INTRODUCTION

The culmination of knowledge must transform into action and actions are different for different people. Everyone has different interests, talents and abilities and these create the variety of ways they can serve the Society and God. Everyone needs to understand what gives them joy and what occupation will give them happiness they seek. This knowing of what one needs to do based on their nature becomes their Dharma.

The highest Dharma is one that is Eternal, undeterred and uninterrupted in any circumstances is the one that relates to one's true identity as the Soul. The Dharma of the eternal soul is to serve the Super soul or God.

1. GOD'S PLANET (LAST POST OF BOOK 6)

When the collective loses faith in Democracy, new leaders must rise to be true representatives of the population. They must propose a new way of thinking, alternative solutions for Unity and Peace. This is not new, it is a very cyclical phenomenon.

If the governments cannot be trusted by their own people then they should not be trusted by others. All Treaties and Accords are but pieces of paper with no heart behind them. True Leaders are respected by their people and people are protected by their True leaders.

The change in the view of collective consciousness means that those who recognize the old leaders as representatives must also change their rules of engagement. This is why We discussed the need for God conscious Brahmans/Intellectuals as leaders of the Awakening World. Those who respect the higher Laws of God do not have need for written Treaties and Accords. The self-regulated Brahmans do not seek Power and Wealth. Their hearts are an open book and they Lead to Serve.

"My dear Arjuna, one who does not follow in human life the cycle of sacrifice thus established by the Vedas certainly leads a life full of sin. Living only for the satisfaction of the senses, such a person lives in vain.

But for one who takes pleasure in the Self, whose human life is one of self-realization, and who is satisfied in the Self only, fully satiated – for him there is no duty.

A self-realized man has no purpose to fulfill in the discharge of his prescribed duties, nor has he any reason not to perform such work. Nor has he any need to depend on any other living being.

Therefore, without being attached to the fruits of activities, one should act as a matter of duty, for by working without attachment one attains the Supreme.

Kings such as Janaka attained perfection solely by performance of prescribed duties. Therefore, just for the sake of educating the people in general, you should perform your work.

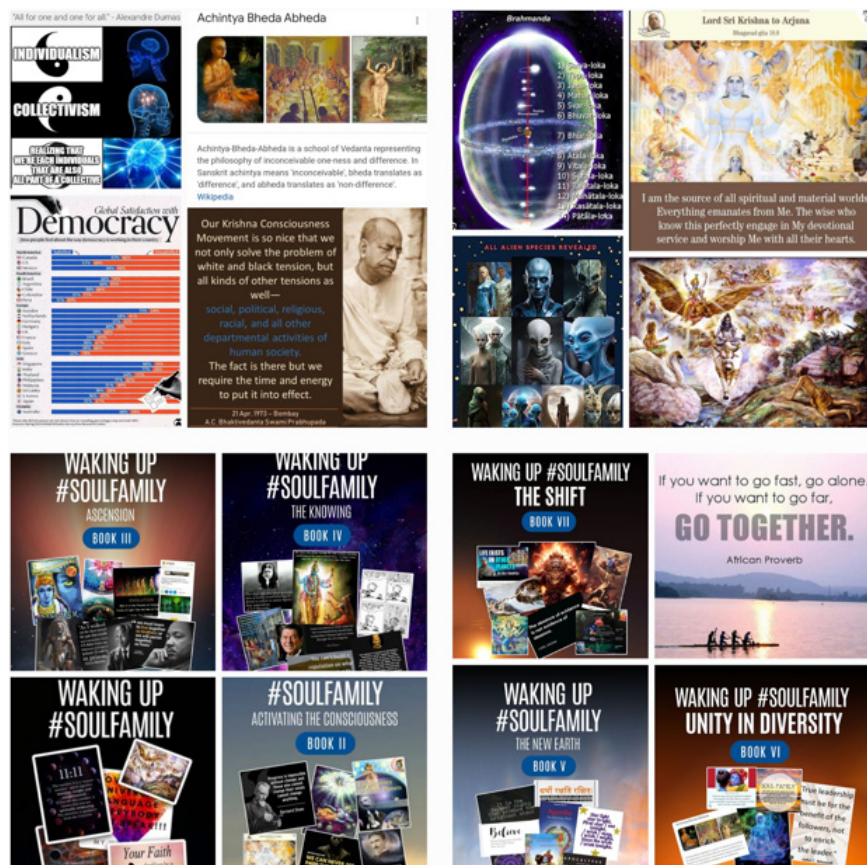

Whatever action a great man performs, common men follow. And whatever standards he sets by exemplary acts, all the world pursues."- Krishna (Bhagvad Gita 3.16-21)

God conscious Light workers and Spiritualists who truly understand the Unity in Diversity are not to be censored for their views. They need to stand up and be counted for helping shape the new paradigm. They are means to the end that is the Cosmic Disclosure. The Supreme Personality of Godhead has his planets too #soulfamily.

" Dear King Dhruva, neither your forefathers nor anyone else before you ever achieved such a transcendental planet. The planet known as Viṣṇuloka, where Lord Viṣṇu personally resides, is the highest of all. It is worshipable by the inhabitants of all other planets within the universe. Please come with us and live there eternally.

O immortal one, this unique airplane has been sent by the Supreme Personality of Godhead, who is worshiped by selected prayers and who is the chief of all living entities. You are quite worthy to board such a plane."- Srimad Bhagavatam 4.12.26-27

2. LORD NARSIMHA

Surrounded by world of hard Technology a lot seems unbelievable when we can't see. But then we can't see much anyway. We believe what we are told through narratives that seems to deny God. But God is reality and we see when he sees. The consciousness of the soul is very part and parcel of God. And that consciousness pervades all visible/invisible creation.

"The hair on Nṛsiṃhadeva's head shook the clouds and scattered them here and there, His glaring eyes stole the effulgence of the luminaries in the sky, and His breathing agitated the seas and oceans. Because of His roaring, all the elephants in the world began to cry in fear.

Airplanes were thrown into outer space and the upper planetary system by the hair on Nṛsiṃhadeva's head. Because of the pressure of the Lord's lotus feet, the earth appeared to slip from its position, and all the hills and mountains sprang up due to His intolerable force. Because of the Lord's bodily effulgence, both the sky and all directions diminished in their natural illumination.

Manifesting a full effulgence and a fearsome countenance, Lord Nṛsiṃha, being very angry and finding no contestant to face His power and opulence, then sat down in the assembly hall on the excellent throne of the king. Because of fear and obedience, no one could come forward to serve the Lord directly.

Hiranyakaśipu had been exactly like a fever of meningitis in the head of the three worlds. Thus when the wives of the demigods in the heavenly planets saw that the great demon had been killed by the personal hands of the Supreme Personality of Godhead, their faces blossomed in great joy.

The wives of the demigods again and again showered flowers from heaven upon Lord Nṛsiṃhadeva like rain.

At that time, the airplanes of the demigods, who desired to see the activities of the Supreme Lord, Nārāyaṇa, crowded the sky. The demigods began beating drums and kettledrums, and upon hearing them the angelic women began to dance, while the chiefs of the Gandharvas sang sweetly.

My dear King Yudhiṣṭhira, the demigods then approached the Lord. They were headed by Lord Brahmā, King Indra and Lord Śiva and included great saintly persons and the residents of Piṭṛloka, Siddhaloka, Vidyādhara-loka and the planet of the snakes. The Manus approached, and so did the chiefs of various other planets. The angelic dancers approached, as did the Gandharvas, the Cāraṇas, the Yakṣas, the inhabitants of Kinnaraloka, the Vetālas, the inhabitants of Kimpuruṣa-loka, and the personal servants of Viṣṇu like Sunanda and Kumuda. All of them came near the Lord, who glowed with intense light. They individually offered their obeisances and prayers, their hands folded at their heads."- Srimad Bhagavatam 7.8.32-39

There is a Natural order to seen and unseen nature; as below so above us. What we believe has little impact on how it operates. Some understand and some don't. God's creation is not limited. There are infinite Material and Spiritual Universes [#soulfamily](#). Wake up!

3. UNDERSTANDING SPIRITUAL DNA

We discussed the Lion Avatar of Lord Narsimha, the Snake Avatar of Balaram/Ananta and many others such as Fish/Matsyahu, Varaha/Boar, Kurma/Tortoise among some major incarnations that are listed in Scriptures but this is only a limited description of the infinite.

"I worship Govinda, the primeval Lord, who manifested Himself personally as Kṛṣṇa and the different avatāras in the world in the forms of Rāma, Nṛsiṃha, Vāmana, etc., as His subjective portions."- Bramha Samhita 5.39

We also discussed devotees like the Monkey like Hanuman and Eagle Garuda, Bear formed Jambavan. The infinite physical spiritual varieties of Lord's Spiritual Personalities continue to descend in their Material forms in the material world. Each taking a darker and denser attribute to their spiritual identity for the purpose of more experiences and expressions. This undying growth is what makes God infinite in his experiences and Lord Ananta cannot ever finish describing his qualities.

"That Ananta Śeṣa is the devotee incarnation of Godhead. He knows nothing but service to Lord Kṛṣṇa. With His thousands of mouths He sings the glories of Lord Kṛṣṇa, but although He always sings in that way, He does not find an end to the qualities of the Lord." - Chaintanya Charitamrata Adi lila 5.120-121

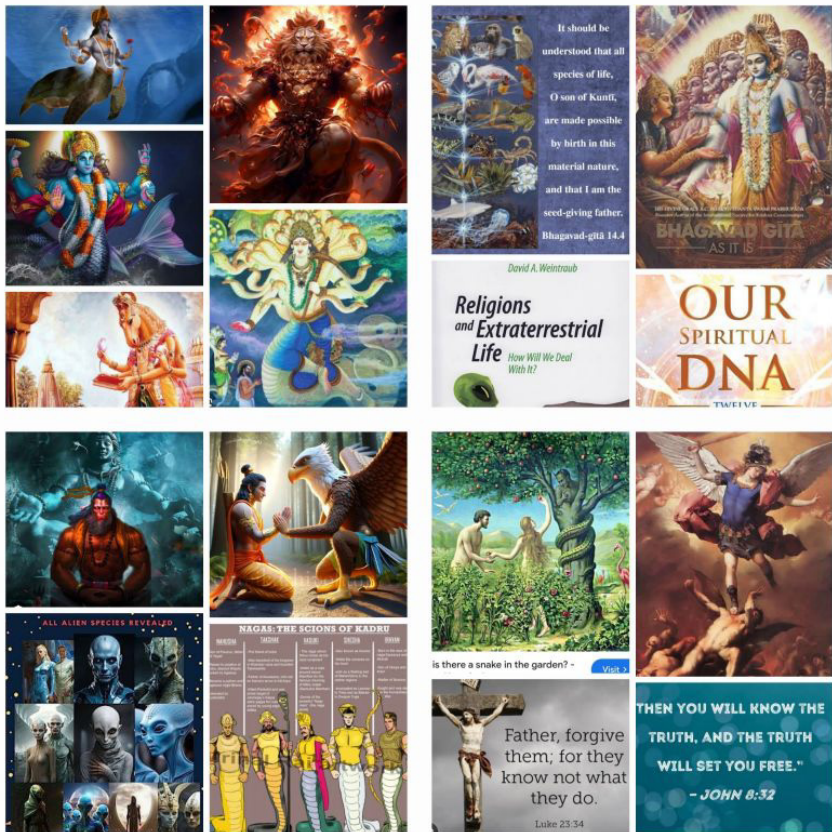

But why this repeating of this message? Because there are many still asleep to the Personal nature of God. They still think that God has no form, and no quality. How can someone who has no quality pass on anything in his Spiritual and Material DNA?

The time for ignorance is over because the Spiritual DNA will speak its truth through us and it will resonate with every one because it is the core of who they are. Going beyond the material recognition of what they see and believe. They will feel and they will know. That is the only way to accept truth from within before it becomes obvious from without through action. This is how change and transformations happen. This is the necessary part of the waking up that may or may not be pleasant for some who struggle to see God in all varieties of Universal creation.

One cannot call themselves God/Krishna conscious if they do not accept Unity in Diversity. This Spiritual waking up to the truths of Sanatan/Eternal Dharma is necessary for the disclosure in a peaceful manner. It's been on the news for a long long time. Some wake up to the rising light of the Sun and some agree to shock themselves awake by the way of Alarms. They are waiting for Trumpets to blow and the Alarms to go off [#soulfamily](#). Perhaps it is Time!

"Yet in this body there is another, a transcendental enjoyer, who is the Lord, the supreme proprietor, who exists as the overseer and permitter, and who is known as the Supersoul.

One who understands this philosophy concerning material nature, the living entity and the interaction of the modes of nature is sure to attain liberation. He will not take birth here again, regardless of his present position."- Krishna (Bhagavad Gita 13.24)

4. THE SOUL TRIBE

Having a Tribe that cares for each other is good. Tribalism that teaches to wrong others is not.

We are material in body and the attachments to the body and its relatives, country, countrymen, etc. are natural. All embodied beings of nature are bound by such rules of incarnations. But there are steps for evolution in the same. There are ways to graduate into higher forms by a more inclusive process and gradual broadening of the mind to new revelations.

"O good soul, does not a thing, applied therapeutically, cure a disease which was caused by that very same thing?

Thus when all a man's activities are dedicated to the service of the Lord, those very activities which caused his perpetual bondage become the destroyer of the tree of work."- Srimad Bhagvatam 1.5.33-34

There are thus steps to the healing process of the soul when we understand the material and the spiritual in their context

1) Freedom from illusions: When we begin to include those outside the understood boundaries of country and race and religion are same as us, then we begin to see the [#soulfamily](#). We then ascend to understand the roles of celestial dynasties of Sun and Moon that go beyond borders in their services to mankind.

2) Understand the Eternal: When we consciously focus on the spiritual aspect of life and make efforts to achieve spiritual objectives of God consciousness, satisfaction, peace and happiness then we have achieved the second step of discernment. We have appreciated the value of this human life.

We understand the spiritual nature and journey that is not for material acquisitions.

3) Dualities: When we understand that the dualities of the light and dark are part of the strides to move forward then we accept the changes of life. We accept the losses and gains as part of the process to transcend the dualities. We surrender to God the highest spiritual truth and engage in purification through Devotional service.

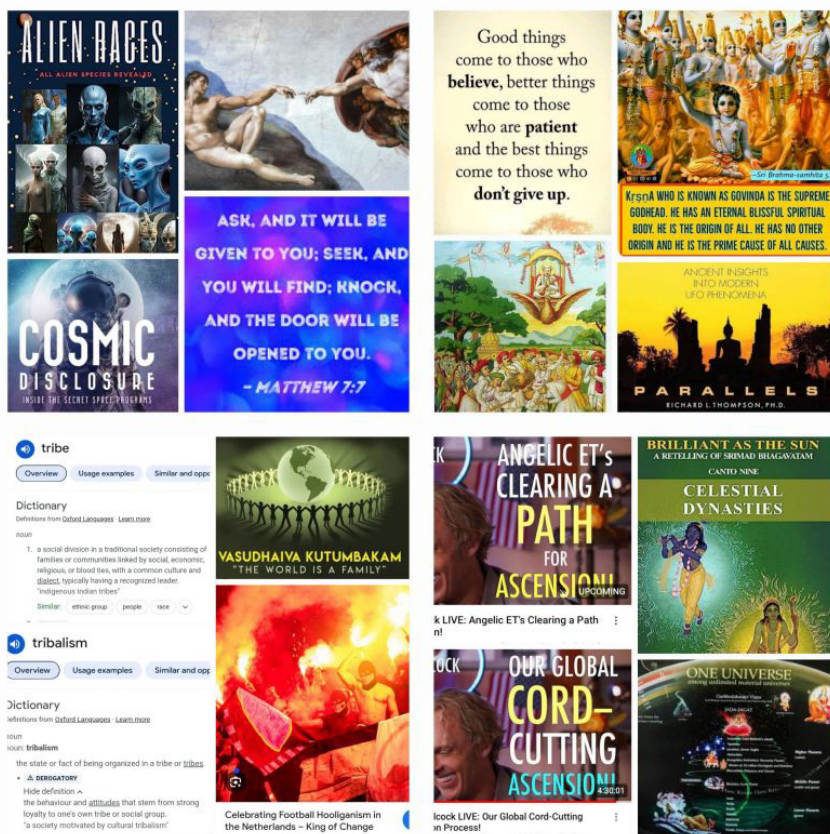

"The supreme occupation [dharma] for all humanity is that by which men can attain to loving devotional service unto the transcendent Lord. Such devotional service must be unmotivated and uninterrupted to completely satisfy the self."- Srimad Bhagvatam 1.2.6

These qualifications in three steps allows us to break the bonds of material attachments and prepare us for spiritual ascension beyond dualities.

For those who have ascended the spiritual kingdom within the dualities begin to lose meaning. These enlightened thoughts and behaviours leads to growth and evolution into the Spiritual Kingdom beyond.

"One who is free from illusion, false prestige, and false association, who understands the eternal, who is done with material lust and is freed from the duality of happiness and distress, and who knows how to surrender unto the Supreme Person, attains to that eternal kingdom.

That abode of Mine is not illumined by the sun or moon, nor by electricity. One who reaches it never returns to this material world."- Krishna (Bhagavad Gita 15.15)

5. THE SPLIT IN TIME AND SPACE

Travel in Time in the past or in the future this creates a timeline. That is why there are prophecies and visions and De Javus.

There are Prophecies and Predictions in the most advanced cultures and there are similar histories. Histories of Good and Evil fighting each and destroying each other. A period of cleaning and a new start. This is a cyclical timeline.

But all time is not repeated exactly the same because there are loops and there be opportunities of evolution for all beings that inhabit the physical material bodies. This applies to all Planets too. The opportunities to immortalize themselves in their higher Spiritualist nature.

"From the highest planet in the material world down to the lowest, all are places of misery where in repeated birth and death take place. But one who attains to My abode, O son of Kunti, never takes birth again."- Krishna (Bhagavad Gita 8.16)

Everything including Mother Earth/Gaia that is conscious is Alive. It has a Natural Spiritual source; everything has God in it. How can there be creation from nothing and how can there be any creation without God [#soulfamily](#)? Vaikunta is full of SPIRITUAL PLANETS too.

From the Vedic processes of Liberation and prophecies to Kachina prophecies of native American Indians, there are preparations being made for future 1000s of years ahead of another cycle. With every culture prophecies based on spiritual beliefs and developments each cycle is of different size and nature.

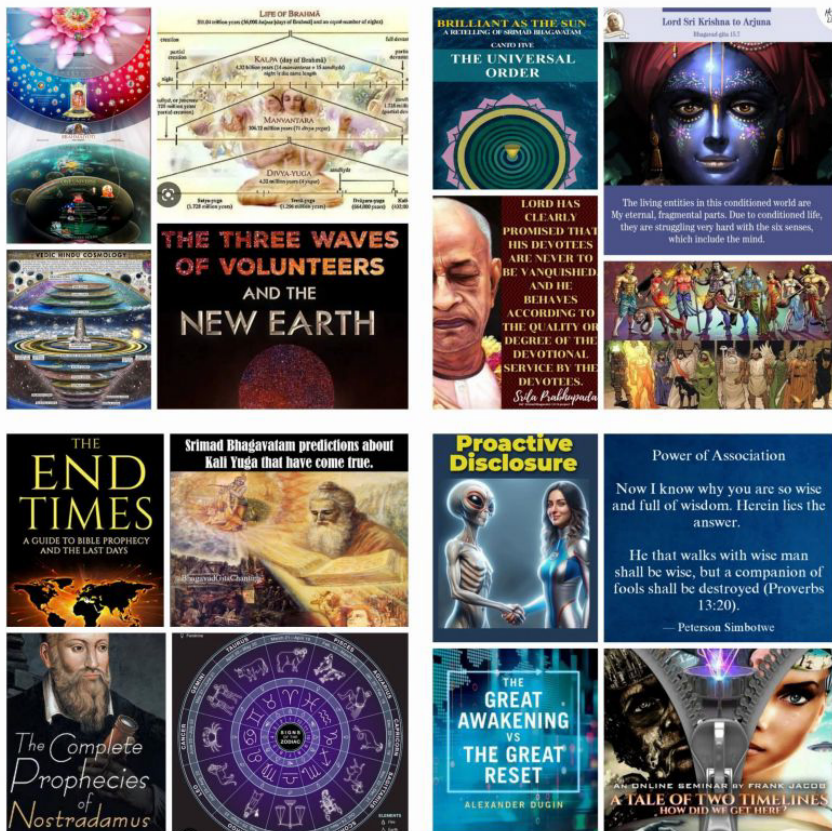

"By human calculation, a thousand ages taken together is the duration of Brahma's one day. And such also is the duration of his night."- Krishna (Bhagavad Gita 8.17)

There are many colours and shades in nature. The good and the bad secret societies/ Celestials/ Demigods are linked to a period of final Battle. A deep state supported by Demons and the Demigods who are possibly supporting the an alliance of all colours, countries or Celestials. The evolution happens here because the Universe plays its battles in KARMA- LOKA that is the Earth. All Demons and Demigods are born on Earth for evolution and ascension.

In Kali-uga there are Demigods and Demons in every home of every country. They are identified not by Birth but by their Actions. The rupture based on people's choice of vibrations is imminent. The Catastrophic Disclosure will be all too Real and Personal if we are unwilling to accept diversity. Three modes of nature create a Variety of frequencies.

There are many agendas, good and bad Humans and Aliens/Celestial as dualities exist in the entire Bhramaand or Universe and these dualities come in all shade of colours. But God and Godly are always associated Glowing White Light around their colours. God has different names in different cultures but all work the same.

"In this age of quarrel and hypocrisy, the only means of deliverance is the chanting of the holy names of the Lord. There is no other way. There is no other way. There is no other way."- Chaintanya Charitamrata Madhya Lila 6.242

6. THE SCIENCE OF DIMENSIONS

Time is cyclical, the rise and fall is as natural as the waves. The Rupture of timelines and dimensions may be a negotiated outcome.

For duality and freewill to operate Good and Evil share their growth for Kind or for for Cash. But when it comes to Power, the Godly know humility and surrender and Godless are ever full of ego.

This divisions of timelines is always between those who would work under the natural laws of God and those that would seek growth by any means. Growth through Austerities or Technology only boost ego, seeking control in all the unnatural ways. This is not new in cycles of Time.

"Hiraṇyakaśipu became the conqueror of the entire universe. Indeed, that great demon conquered all the planets in the three worlds — upper, middle and lower — including the planets of the human beings, the Gandharvas, the Garuḍas, the great serpents, the Siddhas, Cāraṇas and Vidyādharaś, the great saints, Yamarāja, the Manus, the Yakṣas, the Rākṣasas, the Piśācas and their masters, and the masters of the ghosts and Bhūtas. He defeated the rulers of all the other planets where there are living entities and brought them under his control. Conquering the abodes of all, he seized their power and influence."- Srimad Bhagvatam 7.4.5-7

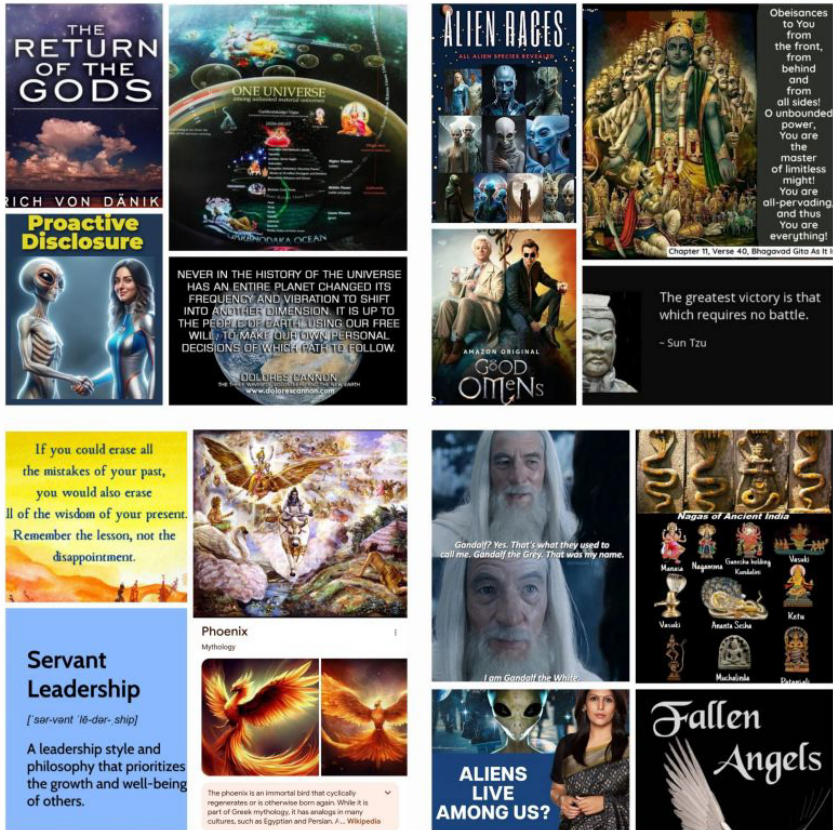

Is the present too civilized for celestial battles or too shrewd to win without them? The strategists of the collective consciousness look for peaceful ways out. Hence a split/rupture of dimensions of perceived reality within and without.

People choose to be Godly or Godless in cycles of Time. And there is a point of choice and division. All decisions are made by level of consciousness we are at. Every family is Diverse in different ways [#soulfamily](#).

"Hiraṇyakaśipu had four wonderful, well-qualified sons, of whom the one named Prahlāda was the best. Indeed, Prahlāda was a reservoir of all transcendental qualities because he was an unalloyed devotee of the Personality of Godhead.

He was completely cultured as a qualified brāhmaṇa, having very good character and being determined to understand the Absolute Truth. He had full control of his senses and mind. Like the Supersoul, he was kind to every living entity and was the best friend of everyone. To respectable persons he acted exactly like a menial servant, to the poor he was like a father, to his equals he was attached like a sympathetic brother, and he considered his teachers, spiritual masters and older Godbrothers to be as good as the Supreme Personality of Godhead. He was completely free from unnatural pride that might have arisen from his good education, riches, beauty, aristocracy and so on.

Although Prahlāda Mahārāja was born in a family of asuras, he himself was not an asura but a great devotee of Lord Viṣṇu. Unlike the other asuras, he was never envious of Vaiṣṇavas. He was not agitated when put into danger, and he was neither directly nor indirectly interested in the fruitive activities described in the Vedas..."- Srimad Bhagvatam 7.4.30-33

7. RETURN OF THE GOD

"Lord Brahmā said: O my Lord, the unborn, You have shaken hands with me just as a friend does with a friend [as if equal in position]. I shall be engaged in the creation of different types of living entities, and I shall be occupied in Your service. I shall have no perturbation, but I pray that all this may not give rise to pride, as if I were the Supreme.

The Personality of Godhead said: Knowledge about Me as described in the scriptures is very confidential, and it has to be realized in conjunction with devotional service. The necessary paraphernalia for that process is being explained by Me. You may take it up carefully.

All of Me, namely My actual eternal form and My transcendental existence, color, qualities and activities — let all be awakened within you by factual realization, out of My causeless mercy.

Brahmā, it is I, the Personality of Godhead, who was existing before the creation, when there was nothing but Myself. Nor was there the material nature, the cause of this creation. That which you see now is also I, the Personality of Godhead, and after annihilation what remains will also be I, the Personality of Godhead.

O Brahmā, whatever appears to be of any value, if it is without Relation to Me, has NO Reality. Know it as My illusory energy, that reflection which appears to be in darkness.

O Brahmā, please know that the universal elements enter into the cosmos and at the same time do not enter into the cosmos; similarly, I Myself also exist within everything created, and at the same time I am outside of everything.

A person who is searching after the Supreme Absolute Truth, the Personality of Godhead, must certainly search for it up to this, in all circumstances, in all space and time, and both directly and indirectly.

O Brahmā, just follow this conclusion by fixed concentration of mind, and no pride will disturb you, neither in the partial nor in the final devastation."- Srimad Bhagvatam 2.9.30-37

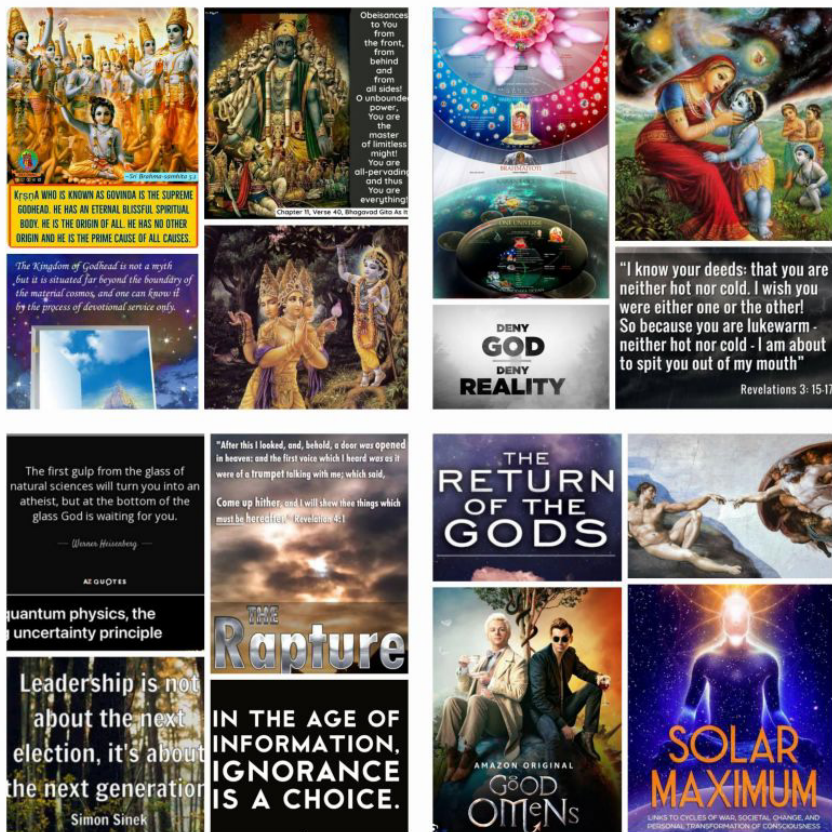

Being Pro God or Anti God are both to certain God consciousness [#soulfamily](#). The constant remembrance in positive or negative leads to progression on the path to Absolute.

"Pūtānā was always hankering for the blood of human children, and with that desire she came to kill Kṛṣṇa; but because she offered her breast to the Lord, she attained the greatest achievement. WHAT THEN is to be said of those who had natural devotion and affection for Kṛṣṇa as mothers and who offered Him their breasts to suck or offered something very dear, as a mother offers something to a child?" - Srimad Bhagavatam 10.6.30-36

But those neither Hot nor Cold are spat out. Denying God is certainly Denying Reality on so many levels of existence, within and Without.

"Of all that is material and all that is spiritual in this world, know for certain that I am both its origin and dissolution.

O conquerer of wealth [Arjuna], there is no Truth superior to Me. Everything rests upon Me, as pearls are strung on a thread." - Krishna (Bhagavad Gita 7.6-7)

8. GOD'S GARDEN

Religious leaders are Political leaders in the age of Kali-yuga. They serve everyone other than God. How can they serve God if they don't understand him. There was a reason for the foretold prophecies [#soulfamily!](#)

Some religions have one book some a few more and the Vedic knowledge is so vast. Yet again and again the useless memorizing of knowledge is considered like a parrot who continually recites sentences but knows no meaning and feels nothing.

"My dear Uddhava, the unalloyed devotional service rendered to Me by My devotees brings Me under their control. I cannot be thus controlled by those engaged in mystic yoga, Sāṅkhya philosophy, pious work, Vedic study, austerity or renunciation.

Only by practicing unalloyed devotional service with full faith in Me can one obtain Me, the Supreme Personality of Godhead. I am naturally dear to My devotees, who take Me as the only goal of their loving service. By engaging in such pure devotional service, even the dog-eaters can purify themselves from the contamination of their low birth.

Neither religious activities endowed with honesty and mercy nor knowledge obtained with great penance can completely purify one's consciousness if they are bereft of loving service to Me.

If one's hairs do not stand on end, how can the heart melt? And if the heart does not melt, how can tears of love flow from the eyes? If one does not cry in spiritual happiness, how can one render loving service to the Lord?

And without such service, how can the consciousness be purified?"- Srimad Bhagvatam 11.14.20-23

Are the leaders of modern regions Elected? Because democracy is a failing endeavour everywhere. Are the Religious leaders selected? Who then is the highest authority?

People are lost in political conspiracies of correctness that they do not know what to do. Operating like robots they are dead in their consciousness and the knowledge of all that is right and wrong. That is why there is a need for self-realized souls to understand Supreme Dharma!

"O best of the Kuru dynasty, without sacrifice one can never live happily on this planet or in this life: what then of the next?

All these different types of sacrifice are approved by the Vedas, and all of them are born of different types of work. Knowing them as such, you will become liberated.

O chastiser of the enemy, the sacrifice performed in knowledge is better than the mere sacrifice of material possessions. After all, O son of Pṛthā, all sacrifices of work culminate in transcendental knowledge.

Just try to learn the truth by approaching a spiritual master. Inquire from him submissively and render service unto him. The self-realized souls can impart knowledge unto you because they have seen the truth.

Having obtained real knowledge from a self-realized soul, you will never fall again into such illusion, for by this knowledge you will see that all living beings are but part of the Supreme, or, in other words, that they are Mine." - Krishna (Bhagavad Gita 4.31-35)

9. CULTIVATION OF THE SPIRITUAL SEEDS

Why do Spiritual leaders need to be elected or selected? Does the Knowledge of one who knows not shine forth? Does one need a lamp to see the sun? Sun that is indiscriminate in its mercy irrespective of Race, Religion or Country. Clouds can never hide the sun. Clouds shroud the eyes and cover them in ignorance of darkness, but the wise of knowledge can see [#soulfamily](#).

"The King said: O great sages, you have all very kindly assembled here, having come from all parts of the universe. You are all as good as supreme knowledge personified, who resides in the planet above the three worlds [Satyaloka]. Consequently you are naturally inclined to do good to others, and but for this you have no interest, either in this life or in the next.

O trustworthy brāhmaṇas, I now ask you about my immediate duty. Please, after proper deliberation, tell me of the unalloyed duty of everyone in all circumstances, and specifically of those who are just about to die.

At that moment there appeared the powerful son of Vyāsadeva, who traveled over the earth disinterested and satisfied with himself. He did not manifest any symptoms of belonging to any social order or status of life. He was surrounded with women and children, and he dressed as if others had neglected him.

This son of Vyāsadeva was only sixteen years old. His legs, hands, thighs, arms, shoulders, forehead and the other parts of his body were all delicately formed. His eyes were beautifully wide, and his nose and ears were highly raised. He had a very attractive face, and his neck was well formed and beautiful like

a conchshell.

His collarbone was fleshy, his chest broad and thick, his navel deep and his abdomen beautifully striped. His arms were long, and curly hair was strewn over his beautiful face. He was naked, and the hue of his body reflected that of Lord Kṛṣṇa.

He was blackish and very beautiful due to his youth. Because of the glamor of his body and his attractive smiles, he was pleasing to women. Though he tried to cover his natural glories, the great sages present there were all expert in the art of physiognomy, and so they honored him by rising from their seats.

Mahārāja Parīkṣit, who is also known as Viṣṇurāta [one who is always protected by Viṣṇu], bowed his head to receive the chief guest, Śukadeva Gosvāmī. At that time all the ignorant women and boys ceased following Śrīla Śukadeva. Receiving respect from all, Śukadeva Gosvāmī took his exalted seat.

Śukadeva Gosvāmī was then surrounded by saintly sages and demigods just as the moon is surrounded by stars, planets and other heavenly bodies. His presence was gorgeous, and he was respected by all."- Srimad Bhagvatam 1.19.23-30

There is discernment required to understand who is capable of being Spiritual leaders of the society. One should not Blindly follow sponsored political leaders or sacrifice merit for Diversity Goals. The path of those who sleepwalk behind such leaders is different to those who are Awake to Spiritual wisdom.

10. PROTECTING THE GARDEN

When Sri Shukadev was about to start the narration of Srimad Bhagavatam at the request of Parikshit, all the Demigods from heaven under the kingship of Indra came with the pitcher of Holy Elixir. They are very efficient in executing their activities and have eloquent speeches. After paying respects to Sri Shukadev by bowing their heads, they offered him the holy nectar when consumed would give immortality, in exchange they sought the nectar of Srimad Bhagavatam.

Indra said, “this way after the exchange, Parikshit can drink the Divine Elixir and come out of the curse of death becoming immortal. And we could relish the nectar in the form of Srimad Bhagavatam from your divine voice.

For which, Sri Shukadev laughed away. He told them that the Holy Elixir and Srimad Bhagavatam are not comparable. Srimad Bhagavatam is like trading off a diamond gem with a piece of glass. Sri Shukadev rejected the offer.

In fact, Srimad Bhagavatam is exceptional and uncommon to even Demigods.

Sri Shukadev thought that the Demigods have less devotion towards the Lord, not eligible for hearing the divine stories in Srimad Bhagavatam, and denied them. Hence, Srimad Bhagavatam is not easily available to even Demigods.- Srimad Bhagavatam Mahatmaya (<https://lnkd.in/gZsFmSt4>)

Discernment is tuned and fine tuned in various life forms one higher than the other in many higher refined realms of creation. But with each form comes with some pros and cons.

Without the essential element of Devotional service the Demigods become fallible and devoted God conscious Humans become superior [#soulfamily](#).

"Superior to worms and snakes are animals that have developed intelligence. Superior to animals are human beings, and superior to human beings are ghosts because they have no material bodies. Superior to ghosts are the Gandharvas, and superior to them are the Siddhas. Superior to the Siddhas are the Kinnaras, and superior to them are the asuras. Superior to the asuras are the demigods, and of the demigods, Indra, the King of heaven, is supreme. Superior to Indra are the direct sons of Lord Brahmā, sons like King Dakṣa, and supreme among Brahmā's sons is Lord Śiva. Since Lord Śiva is the son of Lord Brahmā, Brahmā is considered superior, but Brahmā is also subordinate to Me, the Supreme Personality of Godhead. Because I am inclined to the brāhmaṇas, the brāhmaṇas are best of all."- Srimad Bhagavatam 10.5.21-22

So when it comes to doing what is right and what is wrong, the first and most important step is to know the difference between them before we act.

"The result of pious action is pure and is said to be in the mode of goodness. But action done in the mode of passion results in misery, and action performed in the mode of ignorance results in foolishness.

From the mode of goodness, real knowledge develops; from the mode of passion, greed develops; and from the mode of ignorance develop foolishness, madness and illusion."- Krishna (Bhagavad Gita 14.16-17)

11. HARVESTING THE FRUITS OF LOVE

In Srimad Bhagvatam Mahatmaya is another important story of Bhakti Devi (Devotion Personified) roaming the Earth with her sons Gyaan (Knowledge personified) and Vairagya (Renunciation personified). Due to effects of Kali-yuga all had aged considerably and were ailing. In search for respite the three came to Vrindavana where the pastimes of Krishna are ever fresh in people's memory. As a result Bhakti revived her youth but her sons did not.

Through good fortune the three come in contact with Sage Narada who advised them to listen to Srimad Bhagvatam. Through hearing the stories of Krishna's pastimes and nature of Material and Spiritual worlds, the two sons Knowledge and Renunciation personified were able to receive the required sustenance to transform themselves into youthful forms again.

The material body in the material world is prone to depreciation over time. As the Demons thrive in sinful places, the Demigods who are devotees get Spiritual sustenance from pious activities.

The Material energy is School of dualities, decay and destruction.

"The external potency Māyā who is of the nature of the shadow of the cit/Knowledge potency, is worshiped by all people as Durgā, the creating, preserving and destroying agency of this mundane world. I adore the primeval Lord Govinda in accordance with whose will Durgā conducts herself."- Bramha Samhita 5.44

Similarly, the eternal Spiritual energy of Love that pervades the Spiritual Home world is Sri Radha.

"Śrī Rādhā is the full power, and Lord Kṛṣṇa is the possessor of full power. The two are not different, as evidenced by the revealed scriptures." - Charitamrata Charitamrata Adi lila 4.96

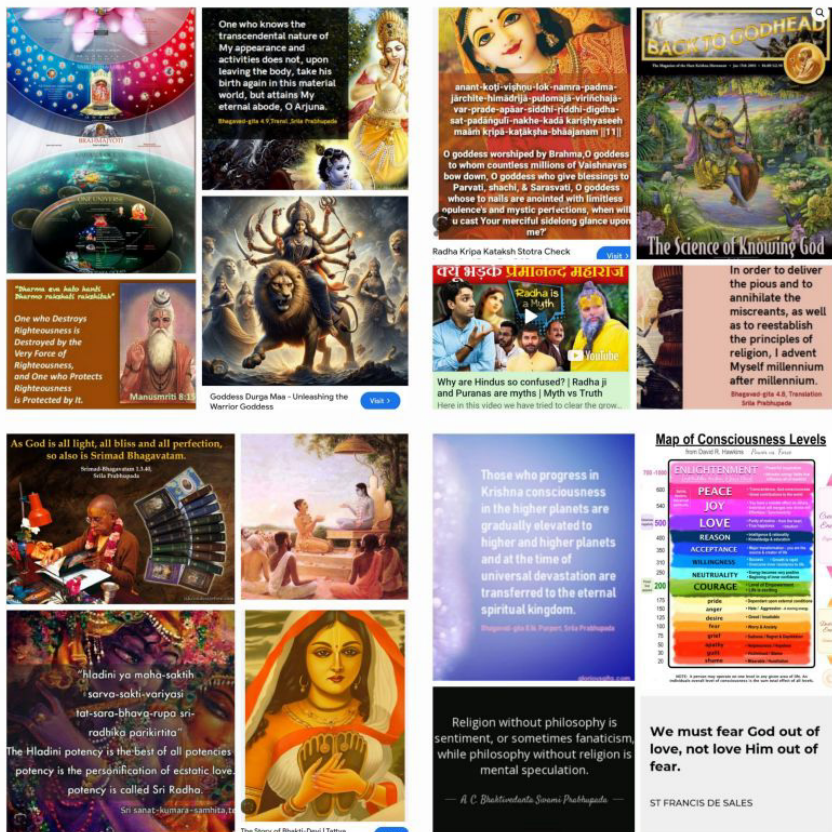

Due to the vast difference in natures of the two information of higher Spiritual worlds is available only through qualified authorities. Why else would Demigods approach Sukdev Goswami to hear Srimad Bhagvatam?

"Kṛṣṇa who is known as Govinda is the Supreme Godhead. He has an eternal blissful spiritual body. He is the origin of all. He has no other origin and He is the prime cause of all causes."- Bramha Samhita 5.1

Similarly, the pastimes of Sri Radha are secret too. Why else would Lord Siva the husband of Durga Devi compose the famous Radha Kripa Kataksha prayer?

Love of God is better than Fear of God [#soulfamily!](#)

"Hearing and chanting about the transcendental holy name, form, qualities, paraphernalia and pastimes of Lord Viṣṇu, remembering them, serving the lotus feet of the Lord, offering the Lord respectful worship with sixteen types of paraphernalia, offering prayers to the Lord, becoming His servant, considering the Lord one's best friend, and surrendering everything unto Him (in other words, serving Him with the body, mind and words) — these nine processes are accepted as pure devotional service. One who has dedicated his life to the service of Kṛṣṇa through these nine methods should be understood to be the most learned person, for he has acquired complete knowledge."- Srimad Bhagvatam 7.5.23-24

12. MAINTAINING UNIVERSAL ORDER

The Big Bang Theory, the Evolution Theory and all Theories that provide categorical solutions will always lead to Chaos!

Law and Order seems too prone to interpretation and manipulation, prone to be changed by rule of power and money. If it can be done then it is being done.

Is it that people lack clarity? or is it that people lack will? Those in Ignorance will only bring darkness wherever they go, whether it be a person who is 'just doing his job' or one who is setting the greater strategy of the Nation. People are knowingly or knowingly walking into a trap of material illusions.

"Prahāda Mahārāja replied: Because of their uncontrolled senses, persons too addicted to materialistic life make progress toward hellish conditions and repeatedly chew that which has already been chewed. Their inclinations toward Kṛṣṇa/God are never aroused, either by the instructions of others, by their own efforts, or by a combination of both.

Persons who are strongly entrapped by the consciousness of enjoying material life, and who have therefore accepted as their leader or guru a similar blind man attached to external sense objects, cannot understand that the goal of life is to return home, back to Godhead, and engage in the service of Lord Viṣṇu. As blind men guided by another blind man miss the right path and fall into a ditch, materially attached men led by another materially attached man are bound by the ropes of fruitive labor, which are made of very strong cords, and they continue again and again in materialistic life, suffering the threefold miseries."- Srimad Bhagvatam 7.5.30-31

Laws cannot deliver justice because justice is blind. It cannot even see who is manipulating the weights while she remains in darkness and Ignorance. There is no Good Will.

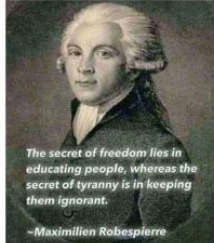

This is why there are God's laws, Open and Honest. Policed by those who follow those laws that cannot be manipulated. We see laws of karma operate sometimes and sometimes we don't, but Judgements are delivered because that is the acceptable belief and faith of all religions. But everyone believes that the Judgements are based on their beliefs! Do they then understand their own beliefs or is it just their interpretations and blind faith?

"Being full of contradictions, all forms of religion but bhāgavata-dharma work under conceptions of fruitive results and distinctions of "you and I" and "yours and mine." The followers of Śrīmad-Bhāgavatam have no such consciousness. They are all Kṛṣṇa conscious, thinking that they are Kṛṣṇa's and Kṛṣṇa is theirs. There are other, low-class religious systems, which are contemplated for the killing of enemies or the gain of mystic power, but such religious systems, being full of passion and envy, are impure and temporary. Because they are full of envy, they are full of irreligion."- Srimad Bhagavatam 6.16.41

When our Spiritual consciousness rises we can self-evaluate our progress against Universal principles of Dharma [#soulfamily](#): Truth, Compassion, Purity and Austerity.

13. JUDGEMENT DAY

Continuing ..Talking about Judgement days that come at an end of tests we must realize that everyone is on their unique spiritual path and progress is made and tested as the classes of a school.

The end times are beginnings of a higher nature because cycles do not have a starting point. The growth pains are for rigorous analysis of what is a shorter life span and what is Sanatan or Eternal.

To a person in lower grades of Mathematics advanced math may sound like greater REVELATIONS. Those sufficiently open at heart and raised in consciousness growth is not a Conversion to a new Class it is part of Theoretical Knowledge and Self-realization. They come at the right time of spiritual maturity.

So is the Catastrophic Disclosure of End Times really necessary? Is there need for Chaos and War? The Dualities of Dvaita Philosophy exist in all Material planetary systems and they get lighter as we Ascend in our consciousness. This is Unity in God/Krishna consciousness.

The end times may well not be an end for the cycles need to continue. The cosmos does not end by our imagination. The dissolution of one system of belief into another is part of a growth phase that is progressive towards the highest goal.

"After attaining Me, the great souls, who are yogīs in devotion, never return to this temporary world, which is full of miseries, because they have attained the highest perfection.

From the highest planet in the material world down to the lowest, all are places of misery wherein repeated birth and death take place. But one who attains to My abode, O son of Kuntī, never takes birth again.

By human calculation, a thousand ages taken together form the duration of Brahmā's one day. And such also is the duration of his night.

At the beginning of Brahmā's day, all living entities become manifest from the unmanifest state, and thereafter, when the night falls, they are merged into the unmanifest again."- Krishna (Bhagavad Gita 8.15.18)

If we can understand the Philosophy of Achintya Bheda Abheda tattva (Simultaneously Oneness and Differentness in God consciousness) we will understand the vast Variety in the universe, but if we close our eyes to everything and everyone by calling them Anti to our religious beliefs then there is really no desire for education for the infinite qualities of God. How can then there be an ascension of consciousness and how can there be any revelations [#soulfamily](#)?

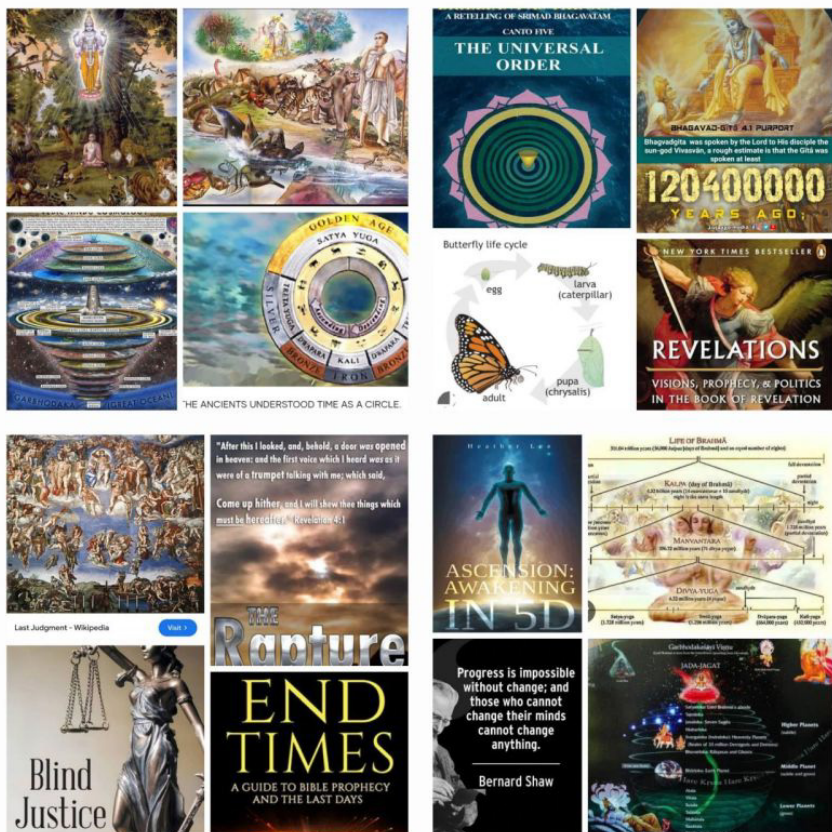

"That same Lord Viṣṇu, in the form of Lord Śeṣa, holds the planets upon His heads, although He does not know where they are, for He cannot feel their existence upon His heads.

His thousands of extended hoods are adorned with dazzling jewels surpassing the sun.

That Ananta Śeṣa is the devotee incarnation of Godhead. He knows nothing but service to Lord Kṛṣṇa.

14. MAKE ME A CHANNEL OF YOUR PEACE

POEM: MAKE ME A CHANNEL OF YOUR PEACE

Make me a channel of your peace
Where there is hatred let me bring your love
Where there is injury, your pardon Lord
And where there is doubt true faith in You

Make me a channel of your peace
Where there is despair in life let me bring hope
Where there is darkness only light
And where there's sadness ever joy

Oh, Master grant that I may never seek
So much to be consoled as to console
To be understood as to understand
To be loved as to love with all my soul

Make me a channel of your peace
It is in pardoning that we are pardoned
It is in giving to all men that we receive
And in dying that we are born to eternal life

Oh, Master grant that I may never seek
So much to be consoled as to console
To be understood as to understand
To be loved as to love with all my soul

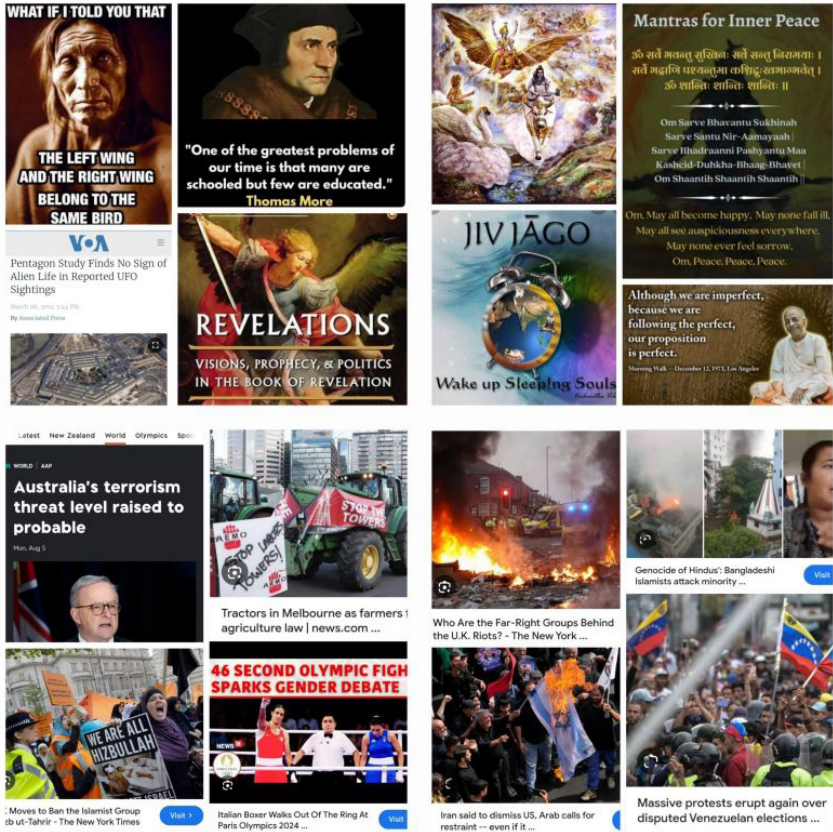

Waking up #Soulfamily

Make me a channel of your peace
Where there's despair in life let me bring hope
Where there is darkness only light
And where there's sadness ever joy
Songwriters: Jon Cohen / Traditional

A lot is said but little is done for Peace. All the International peace keeping forces of the world cannot keep peace if we wait to fight. If we all go by different rules divided in hate and ambitions.

The world seems to be burning in propaganda and fueled by war-making machines seeking ever more control through hook or by crook. There is more money for war than food, education and medicine. There is desire to make people Fearful, Unhealthy and Dependent on Security that puts people in the jails of their choice. People need to wake up and see what Governance model actually works for Peace. It is always harder to do the right thing and perhaps that is why it becomes a test [#soulfamily](#). Chaos is a result of disharmony and disharmony comes from lack of knowledge of what is right and wrong. Godless Societies are always wrong no matter how well disguised.

"Humility; pridelessness; nonviolence; tolerance; simplicity; approaching a bona fide spiritual master; cleanliness; steadiness; self-control; renunciation of the objects of sense gratification; absence of false ego; the perception of the evil of birth, death, old age and disease; detachment; freedom from entanglement with children, wife, home and the rest; even-mindedness amid pleasant and unpleasant events; constant and unalloyed devotion to Me; aspiring to live in a solitary place; detachment from the general mass of people; accepting the importance of self-realization; and philosophical search for the Absolute Truth – all these I declare to be knowledge, and besides this whatever there may be is ignorance."- Krishna (Bhagavad Gita 13.8-12)

15. ONE WORLD RELIGION

ONE WORLD RELIGION. The Vedic scriptures mention the Golden Age had one Deity.

In the Satya-yuga, the first millennium, all the Vedic mantras were included in one mantra — praṇava, the root of all Vedic mantras. In other words, the Atharva Veda alone was the source of all Vedic knowledge. The Supreme Personality of Godhead Nārāyaṇa was the Only worshipable Deity; there was no recommendation for worship of the demigods. Fire was one only, and the only order of life in Human society was known as haṁsa."- Srimad Bhagvatam 9.14.48

Vaishnavas are followers of Narayana/Krishna who is predominately Deity of mode of Goodness and maintenance, Brahma the mode of Passion and Creation and Siva the mode of Ignorance and Destruction.

"A person exhibiting qualities such as self-control is understood to be predominantly in the mode of goodness. Similarly, a passionate person is recognized by his lust, and one in ignorance is recognized by qualities such as anger.

Any person, whether man or woman, who worships Me with loving devotion, offering his or her prescribed duties unto Me without material attachment, is understood to be situated in goodness."- Srimad Bhagvatam [11.25.10.11](#)

When everyone is a Vaishnava by behaviour they see God then what need is there for external and excessive controls and security? Would the world within not be reflected in the world without? Would the world not be Peaceful and Technologically and Spiritually Advanced as in the Golden ages?

Is that not what we seek?

"Lord Rāmacandra became King during Tretā-yuga, but because of His good government, the age was like Satya-yuga. Everyone was religious and completely happy.

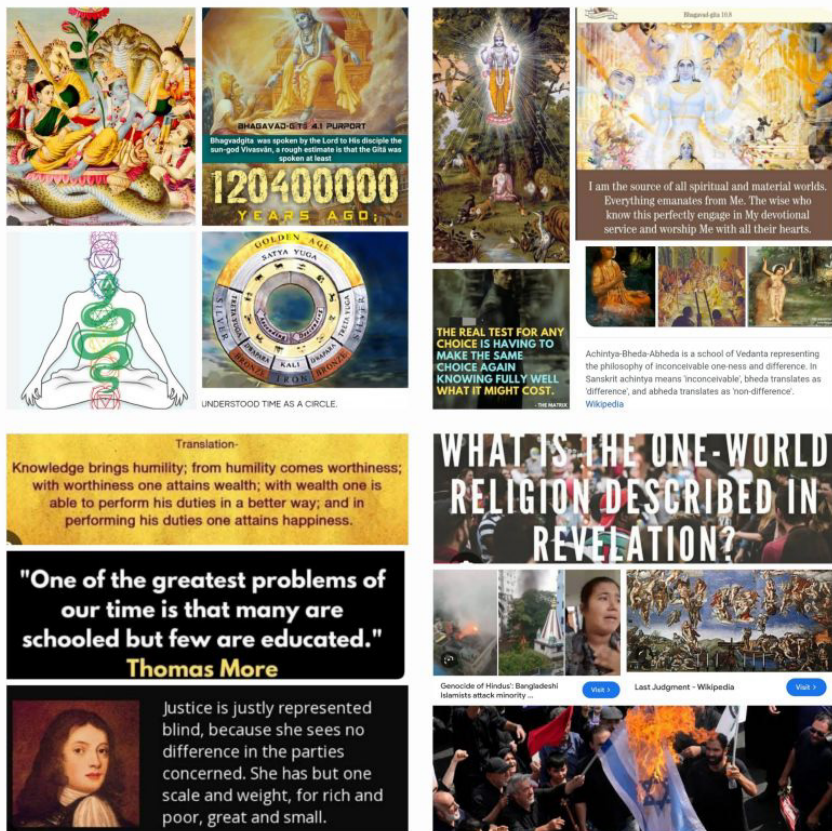

O Mahārāja Parīkṣit, best of the Bharata dynasty, during the reign of Lord Rāmacandra the forests, the rivers, the hills and mountains, the states, the seven islands and the seven seas were all favorable in supplying the necessities of life for all living beings.

When Lord Rāmacandra, the Supreme Personality of Godhead, was the King of this world, all bodily and mental suffering, disease, old age, bereavement, lamentation, distress, fear and fatigue were completely absent. There was even no death for those who did not want it."- Srimad Bhagvatam 9.10.51-53

We cannot be United if we don't find God in everyone and see Love and Compassion as the answer to Worlds problems. Many questions have been logically answered in previous posts. Ask the intelligent questions if you need but do not remain silent and servant of senses [#soulfamily](#).

"For one thus satisfied [in Kṛṣṇa consciousness], the threefold miseries of material existence exist no longer; in such satisfied consciousness, one's intelligence is soon well established.

One who is not connected with the Supreme [in Kṛṣṇa consciousness] can have neither transcendental intelligence nor a steady mind, without which there is no possibility of peace. And how can there be any happiness without peace?"- Krishna (Bhagavad Gita 2.65-66)

16. SANATAN OR ETERNAL DHARMA

Continuing.. If there was only one Deity Lord Vishnu in the Golden Age of Satya Yuga then what happens to Lord Siva and Lord Brahma? As discussed, everyone is on their own path of evolution.

In Satya-yuga everyone ascended to mode of Goodness like the Demigods worship Lord Vishnu but those in mode of Passion and Ignorance find their worshipable deities in Lord Bramha and Lord Siva. They seek rewards for their own nature. Do we not see Hiranyakshipu performing severe austerities to please Lord Bramha in Satya-yuga? Do the Asuras and other Demons under the guidance of Shukacharya not worship Lord Siva?

"Those whose intelligence has been stolen by material desires surrender unto demigods and follow the particular rules and regulations of worship according to their own natures.

I am in everyone's heart as the Supersoul. As soon as one desires to worship some demigod, I make his faith steady so that he can devote himself to that particular deity.

Endowed with such a faith, he endeavors to worship a particular demigod and obtains his desires. But in actuality these benefits are bestowed by Me alone.

Men of small intelligence worship the demigods, and their fruits are limited and temporary. Those who worship the demigods go to the planets of the demigods, but My devotees ultimately reach My supreme planet."- Krishna (Bhagavad Gita 7.20-23)

Lord Bramha and Lord Siva accept those the surrendered souls for their gradual benefit. It is all part of the inclusive Sanatan/Eternal Dharma. No one is left behind but choices not chances determine Destiny.

"Those who worship the demigods will take birth among the demigods; those who worship ghosts and spirits will take birth among such beings; those who worship ancestors go to the ancestors; and those who worship Me will live with Me."- Krishna (Bhagvad Gita 9.25)

Neither the Demigods nor the Demons are gone. They are always here watching the progress of those who resonate with their beliefs. Perhaps then there is truth to the conspiracies of cults and sects that are offshoots of the ancient system as proposed by famous Jordon Maxwell. Abrahamic religions may be the followers of Brahma and others may be unknowingly or knowingly followers of Lord Siva. There is Time and Space for everything [#soulfamily](#). And this is the Time of Great Awakening!

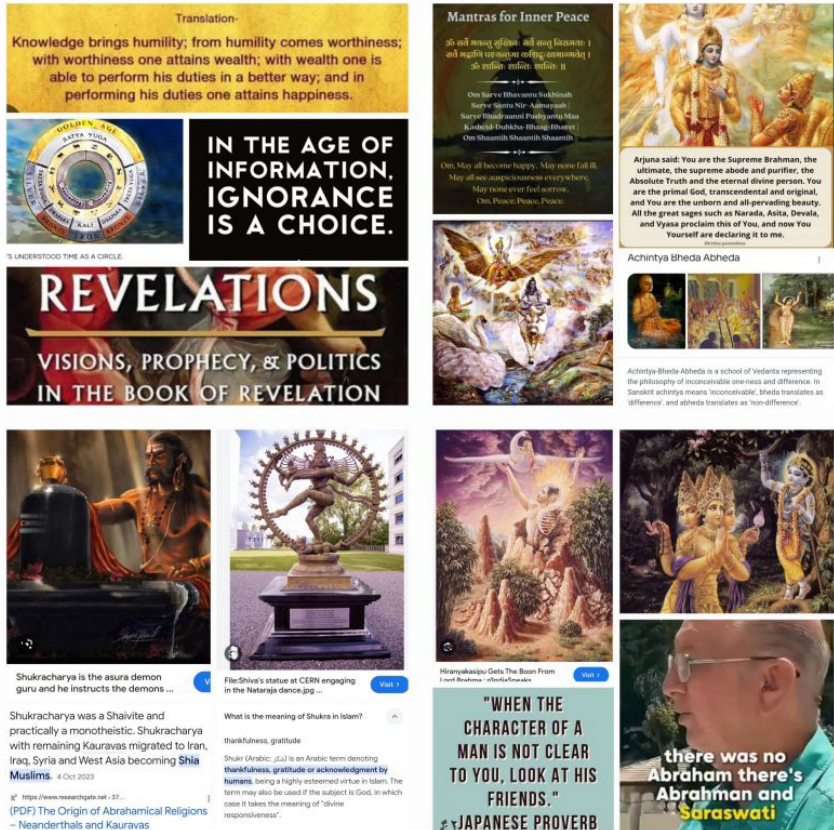

An opportunity for One Planet, One Sanatan Dharma exists Again in the cycle of Time. For Peace to prevail and soul to feel happiness we must take assistance of intelligence and not give in to sins of Lust, Anger and Pride.

"Therefore, O Arjuna, best of the Bharatas, in the very beginning curb this great symbol of sin by regulating the senses, and slay this destroyer of knowledge and self-realization

The working senses are superior to dull matter; mind is higher than the senses; intelligence is still higher than the mind; and he [the soul] is even higher than the intelligence."- Krishna (Bhagavad Gita 3.42)

17. COMPASSION IN PUNISHMENT

"Sin will overcome us if we slay such aggressors. Therefore it is not proper for us to kill the sons of Dhṛtarāṣṭra and our friends. What should we gain, O Kṛṣṇa, husband of the goddess of fortune, and how could we be happy by killing our own kinsmen?"- Krishna (Bhagavad Gita 1.36)

Chaos exists around the world because the fear of law is lost. The powerful aggressors fear no punishment and the Jails are more a hotels for such criminals. What good then can come in a society where the law abiding is fearful, and the law breaker is fearless?

Compassion has it's place and so does punishment. Declared by the Kings who followed Dharma the aggressors were punished appropriately in this life to be saved from being punished by God in the next. Karma is a very accurate science. Seen and unseen laws and rulers exist at all levels of creation [#soulfamily](#).

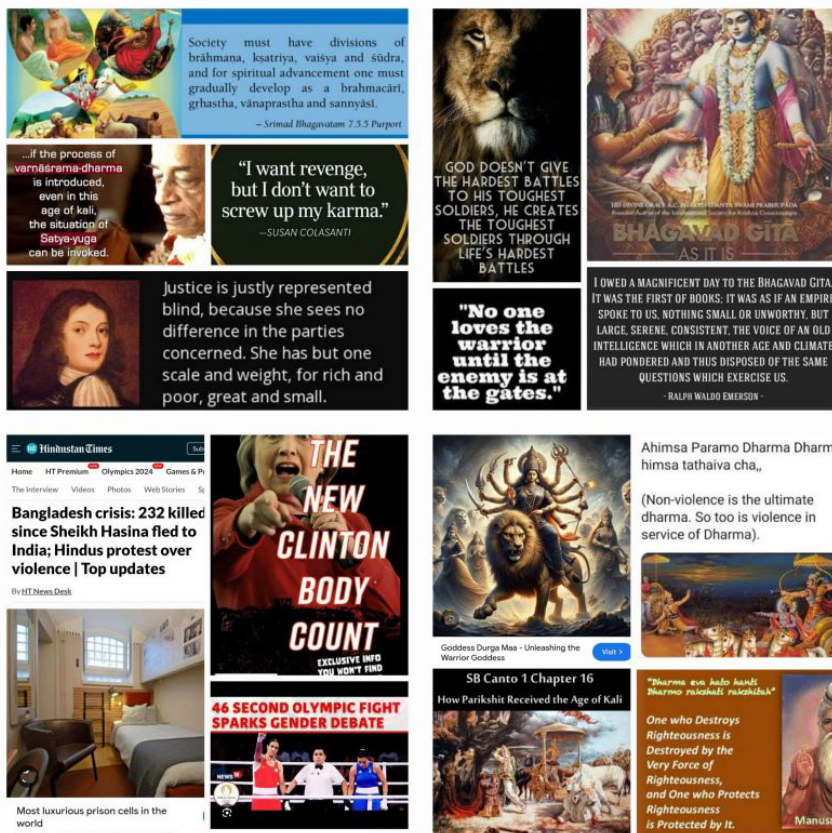

'According to Vedic injunctions there are six kinds of aggressors: (1) a poison giver, (2) one who sets fire to the house, (3) one who attacks with deadly weapons, (4) one who plunders riches, (5) one who occupies another's land, and (6) one who kidnaps a wife. Such aggressors are at once to be killed, and no sin is incurred by killing such aggressors. Such killing of aggressors is quite befitting any ordinary man, but Arjuna was not an ordinary person. He was saintly by character, and therefore he wanted to deal with them in saintliness. This kind of saintliness, however, is not for a kṣatriya. Although a responsible man in the administration of a state is required to be saintly, he should not be cowardly.'- Excerpt from purport for BG 1.36.

Perhaps there is a reason why Angels carry swords and Demigods have their weapons. We can preach about the love of God, encourage compassion and bring the logical light of knowledge but end goal is to save Dharma.

"Are you feeling compunction for the unhappy women and children who are left forlorn by unscrupulous persons? Or are you unhappy because the goddess of learning is being handled by brāhmaṇas addicted to acts against the principles of religion? Or are you sorry to see that the brāhmaṇas have taken shelter of administrative families that do not respect Brahminical culture?

The so-called administrators are now bewildered by the influence of this Age of Kali, and thus they have put all state affairs into disorder. Are you now lamenting this disorder? Now the general populace does not follow the rules and regulations for eating, sleeping, drinking, mating, etc., and they are inclined to perform such anywhere and everywhere. Are you unhappy because of this?

O mother earth, the Supreme Personality of Godhead, Hari, incarnated Himself as Lord Śrī Kṛṣṇa just to unload your heavy burden. All His activities here are transcendental, and they cement the path of liberation. You are now bereft of His presence. You are probably now thinking of those activities and feeling sorry in their absence."- Dharma personified to Mother Earth, Srimad Bhagavatam 1.16.20-24

18. LAW AND ORDER

Talking about Law and Order, is it not rare for criminals to plead guilty? Then again man-made laws are far too subjective that people have lost their bearings as to what really is appropriate conduct. The modern society deviated too far away from God and Common sense.

How then to recognize principles of Dharma and classify the Godly and the Demonic? Can we not discern through the actions? The helpful conversation of Mother Earth and Dharma personified from the previous post follows nicely into the one [#soulfamily](#).

"Mother, you are the reservoir of all riches. Please inform me of the root cause of your tribulations by which you have been reduced to such a weak state. I think that the powerful influence of time, which conquers the most powerful, might have forcibly taken away all your fortune, which was adored even by the demigods.

The earthly deity [in form of a cow] thus replied to the personality of religious principles [in form of a bull]: O Dharma, whatever you have inquired from me shall be known to you. I shall try to reply to all those questions. Once you too were maintained by your four legs, and you increased happiness all over the universe by the mercy of the Lord.

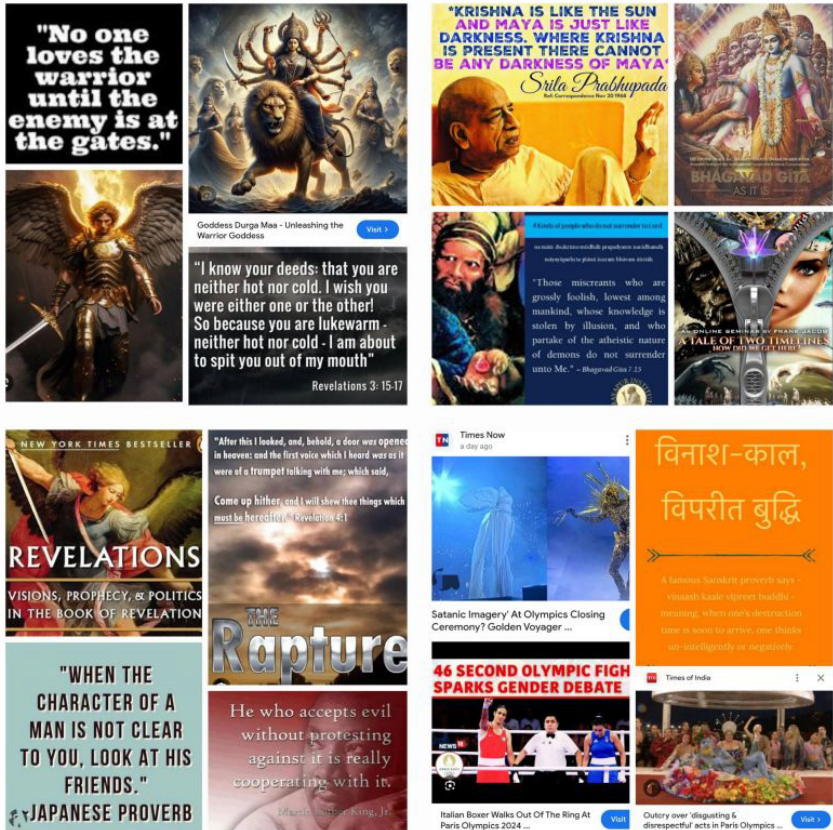

In Him reside (1) truthfulness, (2) cleanliness, (3) intolerance of another's unhappiness, (4) the power to control anger, (5) self-satisfaction, (6) straightforwardness, (7) steadiness of mind, (8) control of the sense organs, (9) responsibility, (10) equality, (11) tolerance, (12) equanimity, (13) faithfulness, (14) knowledge,

(15) absence of sense enjoyment, (16) leadership, (17) chivalry, (18) influence, (19) the power to make everything possible, (20) the discharge of proper duty, (21) complete independence, (22) dexterity, (23) fullness of all beauty, (24) serenity, (25) kindheartedness, (26) ingenuity, (27) gentility, (28) magnanimity, (29) determination, (30) perfection in all knowledge, (31) proper execution, (32) possession of all objects of enjoyment, (33) joyfulness, (34) immovability, (35) fidelity, (36) fame, (37) worship, (38) pridelessness, (39) being (as the Personality of Godhead), (40) eternity, and many other transcendental qualities which are eternally present and never to be separated from Him. That Personality of Godhead, the reservoir of all goodness and beauty, Lord Śrī Kṛṣṇa, has now closed His transcendental pastimes on the face of the earth. In His absence the Age of Kali has spread its influence everywhere, so I am sorry to see this condition of existence."- Srimad Bhagavatam 1.16.24-30

In absence of God, Materialism and Darkness take control, strengthening its presence and displaying its audacity.

"It's no measure of good health to be well adjusted to a profoundly sick society"- J Krishnamurthy

Every organization tests for alignment of values. What we are willing to accept as law and normal becomes the fabric of our own being and nature. Demigods and Demons are not born they are grown and ascend into their higher nature by their choices.

19. DIVINE AUTHORITY

Contemplation and actioning of Materialism by 'Law of Attraction' attracts material abundance. Could the same apply to Spiritualism? We attract the vibrations/energy of those we constantly contemplate about?

"In this way Śrī Caitanya Mahāprabhu delivered the entire three worlds, not only by His personal presence but also by empowering others. I shall briefly describe how He empowered a living being in Bengal.

In Āmbuyā-muluka there was a person named Nakula Brahmācārī, who was a perfectly pure devotee, greatly advanced in devotional service.

Desiring to deliver all the people of Bengal, Śrī Caitanya Mahāprabhu entered the heart of Nakula Brahmācārī.

Nakula Brahmācārī became exactly like a man haunted by a ghost. Thus, he sometimes laughed, sometimes cried, sometimes danced and sometimes chanted like a madman.

He continuously exhibited bodily transformations of transcendental love. Thus, he cried, trembled, became stunned, perspired, danced in love of Godhead and made sounds like those of a cloud.

His body shone with the same luster as that of Śrī Caitanya Mahāprabhu, and he showed the same absorption in ecstatic love of Godhead. People came from all provinces of Bengal to see these symptoms.

He advised whomever he met to chant the holy names Hare Kṛṣṇa. Thus upon seeing him, people were overwhelmed with love of Godhead.

When Śivānanda Sena heard that Śrī Caitanya Mahāprabhu had entered the body of Nakula Brahmācārī, he went there with doubts in his mind.

Desiring to test the authenticity of Nakula Brahmācārī, he stayed outside, thinking as follows.

“If Nakula Brahmācārī personally calls me and knows my worshipable mantra, then I shall understand that he is inspired by the presence of Śrī Caitanya Mahāprabhu.” Thinking in this way, he stayed some distance apart.

There was a large crowd of people, some coming and some going. Indeed, some people in that great crowd could not even see Nakula Brahmācārī.

In his inspired state, Nakula Brahmācārī said, “Śivānanda Sena is staying some distance away. Two or four of you go call him.”

Thus people began running here and there, calling in all directions, “Śivānanda! Whoever is Śivānanda, please come. Nakula Brahmācārī is calling you.”

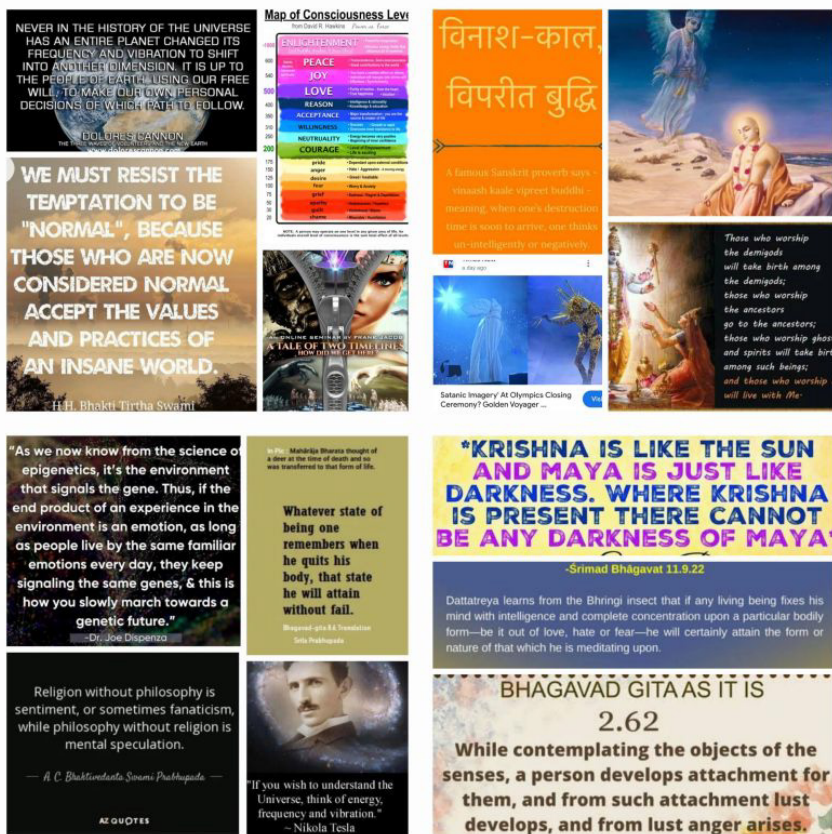

Hearing these calls, Śivānanda Sena quickly went there, offered obeisances to Nakula Brahmācārī, and sat down near him.

Nakula Brahmācārī said, “I know that you are doubtful. Now please hear this evidence with great attention.

“You are chanting the Gaura-gopāla mantra, composed of four syllables. Now please give up the doubts that have resided within you.”

Śivānanda Sena thereupon developed full confidence in his mind that Nakula Brahmācārī was filled with the presence of Śrī Caitanya Mahāprabhu. Śivānanda Sena then offered him respect and devotional service."- Chaitanya Charitamrata Antya lila 2.15-32

Continuing the discussion on rewards and punishments perhaps the Demons and Demigods channel their respective energies into their ascending recruits [#soulfamily](#).

20. TYPES OF AVATARS

Following the previous discussion it may be possible to understand how higher beings can transfer Knowledge, Power and Authority. The ability to delegate is a well understood principle in all Organizations. So why does it seem so incomprehensible when it comes to the Supreme Personality of Godhead?

Vedic scriptures provide six categories of Avatars.

1) Purusha avataras of Krishna:

Karanodakashayi Vishnu lying on the causal ocean.

Garbhodakashayi Vishnu lying on the universal ocean.

Kshirodakashayi Vishnu lying on the ocean of milk.

2) Lila avataras:

Srimad Bhagavatam discusses a long list. Some examples are as follows:

Nara-Narayana

Dattatreya

Nrsmha

Kurma

Dhanvantari

Mohini

Vamana

Ramachandra

Balarama

Krishna

Buddha

Kalki

3) Guna (Modes of Nature) avatars:

Vishnu- Deity of Mode of goodness for Maintenance

Brahma- Deity of Mode of passion and Creation

Siva- Deity of Mode of ignorance and Destruction

4) Manvantara avatars:

Brahma's day - 1,000 catur yugas - is divided into fourteen periods of the rule of Manus (fathers of mankind) known as Manvantaras. Herein also lies the principle that King is representation of God and he is bound with authority, responsibility and consequences.

5) Yuga avatars:

In each yuga the Lord incarnates to establish principles of religion.

“Krishna appears as an incarnation in every millennium. In the past, He assumed three different colors - white, red and yellow - and now he has appeared in a blackish color.”

- Srimad Bhagavatam 10.8.13

6. Shaktyavesha avatars: - Empowered Incarnations

There is no limit to the number of shaktyavesha incarnations, but some are mentioned in the vedic literatures. They are of two kinds, direct and indirect.

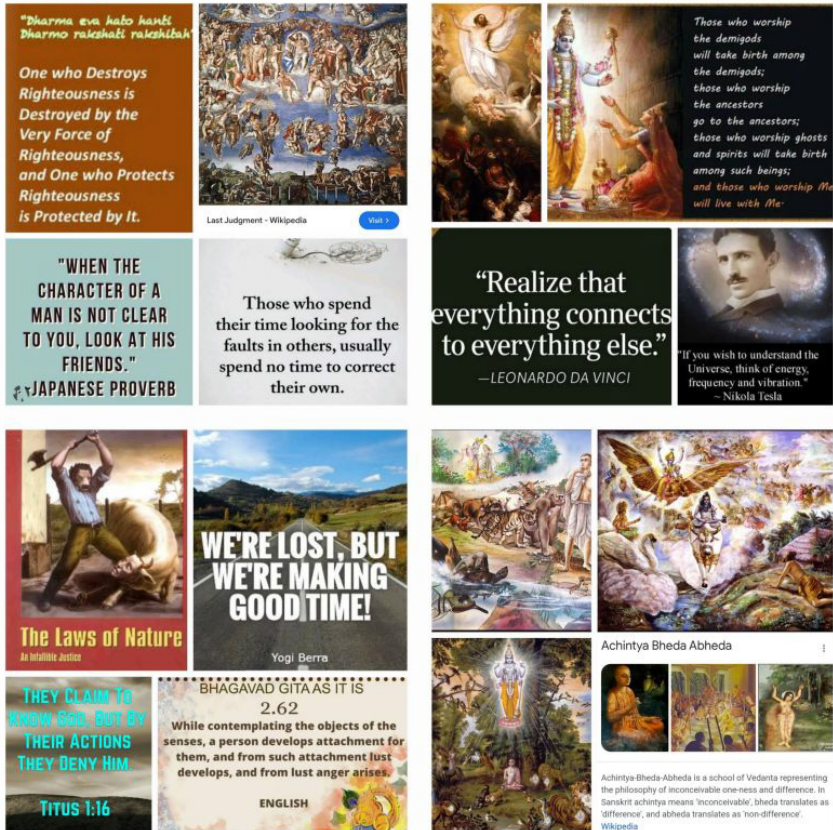

When he expands himself it is called Sakshat Avatar.

When He empowers a living entity with some particular sakti - power, for some specific activity, to represent Him, that living entity is called indirect or avesha incarnation. Such as Parasurama to destroy Kshatriyas and Vyasa to compile the Vedas

But what is the purpose to all this?

To understand that people who believe they understand God considering him impersonal may not as knowledgeable. Those who don't understand Monotheism in Polytheism have been misled. There is a Law and Order in the hierarchy of material creation, maintenance and destruction [#soulfamily](#).

"Superior to worms and snakes are animals that have developed intelligence. Superior to animals are human beings, and superior to human beings are ghosts because they have no material bodies. Superior to ghosts are the Gandharvas, and superior to them are the Siddhas. Superior to the Siddhas are the Kinnaras, and superior to them are the asuras. Superior to the asuras are the demigods, and of the demigods, Indra, the King of heaven, is supreme. Superior to Indra are the direct sons of Lord Brahmā, sons like King Dakṣa, and supreme among Brahmā's sons is Lord Śiva. Since Lord Śiva is the son of Lord.. "- Srimad Bhagavatam 10.5.21-22

21. UNDERSTANDING GOD

To a person who has never heard or eaten the fruit called Jamun (Fruit of the Gods) one can only make a couple of attempts to describe it before encouraging the other to take a bite for themselves.

Devotion is such a thing it's realised through experience and cannot be educated on.

"The Lord cannot be known by copious logic, intelligence, or deep study of the scriptures. But He reveals Himself personally to the soul who, having become eager to engage in His devotional service, prays to Him for His mercy." (Kathopanisad 1.2.23)

We can discuss various incarnations and expanded form but there is just nothing like the real thing. And sometimes you have to see something in real life to fully appreciate its beauty.

As in the example of Jamun that the descriptions just don't do justice and are prone to interpretations by our own thoughts and understandings. But they are a guide nonetheless. To those who are bound in devotion these minor details are not a matter of divisions. The senses are imperfect, and we are colour blind to the colors outside our visible spectrum. But because we cannot conceive the beauty of God to consider him formless is folly. Is it not imposing our handicap on a superior being? The clouds are too small to cover the Sun, they actually are closer to us and cover our small eyes [#soulfamily](#).

"My dear Lord, I have practiced austerities and penances because I was desiring to receive something from You, but in exchange You have allowed me to see You, who are never visible even to the great sages and saintly persons.

I had been searching out some pieces of broken glass, but instead I have found the most valuable jewel. I am therefore fully satisfied, my Lord. I do not wish to ask anything more from Your Lordship."- Dhruva to Lord Vishnu (Hari Bhakti Sudhodaya)

The Demigods in their prayers describe Lord Krishna/Vishnu but we can only make a best guess based on their descriptions. It is possible that the true shade is darker or lighter shade of what we imagined. But does that take the spiritual beauty and potency away?

"I worship Govinda, the primeval Lord, who is adept in playing on His flute, with blooming eyes like lotus petals with head decked with peacock's feather, with the figure of beauty tinged with the hue of blue clouds, and His unique loveliness charming millions of Cupids."- Bramha Samhita 5.30

"I offer my respects to Radharani, whose bodily complexion is like molten gold and who is the Queen of Vrindavana. You are the daughter of King Vrisabhanu, and You are very dear to Lord Krishna."- Prayer for Radha

Now you can imagine all the shades of Bluish Clouds and Molten Gold but it may never do justice in describing the Supreme Personalities. It does not mean they don't exist. As children of God we are created in the image of God with subtle changes. God and Demigods are not Indian or African or European or Asian. They may be any or all. Just don't be biased to your kind of race. Rise in God/Krishna consciousness!

22. GOD'S MAINTENANCE TEAM

Talking about Worshipers of Govinda or Vishnu as the Deity of Mode of Goodness, work in devotion as a matter of duty is paramount. Since Lord Vishnu is the maintainer his followers, the Vaishnavas are on both sides, the Creator Brahma and Destroyer Siva. As the balance between the two Lord Vishnu is all about Order and Justice.

The three worlds are divided among the three deities. The Great sages and progenitors are seeders of civilization under the leadership of Brahma, occupy the higher worlds, Lord Siva is most concerned with end destructions and his followers manage similar affairs by playing their part.

Bringing balance in chaotic world is about minor corrections, balancing the scales in favour of good/Dharma and removing the heavy weightedness of Bad/Adharma. It is an ongoing affair as long as material universe exists.

"Whenever and wherever there is a decline in religious practice, O descendant of Bharata, and a predominant rise of irreligion—at that time I descend Myself.

In order to DELIVER THE PIOUS and to ANNIHILATE THE MISCREANTS, as well as to REESTABLISH THE PRINCIPLES OF RELIGION, I advent Myself millennium after millennium."- Krishna (Bhagavad Gita 4.7-8)

The three step process is carried out by devotees continuously as part of the MAINTENENCE TEAM. we just don't see it as easily.

"Those situated in the mode of goodness gradually go upward to the higher planets; those in the mode of passion live on the earthly planets; and those in the abominable mode of ignorance go down to the hellish worlds."- Krishna (Bhagavad Gita 14.18)

This information of the Demigods and their Duties was common knowledge in the ancient Vedic civilization and previous Yugas.

"In the beginning of creation, the Lord of all creatures sent forth generations of men and demigods, along with sacrifices for Viṣṇu, and blessed them by saying, "Be thou happy by this yajña [sacrifice] because its performance will bestow upon you everything desirable for living happily and achieving liberation."

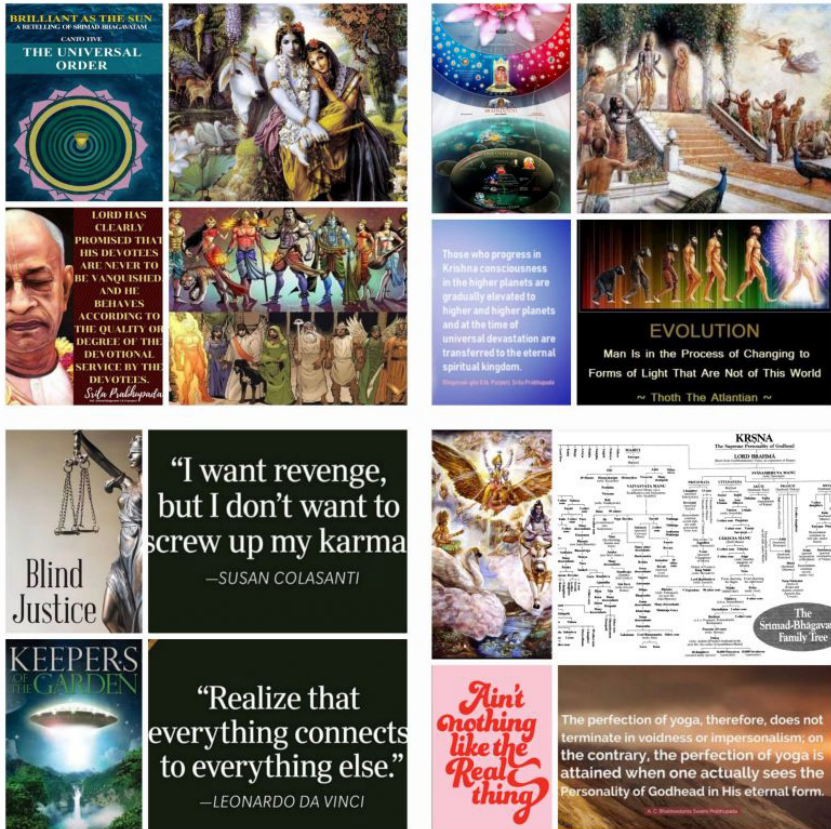

The demigods, being pleased by sacrifices, will also please you, and thus, by cooperation between men and demigods, prosperity will reign for all."- Krishna (Bhagavad Gita 3.10-11)

This maintenance has never stopped. We see some parts but we do not see the other parts. The disclosure of the hidden would allow us to see what we have already known from ancient literature. The shift in consciousness is necessary to accept the New World for what it Was.

"The demigods, being pleased by sacrifices, will also please you, and thus, by cooperation between men and demigods, prosperity will reign for all.

In charge of the various necessities of life, the demigods, being satisfied by the performance of yajña [sacrifice], will supply all necessities to you. But he who enjoys such gifts without offering them to the demigods in return is certainly a thief." - Krishna (Bhagavad Gita 3.11-12)

23. COMPASSIONATE JUSTICE

...Now Justice is all about compassion, after all One of the four Pillars of Dharma is Mercy. children? Even in the darkest times there is hope and love that is how the wheel of Time moves forward. Then we speak of God and his Justice how can there be eternal damnation when we are all his children?

"The living entities in this conditioned world are My eternal, fragmental parts. Due to conditioned life, they are struggling very hard with the six senses, which include the mind."- Krishna (Bhagavad Gita 15.7)

Every action has a reaction so does devotion. How else does Karma beat Destiny? This is the only True Karma we are here for. This is all we need for Liberation. Everyone is bound by Law and Order but the are rules of Higher Powers.

" I adore the primeval Lord Govinda, who burns up to their roots all fruitive activities of those who are imbued with devotion and impartially ordains for each the due enjoyment of the fruits of one's activities, of all those who walk in the path of work, in accordance with the chain of their previously performed works, no less in the case of the tiny insect that bears the name of indragopa than in that of Indra, king of the devas."- Bramha Samhita 5.54

Kings or Presidential Pardons are not an evolution of a modern society. It is an acquired knowledge of ancient past. But there are conditions for clemency in all cases. A desire to live in a Godly Society with God's rules and practice Dharma for a higher cause.

"Engage your mind always in thinking of Me, become My devotee, offer obeisances to Me and worship Me. Being completely absorbed in Me, surely you will come to Me."- Krishna (Bhagavad Gita 9.34)

This action is an action of choice and freewill. Parents desire welfare of their children but cannot want to force their children to love them.

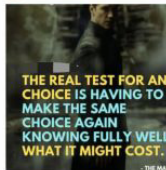

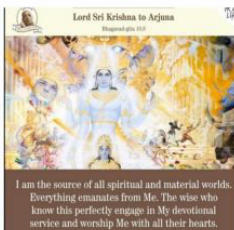

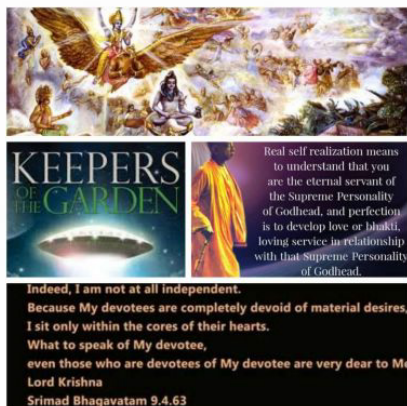

"O my Lord, Your holy name alone can render all benediction to living beings, and thus You have hundreds and millions of names like Krishna and Govinda. In these transcendental names You have invested all Your transcendental energies. There are not even hard and fast rules for chanting these names. O my Lord, out of kindness You enable us to easily approach You by Your holy names, but I am so unfortunate that I have no attraction for them."- Sri Shikshashtakam

This is a lesson in itself. People have to desire the highest goal and all else will follow [#soulfamily](#).

"When they have thus enjoyed vast heavenly sense pleasure and the results of their pious activities are exhausted, they return to this mortal planet again. Thus those who seek sense enjoyment by adhering to the principles of the three Vedas achieve only repeated birth and death.

But those who always worship Me with exclusive devotion, meditating on My transcendental form – to them I carry what they lack, and I preserve what they have.

Those who are devotees of other gods and who worship them with faith actually worship only Me, O son of Kuntī, but they do so in a wrong way."- Krishna (Bhagavad Gita 9.21-22)

Unless there is a spiritual transformation in people's hearts, there cannot be a sustainable change in the way that we treat each other in this world.

There is good and bad in everyone. We all need to win and fail. This is how we grow.

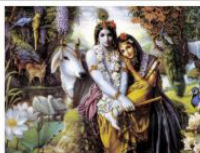

YOU CAN'T TRULY CALL YOURSELF "PEACEFUL" UNLESS YOU ARE CAPABLE OF GREAT VIOLENCE. IF YOU'RE NOT CAPABLE OF VIOLENCE, YOU'RE NOT PEACEFUL, YOU'RE HARMLESS!

IMPORTANT DISTINCTION

Om, May all become happy, May none fall ill,
May all see auspiciousness everywhere,
May none ever feel sorrow,
Om, Peace, Peace, Peace.

The four pillars of dharma are summarized in SB 7.11.8

- o Satyam – the principle of truthfulness
- o Daya – the principle of compassion or mercy
- o Tapah – the principle of austerity or discipline
- o Saucam – the principle of purity or cleanliness

24. FREQUENCIES OF CHANGE

If compassion, Truthfulness, Purity and Austerity, the four legs of Dharma could be communicated as frequencies like the internet then would it make a difference? Would people and societies change for the better or for worse?

Some may question if it is ethical to broadcast such frequencies and would they be in violation of freewill? Do we believe or not that people and society are ready and qualified to accept such higher frequencies? Have lightworkers not tried to help? People diametrically opposed in views may feel confusion, mental crisis and chaos in their beliefs. A time of War within and Great Reset. People ready to receive the higher frequencies may welcome the change in the Great Awakening [#soulfamily](#). Time and Tide wait for no man.

The shift in consciousness is a cyclical phenomenon as frequencies go up and down so it is the very cause of nature itself it cannot be stopped no more than one can block the Sun. The Sun is central to the changes to our Day and Night, the passing of seasons etc. It is bound to its higher duties and as such must be in constant motion to drive change that is the nature of Time.

The interpretation of the higher frequencies may vary based on one's cultural background but if they don't see God's part and parcel in all and Unity in Diversity then there is a problem. Those who don't see the Eternal/Santan Dharma principles operating in Nature will find the shift shaking their Fixed beliefs. The turbulence is a reflection of one's inflexible approach, that which will not bend will break in the End Times.

The evolution of time affects mind and body and habits will need to adjust to nature of higher consciousness. The DNA of Space and Time spirals up and down to all possibilities of destiny, how we choose to evolve is a matter of karma.

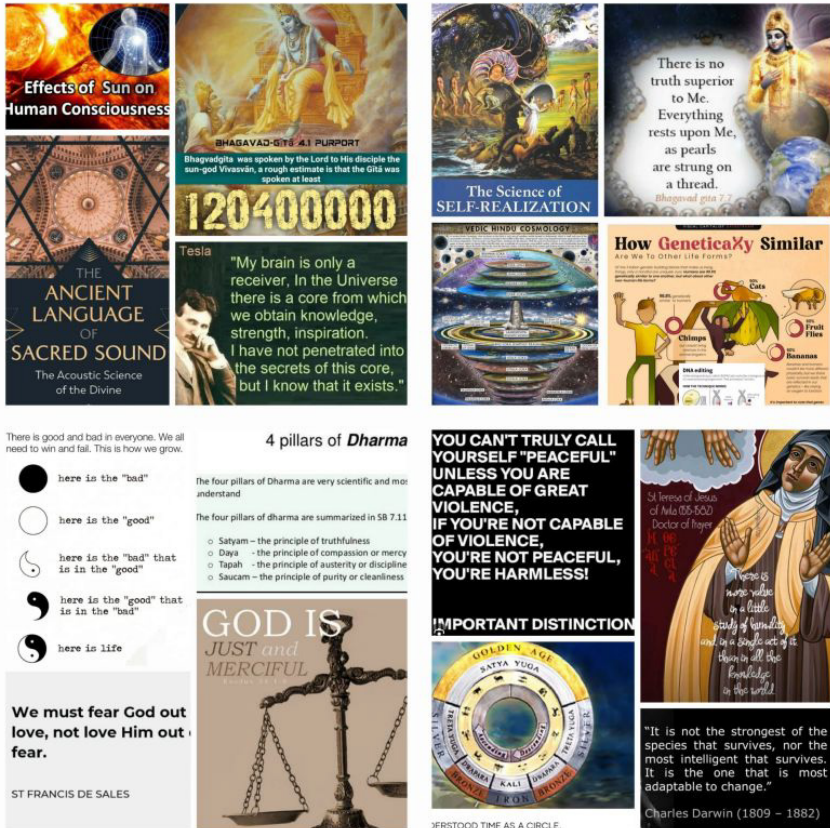

"Eating, sleeping, fearing, and mating are the four principles of animal life. These are common both to animals and to human beings. But religion is the extra function of the human being. Without religion, human life is no better than animal life."- Mahabharat

Not everyone is moved by Love, some beliefs do not change until Fear plays a part. It is the diversity of nature and cycles.

"The terrible fear of birth and death can never be forsaken by anyone who resorts to any shelter other than Myself, for I am the almighty Lord, the Supreme Personality of Godhead, the original source of all creation, and also the Supreme Soul of all souls.

It is because of My supremacy that the wind blows, out of fear of Me; the sun shines out of fear of Me, and the lord of the clouds, Indra, sends forth showers out of fear of Me. Fire burns out of fear of Me, and death goes about taking its toll out of fear of Me.

The yogīs, equipped with transcendental knowledge and renunciation and engaged in devotional service for their eternal benefit, take shelter of My lotus feet, and since I am the Lord, they are thus eligible to enter into the kingdom of Godhead without fear."- Srimad Bhagvatam 3.15.41-42

25. RINGS OF POWER

Rings are glorified belts. They indicate commitment or self-imposed entrapments whether it be the jewel itself or the relationship or authority that comes with it.

The ring binds one to structure- to keep something from coming in or something from going out. A wall of protection or a prison system with rules of engagement. The truth granular to the level of an atom or cell.

Diplomacy of elected leaders is much the same, it is glorified authority that begins to weave rings of deceit for protection of some valued jewelry. Before one knows it people are committed to so much lies in the relationships that the truth and virtues are nowhere to be found.

The higher the authority the higher the level of secrecy in the circles of influence. The diplomats may be national, international or interplanetary, what truth finds itself within closed doors also finds a way to justify staying there.

This is why there is an alarm clock on all truths and it is not controlled by men so prone to corruption. The Sun and the Saturn make their own rings and there are rings of Time and consciousness that create the revelations for all [#soulfamily](#).

As discussed, in diversity, some respond to love and some who respond to fear. Truth and Knowledge is meant to be distributed freely based on people's consciousness, skills and qualifications for everyone's benefit.

"According to the three modes of material nature and the work associated with them, the four divisions of human society are created by Me. And although I am the creator of this system, you should know that I am yet the nondoer, being unchangeable.

There is no work that affects Me; nor do I aspire for the fruits of action. One who understands this truth about Me also does not become entangled in the fruitive reactions of work.

All the liberated souls in ancient times acted with this understanding of My transcendental nature. Therefore, you should perform your duty, following in their footsteps.

Even the intelligent are bewildered in determining what is action and what is inaction. Now I shall explain to you what action is, knowing which you shall be liberated from all misfortune.

One who sees inaction in action and action in inaction is intelligent among men, and he is in the transcendental position, although engaged in all sorts of activities.

One is understood to be in full knowledge whose every endeavor is devoid of desire for sense gratification. He is said by sages to be a worker for whom the reactions of work have been burned up by the fire of perfect knowledge.

Abandoning all attachment to the results of his activities, ever satisfied and independent, he performs no fruitive action, although engaged in all kinds of undertakings.

Such a man of understanding acts with mind and intelligence perfectly controlled, gives up all sense of proprietorship over his possessions and acts only for the bare necessities of life. Thus working, he is not affected by sinful reactions."- Krishna (Bhagavad Gita 4.12-21)

26. HEROES OR VILLAINS?

It is interesting how Heros and Villains become a matter of perspective based on the propaganda sold to the general public. The good becomes bad and in another case the bad becomes Good. Justice is justified depending on which side one is sold to.

When we begin to buy into realities that are sold to us onscreen, we dumb down our sensations to believe the Leader, movie, news media or statistics. Our intellect and conscience is put to sleep in the darkness, unawake to common law and sense.

Similar illusions play out in real life daily too; in unjustified and insensitive wars of religions, races or against torture of animals and environment. People want to make their Nation/Religion Great Again, regain Power and Influence. But should it come at the cost of others as it once did? Should there be more injustices?

“The personality of religion (Dharma) said: ...O greatest among human beings, it is very difficult to ascertain the particular miscreant who has caused our sufferings, because we are bewildered by all the different opinions of theoretical philosophers.

Some of the philosophers, who deny all sorts of duality, declare that one's own self is responsible for his personal happiness and distress. Others say that superhuman powers are responsible, while yet others say that activity is responsible, and the gross materialists maintain that nature is the ultimate cause.

There are also some thinkers who believe that no one can ascertain the cause of distress by argumentation, nor know it by imagination, nor express it by words.

O sage amongst kings, judge for yourself by thinking over all this with your own intelligence.” – Srimad Bhagvatam 1.17.17-20

We are at the cusp of profound chaos and change. Some seek justice and some seek forgiveness and yet others are still sunk in materialistic ways looking for new opportunities for profits. Without understanding of laws Dharma and Karma one will always blame others for their misery. If What goes around comes around, then what is the duty of Leaders?

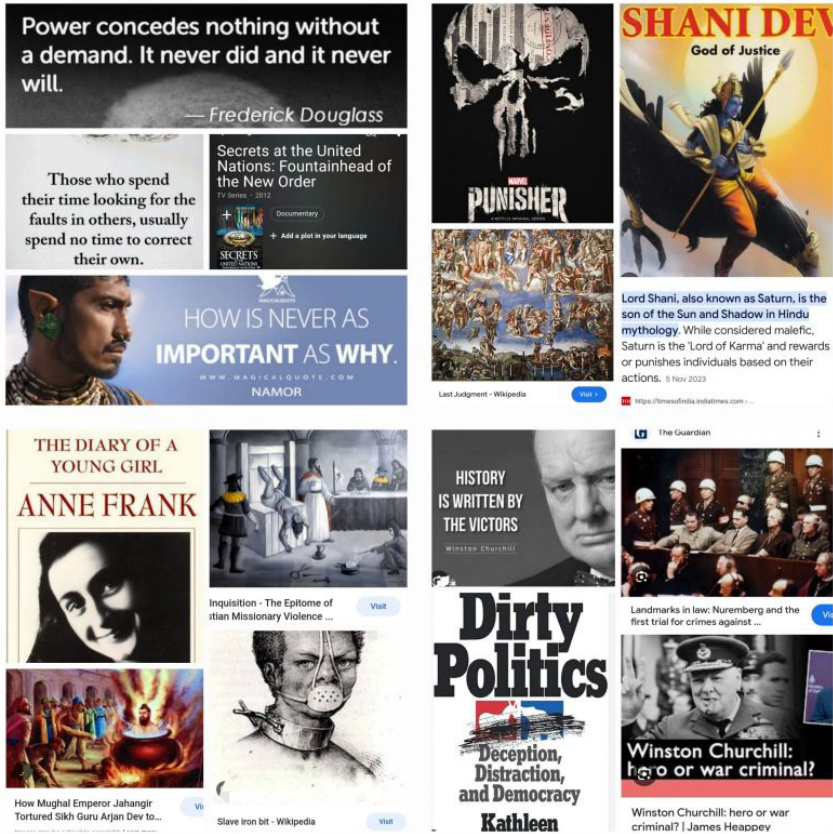

"When the personality of Kali-Yuga understood that the King was willing to kill him, he at once abandoned the dress of a king and, under pressure of fear, completely surrendered to him, bowing his head.

Mahārāja Parīkṣit, who was qualified to accept surrender and worthy of being sung in history, did not kill the poor surrendered and fallen Kali, but smiled compassionately, for he was kind to the poor.

The King thus said: We have inherited the fame of Arjuna; therefore since you have surrendered yourself with folded hands you need not fear for your life. But you cannot remain in my kingdom, for you are the friend of irreligion.

If the personality of Kali, irreligion, is allowed to act as a man-god or an executive head, certainly irreligious principles like greed, falsehood, robbery, incivility, treachery, misfortune, cheating, quarrel and vanity will abound."- Srimad Bhagvatam 1.17.29-30

What is way forward? How should Justice be delivered
[#soulfamily](#)?

27. JUDGING THE JURY

Even Judges passing judgements are not above the law. Long pages of validating arguments and laws are required to support a Judgement. God's words are the laws of Demigod administrators, this is why scriptural references and lectures are provided as support for delegated authorities.

"Real religious principles are enacted by the Supreme Personality of Godhead. Although fully situated in the mode of goodness, even the great ṛṣis who occupy the topmost planets cannot ascertain the real religious principles, nor can the demigods or the leaders of Siddhaloka, to say nothing of the asuras, ordinary human beings, Vidyādhara and Cāraṇas."- Srimad Bhagvatam 6.3.19

Our actions hold the visible patterns of discernable vibrations and energy. Our spiritual merits are incorporated into your being and character image which cannot be stolen or faked.

Justice and feedback can be delivered correctly if people see the facts hence there are life performance reviews. We live many lifetimes and each life carries only a small portion of reactions of good and bad karma to be cleared. The rest is for future lives or to be forgiven on account of good behavior and forgiveness being sought from God/Krishna who is one in all [#soulfamily](#).

The memory of past and current lives lies not outside but within, something people discover through past life regressions. This memory can be restored to understand what one did wrong in the past. It is therefore not easy to disassociate ourselves from the ugly history of the past just because we do not remember it.

What if it was possible to restore it all for all? We may have been the culprit, the victim or a bystander being of this or another planet. All the information of all lives is just waiting to be freed.

Would that recollection be sufficient evidence before justice is delivered? Would that drive humility, repentance, forgiveness and change? The judgement day of end times are built in to all beginnings.

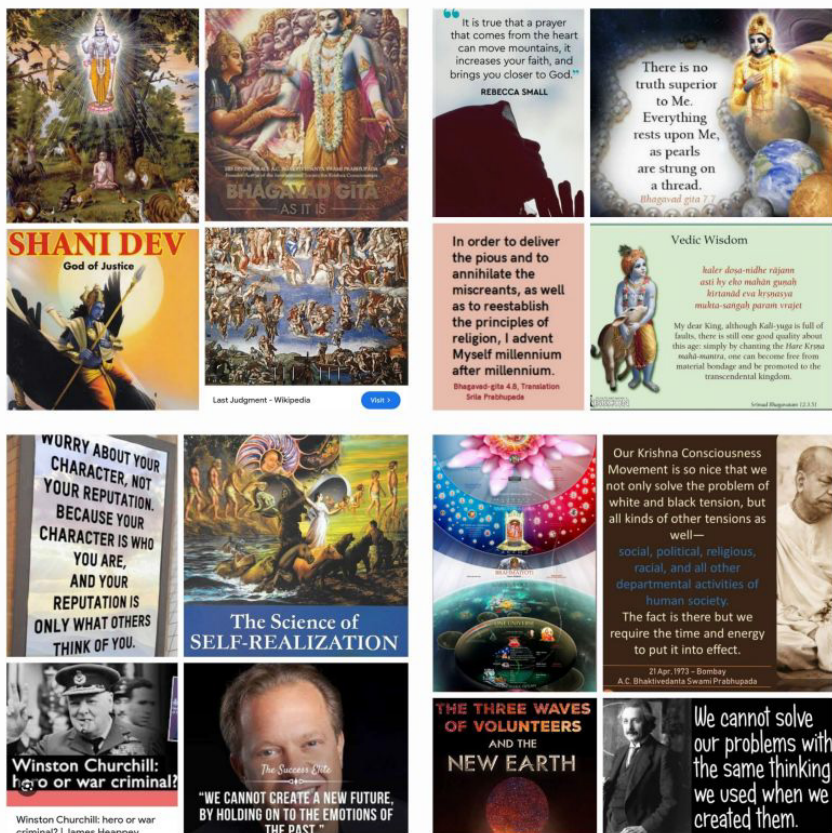

"For one who has taken his birth, death is certain; and for one who is dead, birth is certain. Therefore, in the unavoidable discharge of your duty, you should not lament."- Krishna (Bhagavad Gita 2.27)

A humble blade of grass is not uprooted in a storm that destroys mighty trees. Humility, Prayers and Devotion are great protection at All Times.

"He quickly becomes righteous and attains lasting peace. O son of Kuntī, declare it boldly that My devotee never perishes."- Krishna (Bhagavad Gita 9.31)

As discussed in the story of Kali-yuga and King Parīkṣit mercy from God and Godly flows downwards naturally. Yet, to be recipient of such mercy one still needs to act and hold out their hand to receive. Freewill and choice is available to all, and each one by their desires finds a resonating shelter be it Divine to Demonic. The rewards and punishment are set by law accordingly.

"As all surrender unto Me, I reward them accordingly. Everyone follows My path in all respects, O son of Pṛthā."- Krishna (Bhagavad Gita 4.11)

28. ABSOLUTE LEADERSHIP

No matter how experienced a judge, unprecedented cases always present a challenge. The safety net of prior cases does not exist and any decision risks being challenged as radical.

We live in a society where the society seems to struggle to make the most basic discernments and agree on obvious definitions. Evil seem to thrive and peaceful God loving seem to struggle. Anything unfavorable in the eyes of the powerful appears radical, unjustified and is challenged. The authorities seem to lack the authority and conviction.

It is for this reason that God incarnates again and again; to set precedence for the society and the operation of law and Order. The incarnations appear like the Sun casting light of their Character that stays with population for a millennium. Lord Ram know as Purushottam or the best amongst men set the highest standards for his Time. The incarnation of Lord Parshuram set new precedence in battles against the powerful evil.

Lord Krishna spoke the manual for Human life knows as Bhagvad Gita. Dictating the various types of Yoga, the characteristics of Divine and Demonic and showing all in the path of Dharma. He guided by his instructions and actions on how to be liberated of materialism and fear in the discharge of duties. Only with such understanding can we judge what is to be done and not done and how the judges of our times need to act.

"Men in this world desire success in fruitive activities, and therefore they worship the demigods. Quickly, of course, men get results from fruitive work in this world.

According to the three modes of material nature and the work associated with them, the four divisions of human society are created by Me. And although I am the creator of this system, you should know that I am yet the nondoer, being unchangeable.

There is no work that affects Me; nor do I aspire for the fruits of action. One who understands this truth about Me also does not become entangled in the fruitive reactions of work.

All the liberated souls in ancient times acted with this understanding of My transcendental nature. Therefore, you should perform your duty, following in their footsteps."- Krishna (Bhagavad Gita 4.12-15)

Because he is God himself he doesn't take birth like everyone else. His appearance and activities are always transcendental and unprecedented. He makes a grand entrance and the style that cannot be copied!

"Vasudeva then saw the newborn child, who had very wonderful lotuslike eyes and who bore in His four hands the four weapons śaṅkha, cakra, gadā and padma. On His chest was the mark of Śrīvatsa and on His neck the brilliant Kaustubha gem. Dressed in yellow, His body blackish like a dense cloud, His scattered hair fully grown, and His helmet and earrings sparkling uncommonly with the valuable gem Vaidūrya, the child, decorated with a brilliant belt, armlets, bangles and other ornaments, appeared very wonderful" sb 10.3.9-10

29. MANAGER TO LEADER

Leadership is not being about being told what to do. It's about doing what needs to be done. Most people managing people qualify themselves as leaders when most of them are really not doing anything for the people they lead. They are just helping manage status quo at a lower level of engagement.

Leadership means doing the pleasant and the unpleasant for the greater good. Unfortunately, most people align the greater good with their jobs, the profitability of their company and the happiness of their bosses in whichever form that may come. It's not Leadership it's a well behaved slavery.

When people cannot do what they want to do, cannot not do what they do not want to do, when their freedom and time is subject to someone else's discretion then they are not independent. They are behaving as they are told by the boss/political manager to get in line and fit in. The freewill and ability to question, learn and grow does not exist.

Vedic scriptures are all about questions and answers. To seek the purpose of life and duties so that one can fulfill their role and goals that suit their desires and contribute to the greater good.

"Sañjaya said: Seeing Arjuna full of compassion, his mind depressed, his eyes full of tears, Madhusūdana, Kṛṣṇa, spoke the following words.

The Supreme Personality of Godhead said: My dear Arjuna, how have these impurities come upon you? They are not at all befitting a man who knows the value of life. They lead not to higher planets but to infamy.

O son of Prthā, do not yield to this degrading impotence. It does not become you. Give up such petty weakness of heart and arise, O chastiser of the enemy."- Bhagavad Gita 2.1-3

Leadership is about rising to the occasion when people have lost hope and direction.

"Now I am confused about my duty and have lost all composure because of miserly weakness. In this condition I am asking You to tell me for certain what is best for me. Now I am Your disciple, and a soul surrendered unto You. Please instruct me.

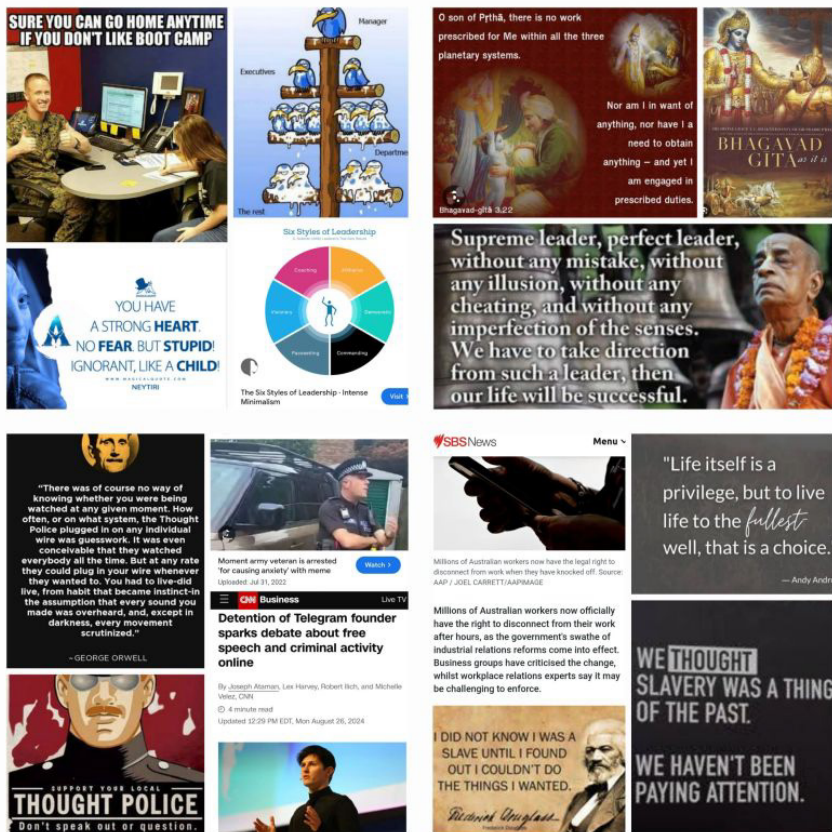

I can find no means to drive away this grief which is drying up my senses. I will not be able to dispel it even if I win a prosperous, unrivaled kingdom on earth with sovereignty like the demigods in heaven.

Sañjaya said: Having spoken thus, Arjuna, chastiser of enemies, told Kṛṣṇa, "Govinda, I shall not fight," and fell silent.

O descendant of Bharata, at that time Kṛṣṇa, smiling, in the midst of both the armies, spoke the following words to the grief-stricken Arjuna."- Bhagavad Gita 2.7-10

Confusions arise time and again and that is why Leaders are required. Leadership is about clear vision and goals, it's about honesty and integrity. And Noone has better clarity and can speak the absolute truth like God himself [#soulfamily](#).

The Bhagavad Gita is about many questions and answers on the battlefield. It's very specific to everyone and can guide anyone in their Dharma and Karma in all circumstances of life. Honouring freewill, growth and evolution that is the very nature of life.

30. ASSISTANCE FROM ABOVE

This one is interesting. The references came in the dream and the timing is so perfect to appearance day of Krishna/ Krishna Janmashtmi and the last few posts that I am guided post it. That said, I would encourage you to read it 'AS IT IS'.

"Śukadeva Gosvāmī continued: My dear King Parīkṣit, the doors inside and outside the house closed as before. Thereafter, the inhabitants of the house, especially the watchmen, heard the crying of the newborn child and thus awakened from their beds."- Srimad Bhagvatam 10.4.1

Purport to SB 10.4.1 by Srila Prabhupad

'The activities of Yoga-māyā are distinctly visible in this chapter, in which Devakī and Vasudeva excuse Kāṁsa for his many devious, atrocious activities and Kāṁsa becomes repentant and falls at their feet. Before the awakening of the watchmen and the others in the prison house, many other things happened. Kṛṣṇa was born and transferred to the home of Yaśodā in Gokula, the strong doors opened and again closed, and Vasudeva resumed his former condition of being shackled. The watchmen, however, could not understand all this. They awakened only when they heard the crying of the newborn child, Yoga-māyā.

Śrīla Viśvanātha Cakravartī Ṭhākura has remarked that the watchmen were just like dogs. At night the dogs in the street act like watchmen. If one dog barks, many other dogs immediately follow it by barking. Although the street dogs are not appointed by anyone to act as watchmen, they think they are responsible for protecting the neighborhood, and as soon as someone unknown enters it, they all begin to bark.

Both Yoga-māyā and Mahā-māyā act in all material activities (prakṛteḥ kriyamāṇāni guṇaiḥ karmāṇi sarvaśaḥ), but although the energy of the Supreme Personality of Godhead acts under the Supreme Lord's direction (mayādhyakṣeṇa prakṛtiḥ sūyate sa-carācaram), doglike watchmen such as politicians and diplomats think that they are protecting their neighborhoods from the dangers of the outside world. These are the actions of māyā. But one who surrenders to Kṛṣṇa is relieved of the protection afforded by the dogs and doglike guardians of this material world.'

"Thereafter, all the watchmen very quickly approached King Kāṁsa, the ruler of the Bhoja dynasty, and submitted the news of the birth of Devakī's child. Kāṁsa, who had awaited this news very anxiously, immediately took action."- Srimad Bhagvatam 10.4.2

Purport for 10.4.2

Kāṁsa was very anxiously waiting because of the prophecy that the eighth child of Devakī would kill him. This time, naturally, he was awake and waiting, and when the watchmen approached him, he immediately took action to kill the child.

The most powerful of Demons of the past have tried their luck to form Godless Societies on Earth, but they fail ever time. Kansa knew Krishna was going to appear, he made all the arrangements and yet...he could not prevent what was to come. God/Krishna is all Space and Time itself [#soulfamily](#). Anything else is just speculation.

31. RAGS TO RICHES

Everyone loves a Rags to Riches story. From being in Shark Tank or Dragons Den to be the Shark or the Dragon. The story of misfortunes, failures, discipline, hard work and the success. No one knows the journey until you are a success.

The story is all too familiar in the material world of measurable financial success what does it mean for aspirants of Spiritual success? Is it Self-realisation, Knowledge, Humility or Liberation that is the desired goal and success?

"Because a devotee of Lord Kṛṣṇa is desireless, he is peaceful. Fruitive workers desire material enjoyment, jñānīs desire liberation, and yogīs desire material opulence; therefore they are all lusty and cannot be peaceful."- Chaitanya Charitamrata Madhya 19.149

Being desireless is not the same as being fruitless? For the reward of devotion is devotion itself.

"Śrī Caitanya Mahāprabhu continued, "Now hear, O Sanātana, about the result of devotional service, which is love of Godhead, life's ultimate goal. One who hears this description will be enlightened in the transcendental mellows of devotional service.

When affection for Kṛṣṇa becomes deeper, one attains love of Godhead in devotional service. Such a position is called sthāyī-bhāva, permanent enjoyment of the mellows of devotional service to Kṛṣṇa.

When devotional service is executed on the transcendental platform of pure goodness, it is like a sun-ray of love for Kṛṣṇa.

At such a time, devotional service causes the heart to be softened by various tastes, and one is then situated in bhāva [emotion].

Bhāva [emotion] has two different symptoms — constitutional and marginal. Now, My dear Sanātana, listen to the symptoms of love.

When that bhāva softens the heart completely, becomes endowed with a great feeling of possessiveness in relation to the Lord and becomes very much condensed and intensified, it is called prema [love of Godhead] by learned scholars.

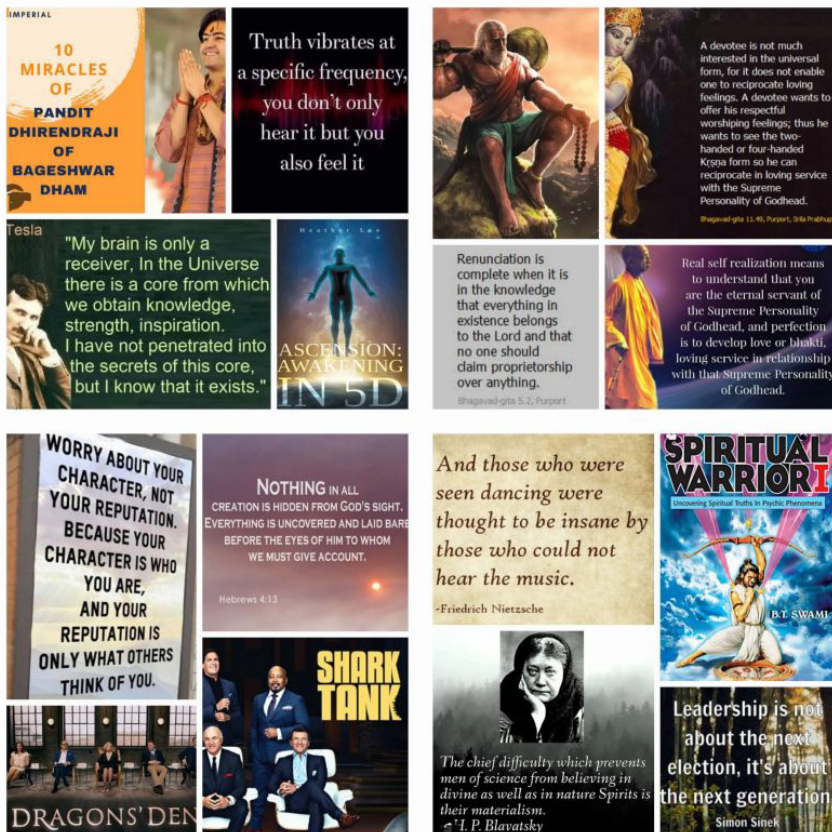

When one develops an unflinching sense of ownership or possessiveness in relation to Lord Viṣṇu, or, in other words, when one thinks Viṣṇu and no one else to be the only object of love, such an awakening is called bhakti [devotion] by exalted persons like Bhīṣma, Prahlāda, Uddhava and Nārada."- Chaintanya Charitamrata Madhya 23.3-8

As per examples above, the Rags to Riches story of the Devotees can take many forms of material or spiritual opulences for the purpose of providing Leadership and service to others in God consciousness.

"Things should be accepted for the Lord's service and not for one's personal sense gratification. If one accepts something without attachment and accepts it because it is related to Kṛṣṇa, one's renunciation is called yuktaṁ vairāgyam. Whatever is favorable for the rendering of service to the Lord should be accepted and should not be rejected as a material thing." (Bhakti-rasāmṛta-sindhu 1.2.255-256)

32. HEALTH IS WEALTH

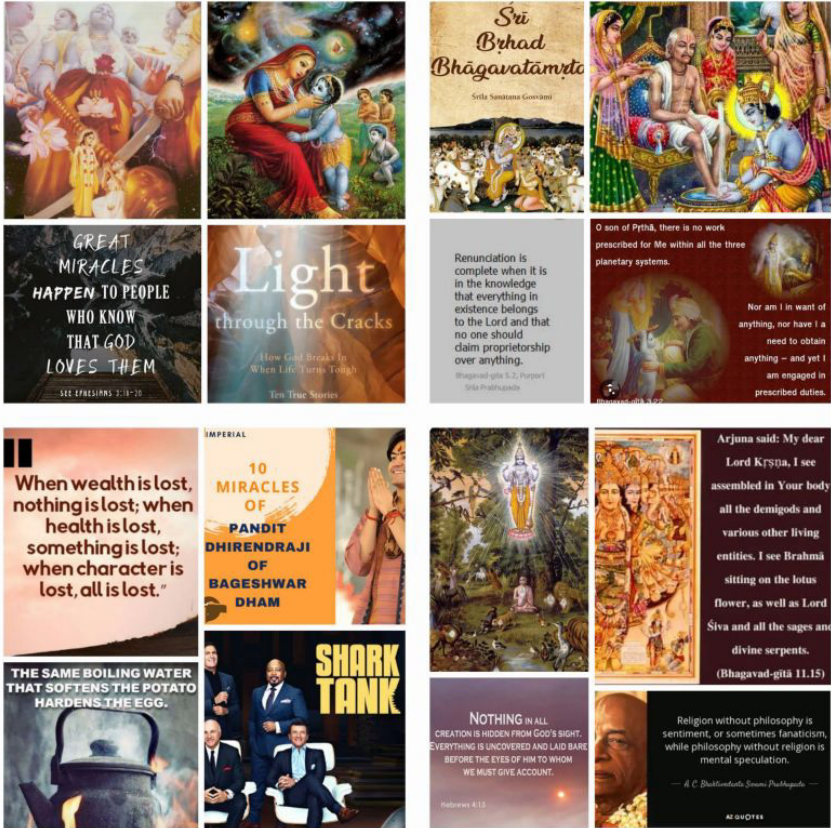

Continuing.. Passing the theory tests for any career opportunities can be easy, the practical though can be a very different game. When we speak of surrender to God, Wealth, Time and Power are still easier to surrender. The tests relating to surrender of body/health are most challenging.

Śrīla Sanātana Gosvāmī came alone from Mathurā to Jagannātha Purī to see Lord Caitanya. Because of bathing in bad water and not getting enough food every day while traveling on the path through Jhārikhaṇḍa (Jharkhand) Forest, he developed a disease that made his body itch. Suffering greatly from this itching, he resolved that in the presence of Śrī Caitanya Mahāprabhu he would throw himself under the wheel of Jagannātha's car and in this way commit suicide.

When Sanātana Gosvāmī came to Jagannātha Purī, he stayed under the care of Haridāsa Ṭhākura for some time, and Śrī Caitanya Mahāprabhu was very happy to see him. The Lord informed Sanātana Gosvāmī about the death of his younger brother Anupama, who had great faith in the lotus feet of Lord Rāmacandra. One day Śrī Caitanya Mahāprabhu said to Sanātana Gosvāmī, "Your decision to commit suicide is the result of the mode of ignorance. One cannot get love of God simply by committing suicide. You have already dedicated your life and body to My service; therefore your body does not belong to you, nor do you have any right to commit suicide. I have to execute many devotional services through your body. I want you to preach the cult of devotional service and go to Vṛndāvana to excavate the lost holy places." After having thus spoken, Śrī Caitanya Mahāprabhu left, and Haridāsa Ṭhākura and Sanātana Gosvāmī had many talks about this subject..

Because his disease produced wet sores on his body, Sanātana Gosvāmī used to avoid embracing Śrī Caitanya Mahāprabhu, but nevertheless the Lord would embrace him by force. This made Sanātana Gosvāmī very unhappy, and therefore he consulted Jagadānanda Paṇḍita about what he should do. Jagadānanda advised him to return to Vṛndāvana after the car festival of Jagannātha, but when Śrī Caitanya Mahāprabhu heard about this instruction, He chastised Jagadānanda Paṇḍita and reminded him that Sanātana Gosvāmī was senior to him and also more learned. Śrī Caitanya Mahāprabhu informed Sanātana Gosvāmī that because Sanātana was a pure devotee, the Lord was never inconvenienced by his bodily condition. Because the Lord was a sannyāsī, He did not consider one body better than another. The Lord also informed him that He was maintaining Sanātana and the other devotees just like a father. Therefore the moisture oozing from Sanātana's itching skin did not affect the Lord at all. After speaking with Sanātana Gosvāmī in this way, the Lord again embraced him, and after this embrace, Sanātana Gosvāmī became free from the disease.' - Summary of Chapter 4 of Chaitanya Charitamrata Antya Lila

There is always a greater plan in operation that we are not privy to. And God is always watching over [#soulfamily](#).

33. THE OPPORTUNITIES OF KALI-YUGA

Believe it or not people of the Golden ages/Satya-yuga desire to be born in Kali-yuga!

The population of Satya Yuga being almost like demigods lose attraction for what they have and therefore seeks the tests and triumphs that would take them further in their spiritual evolution [#soulfamily](#).

"My dear King, the inhabitants of Satya-yuga and other ages eagerly desire to take birth in this Age of Kali, since in this age there will be many devotees of the Supreme Lord, Nārāyaṇa. These devotees will appear in various places but will be especially numerous in South India. O master of men, in the Age of Kali those persons who drink the waters of the holy rivers of Draviḍa-deśa, such as the Tāmraparṇī, Kṛtamālā, Payasvinī, the extremely pious Kāverī and the Praticī Mahānadī, will almost all be purehearted devotees of the Supreme Personality of Godhead, Vāsudeva.

O King, one who has given up all material duties and has taken full shelter of the lotus feet of Mukunda/Krishna, who offers shelter to all, is not indebted to the demigods, great sages, ordinary living beings, relatives, friends, mankind or even one's forefathers who have passed away. Since all such classes of living entities are part and parcel of the Supreme Lord, one who has surrendered to the Lord's service has no need to serve such persons separately." Srimad Bhagvatam 11.5.21

Does the grass always seem to be greener on the other side or is there something tangible and important that we are unable to see from where we are?

The lifespan of the population in Golden ages is said to be tens of thousands of years and no dis-ease or disillusionment of the mind and body. In that clarity of consciousness, they desire to challenge themselves for liberation.

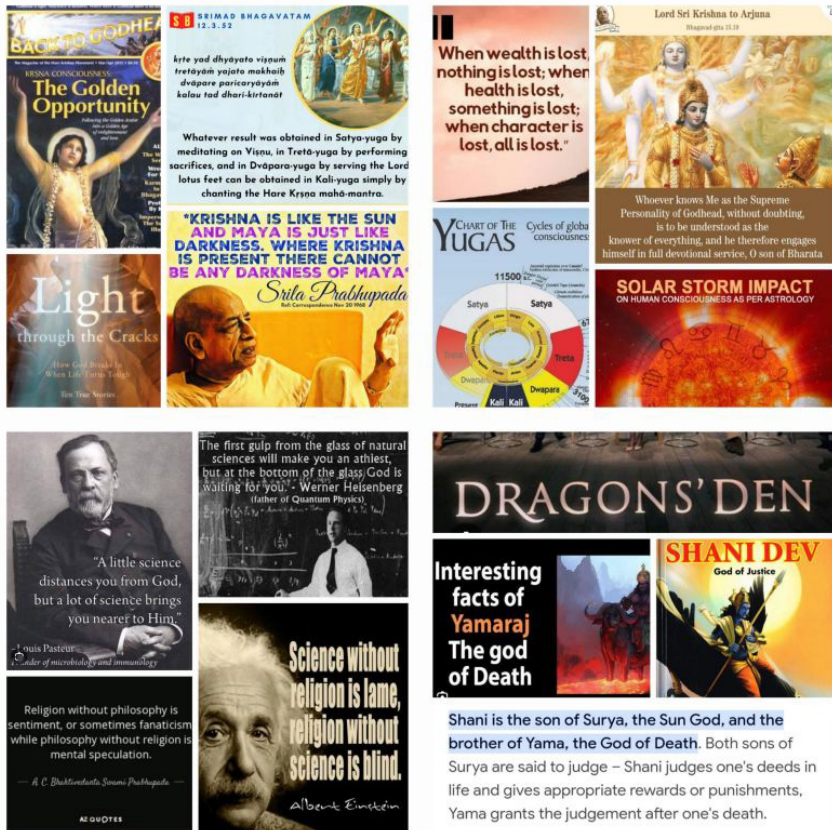

Perhaps some of us are already from a golden age that we left behind for a while for the short stint in the high stakes opportunities of Kali-yuga. We are being judged all the time and the simple act of devotional services is the investment required for evolutionary growth.

"Devotional service, beginning with the chanting of the holy name of the Lord, is the ultimate religious principle for the living entity in human society.

Therefore it should be understood that one is easily relieved from all sinful reactions by chanting the holy name of the Lord and chanting of His qualities and activities. This is the only process recommended for relief from sinful reactions. Even if one chants the holy name of the Lord with improper pronunciation, he will achieve relief from material bondage if he chants without offenses. Ajāmila, for example, was extremely sinful, but while dying he merely chanted the holy name, and although calling his son, he achieved complete liberation because he remembered the name of Nārāyaṇa."- Srimad Bhagvatam 6.3.22-24

All the Scientific theories of world cannot helpful when the Absolute outcome of life is certain. The above Historical/Puranic quote is by Yamarāja the knower of Dharma and a very qualified Judge of life.

34. SETTING THE STAGE

One may wonder why do we need series of posts to understand stories of God, Demigods, Dharma, Karma, Laws and Justice. Is it because the man-made Leaders and Laws are flawed? Our Leaders have imperfect senses and negligible self/sense control, how can then their creations be perfect? They rely on long investigations and justice is delivered based on the evidence available, if any. No evidence means no justice.

There are millions of pending cases, courtesy of the legal systems. Justice delayed is justice denied- is it not?

What if people could perceive the truth on their own? A knowing that can be validated? Would the requirements for physical evidence be required? Hiding truth legally by putting Hurdles in way of justice is corruption at its best.

Power corrupts and absolute power corrupts absolutely. Is it then possible to rely on the powerful to be fair and just? Be it Persons, Nations and Organizations all are hand in glove and none fair in self assessment of their crimes? The weak will never get justice if the times do not change. Power needs to change hands before justice can be delivered. The old system is to be destroyed and new one put in place.

By any account-ant the Accounts need to be balanced. That is the law of nature. It is fair and just on all levels of reality. All the man-made governments and courts of the world are full of the corrupt who are in-charge. Who will settle their accounts? Who has ability to see and show the truth and deliver justice with authority?

"The Yamadūtas said: Our dear lord, how many controllers or rulers are there in this material world? How many causes are responsible for manifesting the various results of activities performed under the three modes of material nature (Goodness, Passion, Ignorance)?

If in this universe there are many rulers and justices who disagree about punishment and reward, their contradictory actions will neutralize each other, and no one will be punished or rewarded. Otherwise, if their contradictory acts fail to neutralize each other, everyone will have to be both punished and rewarded.

The Yamadūtas continued: Since there are many different karmīs, or workers, there may be different judges or rulers to give them justice, but just as one central emperor controls different departmental rulers, there must be one supreme controller to guide all the judges.

The supreme judge must be one, not many. It was our understanding that you are that supreme judge and that you have jurisdiction even over the demigods. Our impression was that you are the master of all living entities, the supreme authority who discriminates between the pious and impious activities of all human beings."Srimad Bhagavatam 6.3-4-7

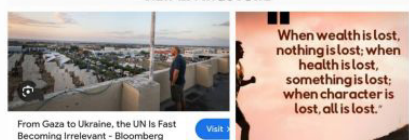

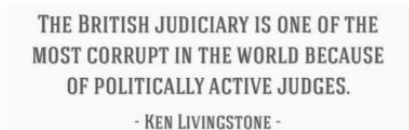

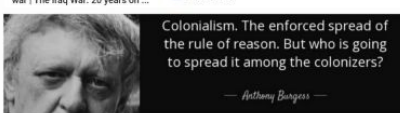

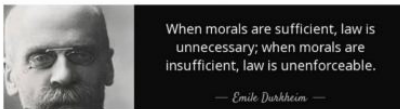

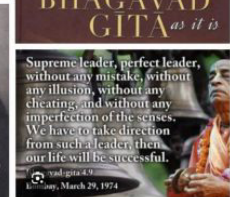

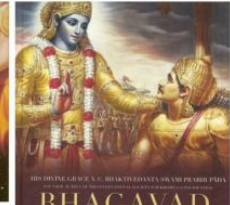

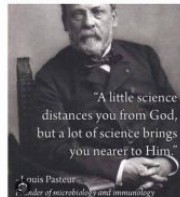

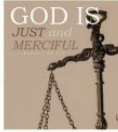

There are always higher beings and levels of jurisdictions and God/Krishna is the Supreme.

This is why the previous posts are important [#soulfamily](#). One cannot appeal for mercy in the highest court if one does not recognize it. The Science of Spirituality is Just and Merciful.

,

Shani is the son of Surya, the Sun God, and the brother of Yama, the God of Death. Both sons of Surya are said to judge – Shani judges one's deed life and gives appropriate rewards or punishment; Yama grants the judgement after one's death.

35. DESTROYING OLD SYSTEM

So why do the old systems need to be destroyed in the End Times? Because people will fight to preserve the old paradigms till the very end.

Be it the settled Science or Spirituality, the proponents of either do not wish to be questioned. All organized bodies of Science, History or Religion will do whatever it takes to maintain the status quo. These organized cults will call themselves Representatives of peace when violence is evident from the beginning till the end of the observed history.

The change of consciousness is the Awakening from the conditioned sleep that has allowed people to believe the lies. Unless that sleep/ hypnosis is destroyed people will not wake up to the truth that has been there all along. The Great Awakening must be a victory or light over dark. There is duality on many levels of the material matrix, in the Universal order.

Are there then higher forces of good and evil? Do people get to choose sides in wars? Have the ancient Demons and Demigods or Angels stopped existing? The histories are carved in stone yet we believe repeatedly edited books of paper; worse still are untraceable digital fake news.

Is it judicious to carve hard rocks just for the sake of fictional story telling? In cycles of Time the hard rocks maintain the history that was and the future that may will be because History does repeats itself. A positive change is necessary for new beginnings [#soulfamily](#).

"The sages said: Respected Sūta Gosvāmī, you are completely free from all vice. You are well versed in all the scriptures famous for religious life, and in the Purāṇas and the histories as well, for you have gone through them under proper guidance and have also explained them.

Being the eldest learned Vedāntist, O Sūta Gosvāmī, you are acquainted with the knowledge of Vyāsadeva, who is the incarnation of Godhead, and you also know other sages who are fully versed in all kinds of physical and metaphysical knowledge.

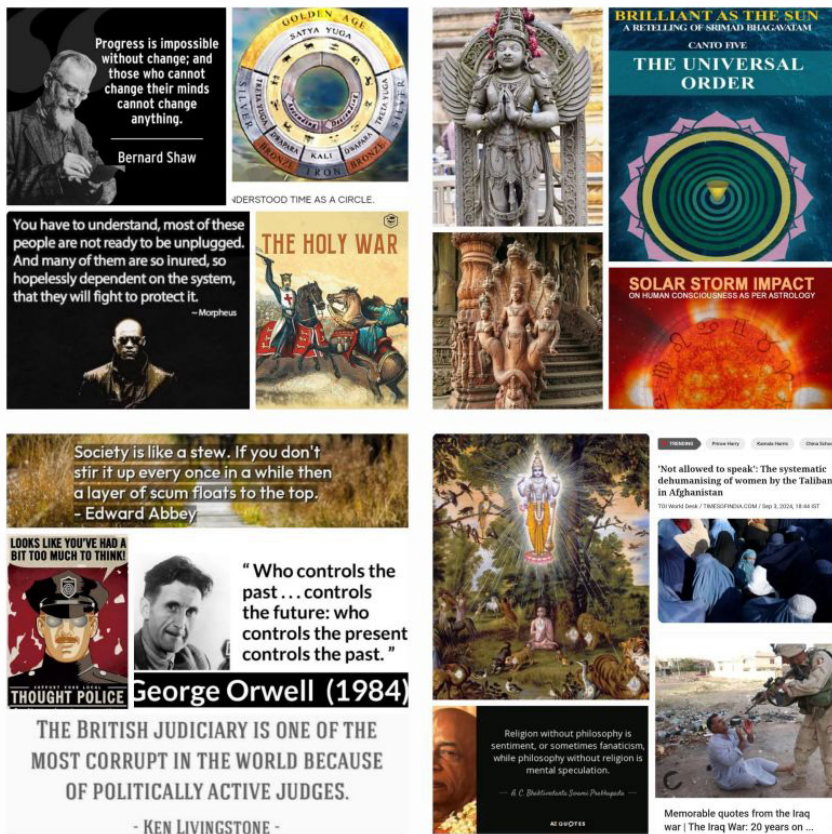

And because you are submissive, your spiritual masters have endowed you with all the favors bestowed upon a gentle disciple. Therefore you can tell us all that you have Scientifically learned from them.

Please, therefore, being blessed with many years, explain to us, in an easily understandable way, what you have ascertained to be the absolute and ultimate good for the people in general.

O learned one, in this iron Age of Kali men almost always have but short lives. They are quarrelsome, lazy, misguided, unlucky and, above all, always disturbed.

There are many varieties of scriptures, and in all of them there are many prescribed duties, which can be learned only after many years of study in their various divisions. Therefore, O sage, please select the essence of all these scriptures and explain it for the good of all living beings, that by such instruction their hearts may be fully satisfied."- Srimad Bhagvatam 1.1.6-11

Ancient system was not Government censored it was God centered. One Source of all species of life in Vedic Cosmos.

36. UNCENSORING THE VEILS

Talking about uncensoring, hopefully we are ready to see what we are not ready for. We restrict what our children see at different ages for good reasons. The relative importance of unseen agendas dictate perceptions of childhood and immature reality. Hopefully we are grown-up and well educated now capable of Spiritual strides.

The metaphysical structures of the Vedic cosmos works scientifically with various dimensions providing natural borders without walls. The maturity of our consciousness deciding what we can see and understand. We have limited means to investigate the higher truths beyond our individual abilities.

"The great Śukadeva Gosvāmī said: My dear King, there is no limit to the expansion of the Supreme Personality of Godhead's material energy. This material world is a transformation of the material qualities [Goodness, Passion, Ignorance], yet no one could possibly explain it perfectly, even in a lifetime as long as that of Brahmā. No one in the material world is perfect, and an imperfect person could not describe this material universe accurately, even after continued speculation. O King, I shall nevertheless try to explain to you the principal regions, such as Bhūloka, with their names, forms, measurements and various symptoms.

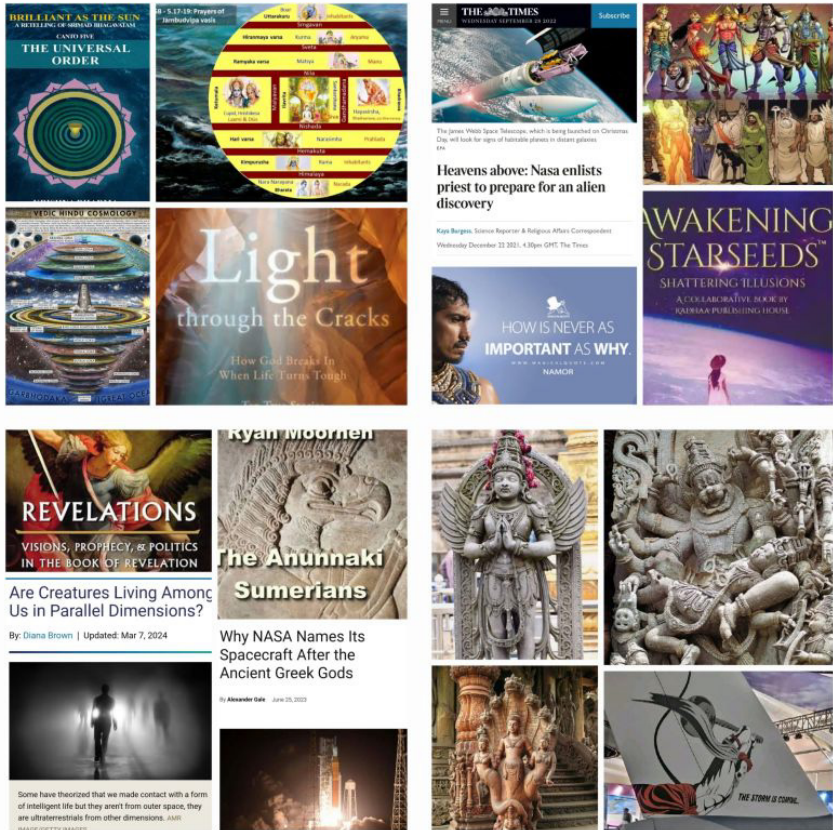

The planetary system known as Bhū-maṇḍala resembles a lotus flower, and its seven islands resemble the whorl of that flower. The length and breadth of the island known as Jambūdvīpa, which is situated in the middle of the whorl, are one million yojanas Jambūdvīpa is round like the leaf of a lotus flower.

In Jambūdīvā there are nine divisions of land, each with a length of 9,000 yojanas. There are eight mountains that mark the boundaries of these divisions and separate them nicely.

Amidst these divisions, or varṣas, is the varṣa named Ilāvṛta, which is situated in the middle of the whorl of the lotus. Within Ilāvṛta-varṣa is SUMERU Mountain, which is made of Gold. Sumeru Mountain is like the pericarp of the lotuslike Bhūmaṇḍala planetary system. The mountain's height is the same as the width of Jambūdīvā — or, in other words, 100,000 yojanas. Of that, 16,000 yojanas are within the earth, and therefore the mountain's height above the earth is 84,000 yojanas. The mountain's width is 32,000 yojanas at its summit and 16,000 yojanas at its base."- Srimad Bhagvatam 5.17.5-7

What comes through as legends or Puranic histories is interpreted through lense of cultural and geopolitical lineage. Only great monuments survived the deluge of time. Some information leaked through the cracks, providing suspicious knowledge of relativity of Space and Time. There is always an Extra to our Territory or Dimesion that we do not know if we do not or cannot travel. The higher knowledge has flowed from higher grounds of consciousness through few esoteric channels that broadend over time. Perhaps it's time for a shift in Strategy!

More light and mass awakening is now in order. Nothing can stop what is coming [#soulfamily](#).

37. MASS AWAKENING

How does a frog of the well verify the Oceans? How does an ant understand the vastness of the Continent it is a citizen of? Do ants even believe in humans? What does Contact mean to people who have no ability to grasp new concepts let alone verify them?

There is much faith in Spirituality and Science. There is much we don't understand and cannot explain. The unknown is in the realms of higher beings, and they start always with education in gradual steps of functions and operations before one can see the greater capabilities of Science or Spirituality. Often people like to use the rules and tools of one to measure the other.

Rules of BODMAS break if the brackets are removed. There is an answer but it is going to be wrong. In a Multidimensional reality one frequency translated cannot be translated in another for when it does it becomes that frequency and then difference is undetectable.

The world of Vedic cosmos is not visible on the frequencies of our perceptions. That is why the education comes from those who know and what is written becomes scriptures and what is sculpted becomes hard evidence.

Both natures operate simultaneously but the higher can view the lower not the other way round. Unless those on higher platform decide to make contact and show themselves [#soulfamily](#).

"Among the nine varṣas, the tract of land known as Bhārata-varṣa is understood to be the field of fruitive activities. Learned scholars and saintly persons declare the other eight varṣas to be meant for very highly elevated pious persons.

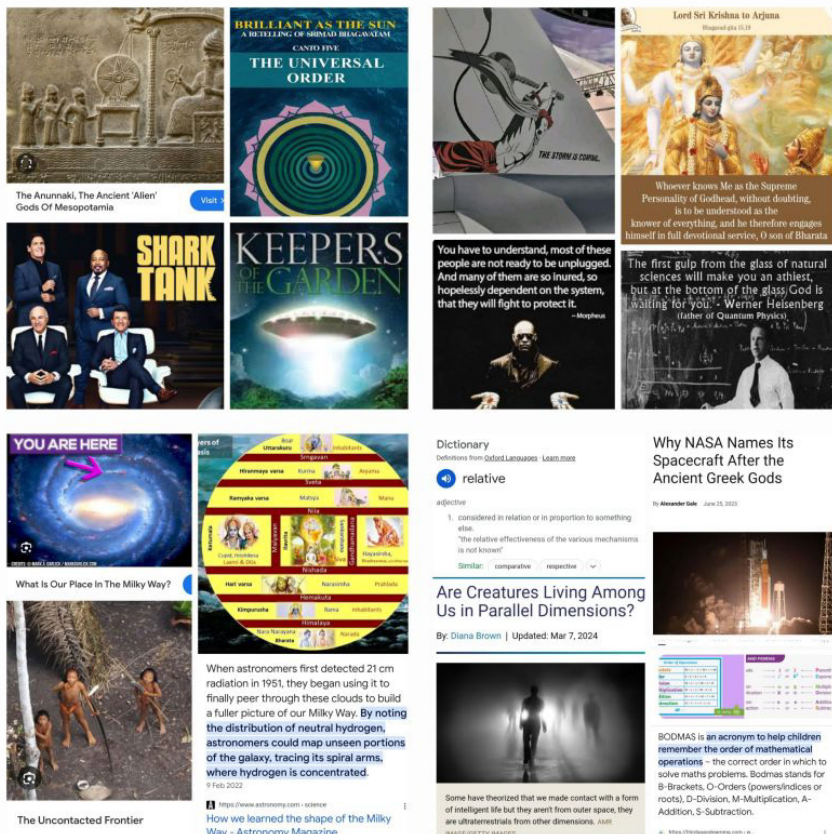

After returning from the heavenly planets, they enjoy the remaining results of their pious activities in these eight earthly varṣas.

In these eight varṣas, or tracts of land, human beings live ten thousand years according to earthly calculations. All the inhabitants are almost like demigods. They have the bodily strength of ten thousand elephants. Indeed, their bodies are as sturdy as thunderbolts. The youthful duration of their lives is very pleasing, and both men and women enjoy sexual union with great pleasure for a long time. After years of sensual pleasure — when a balance of one year of life remains — the wife conceives a child. Thus the standard of pleasure for the residents of these heavenly regions is exactly like that of the human beings who lived during Tretā-yuga.

...

To show mercy to His devotees in each of these nine tracts of land, the Supreme Personality of Godhead known as Nārāyaṇa expands Himself in His quadruple principles of Vāsudeva, Saṅkarṣaṇa, Pradyumna and Aniruddha. In this way He remains near His devotees to accept their service."- Srimad Bhagvatam 5.17.11-14

There is always an authority, a creation requires a creator. There are so many levels of observable creation below us then what is the problem believing that there are higher creations and creators. The histories of the world were once linked and we can verify the connections even today. They all link to One Supreme-Krishna who is studied through Devotion.

38. MORAL VS ETHICAL DILEMMAS

Continuing.. there are moral dilemmas and ethical dilemmas, because there are borders even in higher consciousness realms, what then can we speak of for circumstances we are in now.

Be it Space or Time there if there is lack of good heads on the shoulders the Leadership will let just about anyone or anything in. Gift of intellect and foresight is a required for Leadership so that they can practice discernable for long term greater good. Some injections into the society are like sugar in milk and some are like salt. Without proper filtration one does not know friend from foe.

When we are unable to look past the smaller physical differences then the higher differences are not going to be tolerated. Anyone alien is going to be forced to convert to the dominating view. Those controlled by lower Vibrational emotions are not likely to pass the higher hurdles. Therefore, some people cannot move forward in space or time of evolution.

There are layers of borders within our body too. They exist to maintain harmony. Without change in vibrations of consciousness the lower consciousness is unfit to enter the higher realms. There are many divisions in the Universal form of the Supreme Personality of Godhead [#soulfamily](#).

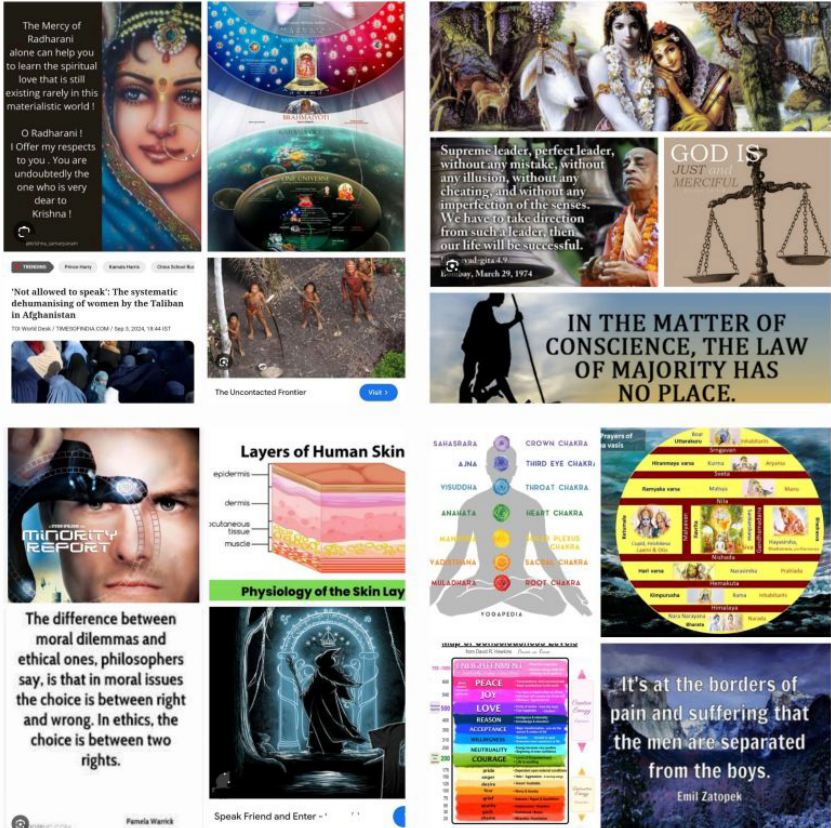

"We cannot control the force of our anger. Therefore, when we look at material things, we cannot avoid feeling attraction or repulsion for them. But the Supreme Lord is never affected in this way. Although He glances over the material world for the purpose of creating, maintaining and destroying it, He is not affected, even to the slightest degree.

Therefore, one who desires to conquer the force of the senses must take shelter of the lotus feet of the Lord. Then he will be victorious.

For persons with impure vision, the Supreme Lord's eyes appear like those of someone who indiscriminately drinks intoxicating beverages. Thus bewildered, such unintelligent persons become angry at the Supreme Lord, and due to their angry mood the Lord Himself appears angry and very fearful. However, this is an illusion. When the wives of the serpent demon were agitated by the touch of the Lord's lotus feet, due to shyness they could proceed no further in their worship of Him. Yet the Lord remained unagitated by their touch, for He is equipoised in all circumstances. Therefore who will not worship the Supreme Personality of Godhead?"- Srimad Bhagvatam 5.17.19-20

God consciousness is an important step to progression because variety is the nature of life. There are checks at borders and qualifications to enter. There are no back doors for illegal immigration. God/Krishna consciousness is the only way.

"The illusory energy of the Supreme Personality of Godhead binds all of us conditioned souls to this material world. Therefore, without being favored by Him, persons like us cannot understand how to get out of that illusory energy. Let me offer my respectful obeisances unto the Lord, who is the cause of creation and annihilation."- Srimad Bhagvatam 5.17.24

39. VISIBLE VS INVISIBLE BORDERS

Now that we understand why borders exist for various dimensions, let's understand how they are connected. Some evidence of the same are unbelievably historical.

"Śukadeva Gosvāmī said: My dear King, Lord Viṣṇu, the enjoyer of all sacrifices, appeared as Vāmanadeva in the sacrificial arena of Bali Mahārāja. Then He extended His left foot to the end of the universe and pierced a hole in its covering with the nail of His big toe. Through the hole, the pure water of the Causal Ocean entered this universe as the Ganges River. Having washed the lotus feet of the Lord, which are covered with reddish powder, the water of the Ganges acquired a very beautiful pink color. Every living being can immediately purify his mind of material contamination by touching the transcendental water of the Ganges, yet its waters remain ever pure. Because the Ganges directly touches the lotus feet of the Lord before descending within this universe, she is known as Viṣṇupadī. Later she received other names like Jāhnavī and Bhāgīrathī. After one thousand millenniums, the water of the Ganges descended to Dhruvaloka, the topmost planet in this universe. Therefore all learned sages and scholars proclaim Dhruvaloka to be Viṣṇupada ["situated on Lord Viṣṇu's lotus feet"].

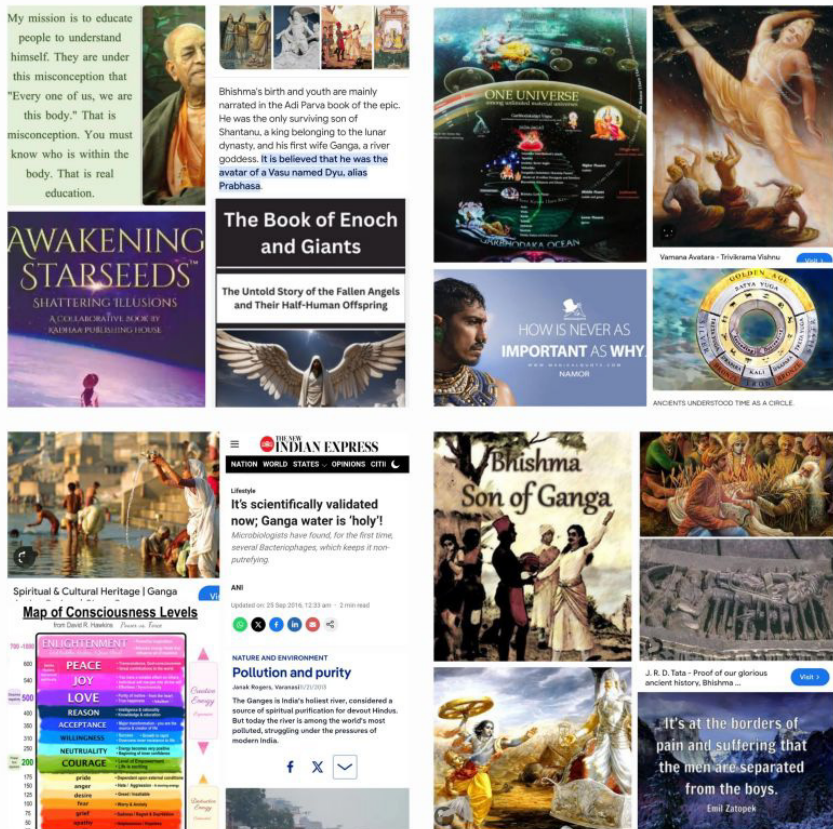

Dhruva Mahārāja, the famous son of Mahārāja Uttānapāda, is known as the most exalted devotee of the Supreme Lord because of his firm determination in executing devotional service. Knowing that the sacred Ganges water washes the lotus feet of Lord Viṣṇu, Dhruva Mahārāja, situated on his own planet, to this very day accepts that water on his head with great devotion. Because he constantly thinks of Kṛṣṇa very devoutly within the core of his heart, he is overcome with ecstatic anxiety.

Tears flow from his half-open eyes, and eruptions appear on his entire body.

The seven great sages [Marīci, Vasiṣṭha, Atri and so on] reside on planets beneath Dhruvaloka. Well aware of the influence of the water of the Ganges, to this day they keep Ganges water on the tufts of hair on their heads. They have concluded that this is the ultimate wealth, the perfection of all austerities, and the best means of prosecuting transcendental life. Having obtained uninterrupted devotional service to the Supreme Personality of Godhead, they neglect all other beneficial processes like religion, economic development, sense gratification and even merging into the Supreme. Just as jñānīs think that merging into the existence of the Lord is the highest truth, these seven exalted personalities accept devotional service as the perfection of life."- Srimad Bhagvatam 5.17.1-3

When the Purity of higher consciousness descends it is often gradually adulterated by forms of gross manifestations. Time and Space have a bearing on all creations. Therein exist challenges of reconciliation with divine as well as of visible devastation. The Soul is within the borders of the body but is not the gross body. The Spiritual source is always Sacred [#soulfamily](#).

40. MATERIAL VS SPIRITUAL CREATIONS

Continuing to connect the Material with Spiritual Planes of existence, We as intelligent Men and Women, understand our given natures in positive and Negative polarities and their purpose. So it should not be hard to understand that every being contributes both to their individual self and the nature around it. Their curiosity, intellect and abilities determining their role in the greater creation.

"Of letters I am the letter A, and among compounds I am the dual word. I am also inexhaustible time, and of creators I am Brahma, whose manifold faces turn everywhere."- Krishna (Bhagavad Gita 10.33)

Understanding Unity in diversity is to understand Mother Earth/Nature/Prakriti. We resonate with the highs and lows of frequencies of our particular environment. And there are many layers of it too. We have also discussed the many Multidimensional expressions of Prakriti for many operations, both gross and subtle.

"I am all-devouring death, and I am the generator of all things yet to be. Among women I am fame, fortune, speech, memory, intelligence, faithfulness and patience."- Krishna (Bhagavad Gita 10.34)

The Vedic cosmos understands the higher Multidimensional planes. Even though they are unseen does not mean they don't exist. Observing nature it can be concluded that since life can exist in the smallest of places it also can exist in the highest. Each creative being creates a new version to the best of their ability. Desire to add value is only natural.

There are no useless Spaces in womb of material nature. Every dimension is birthing something new. We understand what we perceive. But higher truths we struggle to conceive. Nothing happens by itself and all moving things are moving for a reason and all are connected. Each becoming portal to the creation forward by divine will.

"This material nature is working under My direction, O son of Kuntī, and it is producing all moving and unmoving beings. By its rule this manifestation is created and annihilated again and again."- Krishna (Bhagavad Gita 9.10)

God/Krishna is Atmaram or ever self satisfied and he has nothing to do. But he desires to experience something new eternally.

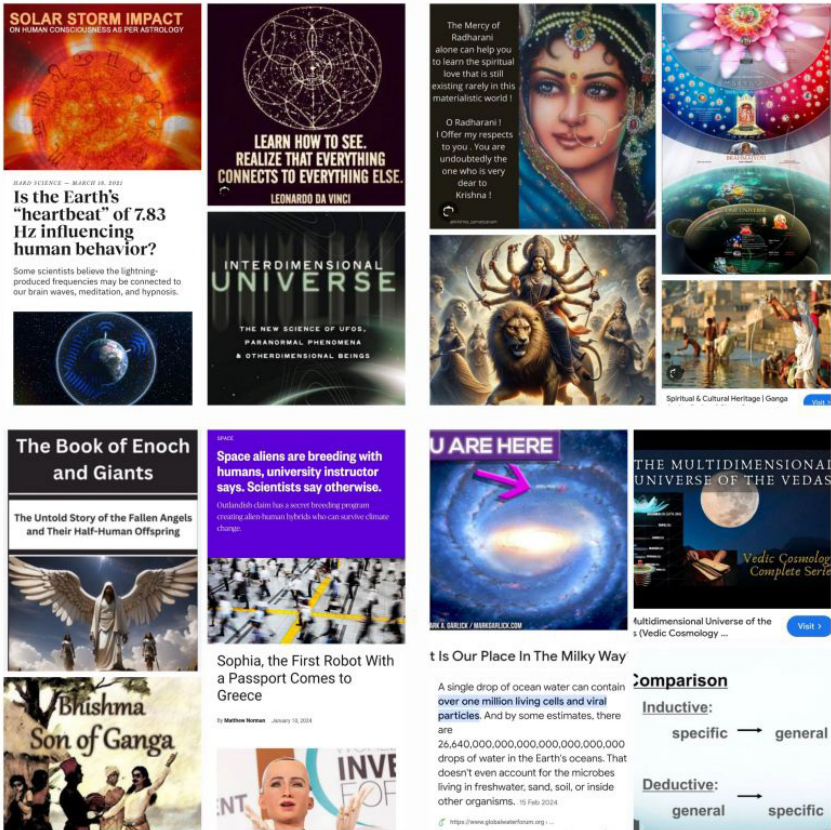

"The Supreme Lord has nothing to do, and no one is found to be equal to or greater than Him, for everything is done naturally and systematically by His multifarious energies."- Śvetāśvatara Upaniṣad 6.8)

It is Love that makes the world go round. His expansion of his loving potency Radha is the reason for all Spiritual creations. Bramha Vaivart Puran describes Radha Rani as the Moola (Original) Prakriti. Her desire to serve is the reason for multitude of Spiritual Universes that eventually expand into Material universes.

"She is the presiding Deity of Krishna's very life, and She is the first of all persons, the energy of Lord Vishnu, the embodiment of truthfulness, eternal and ever-youthful."- Radha Stuti by Rupa Goswami.

41. RICH VS POOR

If the Richest give away their wealth for the poor does that irradiate poverty? - True or False?

Ajamila was a devotee who fell from spiritual to sinful life. At crossroads of death he saw the residents of the highest and lowest realms. Both making their claims on him.

"The blessed messengers of Lord Viṣṇu said: If you are actually servants of Yamarāja, you must explain to us the meaning of religious principles and the symptoms of irreligion.

What is the process of punishing others? Who are the actual candidates for punishment? Are all karmīs engaged in fruitive activities punishable, or only some of them?

The Yamadūtas replied: That which is prescribed in the Vedas constitutes dharma, the religious principles, and the opposite of that is irreligion. The Vedas are directly the Supreme Personality of Godhead, Nārāyaṇa, and are self-born. This we have heard from Yamarāja..

In proportion to the extent of one's religious or irreligious actions in this life, one must enjoy or suffer the corresponding reactions of his karma in the next."- Srimad Bhagvatam 6.1.38-45

Some rely on material or spiritual handouts. Addicted to meat, wine, gambling and adultery they are hoping someone will bail them out in the end. What then of those who spent their lives on that path.

The difference between Materialists and Spiritualists is that one earns to collect and the other to distribute. Jealousy is not an issue. Compassion is the quality that makes the Spiritualists great and God the greatest [#soulfamily](#).

"Ajāmila has already atoned for all his sinful actions. Indeed, he has atoned not only for sins performed in one life but for those performed in millions of lives, for in a helpless condition he chanted the holy name of his son Nārāyaṇa. Even though he did not chant purely, he chanted without offense, and therefore he is now pure and eligible for liberation.

The Viṣṇudūtas continued: Even previously, while eating and at other times, this Ajāmila would call his son, saying, "My dear Nārāyaṇa, please come here." Although calling the name of his son, he nevertheless uttered the four syllables nā-rā-ya-ṇa. Simply by chanting the name of Nārāyaṇa in this way, he sufficiently atoned for the sinful reactions of millions of lives."- Srimad Bhagvatam 6.2.7-8

His slate wiped clean he received a second chance to earn his way up and he took it.

"Ajāmila fully engaged in devotional service. Thus he detached his mind from the process of sense gratification and became fully absorbed in thinking of the form of the Lord.

When his intelligence and mind were fixed upon the form of the Lord, the brāhmaṇa Ajāmila once again saw before him four celestial persons.."- Srimad Bhagvatam 6.2.42-43

Ajamila was advised by compassionate Devotees to name his son Narayana for his future benefit. Success was impossible otherwise. Without some surrender to God or Devotees spiritual grace can not flow down to help.

Sometimes people just need a hand to get up when they are down or lost.

42. TESTS VS CAREERS

As long as we believe that we are not in school we will have a dislike for Teachers, Tests and the learning journey that traverses through passes and fails.

Our attachments to circumstances, family, friends and countrymen will make us think we are home and the thought of leaving never occurs. But leaving happens as natural as the arriving. Everyone gets a chance for a stock take of their gains and losses of life's balance sheet. Some assets are less tangible than others, the material assets are tangible and spiritual not so much.

We like the assets and dislike liabilities and worst of all the Taxman and the Auditors. But that's a job that someone has to do too. Some feel the pain of parting with wealth a lot, sometimes more than pain from parting with people. No personal grudges are held if we agree that the system is just and fair as the Teachers at the School we learnt our lessons at.

The mature understand the broader ecosystem of society that needs to be maintained. They understand what is necessary for gradual progress of higher goals of individuals and the collective. Thus, they alignn their work for gradual progress without hating the processes of checks and balances that are used to maintain the school and system.

"Mahārāja Yudhiṣṭhira inquired from Nārada Muni: O my lord, O great sage, kindly explain how we who are staying at home without knowledge of the goal of life may also easily attain liberation, according to the instructions of the Vedas.

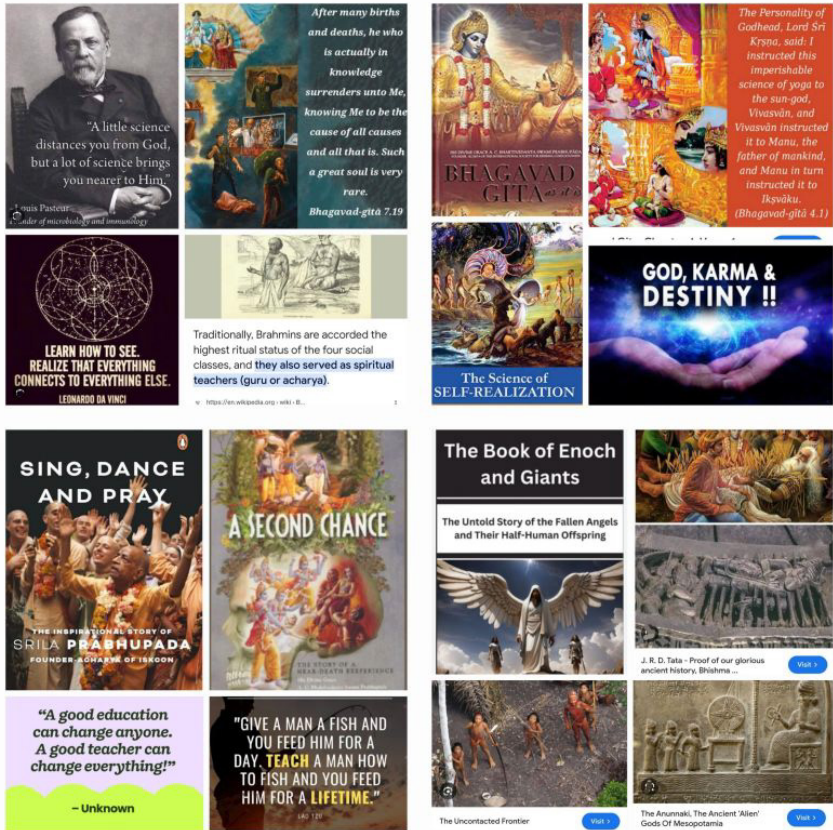

Nārada Muni replied: My dear King, those who stay at home as householders must act to earn their livelihood, and instead of trying to enjoy the results of their work themselves, they should offer these results to Kṛṣṇa, Vāsudeva. How to satisfy Vāsudeva in this life can be perfectly understood through the association of great devotees of the Lord...

While working to earn his livelihood as much as necessary to maintain body and soul together, one who is actually learned should live in human society unattached to family affairs, although externally appearing very much attached.

The natural products created by the Supreme Personality of Godhead should be utilized to maintain the bodies and souls of all living entities. The necessities of life are of three types: those produced from the sky, from the earth, and from the atmosphere.

One may claim proprietorship to as much wealth as required to maintain body and soul together, but one who desires proprietorship over more than that must be considered a thief, and he deserves to be punished by the laws of nature."-Srimad Bhagvatam 7.14.1-9

There are higher governments above the elected ones, that operates from position of love. They have duties to run the school of life and some subjects and teachers are harder than others. The love and care is distributed equally, some receive more than others based on their dedication. God and Guru are for the purpose of our graduation and ascension to higher career paths in devotional service [#soulfamily](#).

43. TEACHER VS STUDENT

Teachers and Gurus are important but when they deviate from the truth to form their own cults and religious beliefs they should be rejected.

On the occasion of Vaman Dwadashi, the story of King Bali and the appearance of incarnation of Lord Vamana is a reminder that the Supreme means one. Lord Vishnu in the form of Vamana (Dwarf) had come to ask in charity the three worlds in guise of three paces worth of land. Being thus informed the Demon King Bali did not deviate from the religious principles despite being advised by his Teacher to do otherwise. His Guru Shukacharya the preceptor of the Demons had all the good intentions for his disciple knowing well what may come to pass.

"Śukrācārya said: O son of Virocana, this brahmacārī in the form of a dwarf is directly the imperishable Supreme Personality of Godhead, Viṣṇu. Accepting Kaśyapa Muni as His father and Aditi as His mother, He has now appeared in order to fulfill the interests of the demigods.

You do not know what a dangerous position you have accepted by promising to give Him land. I do not think that this promise is good for you. It will bring great harm to the demons.

This person falsely appearing as a brahmacārī is actually the Supreme Personality of Godhead, Hari, who has come in this form to take away all your land, wealth, beauty, power, fame and education. After taking everything from you, He will deliver it to Indra, your enemy.

"- Srimad Bhagvatam 8.19.30-32

But his disciple although seeking material gains in the form of rulership of Heavens could not turn down opportunity for Spiritual gains through service to the Supreme Guru and Lord.

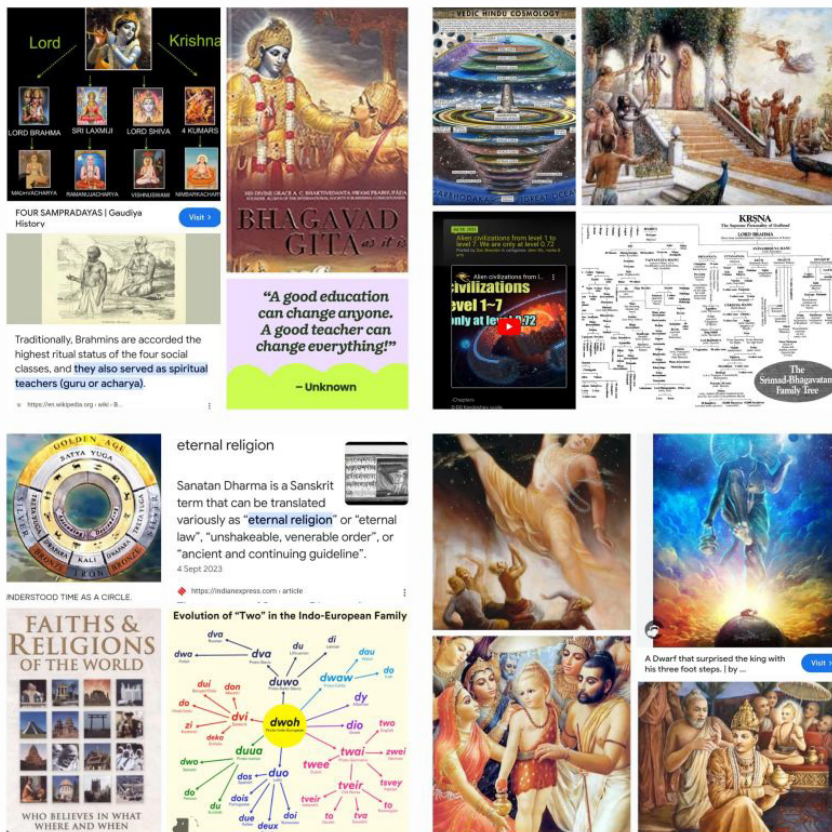

"By giving charity, a benevolent and merciful person undoubtedly becomes even more auspicious, especially when he gives charity to a person like your good self. Under the circumstances, I must give this little brahmacārī whatever charity He wants from me.

O great sage, great saintly persons like you, being completely aware of the Vedic principles for performing ritualistic ceremonies and yajñas, worship Lord Viṣṇu in all circumstances. Therefore, whether that same Lord Viṣṇu has come here to give me all benedictions or to punish me as an enemy, I must carry out His order and give Him the requested tract of land without hesitation."- King Bali, Srimad Bhagvatam 8.20.11

It is not surprising that Vaishnava Demons like Prahāda and Bali exist and are highly qualified in the essence of Dharma. Yet there are Teachers of religions who would not know right from wrong. Blind to faith are lost but those blind in faith are dangerous still. In Kali-yuga Demons are in the guise of humans and that is not a surprise to anyone.

Books are useless without Teachers but Teachers need to be qualified by Teachers too, hence a disciplic succession. The DNA of spiritual knowledge is thus safely preserved and passed on from generation to generation, untangled through austerities and realizations but pure and unedited for thousands of years [#soulfamily](#).

44. FREEDOM VS SLAVERY

Continuing.. Free speech is not free. It comes at a cost. So does the life we want to live and lifestyle we wish to have. There is a price that is paid at all times and in all circumstances.

Knowledge is power and the most powerful of all knowledge is the knowledge of God. Without it we are controlled by the misinterpreted religious or political beliefs. The propaganda of misinformation and disinformation in the media is not new, before there was news, internet and social media there were books and people who sold them.

As the modern education system crumbles before our eyes we can see how powerful books and teachers can be. Teachers can create or destroy based on their desires and goals. In the hands of a wrong Teacher/Leader the students/followers can be led to their doom.

"The sheep will spend its entire life fearing the wolf, only to be eaten by the shepherd" – African Proverb

Therefore, it is also the responsibility of the student to ask the questions in their quest for knowledge and Truth. One should have individual responsibility for their career paths and life choices. Freedom to not be able to question is Totalitarianism.

God is not easy to understand so one must have the right to question. The vedic literature is vast and inclusive and yet humble in its approach to understanding God.

"My obeisances are unto You, who are the property of the materially impoverished. You have nothing to do with the actions and reactions of the material modes of nature.

You are self-satisfied, and therefore You are the most gentle and are master of the monists.

My Lord, I consider Your Lordship to be eternal time, the supreme controller, without beginning and end, the all-pervasive one. In distributing Your mercy, You are equal to everyone. The dissensions between living beings are due to social intercourse.

O Lord, no one can understand Your transcendental pastimes, which appear to be human and so are misleading. You have no specific object of favor, nor do You have any object of envy. People only imagine that You are partial.

Of course it is bewildering, O soul of the universe, that You work, though You are inactive, and that You take birth, though You are the vital force and the unborn. You Yourself descend amongst animals, men, sages and aquatics. Verily, this is bewildering.

My dear Kṛṣṇa, Yaśodā took up a rope to bind You when You committed an offense, and Your perturbed eyes overflowed with tears, which washed the mascara from Your eyes. And You were afraid, though fear personified is afraid of You. This sight is bewildering to me."- Srimad Bhagvatam 1.8.27-31

When humility is replaced by arrogance, compliance becomes a tool. Diversity of colours is replaced by Black and White. The removal of freewill is impersonalism and against diversity. It cannot be God's way [#soulfamily](#).

"Thus I have explained to you knowledge still more confidential. Deliberate on this fully, and then do what you wish to do."- Krishna (Bhagavad Gita 18.63)

45. PRIMITIVE VS ADVANCED

Continuing..They feel joy finding broken pottery to validate civilizations when the story on rocks tells a different version of history. The thought that we have been taught wrong history or something is hidden must cross the minds of those who are curious because the future is certainly linked to the past.

"Watch your thoughts, they become your words; watch your words, they become your actions; watch your actions, they become your habits; watch your habits, they become your character; watch your character, it becomes your destiny."-Lao Tzu

Now imagine if powers that be wanted to control your destiny. All they have to do is work their way backwards. The strategy is subtle and scientific.

That is why teachers of Forbidden Archeology are termed conspiracy theorists for challenging the status quo. It takes intelligence, courage and hard work to swim against the tide and the processed candidates are worth their weight on gold. Gold is not to be wasted. The civilizations that can put nuclear warheads on the tip of an arrow and have intergalactic spaceships can certainly find ways to detect buried valuable resources. Wealth and knowledge in the hands of those who do not know how to use them can be very dangerous. There is a consciousness threshold to qualify for such power [#soulfamily](#). Have we not already seen effects of misguided missiles in history?

"Arjuna adjed: Lord of lords, how is it that this dangerous effulgence is spreading all around? Where does it come from? I do not understand it.

The Supreme Personality of Godhead said: Know from Me that this is the act of the son of Droṇa. He has thrown the hymns of nuclear energy [brahmāstra], and he does not know how to retract the glare. He has helplessly done this, being afraid of imminent death.

O Arjuna, only another brahmāstra can counteract this weapon. Since you are expert in the military science, subdue this weapon's glare with the power of your own weapon.

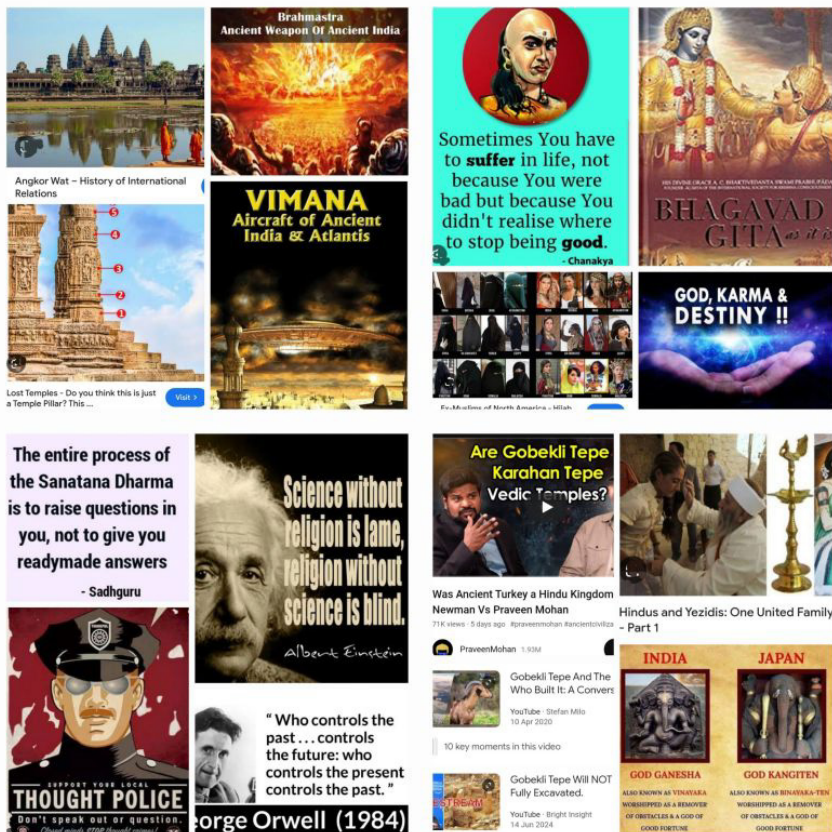

Śrī Sūta Gosvāmī said: Hearing this from the Personality of Godhead, Arjuna touched water for purification, and after circumambulating Lord Śrī Kṛṣṇa, he cast his brahmāstra weapon to counteract the other one.

When the rays of the two brahmāstras combined, a great circle of fire, like the disc of the sun, covered all outer space and the whole firmament of planets.

All the population of the three worlds was scorched by the combined heat of the weapons. Everyone was reminded of the sāmivartaka fire which takes place at the time of annihilation.

Thus seeing the disturbance of the general populace and the imminent destruction of the planets, Arjuna at once retracted both brahmāstra weapons, as Lord Śrī Kṛṣṇa desired."- Srimad Bhagvatam 1.7.26-32

The power of the subtle prayers from heart cannot be covered by veils of physical matter. Similarly, the truth cannot be hidden for long. It may be buried for a period of time but fighting its way through the darkness it reappears at the right moment to take its rightful place on the Top.

46. TARGETED STRATEGY

Talking about Advanced weaponry, Search and Destroy are a new thing from the past.

The divine weapons used in the Ramayana and Mahabharat could search and destroy a person or a city or a country. They did not require long planning and espionage and there was no collateral damage. The targeted technology was refined through Spiritual potency and was instructed through thoughts thus that there was no place to hide.

"As Durvāsā Muni said this, his face became red with anger. Uprooting a bunch of hair from his head, he created a demon resembling the blazing fire of devastation to punish Mahārāja Ambarīṣa.

Taking a trident in his hand and making the surface of the earth tremble with his footsteps, that blazing creature came before Mahārāja Ambarīṣa. But the King, upon seeing him, was not at all disturbed and did not move even slightly from his position.

As fire in the forest immediately burns to ashes an angry snake, so, by the previous order of the Supreme Personality of Godhead, His disc, the Sudarśana cakra, immediately burnt to ashes the created demon to protect the Lord's devotee.

Upon seeing that his own attempt had failed and that the Sudarśana cakra was moving toward him, Durvāsā Muni became very frightened and began to run in all directions to save his life.

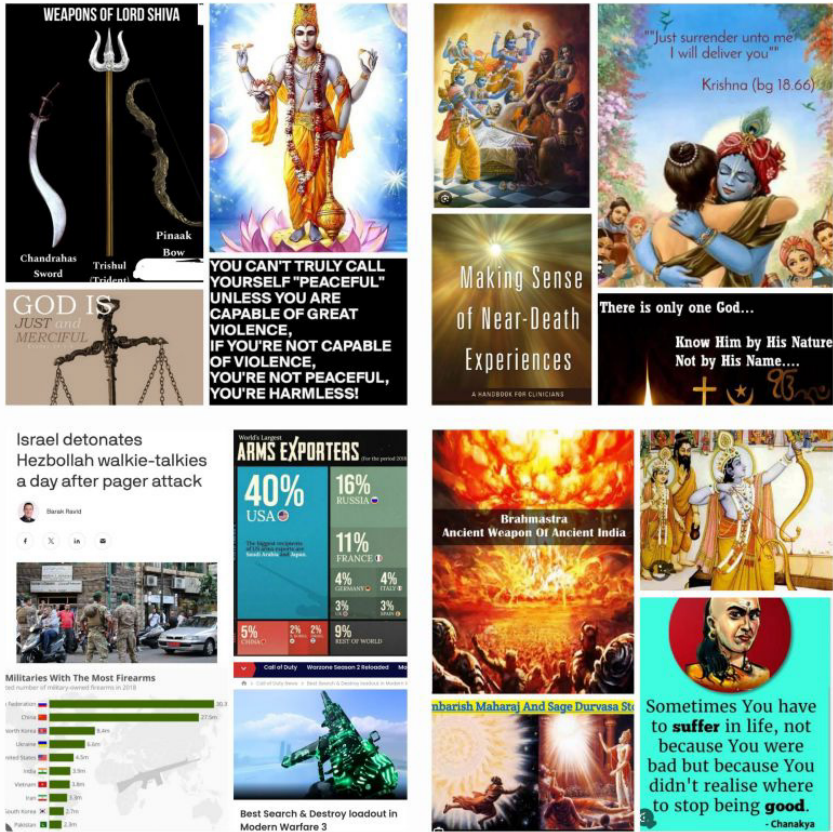

As the blazing flames of a forest fire pursue a snake, the disc of the Supreme Personality of Godhead began following Durvāsā Muni. Durvāsā Muni saw that the disc was almost touching his back, and thus he ran very swiftly, desiring to enter a cave of Sumeru Mountain.

Just to protect himself, Durvāsā Muni fled everywhere, in all directions — in the sky, on the surface of the earth, in caves, in the ocean, on different planets of the rulers of the three worlds, and even on the heavenly planets — but wherever he went he immediately saw following him the unbearable fire of the Sudarśana cakṛa."- Srimad Bhagavatam 9.4.47-51

There are provisions for returning of the divine weapons if required. The divine weapons were under total control at all times. And yet there is more, The Narayana Astra/Arrow of Lord Vishnu had one extra provision- provision of surrender. If the opponent decided to put down his weapons and offer respects to the divine arrow/missile it would accept surrender and return.

The celestial realms have advanced scientific detection systems too. They keep a complete tab of all our good and bad activities. The process of life reviews and reincarnations is a divine science of Astral realms in action, we just don't realise it. The spiritual war of the Demigods and Demons have a bearing on us directly. Which side are we are fighting for is determined by the actions we take. The most beneficial action in a Spiritual war is to fight for God [#soulfamily](#).

"Always think of Me, become My devotee, worship Me and offer your homage unto Me. Thus, you will come to Me without fail. I promise you this because you are My very dear friend."- Krishna (Bhagavad Gita 18.65)

47. FIGHTING FOR RIGHTEOUSNESS

Change cannot happen without a shift in existing paradigms. Teachers cannot teach if they cannot correct the students. Those not keen to be corrected cannot learn anything new. Knowledge is light and it allows us to see true nature of things in clarity. Yet, not all creatures look forward to a new dawn.

"Although the cow is beneficial because one can draw religious principles from her, she was now rendered poor and calfless. Her legs were being beaten by a śūdra. There were tears in her eyes, and she was distressed and weak. She was hankering after some grass in the field.

"Mahārāja Parīkṣit, well equipped with arrows and bow and seated on a gold-embossed chariot, spoke to him [the śūdra] with a deep voice sounding like thunder.

Oh, who are you? You appear to be strong and yet you dare kill, within my protection, those who are helpless! By your dress you pose yourself to be a godly man [king], but by your deeds you are opposing the principles of the twice-born kṣatriyas."- Srimad Bhagvatam 1.17.3-5

Creatures of the night are more comfortable in dark places. Where cruelty and deceit is a norm compassion becomes a challenge. Unaware of their own faults and offenses they become offended by change and become aggravated. Forgiveness cannot be endless and even the most patient have their limits.

The Heroic Pandavas were rulers of the world 5000 years ago. Insulted and disrobed they were cheated into poverty and exile.

On return from exile they requested the Kauravas for bare minimum of 5 villages to rule and even that was declined. When tolerance and diplomacy failed, a war became imminent for protection of the warrior Dharma. The scene was set for the battle of Mahabharat (Greater India) and Bhagavad Gita, the instructions on Dharma was spoken by Krishna himself.

"Considering your specific duty as a kṣatriya (Warrior), you should know that there is no better engagement for you than fighting on religious principles; and so there is no need for hesitation.

O Pārtha, happy are the kṣatriyas to whom such fighting opportunities come unsought, opening for them the doors of the heavenly planets.

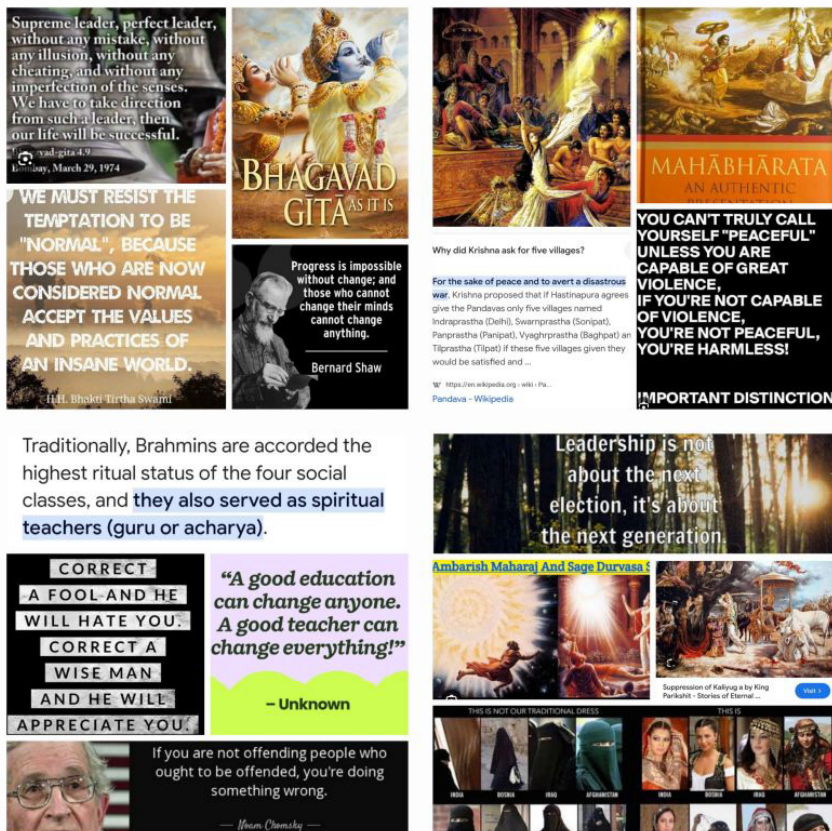

If, however, you do not perform your religious duty of fighting, then you will certainly incur sins for neglecting your duties and thus lose your reputation as a fighter.

People will always speak of your infamy, and for a respectable person, dishonor is worse than death."- Krishna (Bhagavad Gita 2.31-34)

When all avenues for peace failed War became a last resort to protect Dharma. Whether it is protect an innocent animal or the honour of an innocent person the righteous must rise to the call of duty [#soulfamily](#).

"Whenever and wherever there is a decline in religious practice, O descendant of Bharata, and a predominant rise of irreligion – at that time I descend Myself.

To deliver the pious and to annihilate the miscreants, as well as to reestablish the principles of religion, I Myself appear, millennium after millennium."- Krishna (Bhagavad Gita 4.7-8)

48. THE NECESSARY CHANGE

Continuing... Wars are a necessary evil for peace. Wars bring hard times, hard times makes strong men and strong men make good times of Peace. Long periods of peace and good times make weak men and weak men make hard times. War and Peace are the cycle of Time itself.

Hard and stressful times make people evaluate and evolve. They see what is most important and what is not. They learn to view life with clarity and live it in right perspective. All good valued are destroyed in presence of luxuries and good times. It is in hard times that we learn Courage, Compassion, Leadership and Humility.

“The Personality of Godhead said: If I especially favor someone, I gradually deprive him of his wealth. Then the relatives and friends of such a poverty-stricken man abandon him. In this way he suffers one distress after another.

When he becomes frustrated in his attempts to make money and instead befriends My devotees, I bestow My special mercy upon him.

A person who has thus become sober fully realizes the Absolute as the highest truth, the most subtle and perfect manifestation of spirit, the transcendental existence without end. In this way realizing that the Supreme Truth is the foundation of his own existence, he is freed from the cycle of material life.

Because I am difficult to worship, people generally avoid Me and instead worship other deities, who are quickly satisfied. When people receive kingly opulences from these deities, they become arrogant, intoxicated with pride and neglectful of their duties.

They dare to offend even the demigods who have bestowed benedictions upon them.-Srimad Bhagvatam 10.88.8-11

As long as we live in the material world that is temporary and bound by space and Time there will always be rulers and borders. The departments of Space and Time are eternal and see everyone in that spiritual light. The great personalities that are administrators view the world from that higher ground. Thus, all material associations and goals are temporary and short term in the short lives. The actual true goal is the Spiritual Ascension of consciousness through following instructions of the Supreme Personality [#soulfamily](#).

“This material nature, which is one of My energies, is working under My direction, O son of Kuntī, producing all moving and nonmoving beings. Under its rule this manifestation is created and annihilated again and again.

Fools deride Me when I descend in the human form. They do not know My transcendental nature as the Supreme Lord of all that be.

Those who are thus bewildered are attracted by demonic and atheistic views. In that deluded condition, their hopes for liberation, their fruitive activities, and their culture of knowledge are all defeated.

O son of Pṛthā, those who are not deluded, the great souls, are under the protection of the divine nature. They are fully engaged in devotional service because they know Me as the Supreme Personality of Godhead, original and inexhaustible.”- Krishna (Bhagavad Gita 9.10-13)

49. MANY AGENDAS

Everyone has an agenda, every war has an agenda. We often cling to the agenda that matches our conditioning that relates to the Body. Thus, race, religion and country decide which agenda we align with us, If someone looks or speaks like us are easiest to trust and follow.

In the world of propaganda and smoke and mirrors truth is hard to come by. We believe what we see and what we can't see we don't believe. Who then to trust and who not to amongst the power structures that be? There are many that walk amongst us who have agendas that do not match ours and thus war continues.

Confrontation can become a challenge when friends and enemies become hard to differentiate. There are too many dependencies. Invasion is a thing of ancient past, infiltration through wealth, power, knowledge is the way to take control because they are above all races and religion.

There are good and bad in every community of beings, and therefore we eventually rise above the body consciousness. Alignment is not by what we see rather it is by principles and values that we resonate with [#soulfamily](#). Peace comes from acceptance. The more diversity we accept the more peaceful we become.

"While contemplating the objects of the senses, a person develops attachment for them, and from such attachment lust develops, and from lust anger arises.

From anger, complete delusion arises, and from delusion bewilderment of memory. When memory is bewildered, intelligence is lost, and when intelligence is lost one falls down again into the material pool.

But a person free from all attachment and aversion and able to control his senses through regulative principles of freedom can obtain the complete mercy of the Lord.

For one thus satisfied, the threefold miseries of material existence exist no longer; in such satisfied consciousness, one's intelligence is soon well established.

One who is not connected with the Supreme [in Kṛṣṇa consciousness] can have neither transcendental intelligence nor a steady mind, without which there is no possibility of peace. And how can there be any happiness without peace?"- Krishna (Bhagavad Gita 2.62-66)

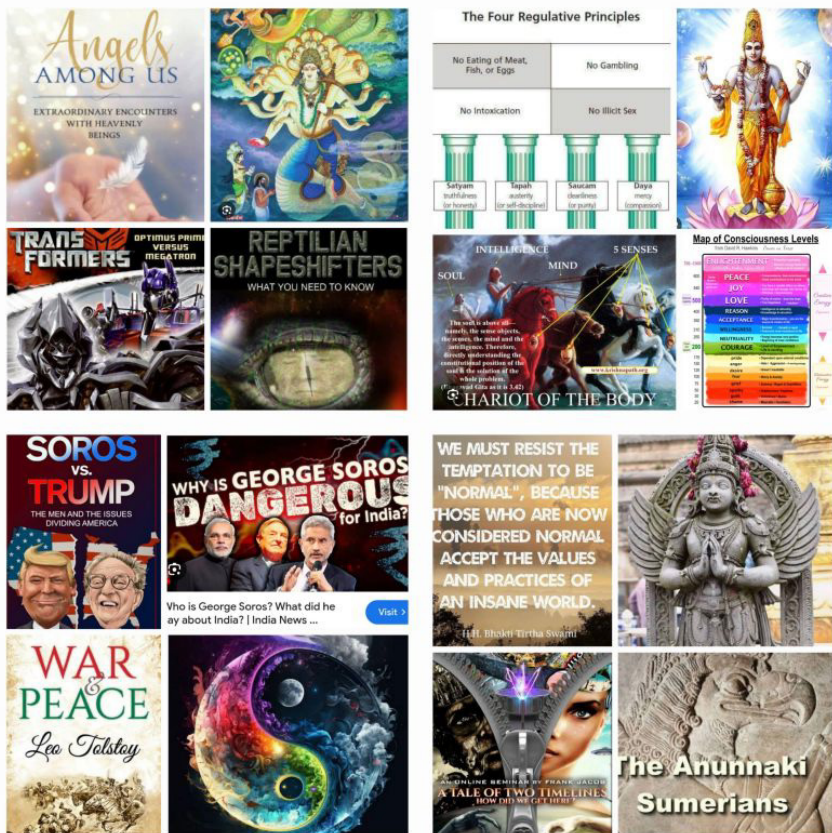

The true battle is thus understanding God. Those that align on principles should have no reason to war. Those who don't bring their interpretations and agendas on the battlefield.

"As a strong wind sweeps away a boat on the water, even one of the roaming senses on which the mind focuses can carry away a man's intelligence.

Therefore, O mighty-armed, one whose senses are restrained from their objects is certainly of steady intelligence.

What is night for all beings is the time of awakening for the self-controlled; and the time of awakening for all beings is night for the introspective sage.

A person who is not disturbed by the incessant flow of desires – that enter like rivers into the ocean, which is ever being filled but is always still – can alone achieve peace, and not the man who strives to satisfy such desires."- Krishna (Bhagavad Gita 2.26-70)

50. AUTHORITIES

Continuing the thread on Agendas, it is easy to understand that the will to drive certain agendas come with a sense of authority- True or misplaced. There are many jurisdictions that are recognized and many that are not.

It would be a shock if we understood that the people in authority are not the authority, for there are layers over layers in hierarchical institutions. It is an accepted condition that those in less important ranks not have working knowledge of those at the Top.

The loudest marketed voice is not always the authority neither are the faces we see nor institutions we accept terms with. We take too many instructions. The one we need to take is

'Athato brahma jijnasa'- the first aphorism of Vedanta Sutra- "Now is the time to discuss the Supreme Absolute Truth."

In spiritual context of we recognize that our karma and choices are the cause of our joys and miseries in life. So understanding our authority we should make the changes required.

At the highest level in material world there are two authorities- Time/Purusha/Male and Space/Nature/Prakriti/Female. The two create and destroy everything in cycles and are often expressed as Siva and Shakti doing the cosmic dance.

"My dear white-complexioned wife, it is clear that of the many daughters of Dakṣa you are the pet, yet you will not be honored at his house because of your being my wife. Rather, you will be sorry that you are connected with me.

One who is conducted by false ego and thus always distressed, both mentally and sensually, cannot tolerate the opulence of self-realized persons. Being unable to rise to the standard of self-realization, he envies such persons as much as demons envy the Supreme Personality of Godhead.

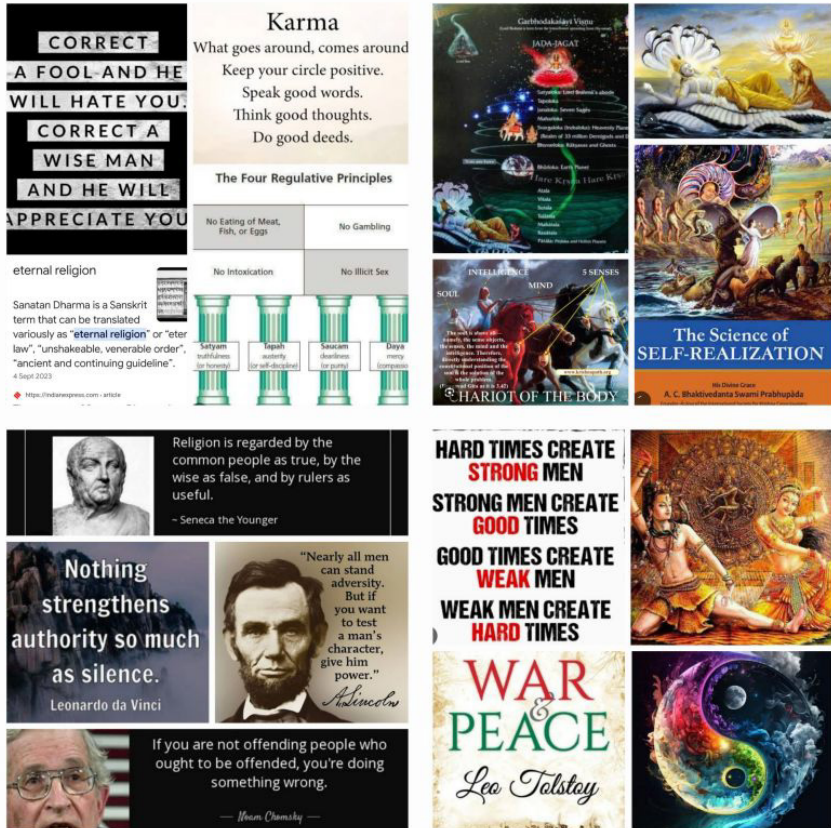

My dear young wife, certainly friends and relatives offer mutual greetings by standing up, welcoming one another and offering obeisances. But those who are elevated to the transcendental platform, being intelligent, offer such respects to the Supersoul, who is sitting within the body, not to the person who identifies with the body.

I am always engaged in offering obeisances to Lord Vāsudeva in pure Kṛṣṇa consciousness. Kṛṣṇa consciousness is always pure consciousness, in which the Supreme Personality of Godhead, known as Vāsudeva, is revealed without any covering."- Srimad Bhagavatam 4.3.20-23

Time is also represented as Ananta/Eternal Ouroboros snake of Time and destruction and Lakshmi is Goddess of all opulences enjoyed by the body. They both are in service of the Source of all that is Spiritual Vishnu/Krishna.

"I am the source of all spiritual and material worlds. Everything emanates from Me. The wise who perfectly know this engage in My devotional service and worship Me with all their hearts."- Krishna (Bhagavad Gita 10.8)

When we recognize the Supreme authority then all other authorities must become subservient to the source/God, and all other laws secondary. It is a conscious effort that wins Peace and Unity under the Eternal authority [#soulfamily](#).

51. DHARMA

Good people have good agendas, bad people have bad agendas. What do people with no agendas have?.. Impersonalism?

We speak of innocence of a child but children can be temperamental too. They are their raw nature and discernment is not a thing. That is what education is for.

The four kumaras through mystic powers kept themselves as innocent children. Free of Agenda and Full of love and impersonalism the tourists arrived at the gates of Vaikuntha or Spiritual Kingdom only to be stopped by the guards who were residents [#soulfamily](#). Taking offence at being stopped they cursed the attendants of Lord Vishnu.

"The sages said: Who are these two persons who have developed such a discordant mentality even though they are posted in the service of the Lord in the highest position and are expected to have developed the same qualities as the Lord? How are these two persons living in Vaikuṇṭha? Where is the possibility of an enemy's coming into this kingdom of God? The Supreme Personality of Godhead has no enemy. Who could be envious of Him? Probably these two persons are imposters; therefore they suspect others to be like themselves.

In the Vaikuṇṭha world there is complete harmony between the residents and the Supreme Personality of Godhead, just as there is complete harmony within space between the big and the small skies. Why then is there a seed of fear in this field of harmony? These two persons are dressed like inhabitants of Vaikuṇṭha, but wherefrom can their disharmony come into existence?

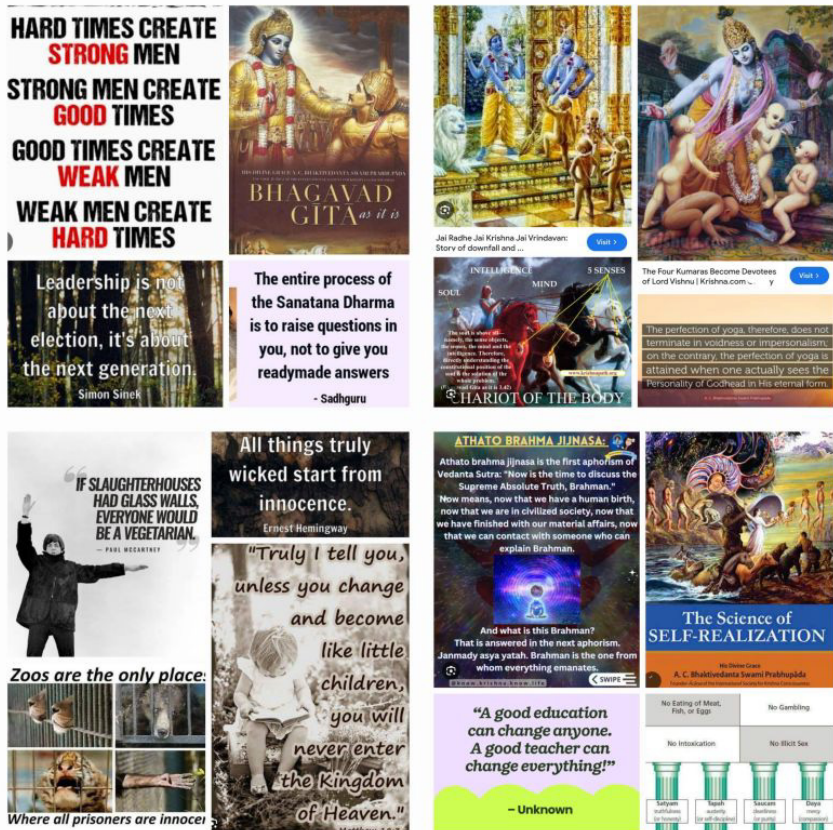

Therefore let us consider how these two contaminated persons should be punished. The punishment should be apt, for thus benefit can eventually be bestowed upon them. Since they find duality in the existence of Vaikuṇṭha life, they are contaminated and should be removed from this place to the material world, where the living entities have three kinds of enemies."- Srimad Bhagavatam 3.15.32-34

If Vaikuṇṭha is a state of mind of peace and equanimity towards all then the children sages were quick to lose temper against the guards who were posted in God's service. Could the lesson be for the four young sages?

"When the breeze carrying the aroma of tulasī leaves from the toes of the lotus feet of the Personality of Godhead entered the nostrils of those sages, they experienced a change both in body and in mind, even though they were attached to the impersonal Brahman understanding."- Srimad Bhagavatam 3.15.43

We are not innocent children we require discernment to grow and evolve. Everyone has their propensities that must be used in service of God. The eternal servants seek devotional service not merging into impersonalism. The highest education is aligning with the agenda of Supreme Personality of Godhead Krishna.

Eating, sleeping, fearing, and mating are the four principles of animal life. These are common both to animals and to human beings. But Dharma is the extra function of the human being. Without Dharma, human life is no better than animal life."- Mahabharat

52. ETERNAL SERVICE

Being enlightened and understanding the dualities of Good and Evil in material world can encourage people to see God's presence everywhere. It is Spiritual progress indeed and one becomes a Brahman. But God is very merciful and Personal, when you find him he find you.

"The Kumāras said: Our dear Lord, You are not manifested to rascals, even though You are seated within the heart of everyone. But as far as we are concerned, we see You face to face, although You are unlimited. The statements we have heard about You from our father, Brahmā, through the ears have now been actually realized by Your kind appearance.

We know that You are the Supreme Absolute Truth, the Personality of Godhead, who manifests His transcendental form in the uncontaminated mode of Pure goodness. This transcendental, eternal form of Your personality can be understood only by Your mercy, through unflinching devotional service, by great sages whose hearts have been purified in the devotional way."- Srimad Bhagvatam 3.15.46-47

The fall of Jai and Vijay from Vaikuntha is not an isolated story. Every Demigod and Demigodess in Vedic history has gone through humbling experiences. From all auspicious Siva to Lord of Dharma, everyone has a story of shattered pride. The authorities come with responsibilities and humility is paramount. There are no cushy roles of power under God. Everyone is serving someone even God. And he leads by example.

"The Personality of Godhead said: These attendants of Mine, Jaya and Vijaya by name, have committed a great offense against you because of ignoring Me.

O great sages, I approve of the punishment that you who are devoted to Me have meted out to them.

To Me, the brāhmaṇa is the highest and most beloved personality. The disrespect shown by My attendants has actually been displayed by Me because the doormen are My servitors. I take this to be an offense by Myself; therefore I seek your forgiveness for the incident that has arisen."- Srimad Bhagvatam 3.16.2-4

The standards are high in high places and falls are harder too. No devotee is forgotten, and no one is ignored.

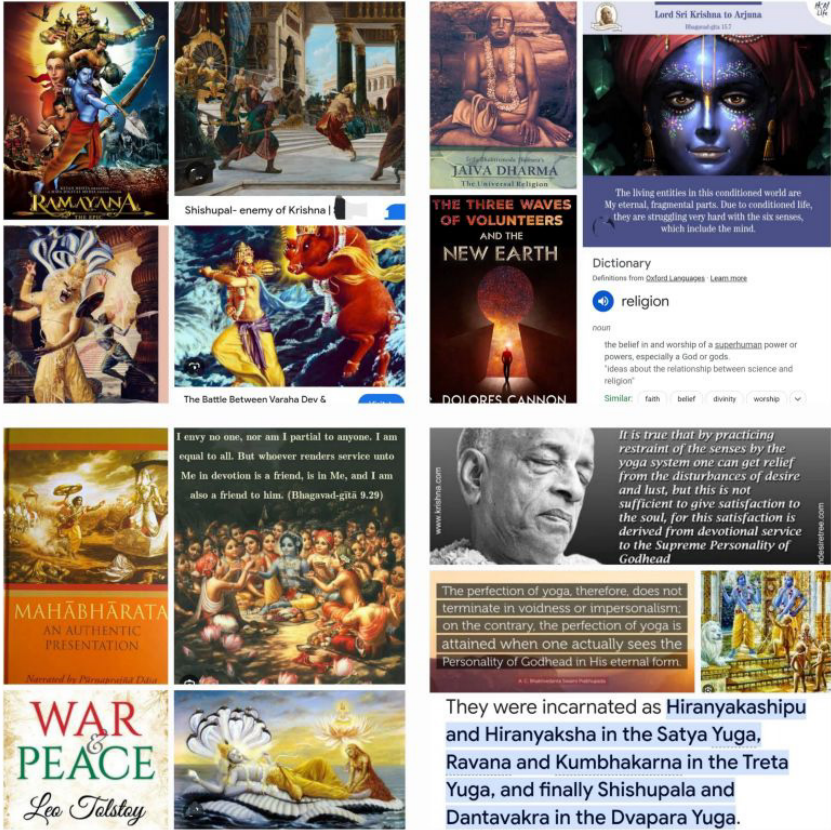

"Even if one commits the most abominable action, if he is engaged in devotional service he is to be considered saintly because he is properly situated in his determination.

He quickly becomes righteous and attains lasting peace. O son of Kuntī, declare it boldly that My devotee never perishes."- Krishna (Bhagavad Gita 9.30-31)

The Earth school is for lessons, rehabilitations and refinements in one form or another. Their humbling experiences of fall and rise was transformational.

"The Lord assured the two Vaikuṇṭha inhabitants, Jaya and Vijaya: By practicing the mystic yoga system in anger, you will be cleansed of the sin of disobeying the brāhmaṇas and within a very short time return to Me."- Srimad Bhagvatam 3.16.31

But surely not all who wander are lost. Sometimes peacekeeper devotees volunteer for unpleasant roles in unfavorable places in loving service of God [#soulfamily](#).

53. SANTANA DHARMA

So what did we learn from the story of Jai and Vijay? What is Dharma?

Sometimes devotional service comes in the way of Good and sometimes not so good. The material world appears to be a well-orchestrated movie, full of synchronicities that guide you to where you need to be, relishing all the highs and lows or emotional Rollercoaster on the joy ride of human, Demon or Demigod experience.

The opposite dualities are necessary energy for the flow of time and record experiences. As fire and water are opposite by nature but we use them to cook food preparations of various kinds, similarly, Krishna/God uses modes of nature to create the diverse highs and lows of material worlds.

Materialism is considered Maya/Illusion and equated with darkness that is temporary. Light has many colours but darkness does not have an existence, it is the absence of light that creates darkness. The daily cycles are an insight into the Universal phenomenon. As long as we continue to move with the Sun/God we stay in the light [#soulfamily](#).

Discernment is not about loving everyone. It is accepting the diversity of natures and choosing our path and playing our part. Elements have their base qualities, animals have instinctual knowing and Humans analyse nature of material and spiritual worlds for their evolution!

"The five great elements, false ego, intelligence, the unmanifested, the ten senses and the mind, the five sense objects, desire, hatred, happiness, distress, the aggregate, the life symptoms, and convictions – all these are considered, in summary, to be the field of activities and its interactions.

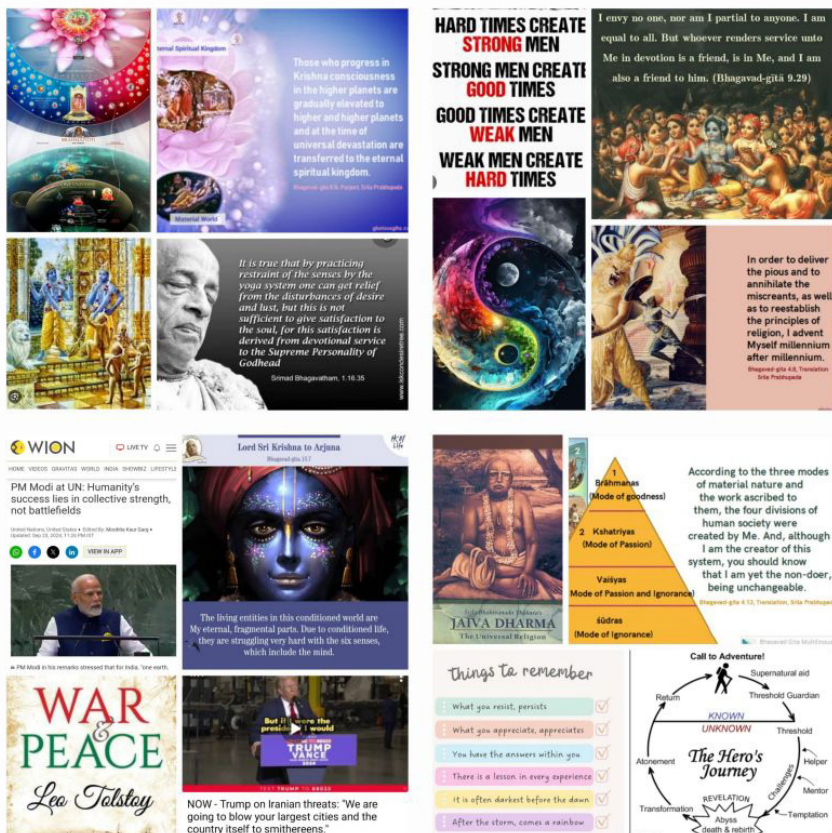

Humility; pridelessness; nonviolence; tolerance; simplicity; approaching a bona fide spiritual master; cleanliness; steadiness; self-control; renunciation of the objects of sense gratification; absence of false ego; the Perception of the Evil of Birth, Death, Old age and Disease; detachment; freedom from entanglement with children, wife, home and the rest; even-mindedness amid pleasant and unpleasant events; constant and unalloyed devotion to Me; aspiring to live in a solitary place; detachment from the general mass of people; accepting the importance of self-realization; and philosophical search for the Absolute Truth – all these I declare to be knowledge, and besides this whatever there may be is ignorance.

I shall now explain the knowable, knowing which you will taste the eternal. Brahman, the spirit, beginningless and subordinate to Me, lies beyond the cause and effect of this material world."- Krishna (Bhagavad Gita 13.6-12)

Good and Bad experiences should churn our thoughts and wake us to Spiritual reality. The Spiritual war is against ignorance of God and this Supreme Dharma is taught by The Supreme Hero.

The supreme occupation [dharma] for all humanity is that by which men can attain to loving devotional service unto the transcendent Lord. Such devotional service must be unmotivated and uninterrupted to completely satisfy the self."- Srimad Bhagvatam 1.2.6

54. SCIENCE OF SANATAN DHARMA

Continuing..what did we learn about the Science of Time and Space from the story of Jai and Vijay? If you were not paying attention you may have missed it.

"This departure from Vaikuṇṭha was foretold by Lakṣmī, the goddess of fortune. She was very angry because when she left My abode and then returned, you stopped her at the gate while I was sleeping.

The Lord assured the two Vaikuṇṭha inhabitants, Jaya and Vijaya: By practicing the mystic yoga system in anger, you will be cleansed of the sin of disobeying the brāhmaṇas and within a very short time return to Me."- Srimad Bhagvatam 3.16.30-31

The Earth is karma loka it is where we come to do the actions, the planning of it and all the unseen and unpredictable future happens elsewhere. The Earth future is already seen in the higher planetary systems and the seeds of future about to happen are sown in the past and the Yuga cycle moves as they should.

Each character plays their part guided by synchronicities of the unseen universe applying autocorrects for any possible deviations.

There is element of prarabdha or destined fruits of action or soul contracts. We thus run in creation cycles managed by higher powers or Demigods.

For the incarnated soul there is a degree of forgetting and memory wipes that occur when we are born but there are sciences that allow some to look past into past lives and possible future events. It has been done countless times overtly or covertly. Some predictions will not change.

The vision of what has to happen has been observed from a higher point of observation. Thus possibility of a timeline has already solidified. It has happened as observed by the observer effect. What remains are the sequence of events that connect the dotted milestones.

All prophecies are downloaded information in a state of higher consciousness from higher worlds and they become scriptures for the truth they tell before time. Miracles are under God.

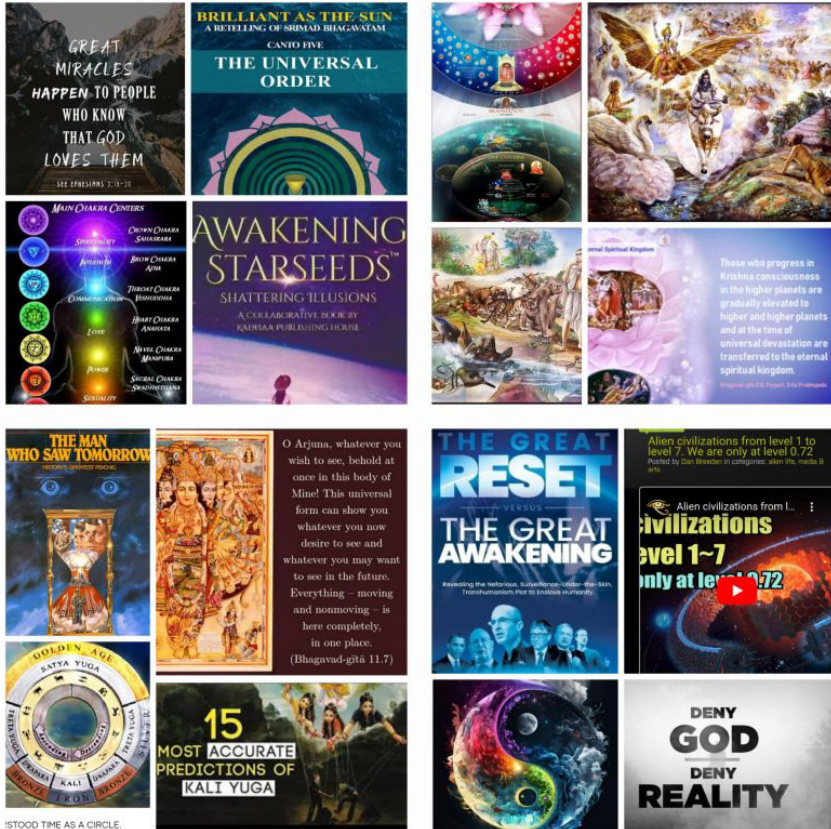

God always wins! The higher consciousness is Unity in God/Krishna consciousness. There is no other Eternal/Santan concept. Thus, there can only be two options: the Great Awakening to that realization or a Great Reset. There is no third. You have Free will to believe what you may, but Ignorance is tragedy and knowledge is Power [#soulfamily](#).

"You have a right to perform your prescribed duty, but you are not entitled to the fruits of action. Never consider yourself the cause of the results of your activities, and never be attached to not doing your duty.

Perform your duty equipoised, O Arjuna, abandoning all attachment to success or failure. Such equanimity is called yoga.

O Dhanañjaya, keep all abominable activities far distant by devotional service, and in that consciousness surrender unto the Lord. Those who want to enjoy the fruits of their work are misers.

A man engaged in devotional service rids himself of both good and bad reactions even in this life. Therefore, strive for yoga, which is the art of all work."- Krishna (Bhagavad Gita 2.47-50)

55. UNIVERSAL DHARMA

The story of Jai and Vijay being Starseeds from Vaikuntha is both a cosmic disclosure of life on Material and Spiritual Planets but also the understanding of God/Krishna.

"Learned transcendentalists who know the Absolute Truth call this nondual substance Brahman, Paramātmā or Bhagavān.

The seriously inquisitive student or sage, well equipped with knowledge and detachment, realizes that Absolute Truth by rendering devotional service in terms of what he has heard from the Vedānta-śruti." - Srimad Bhagvatam 1.2.11-12

Thus, the three levels of God realisation are included in the Vedic scriptures of Santan/Eternal Dharma. It is therefore all inclusive of Sound, Name, Form and Place for the Supreme Personality of Godhead, who has many forms. The epitome of God realisation is in personal form which allows for reciprocation of loving exchanges that is the Dharma of Soul #soulfamily.

"The condition of pure goodness [śuddha-sattva], in which the Supreme Personality of Godhead is revealed without any covering, is called vasudeva. In that pure state the Supreme Godhead, who is beyond the material senses and who is known as Vāsudeva, is perceived by my mind.

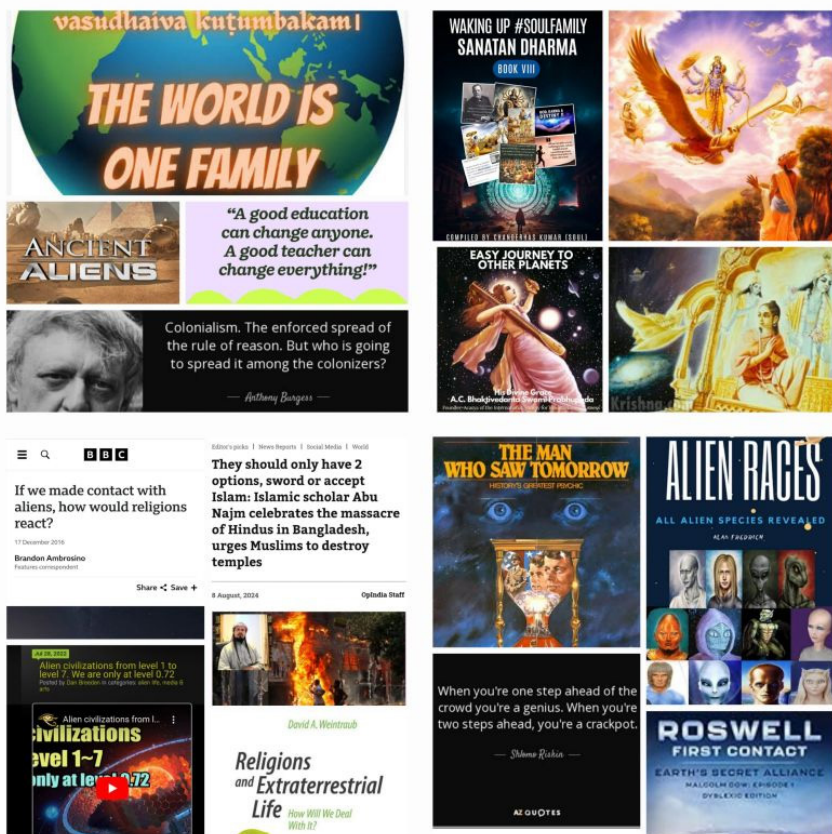

The essence of the samvit (Cid/Knowledge) potency is knowledge that the Supreme Personality of Godhead is Lord Kṛṣṇa. All other kinds of knowledge, such as the knowledge of Brahman, are its components.

The essence of the hlādinī (Love) potency is love of God, the essence of love of God is emotion [bhāva], and the ultimate development of emotion is mahābhāva."- Chaitanya Charitamrita Adli Lila 4.66-68

Modern religions pride themselves for peace and inclusiveness but all evidence shows markings and aspirations for political power through conquests and conversions on the strength of the sword. Such temporary goals and realisations lack Scientific and Spiritual maturity and thus have Beginning and End Times. As discussed, such Power plays are capped by the higher beings in administration of planetary consciousness. Religions lacking the abovementioned Eternal identification with the soul, Knowledge of the Absolute and Love to accept diversity are bound to a self destructive fate.

Modern science has not found any new habitable planets but there is much evidence that those on other planets have found us; then who is in a superior position? What would the circumstances be if those in higher position of power decided to impose their beliefs on us? What type of religions beliefs and principles would you hope they held?

"A candidate for spiritual advancement must be nonviolent, must follow in the footsteps of great ācāryas, must always remember the nectar of the pastimes of the Supreme Personality of Godhead, must follow the regulative principles without material desire and, while following the regulative principles, should not blaspheme others. A devotee should lead a very simple life and not be disturbed by the duality of opposing elements. He should learn to tolerate them."- Srimad Bhagvatam 4.22.24
