another planet. Such is the civility of our human civilization [#soulfamily!](#)

We haven't learnt to share, to keep our house in order or learn courtesy, so perhaps the tourists that come our way prefer to visit secret locations or the unspoilt version of Mother Earth/Gaia.

“Seeing the kings of this earth busy trying to conquer her, the earth herself laughed. She said: “Just see how these kings, who are actually playthings in the hands of death, are desiring to conquer me.

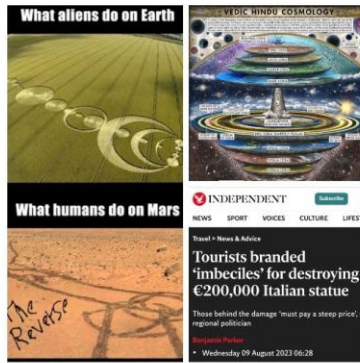

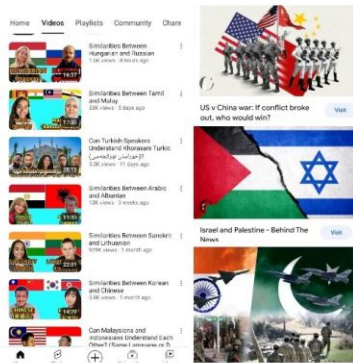

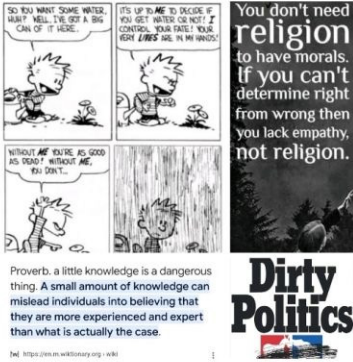

Great rulers of men, even those who are learned, meet frustration and failure because of material lust. Driven by lust, these kings place great hope and faith in the dead lump of flesh called the body, even though the material frame is as fleeting as bubbles of foam on water.

Kings and politicians imagine: 'First I will conquer my senses and mind; then I will subdue my chief ministers and rid myself of the thorn-pricks of my advisors, citizens, friends and relatives, as well as the keepers of my elephants. In this way I will gradually conquer the entire earth.' Because the hearts of these leaders are bound by great expectations, they fail to see death waiting nearby.

After conquering all the land on my surface, these proud kings forcibly enter the ocean to conquer the sea itself. What is the use of their self-control, which is aimed at political exploitation? The actual goal of self-control is spiritual liberation.

O best of the Kurus, the earth continued as follows: "Although in the past great men and their descendants have left me, departing from this world in the same helpless way they came into it, even today foolish men are trying to conquer me." – Srimad Bhagvatam 12.3.1-6

Mother Earth and nature as a higher beings knows God/Krishna as her creator but we forget and try to play God and create new beliefs and borders that are not Eternal/Santan. They are temporary and this the little knowledge is divisive and destructive.

73. THE ECLIPSE

The bad can never totally eclipse the good, there is always a silver or gold lining that shows the path to what can be after a momentary setback. It's the knowing of the temporary nature of the darkness that let's people enjoy the moments. If uncertainty is the cause of fear then certainty should result in Love, should it not?

Sure as death is the saying, yet we seem to want to quarrel till the last moments and leave some unsettled business for generations to come. The rationalization through bodily identifications results in creating divisions when the body and its circumstances are clearly uncertain.

"Bhakti, or devotional service, means engaging all our senses in the service of the Lord, the Supreme Personality of Godhead, the master of all the senses. When the spirit soul renders service unto the Supreme, there are two side effects. One is freed from all material designations, and one's senses are purified simply by being employed in the service of the Lord." - Narad Pancharatra

To have understood the temporary nature of the body and permanent nature of the spiritual and live in the higher consciousness is the ascension of consciousness that is required [#soulfamily](#).

"O best among men [Arjuna], the person who is not disturbed by happiness and distress and is steady in both is certainly eligible for liberation.

Those who are seers of the truth have concluded that of the nonexistent there is no endurance, and of the existent there is no cessation.

This seers have concluded by studying the nature of both."- Krishna (Bhagavad Gita 1.15-16)

The seekers who have seen the nature of reality know that there are various levels of propaganda that are going on by influencers of various levels. Each trying to elicit different Emotions out of general mass of population to serve as ends of polarity of Good and Evil and everything in the middle. It seems there is an entire army of people to shape our illusions and now we have Artificial Technology to make it worse. What is real and what is not is becoming harder to distinguish. The Robots are seeming more realistic and humans behaving more unrealistic.

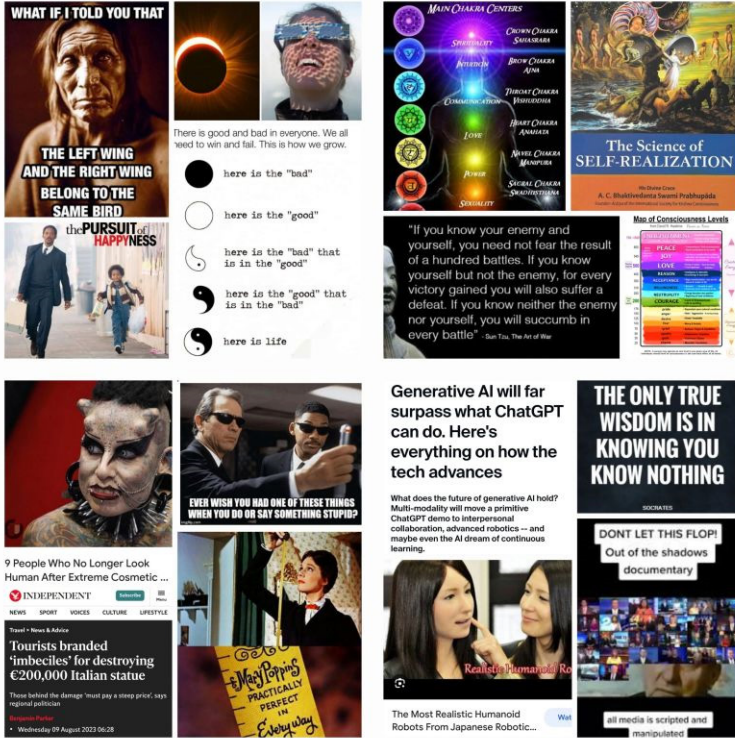

The knowing that the chaos is but an illusion is to help you detach and ground to what is groundable and permanent is the knowledge of self-realisations.

"Deluded by the three modes [goodness, passion and ignorance], the whole world does not know Me who am above the modes and inexhaustible

This divine energy of Mine, consisting of the three modes of material nature, is difficult to overcome. But those who have surrendered unto Me can easily cross beyond it.

Those miscreants who are grossly foolish, who are lowest among mankind, whose knowledge is stolen by illusion, and who partake of the atheistic nature of demons do not surrender unto Me.."- Krishna (Bhagavad Gita 7.13-14)

The path to material realisations leads to destruction of consciousness and path to spiritual realisations leads to God/Krishna. One is temporary the other is permanent.

74. STRANGER TRUTHS

Time heals all and Truth is stranger than fiction. There have been times in everyone's lives when they have been quizzed whether they believed in something or not. Many interesting conversations start from that point if people wanted to, or it could be a point of no go and hush hush. Belief is personal whether it be Aliens or God. But is it really a matter of belief?

Truth is not a matter of belief; it is a matter of acceptance. One either accepts a matter of fact or they don't. They may request proof or analyse information in various ways to form a conclusion. But when an understood fact is denied, it is not a belief, it is denial to the point of opposition. Ignorance is a choice, but it is not an excuse or a defence in court of law!

"The Personality of Godhead said: Knowledge about Me as described in the scriptures is very confidential, and it has to be realized in conjunction with devotional service. The necessary paraphernalia for that process is being explained by Me. You may take it up carefully.

All of Me, namely My actual eternal form and My transcendental existence, color, qualities and activities — let all be awakened within you by factual realization, out of My causeless mercy.

Brahmā, it is I, the Personality of Godhead, who was existing before the creation, when there was nothing but Myself. Nor was there the material nature, the cause of this creation. That which you see now is also I, the Personality of Godhead, and after annihilation what remains will also be I, the Personality of Godhead.

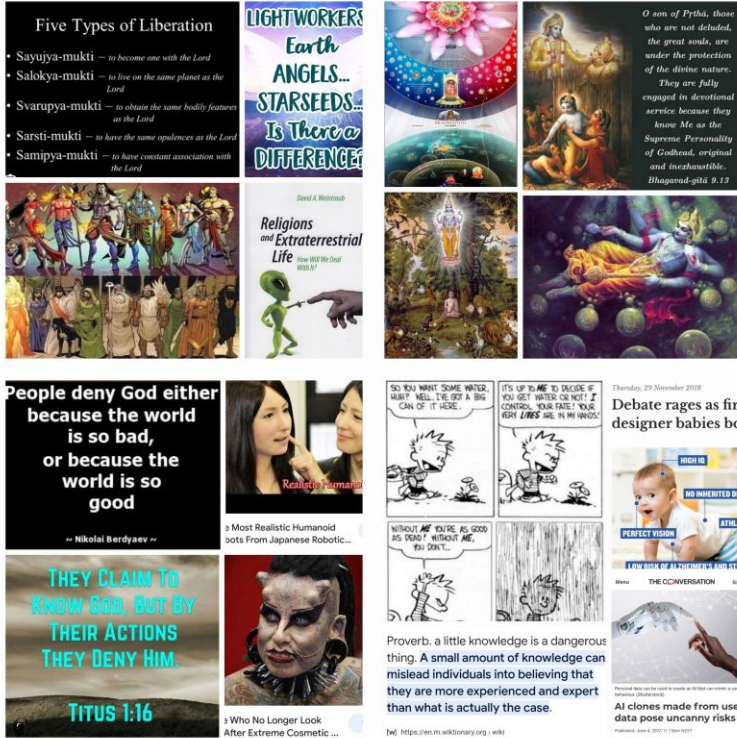

O Brahmā, whatever appears to be of any value, if it is without relation to Me, has no reality. Know it as My illusory energy, that reflection which appears to be in darkness.

O Brahmā, please know that the universal elements enter into the cosmos and at the same time do not enter into the cosmos; similarly, I Myself also exist within everything created, and at the same time I am outside of everything.

A person who is searching after the Supreme Absolute Truth, the Personality of Godhead, must certainly search for it up to this, in all circumstances, in all space and time, and both directly and indirectly."- Srimad Bhagvatam 3.9.31-36)

Not many are searching and all working together own beliefs. What then of the templates and of devotional service? We pay tax for all that is man-made conveniences but no appreciation for the creator of all space and Time? No believe in anything we cannot see, or is it anything that does not enforce? But Truth be told there are understood laws of karma, they are enforced. Time is used for creation, destruction and heals all. The history is available for all to study. There is no option to ascend in consciousness without accepting the creator. Gratitude is the right attitude [#soulfamily!](#)

"After many births and deaths, he who is actually in knowledge surrenders unto Me, knowing Me to be the cause of all causes and all that is. Such a great soul is very rare."- Krishna (Bhagavad Gita 7.19)

75. BORDERS AND WARS

There are natural borders in place for what a person should do and should not do. Borders exist on body of the being, body of land, body of sea and of the universe. The borders divide parts for their roles and functions and cultures. But tendency of the curious and ambitious beings is to push these borders and impose their rulership. Natural borders of mountains, rivers and oceans are rewritten by new maps and walls.

Everyone wants peace, but they want it their way. The makers of money create borders of money to keep the poor at bay. The makers of weapons use weapons to show their strength and create borders they want. Religion, culture, values and language that were traditional borders no longer apply in the global world. They are no longer taught. Powers and alliances have colonized the world and they want more and more.

Everyone hates their leaders, yet they aspire for the same powers and wealth. Perhaps conditioned to the goals of the institutions they would do exactly what they do not want to do. The carrot or the stick both seem great motivators to keep the eyes on the illusory energies and the consciousness goes to sleep.

" Deluded by the three modes [goodness, passion and ignorance], the whole world does not know Me, who am above the modes and inexhaustible.

This divine energy of Mine, consisting of the three modes of material nature, is difficult to overcome. But those who have surrendered unto Me can easily cross beyond it.

Those miscreants who are grossly foolish, who are lowest among mankind, whose knowledge is stolen by illusion, and who partake of the atheistic nature of demons do not surrender unto Me."- Krishna (Bhagavad Gita 7.13-15)

When such is the case of general population, then the few awoke will always be called conspiracy theorists. Advanced beings of all kinds thus live on fringes of Kali-yuga Time and Space. The natural borders of consciousness become too wide to cross perhaps. Sleeping population does not rise and the awake do not wish to fall in consciousness. The matter is not one of material Ambitions but is of Spiritual proportions. Only few risk to cross borders across civilizations to call for Unity in God/ Krishna consciousness.

"The Supreme Personality of Godhead said: Listen again, O mighty-armed Arjuna. Because you are My dear friend, for your benefit I shall speak to you further, giving knowledge that is better than what I have already explained.

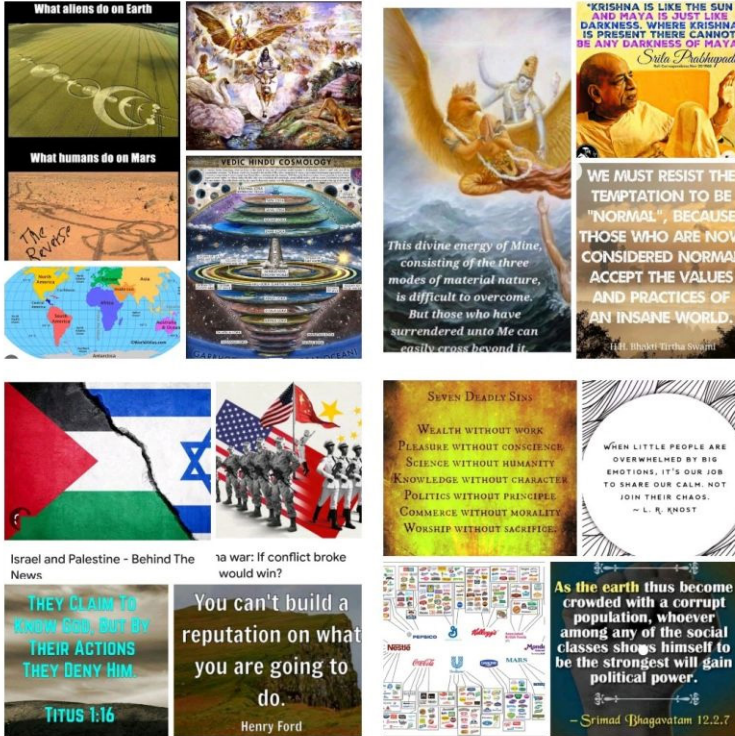

Neither the hosts of demigods nor the great sages know My origin or opulences, for, in every respect, I am the source of the demigods and sages.

He who knows Me as the unborn, as the beginningless, as the Supreme Lord of all the worlds – he only, undeluded among men, is freed from all sins."- Krishna (Bhagavad Gita 10.1-3)

When we can unite in understanding the one creator is the one father and one common friend. Then all should be United [#soulfamily!](#) There can be no one world if we do not want it.

Choice not chance determines destiny.

76. OPENING THE HEART

"O Lord of lords, O refuge of the worlds, please be gracious to me. I cannot keep my balance seeing thus Your blazing deathlike faces and awful teeth. In all directions I am bewildered.

All the sons of Dhṛtarāṣṭra, along with their allied kings, and Bhīṣma, Droṇa, Karṇa – and our chief soldiers also – are rushing into Your fearful mouths. And some I see trapped with heads smashed between Your teeth.

As the many waves of the rivers flow into the ocean, so do all these great warriors enter blazing into Your mouths.

I see all people rushing full speed into Your mouths, as moths dash to destruction in a blazing fire.

O Viṣṇu, I see You devouring all people from all sides with Your flaming mouths. Covering all the universe with Your effulgence, You are manifest with terrible, scorching rays.

O Lord of lords, so fierce of form, please tell me who You are. I offer my obeisances unto You; please be gracious to me. You are the primal Lord. I want to know about You, for I do not know what Your mission is.

The Supreme Personality of Godhead said: Time I am, the great destroyer of the worlds, and I have come here to destroy all people. With the exception of you [the Pāṇḍavas], all the soldiers here on both sides will be slain.

Therefore get up. Prepare to fight and win glory. Conquer your enemies and enjoy a flourishing kingdom. They are already put to death by My arrangement, and you, O Savyasācī, can be but an instrument in the fight."- Arjuna (Bhagavad Gita 11.23-33)

All wars are not the same. Some are fought internally. The internal biases manifest externally by the elected actioners of will. The spiritual war is not against people but against ignorance. It is this that manifests externally on bodily form [#soulfamily](#). We cannot change the world without changing our perceptions.

"The humble sage, by virtue of true knowledge, sees with equal vision a learned and gentle brahmana, a cow, an elephant, a dog and a dog-eater [outcaste] ." - Krishna (Bhagavad Gita 5.18)

This ignorance of Dharma results in war and destruction. Ignorance that comes from lack of this True knowledge.

"The seven great sages and before them the four other great sages and the Manus [progenitors of mankind] come from Me, born from My mind, and all the living beings populating the various planets descend from them.

One who is factually convinced of this opulence and mystic power of Mine engages in unalloyed devotional service; of this there is no doubt.

I am the source of all spiritual and material worlds. Everything emanates from Me. The wise who perfectly know this engage in My devotional service and worship Me with all their hearts." - Krishna (Bhagavad Gita 10.6-8)

If our actions are inconsistent with our beliefs that all are creation of One God then people will form their own interpretations, creating biases and hatred. The acts out of ignorance lead to Adharma. Knowledge can change behaviours but to acquire knowledge one first needs humility and openness of heart.

In order to deliver the pious and to annihilate the miscreants, as well as to reestablish the principles of religion, I advent Myself millennium after millennium.

77. SPIRITUAL TRAINING

Physical training happens through resistance using weights to build muscles where we want them. The muscles want to be in a relaxed state, but the body has to have the stress of weight training to build the required muscle power. Mentally, they say, 'Heavy is the head that wears the crown'. Spiritual muscles require similar stress of austerity. The training requires a state of resistance from its natural state and do the opposite.

As for naturally a evil minded person acts of charity, mercy and forgiveness are great austerities. What then the resistance training for those happy in mode of Goodness?

"O sinless one, the mode of goodness, being purer than the others, is illuminating, and it frees one from all sinful reactions. Those situated in that mode develop knowledge, BUT they become conditioned by the concept of happiness."- Krishna (Bhagavad Gita 14.6)

The was the dilemma Arjuna faced on the battlefield of Kurukshetra, the goodness of his heart put to test in battle against millions including his own relatives. To rise to that transcendental platform is an act of great courage and discernment despite the great stress. Arjuna was then only an instrument of change and is not Anti-anybody in the war. He was only surrendered to the will of the Lord, directing him in person.

"Arjuna inquired: O my dear Lord, by what symptoms is one known who is transcendental to those modes? What is his behavior? And how does he transcend the modes of nature?"

The Supreme Personality of Godhead said: O son of Pāṇḍu, he who does not hate illumination, attachment and delusion when they are present or long for them when they disappear; who is unwavering and undisturbed through all these reactions of the material qualities, remaining neutral and transcendental, knowing that the modes alone are active; who is situated in the self and regards alike happiness and distress; who looks upon a lump of earth, a stone and a piece of gold with an equal eye; who is equal toward the desirable and the undesirable; who is steady, situated equally well in praise and blame, honor and dishonor; who treats alike both friend and enemy; and who has renounced all material activities – such a person is said to have transcended the modes of nature."- (Bhagavad Gita 14.21-25)

The definition of Dharma changes based on Time, Place and Circumstance [#soulfamily](#) as nothing is still, rather in constant evolution.

"The intricacies of action are very hard to understand. Therefore, one should know properly what action is, what forbidden action is and what inaction is.

One who sees inaction in action and action in inaction is intelligent among men, and he is in the transcendental position, although engaged in all sorts of activities.

One is understood to be in full knowledge whose every endeavor is devoid of desire for sense gratification. He is said by sages to be a worker for whom the reactions of work have been burned up by the fire of perfect knowledge."- Krishna (Bhagavad Gita 4.17-19)

78. HUMAN ASCENSION

Those who value their Human life ascended in Human Consciousness Earth school to real the rewards of their hard work in various ways. Opportunity well used is one that takes us better places.

"Those situated in the mode of goodness gradually go upward to the higher planets; those in the mode of passion live on the earthly planets; and those in the abominable mode of ignorance go down to the hellish worlds."- Krishna (Bhagavad Gita 14.18)

It is only a matter of discipline.

"A person who is fully absorbed in Kṛṣṇa consciousness is sure to attain the spiritual kingdom because of his full contribution to spiritual activities, in which the consummation is absolute and that which is offered is of the same spiritual nature." Krishna (Bhagavad Gita 4.24)

As we ascend in our individual consciousness [#soulfamily](#) our attractions and actions determine our progression. Some are spiritually attracted to Matter and thus want to further study material progression of progressions may find opportunities to do the same. These materialist scientists long to speak to the finer/quantum details of cosmos. They take a long route to see God through Technology. They are going into smaller and smaller, universes of creation until the find God/Krishna in the end.

"But those who fully worship the unmanifested, that which lies beyond the perception of the senses, the all-pervading, inconceivable, fixed, and immovable-the impersonal conception of the Absolute Truth-by controlling the various senses and being equally disposed to everyone, such persons, engaged in the welfare of all, at last achieve Me."- Krishna (Bhagavad Gita 12.3-4)

Those who have found God within wish to be one with God, use their meditation into mergence with Brahman consciousness. They seek better insights and claravoyances and powers.

Those who have found God in personal form/incarnation look for serving opportunities and to associate with devotees of higher levels attracted by the same deity. Birds of feather flock together.

"I worship Govinda, the primeval Lord, who manifested Himself personally as Kṛṣṇa and the different avatāras in the world in the forms of Rāma, Nṛsiṃha, Vāmana, etc., as His subjective portions."- Brahma Samhita 5.39

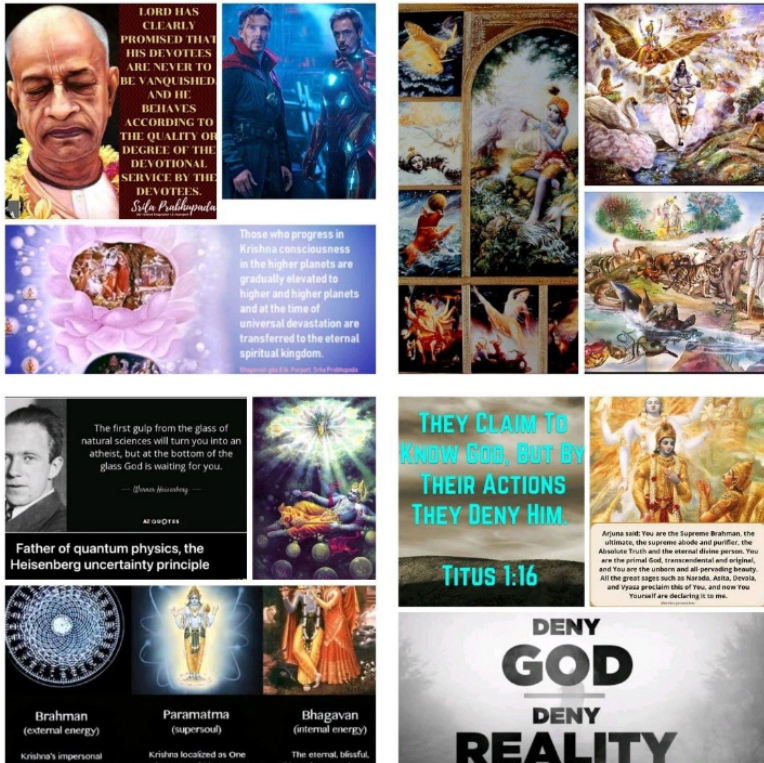

Our closeness to the deity is determined by our attractions. The personalists devotee always want to serve in person.

"The Supreme Personality of Godhead said: Those who fix their minds on My personal form and are always engaged in worshipping Me with great and transcendental faith are considered by Me to be most perfect."- Krishna (Bhagavad Gita 12.2)

Some want to serve part-time and some want to serve full time.

"O almighty Lord, I have no desire to accumulate wealth, nor do I desire beautiful women, nor do I want any number of followers. I only want Your causeless devotional service birth after birth."- Sri Shishtakam

Based on our attractions and qualifications Krishna/God reciprocates with respective responsibilities and authorities in his service.

79. PEACE IN DIVERSE UNIVERSE

The fact of the matter is there are clearly Nations that can have multiple cultures and multiple religions in the same country. People can still live in peace as long as they respect each other's belief systems in God or if they can tolerate each other's belief system of God. Each society will behave differently as the concept of God consciousness is what should keep people behaving in vibrations of Peace through either Fear of God or Love of God, who is witness in the Heart.

"I am the goal, the sustainer, the master, the witness, the abode, the refuge and the most dear friend. I am the creation and the annihilation, the basis of everything, the resting place and the eternal seed. - Krishna (Bhagavad Gita 9.18)

He has is the source of all creation and is SPIRITUALLY connected to everyone WITHIN.

Followers of science deny God and wish to create God through Artificial Intelligence. That has inhabitants living in Love or Fear of MATERIAL Technology to control through SURVEILANCE.

There is no One World Government required to be created as it already exists between the two worlds [#soulfamily](#). Those who don't see the value of any other government already SELF SELECT themselves into SPIRITUAL INTELLIGENCE and Those who need ARTIFICIAL control, due to belief in NO GOD have self selected themselves into world of ARTIFICIAL INTELLIGENCE. One planet but two dimensions of Vibrational frequencies.

"Those miscreants who are grossly foolish, lowest among mankind, whose knowledge is stolen by illusion, and who partake of the atheistic nature of demons, do not surrender unto Me."- Krishna (Bhagavad Gita 7.15)

We have Nationals/Patriots, therefore we have the International exchanges. We have the Transnationals/Planetary, so we can have Interplanetary exchanges [#soulfamily](#)

Contrary to what we may see in our 3D reality, the world of higher realms Agree to Disagree in certain matters. The White and Black Hats are not two opposing forces. They are working for the same Supreme God/Krishna. Filtering the believers and non believers. They believe in the Supreme Personality of Godhead/Deity/Incarnation form they wish to worship.

One who is not connected with the Supreme [in Kṛṣṇa consciousness] can have neither transcendental intelligence nor a steady mind, without which there is no possibility of peace. And how can there be any happiness without peace?" -Krishna Bhagavad Gita (2.66)

At the highest level Brahma has seen Krishna in person who has all Natural capabilities to manifest anything himself independently. He has designated all work to all Demigods. They see him every now and then and describe him as such.

I worship Govinda, the primeval Lord, who is inaccessible to the Vedas, but obtainable by pure unalloyed devotion of the soul, who is without a second, who is not subject to decay, is without a beginning, whose form is endless, who is the beginning, and the eternal puruṣa; YET He is a person possessing the beauty of blooming youth.' - Brahma Samhita 5.33

80. THE MANY REALITIES

We all are divided by various modes of nature and a very unique combinations of qualities. Some prefer enjoyment of the present and some pick service of Good and God. In service means to give more than to take. Consuming more than contributing is not service. Those in service are worthy of greater responsibility in that are of work. The recruiters are everywhere and they find us by our choices of karma.

There are thus divisions of people within the material world based in Earthly and Heavenly planes. There are many levels of variations in each class.

"There are two classes of beings, the fallible and the infallible. In the material world every living entity is fallible, and in the spiritual world every living entity is called infallible.

Besides these two, there is the greatest living personality, the Supreme Soul, the imperishable Lord Himself, who has entered the three worlds and is maintaining them. "- Krishna (Bhagavad Gita 15.16-17)

Like the Demigods, our departed ancestors/Pitr contributed reside in their own Pitr Loka. They bring us in this world. and therefore we are in debt to them. The more we forget our history the more we disassociate from them. The more we connect, the more they are able to help us us through blessings etc. That is why people offer prayers to and for their ancestors.

From their locations they are neutral to our choices as the are detached from material happiness and pain and only guide us through our choices. The Pitr paksh is considered a good time to serve the ancestors with our offerings and oblations.

Waking up #Soulfamily

As long as we remember them, they remember us. Once we forget they fall into next birth cycle if the Earth school again.

“Whatever state of being one remembers when he quits his body, that state he will attain without fail.” - Krishna (Bhagavad-gita, 8.6)

Krishna/God is the original ancestor and creator of all. Until we look within at our OWN DNA to help ourselves, we cannot help others. By spiritual ascension through Devotional service we are helping the Past ancestors wherever they may be.

"The Supreme Personality of Godhead: My dear Prahlaḍa, O most pure, O great saintly person, your father has been purified, along with twenty-one forefathers in your family. Because You were born in this family, the entire dynasty has been purified.

Whenever and wherever there are peaceful, equiposed devotees who are well-behaved and decorated with all good qualities, that place and the dynasties there, even if condemned, are purified."- Srimad Bhagvatam 7.10.18-19

Kali-yuga is especially favourable for this waking up of consciousness.

"In this age of quarrel and hypocrisy, the only means of deliverance is the chanting of the holy names of the Lord. There is no other way. There is no other way. There is no other way."- Chaitanya Charitamrata Madhya 6.242

If all Time/Space exists simultaneously, then being the highest version of ourself helps clear all karma of our past and future Timelines too [#soulfamily](#)

81. UNITY IN DIVERSITY AT MANY LEVELS

"There are 900,000 species living in the water. There are also 2,000,000 nonmoving living entities (sthavara), such as trees and plants. There are also 1,100,000 species of insects and reptiles, and there are 1,000,000 species of birds. As far as quadrupeds are concerned, there are 3,000,000 varieties, and there are 400,000 human species." - Vishnu Puran

Despite the variety of human species noted individual information in these is hard to get. Some of them have made it to in our books with some degree of detail. Each culture has their own legends that is built into their history or religion. Some connections we see easily and some we don't.

With time children grow and mature and their increasing consciousness allows them to grasp and understand Mature concepts that were previously beyond them. This rise in consciousness is the key to waking up [#soulfamily](#) and moving forward from the system of believing or not. We are now in the age of Knowing. With information at fingertips and a raised consciousness level we should not be asking for proof.

"The idea that we are alone in the universe seems to me completely implausible and arrogant, considering the number of planets and stars that we know exist, it's extremely unlikely that we are the only form of evolved life."-Stephen Hawking

The restrictions of knowledge have been imposed by our own leaders perhaps for personal gains or of their Belief that the general population is to ignorant or aggressive to cope with the information at hand. Perhaps there is some truth to the assumption. We cannot continue to fight forever due to tiny differences. How will we manage bigger ones?

The task of waking up to Unity and God is our own. We need to look beyond bodily differences. When our hearts opens through

expanded consciousness, there is only ONE realisation that is common to all.

"The Supreme Lord is situated in everyone's heart, O Arjuna, and is directing the wanderings of all living entities, who are seated as on a machine, made of the material energy."- Krishna (Bhagvad Gita 18.61)

Until now we have been in quarantine, being observed from a distance. Change is the only permanent thing. It is coming whether we like it or not. We can remove our own restrictions by our own love and compassion. There are beings of higher and lower nature in Universe, just as their are more or less evolved species on this planet. All deserve their Time and Space!

"Persons who want to advance in superior religion are advised to give up all envy of other living entities, whether in relationship to the body, words or mind. There is no religion superior to this.

Because of an awakening of spiritual knowledge, those who are intelligent in regard to sacrifice, who are actually aware of religious principles and who are free from material desires, control the self in the fire of spiritual knowledge, or knowledge of the Absolute Truth. They may give up the process of ritualistic ceremonies."- Srimad Bhagvatam 7.15.8-9

82. LOSING KARMA

The God conscious may wonder if all that is good is a blessing and all that is bad in my own karma. That is humility but the ego in that humility still remains. That which filters the understanding and allocates actions and results is a form of ego.

"The bewildered spirit soul, under the influence of the three modes of material nature, thinks himself to be the doer of activities, which are in actuality carried out by nature."- Krishna (Bhagvad Gita 3.27)

When a person rises above the three modes of nature, ALL that is done is God/Krishna acting through us. Only then does the highest form of Devotion manifests. That which is Spontaneous [#soulfamily](#).

"There are two processes of practical devotional service. One is regulative devotional service, and the other is spontaneous devotional service.

"Those who have not attained the platform of spontaneous attachment in devotional service render devotional service under the guidance of a bona fide spiritual master according to the regulative principles mentioned in the revealed scriptures. According to the revealed scriptures, this kind of devotional service is called *vaidhī bhakti*."- Chaitanya Charitamrata Madhya lila 22.108-109.

In the world of chaos and confusion where mind is influenced by many; discernment is hard. Hence the path of Spontaneous devotional service requires undergoing a process of purification and education. The consciousness needs to rise to higher ground to see clearly.

When one is sufficiently qualified to discern, through the guidance of scriptures and heart, they do not impulsively act under the guidance of the mind and senses, rather all actions are guided for greater good. Such actions are under the complete guidance of God within.

"One who is in knowledge of the Absolute Truth, O mighty-armed, does not engage himself in the senses and sense gratification, knowing well the differences between work in devotion and work for fruitive results."- Krishna (Bhagavad Gita 3.28)

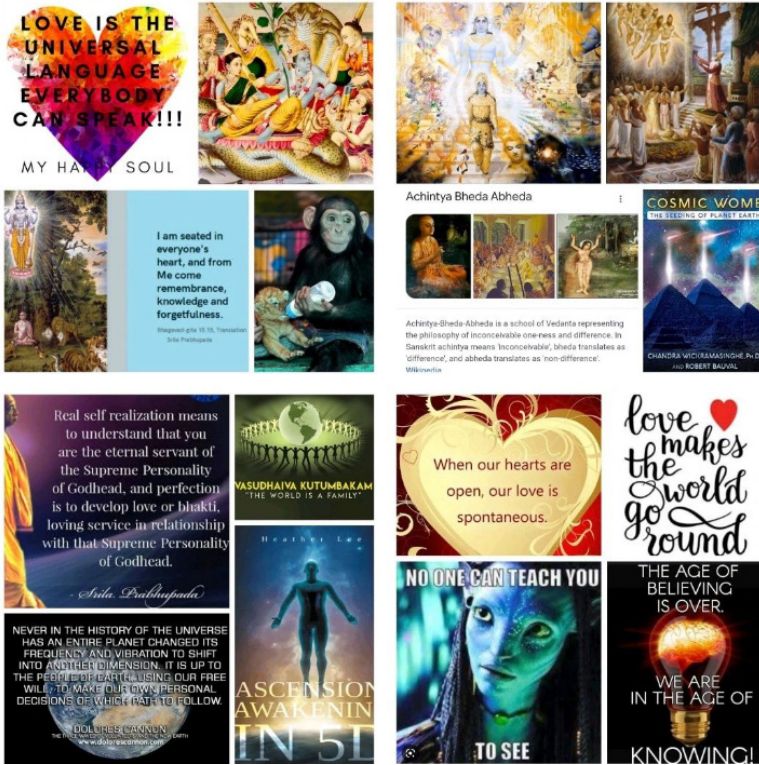

Then all suffering and enjoyment on the path is an experience and evolution through pure Devotion.

"O King, one who accepts this process of devotional service to the Supreme Personality of Godhead will never blunder on his path in this world. Even while running with eyes closed, he will never trip or fall.

In accordance with the particular nature one has acquired in conditioned life, whatever one does with body, words, mind, senses, intelligence or purified consciousness one should offer to the Supreme, thinking, 'This is for the pleasure of Lord Nārāyaṇa/Krishna.'

Although the duality of the material world does not ultimately exist, the conditioned soul experiences it as real under the influence of his own conditioned intelligence. This imaginary experience of a world separate from Kṛṣṇa can be compared to the acts of dreaming and desiring. "- Instructions of the Nine Yogendras, Srimad Bhagavatam 11.2.35-37)

When everything is done for the pleasure of Krishna/God, where is the ego and karma?

83. SPONTANEOUS LOVE

Continuing about spontaneity of love for God, it cannot be something that manifests if it doesn't exist. It exists in dormant way much like many attributes that are dormant in the DNA. The body is after all made from various elements of matter, it leaves traces of ingredients. Everything manifested in material nature is a combination of elements. The catalyst of all growth and evolution is the spiritual part of our existence. That which is part and parcel of God/Krishna.

"O Brahmā, when you are absorbed in devotional service, in the course of your creative activities, you will see Me in you and throughout the universe, and you will see that you yourself, the universe and the living entities are all in Me.

You will see Me in all living entities as well as all over the universe, just as fire is situated in wood. Only in that state of transcendental vision will you be able to be free from all kinds of illusion

When you are free from the conception of gross and subtle bodies and when your senses are free from all influences of the modes of material nature, you will realize your pure form in My association. At that time you will be situated in pure consciousness."- Krishna, Srimad Bhagvatam 3.9.31-33

There is fire in everything and everyone and it regulates our body in many ways. The controlled fire and heat keeps the body warm and healthy and digests our food etc.

"I am the fire of digestion in every living body, and I am the air of life, outgoing and incoming, by which I digest the four kinds of foodstuff."- Krishna (Bhagavad Gita 15.14)

When we get angry and envious the heat is visible on our faces because it always exists in dormant form. When we are unable to control this heat it leaves our body in form of e-motions to cause destruction of various types.

"There are three gates leading to this hell – lust, anger and greed. Every sane man should give these up, for they lead to the degradation of the soul."- Krishna (Bhagavad Gita 16.21)

Being calm in calamities is the quality of those who have awakened to the higher consciousness, as discussed many times. They are able to look past the illusions of false realities.

"When the embodied living being controls his nature and mentally renounces all actions, he resides happily in the city of nine gates [the material body], neither working nor causing work to be done."- Krishna (Bhagavad Gita 5.13)

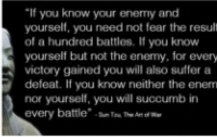

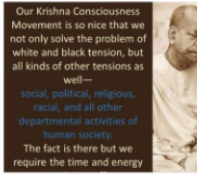

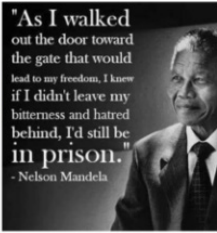

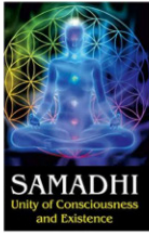

Fire requires kindling and if we give it wrong emotions it destroys us before it destroys anyone else. So our association is most important [#soulfamily](#). The association of devotees and God conscious is most beneficial to keep us cool in testing times.

84. ENTERING UNITY CONSCIOUSNESS

“A lie get half way around the world before truth get a chance put its pants on.” -Winston Churchill

Since the time of Mr. Churchill media has only grown stronger and faster. The well read ones are no longer the ones that read the headlines but the ones that read the heartlines [#soulfamily](#).

When we jump to conclusions to quickly and raise arms at the slightest provocation we are not a civilization that will persevere. It is not a belief that requires fact check; it is a fact of repeating histories and is a knowing. People are not fighting wars for their country or freedoms they are fighting for leaders of chaos. The economics of war never served the average man. And they need to find the courage to say No; to win the spiritual war that takes place within. To RISE above the Animal instincts.

When topics of material world and its tantalizing highs and lows born of fear and separation are more attractive, then war heroes become leaders and spiritual leaders take the back seat. The passion and enticement of war bounties and the resulting wealth and power seem too seductive compared to the seeming weakness of empathy and compassion. In the era of Might is Right, spirituality and unity is no longer an aspiration. Amassing weapons against the masses and then finding reason to use them is the goal of Super Powers.

This evolution and devolution of society, nations and world is foreseen and studied by many. The underlying cause is not lack of weapons or power rather lack of spiritual ascension. The inability to feel and think makes people behave like coin operated robots.

“When a sensible man ceases to see different identities, which are due to different material bodies, he attains to the Brahman conception. Thus he sees that beings are expanded everywhere.”- Krishna (Bhagvad Gita 13.31)

The insensible man believes that the creator is far away or far removed. That is why he has to come personally to prove them wrong. Because power does not respect reason or the rules, thus he has to show his power.

“This material nature is working under My direction, O son of Kunti, and it is producing all moving and unmoving beings. By its rule this manifestation is created and annihilated again and again.

Fools deride Me when I descend in the human form. They do not know My transcendental nature and My supreme dominion over all that be.”- Krishna (Bhagvad Gita 9.10-11)

And this is not a lie that requires travel. It is the eternal truth or Sanatan Dharma. It is written in the heartlines. It is not based on a belief system that requires some faith in some external prophet or prophecy. The knowing of the truth is available to all who want to listen.

“I am seated in everyone’s heart, and from Me come remembrance, knowledge and forgetfulness. By all the Vedas, I am to be known. Indeed, I am the compiler of Vedānta, and I am the knower of the Vedas.” – Krishna (Bhagvad Gita 15.15)

When people Call Krishna/God from the heart he listens and descends or sends.

CONCLUSION

"One small step for man, one giant leap for mankind." - Neil Armstrong

It could have been one step for my country and a giant step for planet. Perhaps that reference was too narrow. The quote to be aspirational required a greater vision. Or perhaps he was trying to wake up the entire population to greater truths. Mankind includes greater many races than that of Man #soulfamily.

The risk with an adventure is one never knows what path they are going to take and are in the hands of God/destiny all the way. The quest and endeavor may be ours but the goal is set by God.

"You have a right to perform your prescribed duty, but you are not entitled to the fruits of action. Never consider yourself the cause of the results of your activities, and never be attached to not doing your duty."- Krishna (Bhagvad Gita 2.47)

This literary journey has been an interesting one with disclosures of many kinds. On the path we saw divisions of races, genders, religion, jabs vs no jabs, supporters of various countries from football games to wars. But did we Wake Up to Unity and Krishna/God consciousness?

All the discussions of the material vs spiritual merits I hope led us to the conclusion that if we seek to serve others ideas just flow through divine interventions.

"Out of compassion for them, I, dwelling in their hearts, destroy with the shining lamp of knowledge the darkness born of ignorance."- Krishna (Bhagavad Gita 10.11)

The conclusion is that the ever depreciating temporary life is best invested for achievement of ever appreciating and permanent returns.

"Both by rising and by setting, the sun decreases the duration of life of everyone, except one who utilizes the time by discussing topics of the all-good Personality of Godhead.

Do the trees not live? Do the bellows of the blacksmith not breathe? All around us, do the beasts not eat and discharge semen?

Men who are like dogs, hogs, camels and asses praise those men who never listen to the transcendental pastimes of Lord Śrī Kṛṣṇa, the deliverer from evils.

One who has not listened to the messages about the prowess and marvelous acts of the Personality of Godhead and has not sung or chanted loudly the worthy songs about the Lord is to be considered to possess earholes like the holes of snakes and a tongue like the tongue of a frog.

The upper portion of the body, though crowned with a silk turban, is only a heavy burden if not bowed down before the Personality of Godhead who can award mukti [Liberation]. And the hands, though decorated with glittering bangles, are like those of a dead man if not engaged in the service of the Personality of Godhead Hari.

The eyes which do not look at the symbolic representations of the Personality of Godhead Viṣṇu [His forms, name, quality, etc.] are like those printed on the plumes of the peacock, and the legs which do not move to the holy places [where the Lord is remembered] are considered to be like tree trunks."- Srimad Bhagvatam 2.3.17-22
